Re: Use of Sharpie Brand Markers at Maricopa County Voting Centers

Dear Mr. Janoff:

The Attorney General's Office ("the Office") is responsible for enforcing provisions of Title 16 of the Arizona Revised Statutes and the 2019 Elections Procedures Manual ("Manual"). *See* A.R.S. §§ 16-452(C); 16-1031. In connection with that statutory authority, the Office accepts electronic election-related complaints from voters, as well as complaints mailed to the Office. We have received hundreds of voter complaints regarding the use of Sharpie brand markers ("Sharpies") to fill out ballots on Election Day at voting centers in Maricopa County. Voters are concerned that the use of Sharpies may have caused ballots to be rejected, spoiled, or cancelled. To investigate these complaints, the Office requests the following information in writing by noon on November 5, 2020. If you are unable to provide specific answers to the below questions by that deadline, we request a narrative explanation of what steps you are taking to obtain answers.

- In which voting centers were Sharpies provided or made available to voters and where were those voting centers located?
- In each voting center where Sharpies were provided or made available to voters, to what extent were Sharpies used? Were other types of markers or pens provided or used and to

- Of the ballots rejected at voting centers, how many of those ballots were spoiled on site such that the voter could choose to vote a new ballot? In the instances where ballots were spoiled on site, how many voters chose not to cast a ballot rather than voting a new ballot?
- What is the process for cancelling a voter's ballot? If a ballot is reflected as "cancelled" on the Secretary of State's website, what does that mean for the voter?

Thank you for your prompt attention to this matter.

Americans must demand nothing less than the absolute integrity of our elections systems — in every state, in every county and in every municipality. Be loud and vocal on social media and other forms of communication. If you've seen something, say something.

As for me, I believe the nation will be better if the American people rise up and fight.

WASHINGTONTIMES.COM

**Demand election integrity, do not acquiesce to Democrats' leftist radical agenda**

Don't you just love the way Democrats demand that Republicans acquiesce to their coronation...

Democrats openly wept on television. Not just emotional citizens, but the news anchors. Usually their tears were accompanied with profane tirades. They were determined to undermine the legitimacy of President Trump.

The left formed "The Resistance" movement and with the media attacked anyone who openly supported the president. They disrupted congressional townhalls throughout the country. Not only were they unruly, they physically threatened Republican members of Congress and their supporters.

How about this, my soft Republicans? How about if we fight in every way to make sure every legal vote is counted, and every fraudulent vote is disallowed?

How about if Republican-controlled state legislatures provide an alternative Trump slate of electors to the Electoral College in states where the Democratic apparatus of counting votes has produced questionable results?

How about if congressional Republicans prepare and introduce a resolution to impeach Joe Biden before the votes are certified and before he is sworn in, just like our Democrat friends did in 2016?

How about the attorney general, William Barr, appointing a special counsel to investigate the Biden family's alleged criminal conduct, including extortion and bribery?

How about Republicans and Americans, the 70 million+ voters who supported liberty when they voted for President Trump, how about if we fight to preserve America, the last, best hope of the world instead of passively going quietly in the night?

Will we be better off quietly assenting to the radical agenda of the left that will emasculate our economy, destroy our institutions and balloon the power of the national government, or will we be better off by fighting against the imposition of the Democrats' freedom-destroying plans?

Americans must demand nothing less than the absolute integrity of our elections systems — in every state, in every county and in every municipality. If you've seen or heard of fraud or irregularities, you should report those to your state or county Republican Party office or your local Trump Team. Be loud and vocal on social media and other forms of communication. If you've seen something, say something.

As for me, I believe the nation will be better if the American people rise up and fight.

Many members of the mainstream media actively aided the radical left over the past four years to overturn the results of the 2016 election, overthrow America's duly elected president, and undermine President @realDonaldTrump's every action.

These lectures fall on deaf ears.

The president is explicitly calling for overturning the election - the very core of our democratic system - after he decisively lost the Electoral College and the popular vote [twitter.com/realDonaldTrump](https://twitter.com/realDonaldTrump)...

I believe that Governor Ducey has harmed the common cause of the Republican Party. In what appears to be a petty move, during a field hearing with witnesses and President Trump's attorneys presenting evidence to substantiate the questions surrounding the 2020 presidential election, Governor Ducey decided that it was a good look to certify the election.

By doing it at the same time as the hearing, the governor put a finger in the eye of the president and Republicans, almost as if he wanted to distract from the hearing. It was as obvious as a person ignoring a ringing phone, that Governor Ducey was uninterested in the evidence presented by witnesses and the president's representatives.

While tens of thousands showed up for a rally to peacefully protest on January 6, a few went crazy and marched to the Capitol. And some of them breached the Capitol. No doubt, they will justifiably be identified, apprehended, and prosecuted.

In contrast, Democrats in Congress, including Vice President-elect Kamala Harris, encouraged a summer of violence and supported social media funding for the bail of any rioters arrested over the summer.

Rep. Andy Biggs' brothers: 'Andy spread election fraud lies'

A letter signed by Rep. Andy Biggs' two brothers says Biggs, R-Ariz., has spread lies by disputing the presidential election results.

[azcentral.com](https://www.azcentral.com)

8:58 PM · Jan 20, 2021 · Twitter for iPhone

“By attempting to cause uncertainty in the election's outcome, Andy is at least partially to blame for the riot at the Capital on January 6,” the Biggs brothers wrote in their letter. “Political ambition, peer pressure and fealty to (former President Donald) Trump proved to be too strong a drug to resist.

“These are violations of his oath of office and erode the trust of the American electorate. For these reasons we call for the timely removal of Congressman Biggs from office.”

To back up his claim, Mr. Arroyo cited Representative Paul Gosar of Arizona, one of the most far-right members of Congress. Mr. Gosar had paid a visit to the local Oath Keepers chapter a few years earlier, Mr. Arroyo recounted, and when asked if the United States was headed for a civil war, the congressman’s “response to the group was just flat out: ‘We’re in it. We just haven’t started shooting at each other yet.’”

Ten days later, Mr. Gosar was one of the headliners at a rally in Phoenix that Mr. Alexander helped organize. Mr. Gosar used the rally to deliver a call to action, telling the crowd that they planned to “conquer the Hill” to return Mr. Trump to the presidency.

During his time onstage, Mr. Alexander called Mr. Gosar “my captain” and added, “One of the other heroes has been Congressman Andy Biggs.”

I've sent similar letters. Barr and the DOJ are asleep. Without action now there is no next week or next month. The fraud is happening now. Machines can be seized now. Ballots now. Not next year.

**Congressman Michael Cloud** ✓ [@RepCloudTX](#) · Nov 6, 2020

The allegations of irregularities in the vote counting process should be concerning to everyone. I asked AG Barr to use the resources of [@TheJusticeDept](#) to ensure that the process is conducted in a manner that is fully consistent with state and federal law.

[@realDonaldTrump](#)

[Show this thread](#)

The U.S. Marshals Service is also available to ensure that judicial orders are carried out. When it comes to a federal election, it should not matter whether those judicial orders come from a state or federal court. For example, if a state court orders that observers can watch ballot counting in a federal election, no local election official should be able to defy that order.

With that in mind, we request an immediate response to the following questions. What are you doing to ensure the integrity of the voting and counting process right now? Will you commit to using all the resources at your disposal to ensure that only legal votes are being counted and being counted in a fully transparent manner immediately?

Thank you for your prompt reply.

Sincerely,

Michael Cloud

...

Democrat votes:  
Biden got 24,769 votes.  
Mark Kelly 27,334  
Delina desanto 23,341

Dems voted down ballot and some independents who voted for trump (about 3,000) voted for Kelly over McSally.

Overall votes are stable with about 24% going for democrats Biden, Kelly, Desanto.

A conclusion is that Dems largely voted their ticket and didn't just vote Biden and leave the ballot blank in fair election counties. Indicia of fraud in other counties would be large Biden totals that didn't track downward ballot.

In 2017 the Maricopa County Recorder issued a report saying he "believes all ballots will be counted and unofficial results reported out within 72 hours of polls closing on Election Day." P.19

Except apparently when [@realDonaldTrump](#) is on the ballot.

## Decreasing Ballot Tabulation Time

In past years, it has often taken several days or weeks for ballots to be counted and election results to be finalized. This is due both to the number of provisional ballots cast on Election Day as well as the large number of early ballots that voters drop-off at polling places on Election Day. Upon assuming Office, the Recorder worked with Elections Department staff to identify strategies for counting ballots more quickly while still maintaining accuracy and transparency of the ballot counting process.

The Recorder learned that the main barrier to counting ballots faster was a lack of space. Specifically, there was a limited amount of space available in the Recorder's Office or facilities for more than 45 Citizen Boards to work at any given time. Citizen Boards are made up of 2 individuals of differing political parties who are tasked with verifying and opening early ballots so they can be separated from their envelopes and anonymously counted - to work. Additionally, these teams were not working around the clock in shifts due to a lack of full time staff to oversee the these temporary board member, and the counting was prolonged as a consequence.

As a result of these findings, the Recorder worked with the County procurement and facilities Offices to free additional space at the Elections Department's MCTEC facility so that more Citizen Boards can be utilized. The Recorder's Office continues to work with other tenants of the MCTEC warehouse facility to arrange for even more space to be made available for ballot counting after the election. Additionally, there will be Citizen Boards working in shifts around the clock in this enhanced space to count more ballots in a 24-hour period.

## 72 Hours

Proposed time to have all ballots counted and unofficial results reported-out after a County-wide election

With the implementation of these changes, the Maricopa County Recorder's Office believes it can have all ballots counted and unofficial election results reported-out within 72 hours of polls closing on Election Day.

The Recorder also plans to give more frequent public reports through the media and on the County Recorder's website and social media accounts about the status of ballot counting to bring transparency to the process and allow candidates awaiting election results more up-to-date information about the status of their election result.

3. In November 2018, ASOG analyzed audit logs for the central tabulation server of the ES&S Election Management System (EMS) for the Dallas, Texas, General Election of 2018. Our team was surprised at the enormous number of error messages that should not have been there. They numbered in the thousands, and the operator ignored and overrode all of them. This led to various legal challenges in that election, and we provided evidence and analysis in some of them.

4. As a result, ASOG initiated an 18-month study into the major EMS providers in the United States, among which is Dominion/Premier that provides EMS services in Michigan. We did thorough background research of the literature and discovered there is quite a history from both Democrat and Republican stakeholders in the vulnerability of Dominion. The State of Texas rejected Dominion/Premier's certification for use there due to vulnerabilities. Next, we began doing PEN testing into the vulnerabilities described in the literature and confirmed for ourselves that in many cases, vulnerabilities already identified were still left open to exploit. We also noticed a striking similarity between the approach to software and EMS systems of ES&S and Dominion/Premier. This was logical since they share a common ancestry in the Diebold voting system.

5. Over the past three decades, almost all of the states have shifted from a relatively low-technology format to a high-technology format that relies heavily on a handful of private services companies. These private companies supply the hardware and

Arizona Letter of Support  
Phoenix, Arizona—

On behalf of the millions of concerned citizens and Arizonans who have lost confidence in the integrity of our election system, and on behalf of candidates for public office who campaign hard with the expectation that every lawful vote will count—and every illegal ballot will be thrown out—we write to share our support for the pending litigation.

Currently pending before the Court is *Bowyer v. Ducey*. We have seen various reports of irregularities, variances, statistical improbabilities, and unorthodox measures occurring in the general election for 2020. To date, in response to the numerous reports, we have received platitudes and condescension “assuring” us, and Arizona voters, that there was no fraud, or now they say that there was not enough fraud to matter. Indeed, those making the assurances, including the Secretary of State, have proffered no evidence that the election tabulation was not manipulated.

There has been no thorough investigation, no forensic audit, no signature verification and really no substantive effort to rebut the many deficiencies reported on. There are the objective indicia of manipulation that include: down ballot races all going in favor of the Republicans (with the notable and expected loss of McSally). In counties that did not use Dominion software, the president easily won. There is no voter registration imbalance that would make Maricopa County the outlier.

Immediately prior to the election, voters in Chandler and Mesa were solicited by community organizers to turn over their ballots so they could “turn it in for them.” This is illegal ballot harvesting yet it occurred and was reported on October 23, 2020. The eyewitness testimony of actual voters is available for public review.

If every vote counts, and if the right to free and fair elections is as important as we always say, then any such vote manipulation must be vetted thoroughly.

The massive fraud people are concerned about is the data shifting. Why trifle with hundreds of ballots if you can change tens of thousands effortlessly? One insider whistleblower states that 35,000 votes were manipulated in Pima County. In a recent legislative hearing, evidence was presented of voter anomalies that supposedly occurred notwithstanding the mathematical improbability of such an occurrence.

All this is to say that we need to restore the faith of the people. Early ballots, Mass mailing of ballots, Computer algorithms. All have served to undermine voter confidence. When faced with these discrepancies, the people are simply told that everything is fine and not to look into it further.

In our view, elections need a zero tolerance for illegal balloting. This is not complicated. We are merely counting. Whether it's one to one hundred or one to four million, it is simple math.

We ask the court to support the request for fact finding, evidence gathering and any injunctive relief necessary to prove that the vote was indeed fair and accurate. Without such an undertaking, if Mr. Biden proceeds along, his presidency will be deemed illegitimate by millions. This is an intolerable result.

Sincerely,

  
Paul A. Gosar, D.D.S.

## Are we witnessing a coup d'état? An Open Letter to Arizona by Congressman Gosar. @realDonaldTrump @RudyGiuliani

### An Open Letter to Arizona

WASHINGTON D.C.: Are We Witnessing a Coup d'état?

As I write this, I am in our nation's Capital attending to legislative business, but I remain focused on what is happening in our country regarding our election.

In 2016, then candidate Donald Trump fell victim to a heinous crime that had never before been committed in the history of our country. The outgoing Obama administration weaponized our Department of Justice and FBI to unlawfully spy on their political opponent. They fabricated information and crafted a ridiculous narrative around a Russian leak that would be used as the basis to pursue a sham investigation. That disgraceful investigation became a Sword of Damocles throughout the majority of President Trump's Presidency.

Before President Trump was even sworn in, Democrat Leftists swore an oath to remove him by any means they could. Official calls to impeach him came before he was even sworn in. At the conclusion of the Russia investigation, they cherry-picked a phone call the President had with Ukraine to pursue a fictional impeachment. They failed. They lied about our President every day for four years. Having failed everywhere else, they brazenly engaged in systemic voter fraud and are trying to steal this election. They did it right in front of us with no shame.

From the pre-election polls, to Election Day, to voter enthusiasm, and to the extreme support for Republicans statewide, where every contested down ballot race was won by Republicans (with the notable exception of Marsha McCally), it was apparent that Trump would indeed win Arizona. It was not even close.

I led a legislative hearing last Monday and listened to two expert witnesses familiar with election voting software and voting patterns. They both testified that the Arizona results, early in Maricopa County, were altered to take votes from President Trump and give them to Biden. Perhaps one of the more damning testimonies came from Dr. Shiva who presented data that based upon demographic distribution of Party affiliations, the only way for Biden to statistically caught up with Donald Trump was if Democrat votes came in at 130% for and -30% for Trump.

A hand count of a random sampling of ballots, ordered by a superior court judge, testified that 3% of the votes in Maricopa County were fraudulently recorded against President Trump and in favor of Biden. Considering that Biden supposedly "won" by .5%, this 3% vote is more than enough to put Arizona in President Trump's column and restore his rightful victory.

For months Joe Biden hid while they carefully planned. The "fact-checkers" became more bold — removing reports and slapping "this claim is disputed" labels on anything that might bruise Joe Biden. For weeks leading up to Election Day, we were told to expect Trump to win big on election night but that in the days that followed, Biden would overtake any lead as mail-in ballots were counted. On election night as votes poured in overwhelmingly for President Trump, Joe Biden told supporters to "Keep the Faith" and "We believe we are on track to win this." The next morning, we all awoke to see massive, statistically impossible spikes in votes for Joe Biden and almost zero for President Trump. Are we witnessing a coup d'état?

We will not tolerate this.

As many of you know, I helped organize the very first "Stop the Steal" rally in Arizona right after it became clear that voting patterns emerged that could not occur in the absence of fraud. Patriotic warriors joined together to gather evidence and tell the Left we will not accept a coup and a usurper in the White House.

We all remember when candidate Joe Biden held a rally in downtown Phoenix and precisely zero people attended. Nada. Zilch. It was a clear reflection of the utter lack of popular support in Arizona for Biden. Conversely, President Trump held rallies in Yuma, Bullhead City, Prescott, and several other places and 30,000 people showed up in person on 48 hours notice while millions of others watched online. You could not look out your window without seeing patriots waving flags and declaring their support for President Trump. I travel extensively all over this

Our right to vote includes the right to a fair vote count. President Trump. Our Constitution, our Republic and our not giving up. The President has not conceded and will not. We have a constitutional republic, not a banana

and the true President of the United States. Be ready House.

<p>For months Joe Biden hid while they carefully planned. The "fact-checkers" became more bold — removing reports and slapping "this claim is disputed" labels on anything that might bruise Joe Biden. For weeks leading up to Election Day, we were told to expect Trump to win big on election night but that in the days that followed, Biden would overtake any lead as mail-in ballots were counted. On election night as votes poured in overwhelmingly for President Trump, Joe Biden told supporters to "Keep the Faith" and "We believe we are on track to win this." The next morning, we all awoke to see massive, statistically impossible spikes in votes for Joe Biden and almost zero for President Trump. Are we witnessing a coup d'etat?</p> <p>We will not tolerate this.</p>	<p>As many of you know, I helped organize the very first "Stop the Steal" rally in Arizona right after it became clear that voting patterns emerged that could not occur in the absence of fraud. Patriotic warriors joined together to gather evidence and tell the Left we will not accept a coup and a usurper in the White House.</p> <p>We can never accept the results of fraud. Our right to vote includes the right to a fair vote count. I will fight to restore the rightful victor, President Trump. Our Constitution, our Republic and our nation demand election integrity. As members of the Pennsylvania Senate, we believe in the integrity of the election process. After speaking with our colleagues, a majority of the State Senate is troubled by the many inconsistencies that happened in our Commonwealth during the 2020 election.

Due to numerous unlawful violations taken by Pennsylvania Governor, Tom Wolf; Secretary of State, Kathy Boockvar; and the rogue State Supreme Court, the balance of power was taken from the State Legislature, who by the U.S. and PA Constitutions, set the time, place and manner of holding elections.

@RepScottPerry @RepFredKeller @MikeKellyPA  
@RepSmucker @GReschenthaler @ali @Cernovich  
@MarkFinchem @AZGOP @RepAndyBiggsAZ

and the Pennsylvania Election Code has had a long-standing requirement which specifically requires election officials at polling places to authenticate the signatures of in-person voters; less than two weeks prior to the election, the Supreme Court of Pennsylvania ruled that county Boards of Election need not authenticate signatures for mail-in ballots. This action set aside the authority of the General Assembly, voided the specific language of statute, caused the non-uniform treatment of in-person and mail-in voters, and eliminated a critical and specifically designed safeguard against potential election crime.

- The Pennsylvania Election Code prohibits the counting of defective absentee or mail-in ballots; in contravention of the specific language the Pennsylvania Election Code, the Department of State directly encouraged this action. As a result, some county boards of elections ignored this prohibition and proceeded to include thousands of defective ballots in the certified count.
- The Pennsylvania Election Code authorizes poll watchers to be selected by candidates and political parties and to observe the process of pre-canvassing and canvassing absentee and mail-in ballots; certain counties in Pennsylvania prohibited these authorized individuals from meaningfully observing the pre-canvassing and canvassing activities.

Qualification of Electors and tabulation of Electoral College votes. In particular, we ask you to consider and weigh the validity of purported Electors and Electoral votes representing the Commonwealth of Pennsylvania.

Pennsylvania's 2020 election to appoint Electors of President and Vice President was marred by severe infringements, by multiple non-legislative officials and individuals, upon the General Assembly's authority under Article II, Section 1, Clause 2 of the Constitution of the United States to direct the manner of appointing Electors.

The General Assembly has exercised its authority to direct the manner of appointing Electors through the Pennsylvania Election Code, and by its authority to establish law in the Commonwealth of Pennsylvania.

The Pennsylvania Election Code was contravened, frustrated, and undermined by the actions of officials in the Executive and Judicial branches of the Commonwealth, as well as certain local election officials.

2

3 U.S.C. Section 15 empowers Congress to reject electoral votes that are not "regularly given" or "lawfully certified." We believe the aforementioned irregular conduct has undermined the lawful certification of Pennsylvania's delegation to the Electoral College, and has tainted and doomed the entirety of Pennsylvania's process of appointing electors of President and Vice President on the day prescribed by law in 3 U.S.C. Section 15.

Since September 25, 2020 -- more than five weeks before Election Day -- members of the General Assembly have voiced their objections to such irregularities, and have responded appropriately. Listed below are the marshall actions taken by members of the Pennsylvania General Assembly in response to these infringements made by executive and judicial officials and certain local election officials to the General Assembly's authority to direct the manner of appointing Electors. Each summary paragraph is followed with a notation of the related attachments enclosed.

**September 25, 2020:** Eight (8) members of the Pennsylvania House of Representatives filed a complaint for declaratory and injunctive relief, seeking a restraining order to block the use of private funds from The Center for Tech and Civic Life (funded by billionaire Mark Zuckerberg, et al) for use in local election management, including funding to facilitate "drop boxes," because federal law preempts private

While speaking at the Statutory Meeting of the State Committee of the Arizona Republican Party, U.S. Rep. Paul Gosar (R-AZ) defended the Stop the Steal movement and chided establishment Republicans and Democrats for attempting to erase 75 million Americans' right to freedom of speech and freedom of assembly, as outlined in the First Amendment.

"Let's get our facts straight: Sedition is actively advocating for the overthrow of the government by force," said Gosar. He then joked, "I believe you know, some of my colleagues and I wanted to make sure we had a fair and clean election."

"Then you have a Secretary of State in this state who has made two outstanding comments," said Gosar. "She called all of us a bunch of Nazis. She also called us, and said that she was voted in to get Democrats elected. That's hardly an air of support."

**EXCLUSIVE:** Republicans on the House Oversight Committee said any potential FBI investigation into the "role" Parler played in the Jan. 6 Capitol riot "should include" Facebook and Twitter, calling the recent request for an FBI probe from committee Chairwoman Carolyn Maloney "evidence" of the "growing alliance between Big Tech and Democrats."

"Like you, we were disturbed and angered by the riot and we believe those responsible should be prosecuted to the fullest extend of the law," they wrote. "But casting blame on a single social media company known for its conservative username while simply ignoring other social media companies known for sympathizing with liberal causes is blatantly and overtly partisan."

## Lesko Stands Up for Constitution; Agrees With Objection to Arizona Electors

Washington, January 6, 2021 | [Rachel Harris](#) (202-417-0746) | [53 comments](#)

WASHINGTON, D.C.—Today, U.S. Congresswoman Debbie Lesko (AZ-08) released the following statement after her vote to agree with the objection to electors from the state of Arizona:

“After much deliberation and consultation with constitutional attorneys, I decided to agree with the objection to Arizona’s electors. Similar to the arguments made in the [amicus brief](#) I signed onto in *Texas v. Pennsylvania, et al.*, Arizona violated state law, and thus the United States Constitution, as detailed in the [opinion](#) from the United States Court of Appeals for the Ninth Circuit. In line with upholding my oath to follow the U.S. Constitution, I voted to agree with the objection to Arizona’s electors.

The events today at the U.S. Capitol were tragic and disturbing. Civil discourse and passionate debate have a place in our democracy, but violence and anarchy are never the answer. Please join me in praying for our nation.”

I voted to uphold the U.S. Constitution by objecting to Arizona's electors. The U.S. Constitution says that states need to follow their state's election laws in presidential elections. Since AZ's voter registration deadline law was violated, the U.S. Constitution was violated.

## Lesko Stands Up for Constitution; Agrees With Objection to Pennsylvania Electors

Washington, January 7, 2021 | [Rachel Harris](#) (202-417-0746) | [19](#)  
[comments](#)

WASHINGTON, D.C.—Today, U.S. Congresswoman Debbie Lesko (AZ-08) released the following statement after her vote to agree with the objection to electors from the state of Pennsylvania:

“Article II, Section 1, Clause 2 of the United States Constitution says that the manner in which presidential elections are conducted must follow state law. After listening to debate and studying evidence, I believe that Pennsylvania did not follow state law while conducting the presidential election and thus violated the U.S. Constitution. In Pennsylvania, state law dictates that the deadline for a county board of elections to receive a mail-in ballot is 8 p.m. on Election Day. Instead of following state law, judges, without any authorization by the Pennsylvania General Assembly, usurped legislative power by extending that deadline to three days after Election Day. The Pennsylvania secretary of state also violated Pennsylvania state law, and thus the U.S. Constitution, by removing the state law mandate that requires all applications for absentee or mail-in ballots for non-disabled and non-military voters be signed by the applicant. In line with upholding my oath to follow the U.S. Constitution, I voted to agree with the objection to Pennsylvania’s electors.”
