Attorneys for Appellants

As the Kofi Annan Foundation has stated, "for elections to have integrity, they must be conducted competently in a professional, non-partisan, and transparent manner, and just as importantly, voters must have confidence in their conduct."<sup>1</sup> Petitioners seek narrow but important relief to ensure integrity: the ability to *meaningfully* observe the processing of mail ballots to ensure that those ballots are authenticated in the manner required by Nevada law—by humans, rather than artificial intelligence. Currently, Respondent Joseph Gloria, the Clark County Registrar, is prohibiting observers from witnessing the duplication of mail ballots, a phase of processing particularly susceptible to fraud through ballot manipulation, and unlawfully using a machine to verify signatures, even though Nevada law requires that verification be accomplished by a human. The vote-by-mail system currently being used in Clark County creates a process ripe for error or abuse thereby diluting the votes of Nevadans outside Clark County.

Because of the time critical nature of this appeal, Petitioners<sup>2</sup> move this Court on an expedited basis, pursuant to Nevada Rules of Appellate Procedure 2 and 8(a),

<sup>1</sup> Global Commission on Elections, Democracy and Security, *Deepening Democracy: A Strategy for Improving the Integrity of Elections Worldwide*, 2012 at 6.

<sup>2</sup> Appellants, Fred Kraus, Donald J. Trump for President, Inc., and the Nevada Republican Party, are the Petitioners below and are referred to herein as "Petitioners" or "Appellants."

to promptly prohibit the Registrar, while this appeal is pending, from (1) duplicating any further mail ballots unless observers can meaningfully observe the process and (2) authenticating ballots using artificial intelligence, and (3) to expedite this appeal.

## **I. FACTUAL BACKGROUND**

Nevada law requires the Registrar to submit a plan *for approval* by April 15, 2020, to accommodate “members of the general public who observe the delivery, counting, handling and processing of ballots at a polling place, receiving center or central counting place.”<sup>3</sup> The Registrar failed to do so until October 20, 2020, after complaints had been submitted to the Secretary of State.<sup>4</sup> Although the Secretary of State reviewed the plan and made suggestions,<sup>5</sup> she never approved it. Accordingly, the Registrar is currently operating under an unlawful observation plan.

In addition to being unlawful, the observation plan fails to ensure transparency and integrity as it does not allow the public to see election officials during key points of mail ballot processing. For instance, a mail ballot arrives at the Clark County Division of Elections in an envelope sealed and signed by the voter. It is then

<sup>3</sup> NRS 293B.354(1).

<sup>4</sup> See **Exhibit 1**, which is Exhibit 9 from the Evidentiary Hearing containing all of the plans submitted to the Secretary of State and evidencing the fact that Clark County did not submit its plan until October 20, 2020.

<sup>5</sup> See **Exhibit 2**, which is Exhibit 8 from the Evidentiary Hearing indicating the Secretary of State’s suggested plan revisions.

scanned several times by an Agilis machine that attempts to use artificial intelligence to match the signature on the envelope with that of the voter from other sources, such as the Department of Motor Vehicles (DMV). Although the Agilis machine requires signatures scanned at a minimum resolution of 200 D.P.I., the Registrar is ignoring that minimum as DMV signatures are scanned at less than 200 D.P.I. Upon alleged authentication of the signature, the ballot is transported to another Clark County facility, known as Greystone, where it is removed from its envelope by election officials.

Once the envelope is opened, the ballot is separated from the envelope and inspected to determine if any deficiencies would obstruct it from being fed through a tabulation machine. If any deficiencies exist, the ballot is hand duplicated by being placed in a green envelope for a “runner” to take into a small room known as the “MB Vault” and match with a blank ballot from the voter’s precinct. The runner often goes into the room alone, sometimes even with a writing instrument, and closes the door. The runner then leaves the MB Vault with the voter’s ballot and a blank ballot and takes them to duplicators who allegedly duplicate the voter’s choices on the clean ballot, so it can be fed through a tabulation machine. This provides an opportunity for a careless or unscrupulous official to mark choices for any unfilled elections or questions on the ballot, potentially substantially affecting down ballot

racers where there are often significant undervotes. Indeed, one observer has already witnessed a runner writing on or near a ballot.

## **II. PROCEDURAL BACKGROUND**

Petitioners filed an Emergency Petition and Application for Temporary Restraining Order on October 23, 2020. The First Judicial District Court denied the Application for Temporary Retaining Order and set a hearing on the Emergency Petition for October 28, 2020. After a one-day hearing, the district court denied the Emergency Petition on October 29, 2020.<sup>6</sup>

## **III. LEGAL ARGUMENT**

This Court determines whether to issue a stay pending disposition of an appeal, by considering the following factors: “(1) whether the object of the appeal will be defeated if the stay is denied, (2) whether appellant will suffer irreparable or serious injury if the stay is denied, (3) whether respondent will suffer irreparable or serious injury if the stay is granted, and (4) whether appellant is likely to prevail on the merits in the appeal.”<sup>7</sup> In exigent circumstances, the appellant need not first seek a stay from the district court.<sup>8</sup>

---

<sup>6</sup> While the file stamp date on the Order is October 29, 2020 – it was not filed by the court until 5:44 pm that day. Consequently, it was not provided to the parties until the next judicial day – November 2, 2020 due to the Nevada Day holiday weekend.

<sup>7</sup> *Mikohn Gaming Corp. v. McCrea*, 120 Nev. 248, 251, 89 P.3d 36, 38 (2004).

<sup>8</sup> *See* Nev. R. App. P. 8(a).

The Nevada Supreme Court, through Appellate Rule 2, may, “[o]n its own or a party’s motion, . . . expedite its decision or for other good cause – suspend any provision of these Rules in a particular case and order proceedings as it directs, except as otherwise provided in Rule 26(b).” The Supreme Court has granted such relief and expedited the matter in many cases for good cause.<sup>9</sup> Good cause exists here because the injury to Clark County voters is completely irreparable as there is no way to remedy deprivation of the right to observe after the election and no way to match mail-in ballots if they are not preserved.

**A. APPELLANTS ARE LIKELY TO SUCCEED ON THE MERITS**

**1. Election observers must be allowed to meaningfully observe**

NRS 293B mandates that the public be given an opportunity to meaningfully observe “the *delivery, counting, handling and processing* of ballots at a *polling place, receiving center or central counting place*,” so long as they “do not interfere” with the delivery, counting, and handling of ballots.<sup>10</sup> The statute establishes a presumption of public access with a narrow exception to avoid public interference.

Furthermore, this observation must be meaningful. Both the plain and legal meaning of the term “observe” confirm this. Merriam Webster’s Dictionary defines

---

<sup>9</sup> See e.g. *Bd. Of County Comm’rs v. Las Vegas Disc. Golf & Tennis, Inc.*, 110 Nev. 567, 568-69 (1994).

<sup>10</sup> See NRS 293B.330, .335, .353, and 354.

“observe” in relevant part as “*to watch carefully* especially with attention to details or behavior for the purpose of arriving at a judgment.”<sup>11</sup> This common definition is consistent with the legal definition in Black's Law Dictionary: “To watch carefully.”<sup>12</sup> “Observation” thus necessarily requires public on-lookers to be afforded *meaningful* review; to “watch carefully” and “with attention to details.”

The registrar, however, fails to meet this standard. Instead, he restricts public observers to areas where they cannot fully observe and restricts them from areas where ballots are handled or reviewed and issues are resolved.<sup>13</sup> Indeed, observers explained at the district court hearing that they cannot see many of the election officials as they duplicate ballots. All these processes are necessary to the “counting, handling and processing of ballots” and thus must be open to meaningful observation. To the extent that the Registrar claims that public health concerns arising from the COVID-19 pandemic must be considered, they must be harmonized with the observation requirements rather than displace them.

---

<sup>11</sup>Merriam Webster's Online Dictionary, <https://www.merriam-webster.com/dictionary/observe> (emphasis added). This definition is also consistent with the Election Observation Handbook (6th Ed.), published by the OSCE Office for Democratic Institutions and Human Rights.

<sup>12</sup> See, e.g., OBSERVE, Black's Law Dictionary (11th ed. 2019).

<sup>13</sup> See **Exhibit 3** - Diagram of Greystone, which is Exhibit 5 from the Evidentiary Hearing.

**2. The use of the Agilis machine to authenticate signatures violates AB 4**

The Registrar is using a defective signature matching computer system which violates the express requirements of AB 4.<sup>14</sup> Section 23 of AB 4 states that, with respect to each mail ballot received, “the clerk or an employee in the office of the clerk shall check the signature used for the mail ballot.” Although Section 22 generally permits “mail ballots to be processed and counted by electronic means,” any such electronic processing may not “conflict with the provisions of sections 2 to 27, inclusive, of this act.” Nothing in AB 4 permits the use of a machine to check mail ballot signatures in lieu of the statutory requirement that this critically important task be conducted by “the clerk or an employee in the office of the clerk.” Indeed, the Legislature’s specific use of the words “or an employee in the office of the clerk” reinforces its statutory mandate that all signature verification must be conducted by a human being.<sup>15</sup>

---

<sup>14</sup> This machine is only being used in Clark County and a similar device is not being used in any other county in this state which appears inconsistent with the Nevada Voters Bill of Rights which assure uniformity in the counting of votes. See NRS 293.2546(10).

<sup>15</sup> Election officials lack authority to undertake any action contrary to governing statute or regulation. *Kelly v. Murphy*, 79 Nev. 1 (1963). Any such unauthorized conduct is a “futile act,” a term of art that means it is thus void as a matter of law. *Id.* at 4. Thus, as AB 4 expressly requires that mail ballot signatures be checked by “the clerk or an employee of the clerk,” Registrar’s use of the Agilis Ballot Packing Sorting System (“Agilis System”) to check mail ballot signatures has been futile.

Nevertheless, the Registrar has been using the Agilis machine to match signatures even though he acknowledges that the machine is only accurate with signatures over 200 D.P.I. and he is instead matching with DMV signatures, *none* of which are submitted above 200 dpi. Vote-by-mail voters in Clark County thus have an advantage over voters anywhere else in the state because many thousands of vote-by-mail ballots are never reviewed by a human being. The Clark County vote-by-mail process is subject to intolerable error and misconduct that will inevitably dilute lawful votes and disenfranchise Nevadans.

**B. APPELLANTS BUT NOT RESPONDENTS WILL SUFFER IRREPARABLE HARM WITHOUT IMMEDIATE RELIEF**

This appeal concerns the processing of an ongoing election. Most ballots will be processed in the coming days. Once a ballot is separated from its envelope, it can no longer be independently identified. Consequently, any ballots that have been incorrectly authenticated or modified in the duplication process will be unidentifiable and incurable, even during a recount. If immediate action is not taken, Appellants will never have the opportunity to vindicate their rights. More troubling, Nevadans – and the rest of the Country – will be left wondering whether the results of the election are legitimate.

Respondents, however, will suffer no harm from a brief stay as it is their existing duty under law to allow for observation and properly count ballots.

**C. THE APPEAL'S OBJECT WILL BE DEFEATED IF STAY IS DENIED**

For the same reason that Appellants will suffer irreparable harm without a stay, the object of the appeal will be mooted without immediate relief.

**IV. CONCLUSION**

For the forgoing reasons, Appellants respectfully request that this Court issue a stay and expedite its review of this appeal.

Dated this 3rd day of November, 2020.

RE: Accommodation of Members of the General Public at Polling Places, Mail Ballot Processing, and at the Central Counting Place

Dear Secretary Cegavske:

In accordance with NRS 293B.354, I am forwarding to you the following guidelines which are provided to our polling place team leaders and our election staff to ensure we accommodate members of the general public who wish to observe activities within a polling place and/or at the central counting facilities.

## **Polling Places (Early Voting and Election Day)**

Designated public viewing areas are established in each polling place, both early voting and Election Day vote centers, where individuals may quietly sit or stand and observe the activities within the polling place.

### **Observation guidelines:**

- Observers may not wear or display political campaign items
- Observers may not photograph, or record by any other means, any activity at any early voting or Election Day polling place
- Use of cell phones is prohibited in the polling place
- Observers may not disrupt the voting process
- If observers have questions, they must direct them to the polling place team leader

### **Mail Ballot Processing (Warehouse & Flamingo-Greystone Facility)**

The general public is allowed, according to the NRS, to observe the counting of mail ballots. In addition, as a courtesy, members of the general public are also being allowed to observe our mail ballot processing procedures, which occur prior to tabulation.

Due to space limitations we are processing our mail ballots in two different facilities:

- 965 Trade Dr., North Las Vegas, NV 89030
  - AGILIS mail ballot processing
  - Signature audit team
  - Tabulation
    - Ballot duplication
- 2030 E. Flamingo Road, Las Vegas, NV 89119
  - Counting Board
    - Ballot duplication

#### **Observation guidelines:**

- Observers may not wear or display political campaign items
- Observers may not photograph, or record by any other means, any activity at any early voting or Election Day polling place
- Use of cell phones is prohibited in the polling place
- Observers may not disrupt the voting process
- If observers have questions, they must direct them to the polling place team leader

### **Election Night (Warehouse Tabulating)**

In front of our tabulation area an area is provided for any observer who wishes to observe our counting activity. Reports are provided after each update to the general public and are also available on our website for review. The general public may access the website through our free county wi-fi access on their personal devices should they choose to do so.

The public viewing area allows the general public to view the tabulation room, where the processing of election night results may be observed through windows that provide full view of all counting activity. Observers are not allowed inside the room because of congestion and COVID restrictions.

The Registrar is available to answer questions, although it should be noted that very few

Secretary of State Barbara K. Cegavske

individuals from the public have been at the Election Center Warehouse on election night since 2000. This will probably be different this year due to increased interest in observing our activities.

In accordance with NRS 293B.354, at link provided here is a link to the vote center polling places that will be used in the General Election on November 3, 2020 in Clark County. <https://cms8.revize.com/revize/clarknv/Election%20Department/VC-Web-20G.pdf?t=1602940110601&t=1602940110601>. # OFFICE OF CLERK AND TREASURER

Secretary of State  
101 N. Carson Street  
Suite 3  
Carson City, NV 89509

Dear Secretary of State,

In compliance with NRS293B.354, the following is an outline of how we accommodate the general public who wish to observe the delivery, counting, handling and processing of ballots at polling place, and at the central counting place for the tally of the ballots.

1. Each polling location (both are handicap accessible) have polls workers that are trained to work the election, accommodate those with disabilities and questions/situations that might arise when a voter is at the Polling location to cast their vote.
2. Each Polling location has an assigned Deputy Election official from the clerk's office to supervise the Poll workers as they set-up and Open the Polls, Implement voting procedures, and the closing of the Polls.
3. During the election at a polling location Deputy Election Officials are in charge of the conduct of the Poll watchers and designate the area where they are allowed to observe the election.
4. Each Deputy Election will verify the worksheets and removal of the tally cartridge from the Edge machines. They will also witness/verify that the cartridges are placed in a clear pouch and sealed. The pouch is then handed to an Esmeralda County Sheriff's Deputy to be transported to the Esmeralda County Courthouse in Goldfield. ( Their transporting of the cartridges is also documented on the Sheriff's Radio log)
5. When the cartridges arrive at the Courthouse they are received by the County Clerk and Counting Board, all documentation is reviewed and checked. The general public is invited to watch, all this is done in the District Courtroom where there is adequate space for spectators and a clear division of where they can sit and watch the proceedings without impeding the process of the tally.
6. Mail-in Precincts ballots are counted, verified and tabulated on the insight machines, any duplication of a ballot is verified by the counting board as true and correct.
7. Any absentee ballots are also counted, verified and tabulated on the insight machine; any duplication of a ballot is verified by the counting board as true and correct.
8. Counting Board verifies that all cartridges are accounted for and have been tabulated, as well as the insight packs for the mail-in and absentee ballots.

9. Each time a precinct is tabulated, the results are revealed to the public on a bulletin board style spreadsheet that has each race for each precinct. Reports of the Tally are kept in chronological order for future reference.
10. Each Party and Candidate is invited to watch the tally procedures, they are also informed of where they can sit in the courtroom, and that any actions from them that impede the process of tally will be swiftly care of.

If you have any further questions regarding this matter please call the above telephone number or e-mail me at [celgan@citlink.net](mailto:celgan@citlink.net)

### **2020 Plan for Public Accommodation to View Ballot Delivery, Receiving and Counting (NRS 293B.354)**

Washoe County's central receiving and counting center is located at: 1001 E Ninth St, Bldg A, Rm 135, Reno, NV 89512.

Washoe County has an area established for the members of the public who wish to view the receiving of the ballot cartridges at our central receiving and counting center. We have tables and chairs set aside for anyone who wishes to observe. We use stanchions to allow observation but to keep the observers in a designated area. This same area can be used for observation of absent ballot counting. Our Image Cast Central equipment and servers are inside a locked cage. We open the "side" gate to allow for better viewing for observers.

Our main office lobby is designed to allow meaningful observation of ballot counting (results USB flash drive uploading) by opening the doors at the front of the counting room. There is a low counter outside the counting room between the room and the lobby which allows people to see and hear what is happening during tally without providing physical access to the area. Chairs are available as needed.

We always allow access not only to observers or members of the general public, but also to media, on election night.

Observers at the polls are required to sign that they acknowledge the set of standards prepared by the Secretary of State's Office. A small stanchioned area (2-4 chairs) is set up at each polling place in Washoe County. Our observers are required to stay within that area at all times but are permitted to ask procedural questions based on the flow of traffic and as long as it does not interfere with the processing of voters. They are not permitted to dispute any decisions made by the poll workers, especially those regarding specific voters.

**Re: Revision of Observation Plan**

Mr. Gloria,

Over the last few days, a potential opportunity for improvement to your elections process observation plan have come to light that the Secretary of State believes to be worth considering. We have received Clark County's plan for accommodating election observers. In addition to the items detailed in your plan, we would request that you consider implementing the following:

Provide additional seating in the public viewing area for observing the signature verification process to the extent feasible while ensuring that no Personally Identifiable Information (PII) is observable to the public. This increase in seating should ensure meaningful observation.

If you have any questions regarding this letter and my determination in this matter, please contact me at (775) 684-5709.
