And then you’ve got allegations firsthand, you’ve got other sort of irregularities throughout the country and various states. All of these things suggest that in order to get the public’s confidence, and in order for our country to move forward in the most productive way, we have to validate, verify, we have to further examine the votes and the voting process in these various states and in this election.”

Tomorrow, I will object to certifying votes from states I believe clearly violated the Constitution in the 2020 Presidential Election.

They knew President Trump was going to win on election night, but they wanted to keep looking for and finding and counting ballots until they got over the top. And that’s what we’ve seen play out. That’s why we want to investigate it before we declare a winner... All these other swing states that were close, they took a pause in the count, and those all seemed to be the ones that [Trump] lost. ... You had the situation where 6,000 votes in Michigan went for Biden but they were actually supposed to go for President Trump... Why didn’t Democrats want Republicans to observe the count? Why did it seem like on election night, that all the important swing states that kept counting, the President won, but all the important swing states that took a several hour pause in the count, the President end up losing?” – Jim Jordan

**PASCRELL DEMANDS 126 MEMBERS SEEKING TO OVERTURN
ELECTION NOT BE SEATED IN CONGRESS**

*Support of Trump's attempt to become an unelected dictator is in
violation of Fourteenth Amendment*

PATERSON, NJ – U.S. Rep. Bill Pascrell, Jr. (D-NJ-09) today called on House leaders to sanction Members and exclude from the 117th Congress any Members-elect who are supporting Donald Trump's efforts to invalidate the 2020 presidential election. Pascrell cites the text of Section 3 of the Fourteenth Amendment which disqualifies from service any individuals who seek to attack American democracy, as well as Congress's power to exclude Members by majority vote as acknowledged by the U.S. Supreme Court in *Powell v. McCormack*.

"Stated simply, men and women who would act to tear the United States government apart cannot serve as Members of the Congress. These lawsuits seeking to obliterate public confidence in our democratic system by invalidating the clear results of the 2020 presidential election undoubtedly attack the text and spirit of the Constitution, which each Member swears to support and defend," Rep. Pascrell writes House leaders. "Consequently, I call on you to exercise the power of your offices to evaluate steps you can take to address these constitutional violations this Congress and, if possible, refuse to seat in the 117th Congress any Members-elect seeking to make Donald Trump an unelected dictator."

My statement about the events of January 6, 2021.

I stand by my objections to the Electoral College count from certain states in the November 2020 election. If we allow representatives of the people to be threatened and accused of treason for carrying out their constitutional duty to ensure free and fair elections, I fear that all of our American freedoms will soon be in danger of becoming nothing more than patriot dreams of the past. I will not be bullied into forsaking the oath I swore to uphold.

"If SCOTUS had properly acted and heard the Texas lawsuit, we might have prevented frustrations from festering into the tragic events of yesterday. The American people deserved a decision on the merit of numerous claims of unconstitutionality, irregularity, and fraud. It was their duty. They failed.

"I am against what took place yesterday inside the Capitol building and the manner in which it occurred. I am also against the vile insults directed toward me and my fellow objectors that slam our integrity and blame us for yesterday's incidents – especially from those who have condoned and even championed the violent events

Democrat colleagues offered objections in 2001, 2005, and 2017 when counting the electoral votes – nothing treasonous or seditious about it then, nor is there now. The Left cannot call for unity, while also calling for my expulsion from the House of Representatives simply for doing the same thing they have done in every Republican-won presidential election in modern history.

As I said, Congress has spoken and there will be a peaceful transfer of power on January 20, 2021. Whoever is in the White House, I will continue to work every day faithfully serving the people of this country and protecting this country from the Left's socialistic agenda."

Early into this morning Congress finished the Constitutional process to count electoral votes after being disrupted by rioters. That process is the appropriate place to challenge electoral college votes. We must allow our democracy to work rather than resorting to violence.

I listened as fellow members presented evidence and arguments for the need to object to the electors from Arizona and Pennsylvania. In deciding how to cast my vote, I seriously considered the views of my constituents.

The case that was presented about the unprecedented voting irregularities, overreach by government bureaucrats, and the lack of ballot integrity and security have left many wondering why they should even vote.

It is important that every American has confidence in our election system and that their vote was counted the way it was cast. Due to the inability to ensure the legitimacy of every vote, I could not vote to certify the results of the electoral votes of these states.

Congress should immediately focus on improving our electoral process so that the integrity of our institutions is never questioned.

Election Integrity is everything. Without it we cannot have a functioning representative Republic. Boris Bazhanov, Josef Stalin's personal secretary quoted the dictator as once saying, "It doesn't matter who votes, it matters who counts the votes." Historians question whether Stalin actually said this or not, but they're missing the obvious point. To have free, honest and open elections we must not only ensure that all citizens have equal access to the ballot box, but also that each and every **legally cast vote** is counted accurately. The entire process must be secure. From start to finish.

I stand with President Trump today as his campaign is utilizing all legal remedies to do everything they can to investigate the many reports of impropriety and any and all violations of election law.

I would like to take this opportunity to let all of our constituents in the 4th District of Texas, as well as all of our fellow Texans and Americans, that our office's number one priority and focus will be on ELECTION INTEGRITY! The very first bill I will file at the federal level will be the Federal Election Integrity Act. Among other things, it will guarantee poll watchers access, the use of recording devices by these same poll watchers if they have a good faith reason to believe they are witnessing fraud, all future voting will be done in person (unless there is a physical impediment that creates a real hardship for the voter), a photo identification will be required to vote, all mail in ballots must be received by close of business on Election Day (with the exception of overseas military ballots and they must be postmarked by Election Day), and criminal penalties for those convicted of voter fraud will be dramatically enhanced to act as a deterrent.

This bill will be extensive and far reaching. It must be. If our citizens lose faith in our election process, they lose faith in the outcome and as a result they will inevitably lose faith in our nation.

It should be a bipartisan bill. This has nothing whatsoever to do with partisan politics and everything to do with enhancing our republic and the deep faith we all want to have in democracy. It will be very telling to see how the Democrats in Washington react to this legislation. If they feel as deeply as we do about our country and this divinely inspired 244 year old experiment, this bill should fly through both chambers and be signed by the President forthwith.

It will be interesting to see how this journey unfolds. Please watch closely!

God bless.

For our Republic,

PAT

WE ARE VOTING TO CERTIFY THE Electoral College. Arizona's electors were objected to by a House Member and Senate Member. Therefore we will debate the matter. I JUST VOTED TO OBJECT to Arizona's slate of electors.

HERE IS WHY I DID...

Article 2 Section 1 of the US Constitution clearly states

"Each state shall appoint, in a Manner as the LEGISLATURE thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress"

The state LEGISLATURE in Arizona set the deadline for voter registration for the Nov 2020 election on October 5. Far Left liberal groups sued for an extension of that date. A US District Court judge, appointed by Obama, wrongly and unconstitutionally ruled in their favor and extended the deadline to Oct 23rd. His erroneous decision eventually was overturned on Oct 15th. 32,000 people in heavily Democratic areas unconstitutionally registered to vote in AZ during this 10 days. President Trump's final vote tally was 10,457 shy of Biden's total.

The last time I checked a District Court judge ain't a State Legislature!!

We must pushback and stand up for ALL Americans! If we don't have free, honest and open elections then we are no longer a republic, we are no better than a banana republic.

On my way to the House Floor to vote a resounding NO on this sham 2nd Impeachment! From day one of the Trump Administration the Democrats have sadly been trying to overturn the 2016 election. And now, even after the 2020 election, they're STILL trying to overturn a duly won election from 2016. Sad. Very sad. Let's stop this nonsense and get on with the people's work! #EndTheCharade #LetsGetToWork

Yesterday's snap impeachment was a sham, it didn't go through the Judiciary Committee, and it was not even about the President's actual words but about how our Democratic colleagues want to interpret his words and fashion a particular meaning to them.

Thank you, Madam Speaker.

Last summer, the Antifa and B.L.M. riots swept all over our country. Cities were burnt, businesses destroyed, and lives violently stolen. And it wasn't just for an afternoon, like the horrible hours we had on January 6, but rather, they went on for weeks and in some cases even months.

So if there's any silver lining in this dark cloud, it's that our friends from across the aisle have come to realize that riots are bad.

We conservatives have known this all along.

This snap impeachment is a sham and it didn't go through the Judiciary Committee and it's not even about the president's actual words, but it's about how our Democratic colleagues want to interpret his words and fashion a particular meaning to them.

Now this is just political grandstanding at its worst.

The American people desperately want us to move on, tackle the issues, and find solutions to them forthwith.

Madam Speaker, let's end this obsession and charade, and let's get to work. I yield back.

A FASCINATING TAKE ON PRESIDENT TRUMP:

An interesting read about a man hated by a lot of you...do you really understand why he's hated...or like so many believe only what you hear and not think for yourself...enjoy and pass along or not, your choice...🇺🇸🇺🇸🇺🇸

Just a short note prior to you reading this article. Of all of the hundreds of articles written about Donald J. Trump this one is by far the most authentic. No matter your politics you will have a better understanding of our President and our politics after reading this.

Very interesting theory on Trump's success.

Trump's 'Lack of Decorum, Dignity, and Statesmanship' Author Unknown

My Leftist friends (as well as many ardent #NeverTrumpers) constantly ask me if I'm not bothered by Donald Trump's lack of decorum. They ask if I don't think his tweets are "beneath the dignity of the office."

Here's my answer: We Right-thinking people have tried dignity. There could not have been a man of more quiet dignity than George W. Bush as he suffered the outrageous lies and politically motivated hatreds that undermined his presidency.

We tried statesmanship.

Could there be another human being on this earth who so desperately prized "collegiality" as John McCain?

We tried propriety – has there been a nicer human being ever than Mitt Romney?

And the results were always the same. This is because, while we were playing by the rules of dignity, collegiality and propriety, the Left has been, for the past 60 years, engaged in a knife fight where the only rules are those of Saul Alinsky and the Chicago mob.

I don't find anything "dignified," "collegial" or "proper" about Barack Obama's lying about what went down on the streets of Ferguson in order to ramp up racial hatreds because racial hatreds serve the Democratic Party.

I don't see anything "dignified" in lying about the deaths of four Americans in Benghazi and imprisoning an innocent filmmaker to cover your tracks.

I don't see anything "statesman-like" in weaponizing the IRS to be used to destroy your political opponents and any dissent.

Yes, Obama was "articulate" and "polished" but in no way was he in the least bit "dignified," "collegial" or "proper."

The Left has been engaged in a war against America since the rise of the Children of the '60s. To them, it has been an all-out war where nothing is held sacred and nothing is seen as beyond the pale.. It has been a war they've fought with violence, the threat of violence, demagoguery and lies from day one – the violent take-over of the universities – 'till today.

My statement on the Texas lawsuit to protect election integrity [#GodBlessTexas](#) [#StopTheSteal](#)

"As exhibited by the thousands of sworn affidavits, blatant constitutional violations, and numerous electronic and mathematical analyses displaying the statistical impossibilities of a Biden win, it is quite clear that this race was stolen from President Trump and the tens of millions of Americans who voted for him. Those Trump voters who cast completely legal and valid votes were strategically disenfranchised by states that violated the U.S. Constitution, their own state constitution, and their own state law. Texas' courage in calling out the unconstitutional changes to election laws made in the eleventh hour by Georgia, Michigan, Pennsylvania, and Wisconsin should be honored by everyone who wishes to continue to see this country get back to free and fair elections.

"In filing this lawsuit, the state of Texas has once again proved its dedication to our nation's sovereign law and ultimately, to the will of the American people. Hopefully, a majority of the Supreme Court will show the same reverence for the Constitution that State Attorneys General have by joining in this suit. I look forward to more States joining in the fight to preserve our Republic in this important lawsuit. May God guide and embolden more elected officials to use the tools He has provided to allow us to continue as a free and self-governing Republic."

We’re about to either go off that cliff and end the greatest gift of a country God ever allowed a people to have, or we’ll get back to the crossroads where we headed off in a direction of socialism a good while back... We’re in a fight for our country... We’ve got to have enough evidence out there, and the courts have not allowed it, so we gotta do like Reagan and go the heads, and get evidence out there to the public so that they can be screaming to their representatives and senators that they better object and they better support this effort or they’re gonna be out on the street... Socialism requires a totalitarian government. No middle class, just a tiny ruling class, and then everybody else. And we are all determined to do everything we can to keep that from happening.”

We continue to hold out hope that there is a federal judge who understands that the fraud that stole this election will mean the end of our republic. This lawsuit would ensure that the VP can only accept electors legitimately and legally elected.

Rep. Gohmert Issues Statement on Pence Lawsuit | U.S. Congressman Louie Gohmert
gohmert.house.gov

8:18 PM · Dec 28, 2020 · Twitter Web App

Congressman Louie Gohmert (TX-01) released the following statement regarding the lawsuit filed against the Vice President:

"The 2020 presidential election was one we'd expect to see in a banana republic, not the United States of America. In fact, the rampant fraud and unconstitutional actions that took place were so egregious that seven contested states-- Arizona, Georgia, Michigan, New Mexico, Nevada, Pennsylvania, and Wisconsin all sent dueling slates of electors to Congress. This puts Vice President Mike Pence in a position where some argue he has to choose between morality and the law. That is not the case.

"It is also critical to note that as many formerly in the mainstream media, now the Alt-Left media, continue to say that every court has said there is no evidence of fraud. That is disingenuous, deceitful, and flat out dishonest. The truth is that no court so far has had the morality and courage to allow evidence of fraud to be introduced in front of it.

"We continue to hold out hope that there is a federal judge who understands that the fraud that stole this election will mean the end of our republic, and this suit would insure that the Vice-President will only accept electors legitimately and legally elected. There must be an opportunity for a day in court when fraud was this prevalent.

"It is for this reason that I and other plaintiffs have filed a complaint for expedited declaratory and emergency injunctive relief to seek judgment from the court on the Vice President's authority when presiding over the Senate during the Joint Session of Congress. We are asking the court to uphold the powers laid out in the United States Constitution which grant the Vice President the exclusive authority and sole discretion in determining which electoral votes to count. As outlined in the filing, the Electoral Count Act is unconstitutional because it directs Vice President Pence to legitimize electoral votes in violation of the Electors Clause and limits or eliminates his Twelfth Amendment authority to determine which slates of electors should be counted and which, if any, may not be counted. This is fundamental because no statute can constitutionally supply rules to the extent that such statute violates the U.S. Constitution.

Thanks to spineless politicians, corrupt state officials and a coordinated effort to undermine the will of the American people in favor of business as usual in the D.C. swamp, we now find ourselves in a place where a stolen election becomes just another one of the miscarriages of justice this town refuses to remedy. The D.C. elites want to sweep these electoral injustices under the rug, just as they have done with countless other scandals such as the Russia-collusion hoax, the Biden-Ukrainian quid-pro quo, and Hillary Clinton's mishandling of classified information, to mention only a few. For the sake of the future of our Republic, come January 6th, Vice President Pence must be authorized to uphold the legal votes of millions of Americans and preserve our nation's great experiment in self-governance."

<https://mobile.twitter.com/replouiegohmert/status/1344669618619736068>

Video: “We have to do this [object to the Electoral Count]. We have to at least try to have the fraud recognized for what it is. If we fail to do this – I mean think back to the Founding when, as Dennis Miller said, the Founders risked being killed or put in prison for life simply because they objected to a tax on their breakfast drink. They took the chance and we have the greatest country, the most free country, or at least it used to be, in the history of the world. We have a chance for right to prevail and the wrong to fail and so, as Longfellow said, we need to pursue that. We have got to pursue it. The country is at stake. Once an election is established by fraud, there is no coming back from that.”

Rep. Gohmert Responds to False Claims that He is Advocating for Violence

"I have not encouraged and unequivocally do not advocate for violence. I have long advocated for following the teaching and example of Dr. Martin Luther King, Jr. of peaceful protest. That does not keep me from recognizing what lies ahead when the institutions created by a self-governing people to peacefully resolve disputes hide from their responsibility. Violence is not the answer. The appropriate answer is courts and self-governing bodies resolving disputes as intended."

I'm filing a lawsuit this weekend against the Democratic incompetence/crooks running Dallas County elections because they've continually kicked my poll watchers out of the counting room and did so again today during the counting of mail-in ballots. Remember some Dallas County races are too close to call even though I've won by a large margin. I will continue fighting for what is right and will happily be called a SORE WINNER for it. Many candidates are afraid to fight ballot fraud after they lose because they don't want to be called sore losers, and the fraud just continues. I am also donating to President Trump's legal efforts to fight similar corruption across the nation. Democrat-run state and local governments must follow the law and here in Texas these Dem-led election overseers are as crooked as ever. DISGUSTED AND FED UP!

On January 6, 2021 Congress will meet to certify Electoral College votes for the President of the United States. This will be a defining day in American history. We can save our great country, or we can fall into the hands of radical socialists who want to abandon American values and take away everything we hold sacred in our district. I, for one, will fight to save our nation and will stand for the Constitution by contesting the Electoral College. If we expect to remain a representative democracy, we must do everything we can to protect election integrity and fight for President Trump.

More than 74 million Americans voted for President Trump, but big tech, the mainstream media and radical Democrats are trying to silence us by dismissing what we know to be true: President Trump won a second term. We will not sit quietly, particularly on January 6, because not only is the Presidency of the United States at stake, but so is election integrity, and that is worth fighting for. We need to throw out the fraudulent vote and send a strong message to the people who have manipulated our electoral process. We will NOT allow it!

Over the past couple of months growing evidence has shown that the election was stolen from President Trump. The people of our area, and all over the country, are rightfully outraged. You elected me to represent you in Congress, and that is a responsibility I do not take lightly. I will be proud to make it known on January 6 that the people of Texas' 13th Congressional District do not accept rigged elections as the standard for our country. After all, free and fair elections are an important part of what makes America the greatest country on Earth.

"I will be supporting an election challenge in the U.S. House of Representatives.

For our democracy to function everyone must trust in it, and millions of Americans right now do not.

We must give the American people a full debate on all matters related to the election and the constitutional issues at hand.

For four years Democrats colluded to tear the country apart and question the legitimacy of our democracy - they surrendered any ground to complain about a legitimate process to assess election disputes."

Every legal vote must be counted. I have signed a letter with 25 fellow @GOP Congressmen-elect to demand an investigation of the irregularities in November's election. The American people deserve the assurance their elections remain free and fair.

December 15, 2020

Dear Student Speakers:

As the members-elect of the 117th Congress, we urge you to promptly act to support the integrity of our election process. Multiple states engaged in litigation and thousands of witnesses have submitted sworn affidavits of reported fraud related to the 2020 presidential election. One thing is clear - our election process has devolved into chaos. An elected representative of the People's House, we are tasked with restoring the security of our constitutional, and they are simply concerned about the integrity of our elections.

The American people expect and deserve free and fair elections, and any reported fraudulent activities surrounding the 2020 presidential election should be thoroughly investigated. Protecting the integrity of our nation's election process is not a partisan issue. This is an issue that we as serving Members and as Americans are committed to addressing. The freshman class of the 117th Congress represents a diverse and wide swath of America. While there are tremendous differences in our beliefs and in some cases, our policy positions, one thing we can all agree on is that protecting the integrity of our election is paramount.

In the 2020 election, we have verified reports of:

- Absentee and mail-in ballots with missing or unverified signatures
- Missing and unrecorded voting machine memory cards
- Restrictions on bipartisan election observers during critical phases of the election process

Under your leadership over the past several years, the House has demonstrated a zeal for all sorts of investigations, and we believe that you have the strong capacity to initiate a thorough investigation into these voting irregularities.

Guaranteeing every U.S. citizen's right to vote in a free and fair election is key to protecting our Constitutional Republic, and it is the duty of each of us to ensure that right. Our constituents demand that we respond to reports of irregularities in our election process and investigate actively with the intent of restoring confidence in our electoral process.

Future elections and the voice of future voters depend on you taking action to promptly investigate the 2020 election irregularities. We look forward to your action.

FOR IMMEDIATE RELEASE

Van Duyne Statement on Voting to Object to Elections from Pennsylvania

Irving, TX – U.S. Representative Beth Van Duyne released the following statement regarding her vote to object to elections from the state of Pennsylvania.

"Yesterday our nation was subjected to the attacks of violent mobs, anarchists, and those who wish to undermine our great Republic. This attack was not just against our nation's Capital building, this was an attack against the very fabric of what has made America such an exceptional nation since our founding.

And while these thugs and criminals hoped to disrupt our democratic process, they only served to strengthen our resolve to serve all the people of America and ensure a transfer of power that is orderly and Constitutionally sound. Yet, the voices of tens of millions of Americans must be heard, respected, and acted upon in order to ensure the integrity of our elections is strengthened and never again allows actions that undermine our nation and sow such tremendous distrust in our electoral process. American elections must be conducted freely, fairly, and Constitutionally.

Early this morning, I voted to object to the elections from the state of Pennsylvania because it was clear to me this state's election was conducted unconstitutionally through executive and court actions which changed the rules of the election without the express approval of the Pennsylvania State Legislature.

The actions to change election rules in Pennsylvania were so egregious, that on October 26, 2020, Justice Samuel Alito, joined by two other Supreme Court Justices, wrote:

"It would be highly desirable to issue a ruling on the constitutionality of the State Supreme Court's decision before the election. That question has national importance, and there is a strong likelihood that the State Supreme Court decision violates the Federal Constitution. The provisions of the Federal Constitution conferring on state legislatures, and state courts, the authority to make such decisions reflect a strong

Republican and Democratic parties – ruled on because it is of utmost importance to the American people and of elections to be held in the future. If State Supreme Courts and executive offices are allowed unrestricted ability to change election laws at any time, and without the approval of state legislative bodies, then we have truly surrendered a fundamental bedrock of our Republic.

Although democrats have routinely objected to the acceptance of elections in past elections, I understand that by objecting to the 2020 Pennsylvania elections I will be unjustly blamed as a traitor and secessionist. But I stand with tens of millions of Americans who can forcefully and righteously agree with Supreme Court Justices who understood the actions to change election rules in Pennsylvania represent a grave Constitutional threat that must be remedied.

While I did not support the objection of elections from the state of Arizona, I believe voting against elections from Pennsylvania was constitutionally correct and our best opportunity to stand up for federalism, the rule of law, and justice that is owed to the American public. I am grateful for others who rose with me in support of this most reasonable of requests to protect the sanctity of our Republic, the just conduct of our elections, and a fair review that is owed to all Americans.

Like many of you, I worked tirelessly on behalf of, and prayed fervently for, a different outcome. While that did not occur, we must commit to forge forward together, agreeing where it makes sense and promoting the general welfare of all Americans, while vigorously but peacefully disagreeing where ideology and visions diverge. Regardless, we move forward together in this dream, this experiment, this wonderful nation that we are all blessed to call our home, that we are all blessed to call our United States of America."

The Department of Justice must ensure that the integrity of our elections is protected.

[@TheJusticeDept](#)

Congressman Michael Cloud ✓ @RepCloudTX · Nov 6, 2020

The allegations of irregularities in the vote counting process should be concerning to everyone. I asked AG Barr to use the resources of @TheJusticeDept to ensure that the process is conducted in a manner that is fully consistent with state and federal law.

@realDonaldTrump

[Show this thread](#)

The U.S. Marshals Service is also available to ensure that judicial orders are carried out. When it comes to a federal election, it should not matter whether those judicial orders come from a state or federal court. For example, if a state court orders that observers can watch ballot counting in a federal election, no local election official should be able to defy that order.

With that in mind, we request an immediate response to the following questions. What are you doing to ensure the integrity of the voting and counting process right now? Will you commit to using all the resources at your disposal to ensure that only legal votes are being counted and being counted in a fully transparent manner immediately?

Thank you for your prompt reply.

Sincerely,

Michael Cloud

Today's rushed vote on impeachment only further divides our nation. My full statement:

"Today's rushed vote on impeachment will only further divide the American people. The assault on the Capitol last week was an act of domestic terrorism – an affront to democracy by those who preferred to engage in chaos and violence, rather than civil discourse. As our nation begins a tough healing process in the days ahead, Speaker Pelosi and House Democrats must reject the impulse to politicize the heinous tragedy that occurred last week and refocus our efforts on delivering results for the American people. My full statement ↴

"Our Founding Fathers built this nation on the belief that our elected officials would be put in office by a free and fair process decided by the people. Over the past few weeks, it has become clear that certain states have not complied with their own election laws, and a concerning amount of voter fraud has been brought to our attention.

I believe that every voice should be heard, every legal vote should be verified, and every law should be followed. Therefore, on Wednesday, January 6th, I will object to certifying the Electoral College votes from the disputed states.

By Congress accepting what we know is tainted, is to call into question the validity of our elections, and further erode Americans' confidence in the process. My full statement 

"Yesterday was a sad and dark day in our nation's history. As the world looked on, our beloved Capitol building was attacked and overtook by violent protesters. I am outraged by the events of yesterday and condemn the violence in the strongest terms possible. Declaring an event to be a peaceful protest does not make it a protected right when the peaceful part is gone.

Thank you to all the heroic Law Enforcement Officers from Capitol Police, FBI, Secret Service, MPD, the National Guard, and others, for putting their lives on the line to protect us and secure the Capitol so my colleagues and I could finish the People's business on the House Floor. No angry mob was going to stop us from fulfilling our constitutional duty.

Although what we saw yesterday was inexcusable and reprehensible, it doesn't change the fact that **election laws were broken, and evidence of voter fraud has been presented**. Both deserve to be investigated. Last night, I objected to certifying the Electoral College votes from Arizona and Pennsylvania to fight for the integrity of our elections and to give certainty to millions of Americans that our electoral process is safe and secure.
