v.

R. KYLE ARDOIN, in his official capacity as
Secretary of State of Louisiana

**MEMORANDUM IN OPPOSITION TO
PLAINTIFFS' MOTION FOR PRELIMINARY INJUNCTION**

MAY IT PLEASE THE COURT:

Defendant, R. Kyle Ardoin ("Ardoin"), in his official capacity as Secretary of State of Louisiana, submits this brief in opposition to Plaintiffs' *Motion for Preliminary Injunction* and in response to this Court's request for briefing concerning (1) application of the *Purcell*¹ doctrine to this matter²; (2) the effect of Legislative action pursuant to House Bill 396³; and (3) the impact (if any) the U.S. Supreme Court's decision in *Allen v. Milligan*, No. 21-1086, 2023 WL 3872517 (U.S. June 8, 2023) may have upon the instant litigation.⁴ Ardoin will first address the questions raised by this Court's orders.

I. DEFENDANT'S RESPONSE TO ISSUES RAISED IN COURT'S ORDERS

1) Applicability of the *Purcell* doctrine to this case.

¹ *Purcell v. Gonzalez*, 549 U.S. 1 (2006) (per curiam).

² See Minute Entry Order, [R. Doc. 27].

³ *Id.*

⁴ See Order [R. Doc. 28].

As an initial matter, Ardoin acknowledges that Magistrate Johnson, in his Order⁵ dated July 7, 2023, noted the instant brief addressing the Court's questions "should follow the same guidelines outlined in the Court's Order at R. Doc. 27, except as regards timing."⁶ Ardoin takes the Magistrate's reference to "timing" as indication the Court no longer requests briefing on the questions previously posed concerning the *Purcell* doctrine. Yet, begging this Court's indulgence, Defendant believes that *Purcell* concerns do remain; therefore, Defendant will briefly address the application of the *Purcell* doctrine to this matter.

In this Court's June 23, 2023 order⁷, in which it granted Defendants' motion for continuance, the Court agreed that Plaintiffs' motion for preliminary injunction is predicated on the National Voter Registration Act ("NVRA") and that "the NVRA applies only to federal elections, not state elections."⁸ On that basis, the Court correctly determined there was "no need to resolve this matter on an expedited basis before the gubernatorial election in October 2023."⁹ While that is true, Defendant respectfully suggests that the *Purcell* doctrine presents a continuing concern in this proceeding with respect to the federal elections that are coming up in 2024.

In *Purcell*, the United States Supreme Court held that "[c]ourt orders affecting elections, especially conflicting orders, can themselves result in voter confusion and consequent incentive to remain away from the polls. As an election draws closer, that risk will increase."¹⁰ *Purcell* "reflects a bedrock tenet of election law: When an election is close at hand, the rules of the road must be clear and settled. Late judicial tinkering with election laws can lead to disruption and to unanticipated and unfair consequences for candidates, political parties, and voters, among

others.”¹¹ “That important principle of judicial restraint not only prevents voter confusion but also prevents election administrator confusion—and thereby protects the State's interest in running an orderly, efficient election and in giving citizens (including the losing candidates and their supporters) confidence in the fairness of the election.”¹² “Running elections state-wide is extraordinarily complicated and difficult.”¹³ Elections officials must navigate “significant logistical challenges” that require “enormous advance preparations.”¹⁴ “[P]ractical considerations sometimes require courts to allow elections to proceed despite pending legal challenges.”¹⁵ Thus, the Supreme Court has consistently admonished courts not to alter state election laws and processes in the period close to an election.¹⁶

Last year, in *Singleton v. E. Baton Par. Sch. Bd.*, 621 F. Supp. 3d 618, 628 (M.D. La. 2022), this Court noted that the plaintiffs’ challenge to the then-upcoming school board election (alleging that the reapportionment plan adopted by school board diluted their votes) could not overcome *Purcell* because “[p]laintiffs [sought] relief too close to the election [and] ... though this fact can be overcome, ... Plaintiffs [had] not shown that the changes in question [were] feasible ‘before the election without significant cost, confusion, or hardship.’”¹⁷ In *Singleton*, the hearing on plaintiffs’ request for a preliminary injunction was just “2 months, 3 weeks, and 1 day (or 83 days) before

the November 8 primary election.”¹⁸ This Court aptly noted that this timeframe of *two to four months* was clearly within the timeframe that is prohibited under *Purcell*. This Court further noted that the timeframe was even shorter than that when one further considered the deadlines for commencement of early voting and when overseas and military ballots must be mailed.¹⁹

Plaintiffs contend that the delays at issue here are different than in *Singleton*.²⁰ Indeed, whereas in *Singleton* the date of the upcoming election and the dates when the ballots must be finalized were determinative in applying *Purcell*, here the date of consequence for purposes of the *Purcell* analysis should be the deadline for voter registration in person or by mail (i.e., February 21, 2024)²¹ since the challenge before this Court specifically concerns the *eligibility* of convicted felons to be considered “registered” to vote for the upcoming election.²² Thus, it is notable that the hearing on Plaintiffs’ motion for preliminary injunction is scheduled for hearing less than four months prior to that deadline.

Plaintiffs previously represented that the election at issue herein was less than five months away.²³ Although the hearing on the preliminary injunction has since been reset for October 25, 2023, that is still within 5 months of the presidential preference primary on March 23, 2024.²⁴ This close proximity to the date of the election is completely in line with that at issue in *Robinson v. Ardoin*, 37 F.4th 208, 229 (5th Cir. 2022),²⁵ which was also five months. Thus, under the prevailing case law, this is too close for federal courts to consider changes that will impact the election.

²⁰ Minute Entry Order [R. Doc. 27, p. 2].

²¹ Declaration of Sherri Hadskey, ¶19.

²² Indeed, Plaintiffs appear to admit the registration deadline is what controls in terms of the alleged “irreparable harm” they will face due to the “paperwork requirement” when they seek to register to vote. *See* Doc. 21-1, p. 27.

²³ *See* Minute Entry Order [R. Doc. 27, p. 2].

²⁴ Declaration of Sherri Hadskey, ¶13.

²⁵ In its Minute Entry Order [R. Doc. 27], this Court asked the parties to advise whether it is likely *Ardoin* will be decided this term. Given that the US Supreme Court’s decision in *Allen* was just issued on June 8, 2023 (based upon

In denying Plaintiffs' motion for expedited consideration, the Court rightly noted that "a decision on a matter of such importance" should not occur "without adequate briefing and time to consider."²⁶ In truth, there may not be sufficient time for this Court to make a considered ruling in this matter prior to the February voter registration deadline.²⁷ Moreover, Ardoin would not have sufficient time to implement any required changes into a new written procedure or to train the 64 Registrars of Voters ("ROVs") throughout the state nor to ensure proper compliance therewith prior to the registration deadline.²⁸ Meanwhile, Plaintiffs' members and constituents remain free to comply with the requirements of Louisiana's current statutory scheme in order to become reinstated to vote for the upcoming election. In fact, all of the members Plaintiffs rely upon for standing have already been reinstated or did not have their voter registrations suspended for conviction of a felony.

In his concurring opinion in *Merrill*, Justice Kavanaugh wrote,

"the *Purcell* principle...might be overcome even with respect to an injunction issued close to an election if a plaintiff establishes at least the following: (i) the underlying merits are entirely clearcut in favor of the plaintiff; (ii) the plaintiff would suffer irreparable harm absent the injunction; (iii) the plaintiff has not unduly delayed bringing the complaint to court; and (iv) the changes in question are at least feasible before the election without significant cost, confusion, or hardship."²⁹

Importantly, none of the factors discussed by Justice Kavanaugh in *Merrill* that might otherwise justify federal judicial intervention notwithstanding the *Purcell* doctrine are present here.

Therefore, Plaintiffs cannot make the showing necessary to overcome *Purcell*.

which *Ardoin* was previously stayed), Defendant has no basis to dispute this Court's preliminary research concerning the likely timeframe for a decision in *Ardoin*.

²⁶ R. Doc. 27, p.1.

²⁷ In line with this Court's observation that time for "adequate briefing" must be permitted on the issues to be decided, it would only be practical to permit time for post-hearing briefing and/or an opportunity to submit proposed findings of fact and conclusions of law to further assist the Court in reaching a decision. While this is completely reasonable, especially given a case of this magnitude, it further highlights the fact that a considered decision of Plaintiff's motion for preliminary injunction simply cannot be made in the time that is permitted.

²⁸ Declaration of Sherri Hadskey, ¶¶28-32 (generally).

²⁹ *Merrill, supra*, at 881.

A. The merits of Plaintiffs’ motion for preliminary injunction are not clearly in their favor.

The underlying merits of Plaintiffs’ motion for preliminary injunction are not clearly in their favor so as to overcome *Purcell*. First, Plaintiffs’ motion currently alleges NVRA violations will result in the denial of their members’ and constituents’ right to vote in the impending October 14, 2023 election,³⁰ which is solely a state election. The Court previously agreed with Defendant that the NVRA applies solely to elections for Federal office and not state elections.³¹ Despite that ruling, Plaintiffs have never amended their pending motion for preliminary injunction, which continues to base their “irreparable harm” upon their not being able to vote in the upcoming October 14, 2023 *state* election.³² Furthermore, as that election will occur *prior to* the hearing on their pending motion now scheduled for October 25, 2023, their alleged irreparable harm will not even be capable of redress through an injunction by the time of the hearing. As noted below, Plaintiffs also lack Article III standing to obtain injunctive relief as they have not identified a single member who was not able to become reinstated to vote despite the paperwork requirement. Finally, Plaintiffs’ motion is also without merit inasmuch as the NVRA is preempted by state law in the area of felon disenfranchisement.³³

B. Plaintiffs will not suffer irreparable harm absent the requested injunction.

As noted already, Plaintiffs will not suffer irreparable harm should the injunction not be granted as prayed for because (1) they improperly seek injunctive relief under the NVRA to vote

³⁰ See R. Doc.21-1, p. 14.

Supp. 3d 1107, 1132 (D. Kan.), aff’d, 691 F. App’x 900 (10th Cir. 2016), and aff’d, 840 F.3d 710 (10th Cir. 2016), and order enforced, 294 F. Supp. 3d 1154 (D. Kan. 2018).

³² Plaintiffs contend they “will suffer irreparable harm in the lead up to the October 2023 gubernatorial election in the form of infringements on or even denials of their members’ or constituents’ registration applications and irreversible expenditure of Plaintiffs’ limited resources.” R. Doc. 21-1, p.27.

³³ *American Civil Rights Union v. Philadelphia City Commissioners*, 2016 WL 472118 (E. D. Pa. 2016), citing *Lassiter v. Northhampton City Bd. Of Elections*, 360 U.S. 45, 51 (1959).

in the upcoming gubernatorial election on October 14, 2023, even though the NVRA does not apply to state elections, the election will occur prior to the hearing on October 25, 2023, and none of their members have standing to obtain an injunction in the first place; and (2) there can be no basis for an injunction under NVRA to compel their reenfranchisement. Under these circumstances, there can be no irreparable harm justifying action by this Court on Plaintiffs' motion for preliminary injunction prior to the October 2023 election. (See also argument below concerning irreparable harm.)

C. Plaintiffs have unduly delayed bringing their Complaint to court.

Plaintiffs' Complaint seeking declaratory and injunctive relief in these proceedings was filed on May 1, 2023, and their motion for preliminary injunction was not filed until May 22, 2023. Meanwhile, Plaintiffs' exhibits to their Complaint (mostly consisting of letters from them and their affiliates) belie the fact they were fully aware of the basis for their Complaint at least as early as August 30, 2022.³⁴ Likewise, although Plaintiffs' counsel must surely have known of the *Purcell* doctrine and its recent application by this Court in *Singleton*, they inexplicably chose to file their suit only within the last few months which has now impacted *Purcell* inasmuch as their pending request for injunctive relief is set for hearing within five months of the next federal election on March 23, 2024. There is no justification for Plaintiffs waiting until May 2023 to raise claims that they could have raised as early as the summer of 2022.

D. Implementing Plaintiffs' requested changes prior to the upcoming election would unfeasibly impose significant cost, confusion, and hardship upon the State.

³⁴ Plaintiffs assert in paragraph 78 of their Complaint [R. Doc. 1] that a letter of August 26, 2022 [Ex. 1 to R. Doc. 1] was the First Notice Letter sent to Ardoin. However, the original notice letter was actually the August 30, 2022 notice letter mentioned in the second paragraph of Exhibit 2 to their Complaint. It should also be noted that Exhibit 1 is referred to in paragraph 78 of their Complaint as an August 26, 2022 letter, but the label for Exhibit 1 is an August 22, 2022 letter, even though Exhibit 1 is an August 26, 2022 letter.

Just as this Court observed last year in *Singleton*, judicial intervention in the upcoming election upon the claims raised herein by Plaintiffs will undoubtedly result in significant cost, confusion, and hardship to the State of Louisiana.

First, there is a cost to the State in implementing any changes to the current voter registration reinstatement process, especially when it is so close to an election. As discussed in the Declaration of Brad Harris, because ERIN cannot currently display all of the records that DPS&C delivers monthly, development of a “new report or screen” would be necessary.³⁵ He believes that a new report and screen would cost at least \$16,000 to complete in both ERIN applications.³⁶ Meanwhile, Sherri Hadskey indicates ROVs would need to be trained in-person on the new processes and procedures for reinstatement of voters with felony convictions.³⁷ Tellingly, she states, “the Department of State does not have the manpower or resources at this time to dedicate to the development of new processes and procedures or to the training of the [ROVs] on new processes or procedures.”³⁸ Ms. Hadskey believes implementing these changes now “would result in significant cost to the Department of State through the development, testing, implementation, training, and education of affected voters, the registrars of voters and their staff, and any other persons involved in the voter registration reinstatement process.”³⁹

In addition to the cost, implementing changes in the current process will likely cause undue confusion as well. Ms. Hadskey surmises that “any change in our law, processes, or procedures for the reinstatement of suspended voters prior to the presidential preference primary on March 23, 2024 will cause confusion among affected voters, as well as the registrars of voters and their

staff.”⁴⁰ The unwarranted confusion caused in attempting to provide Plaintiffs their requested relief on such a compressed timeframe could ultimately jeopardize the security and integrity of the upcoming federal election.⁴¹

While the cost and confusion already demonstrate sufficient hardship, it further deserves noting that there are other significant duties performed by the Department of State that would have to be put on hold or potentially compromised to make any changes prior to the upcoming election. There are currently 300 work items backlogged in the Department’s IT Section., thirty of which are to go out before the election.⁴² In addition, there are other critical tasks that are currently underway and numerous potential tasks that are under consideration.⁴³ “Any changes ordered by the court to the current process Louisiana law prescribes for reinstating the suspended voter registration of felons will be impossible to implement this close to the election considering the other statutorily required duties/tasks that have to be performed and the day-to-day duties and responsibilities of the Secretary of State.”⁴⁴ In addition to the other training already noted, implementing a new procedure would also require training for DPS&C staff,⁴⁵ over which the Department has no control. Finally, the programmatic changes to ERIN required should this Court award Plaintiffs their requested relief would create additional hardship due to the blackout periods for the October 14, 2022 and March 23, 2024 elections, which are established to ensure programmatic changes do not compromise election integrity.⁴⁶

For all of the reasons stated herein and given the close proximity of the upcoming federal election, *Purcell* dictates that this Court should avoid considering Plaintiffs' motion for preliminary injunction at this time, especially as none of the factors that would otherwise require that it be considered are present here.

2) Impact of Legislative action per House Bill 396

The Court requested that the parties also address what impact Legislative action may have on the current litigation. At the time of the status conference held in this matter on May 31, 2023, Defendants noted House Bill 396 and its potential impact on this case by removing requirements that Plaintiffs contend are burdensome to previously convicted felons attempting to demonstrate their eligibility to register to vote. The 2023 Legislative Session ended at 6:00 p.m. on Thursday, June 8, 2023, and no additional Legislative action was taken with regard to House Bill 396. Therefore, Defendants concede the bill is now moot and would not justify this Court delaying further action in this matter.

3) Impact of *Allen v. Milligan*

Defendant is unaware of any impact the U.S. Supreme Court's decision in *Allen v. Milligan*, No. 21-1086, 2023 WL 3872517 (U.S. June 8, 2023) may have upon the instant litigation.

II. OPPOSITION TO PLAINTIFFS' MOTION FOR PRELIMINARY INJUNCTION

A. Plaintiffs lack standing to seek injunctive relief.

1. Plaintiffs lack Article III standing.

All three Plaintiffs contend that they have Article III standing to seek preliminary injunctive relief because they allegedly suffered an injury-in-fact through the diversion of "substantial resources from their respective organizational missions to educate eligible Louisianans with prior felony convictions on the state's onerous paperwork requirement and [to] assist them in navigating

it.”⁴⁷ To demonstrate standing, Plaintiffs must submit specific evidence showing that they are “directly affected” by Louisiana’s alleged violation of the NVRA, which applies only to federal elections.⁴⁸ The declarations submitted by Plaintiffs speak only to the alleged injuries that Plaintiffs will sustain if the documentation requirement is not enjoined prior to the October 2023 state gubernational primary.⁴⁹ Secretary Ardoin submits that Plaintiffs have failed to demonstrate Article III standing and adopts and incorporates by reference his argument regarding Article III standing in his Motion to Dismiss and Reply Memorandum.⁵⁰

Plaintiff VOTE asserts that it also has associational standing based on the alleged injuries to its members: “Many of VOTE’s members have sought assistance from VOTE in obtaining documentary proof of eligibility to register to vote. Some have been denied the right to vote because they were unable to meet the paperwork requirement in time for an election.”⁵¹

“[A]n association has standing to bring suit on behalf of its members when: (a) its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization's purpose; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit.”⁵² While Plaintiffs’ Complaint does not identify any specific members upon whose behalf suit was filed, Plaintiffs have disclosed the following members: (1) George Finney; (2) Eric Demond Calvin; and (3) ten other members

⁴⁹ Plaintiffs’ Motion for Preliminary Injunction was originally scheduled to be heard on June 27, 2023 and then rescheduled to July 5, 2023. R. Doc. 34. On June 23, 2023, the Court continued all deadlines associated with Plaintiffs’ Motion for Preliminary Injunction, finding that “there is no need to resolve this matter on an expedited basis before the gubernational election in October of 2023,” as the NVRA, the sole basis upon which Plaintiffs seek a preliminary injunction, is not applicable to state elections. R. Doc. 48. The hearing was rescheduled to October 25, 2023, after the gubernational primary election. R. Doc.61. Plaintiffs, however, have never amended their Memorandum in Support of Motion for Preliminary Injunction or their supporting declarations.

identified in response to Defendant's discovery request. None of these alleged members are sufficient to establish associational standing of VOTE because none would have standing in their own right to obtain the requested preliminary injunctive relief.

First, Gregory Finney admits in his declaration that his voter registration was already reinstated when Plaintiffs filed their Motion for Preliminary Injunction.⁵³ Indeed, Finney's Voter Election History Report indicates that he last voted on April 29, 2023, two days before the present suit was filed and three weeks before Plaintiffs requested a preliminary injunction.⁵⁴ As such, Finney does not have "an actual, ongoing stake in the litigation" and cannot be used to establish associational standing of VOTE.⁵⁵

Second, Eric Demond Calvin admits in his declaration that he is not currently eligible to have his voter registration reinstated.⁵⁶ As such, he is not one of the members of VOTE allegedly "denied the right to vote because they were unable to meet the paperwork requirement in time for an election," nor is he eligible to vote in the next federal election.⁵⁷ He will not suffer an injury-in-fact if the documentation requirement of La. R.S. 18:177(A) is not enjoined prior to the next federal election.

Finally, the ten other purported members of VOTE identified by Plaintiffs in discovery cannot be used to establish associational standing of VOTE. Four of the other ten members have not been subject to the reinstatement process of La. R.S. 18:177(A).⁵⁸ As such, these persons

⁵⁸ Declaration of Sherri Hadskey, paragraphs 38, 50, 52, and 56. and Attachments 1 (Voter BW), 7 (Voter CJ), 8 (Voter CY), and 10 (Voter MS). Due to the protective order in effect and pursuant to F.R.C.P. 5.2(a)(3), Defendant will refer to the persons identified in Plaintiffs' discovery response using their initials. As set forth in Ms. Hadskey's declaration, the voter registrations of these four individuals have not been suspended for conviction of a felony. Accordingly, there

cannot claim to have suffered an injury-in-fact as a result of the reinstatement process and thus, do not have standing to challenge the reinstatement process. As to the remaining six members, all of their voter registrations were reinstated prior to the instant suit being filed, and they all recently voted.⁵⁹ These purported VOTE members are not at risk of being unable to vote in the next federal election if the documentation requirement of La. R.S. 18:177(A) is not preliminarily enjoined. Since the voter registrations of these six members have been reinstated, they do not have “an actual, ongoing stake in the litigation” and cannot be used to establish associational standing of VOTE.⁶⁰

Plaintiffs have not identified any alleged members of VOTE who would be eligible to vote in the next federal election but prevented from doing so because of the documentation requirement of La. R.S. 18:177(A).⁶¹ Therefore, Plaintiff VOTE lacks associational standing.

2. NVRA standing.

Plaintiffs seek a preliminary injunction solely on the basis of their claims asserted pursuant to the NVRA. Plaintiff VOTE does not have standing under the NVRA because it failed to send pre-suit notice as required by 52 U.S.C. §20510(b)(1). Secretary Ardoin adopts and incorporates by reference his argument regarding VOTE’s lack of standing under the NVRA in his Motion to Dismiss and Reply Memorandum.⁶² Additionally, as set forth in Secretary Ardoin’s Motion to Dismiss, which is expressly adopted and incorporated by reference herein, the Coalition and the

would have been no need for reinstatement pursuant to La. R.S. 18:177(A), as there was no existing voter registration to reinstate.

⁶² See R. Doc. 32-1, p. 13-15; R. Doc. 65, p. 5-6.

League lack standing under the NVRA as to any alleged violations of the NVRA except Section 20505(a)(1) or 20507(a)(1).⁶³

B. Plaintiffs are not entitled to a preliminary injunction.

To the extent that Plaintiffs have standing, Plaintiffs are not entitled to the preliminary injunctive relief that they seek. “Plaintiffs seeking a preliminary injunction must show: (1) a substantial likelihood of success on the merits, (2) a substantial threat that plaintiffs will suffer irreparable harm if the injunction is not granted, (3) that the threatened injury outweighs any damage that the injunction might cause the defendant, and (4) that the injunction will not disserve the public interest.”⁶⁴ “A preliminary injunction is an extraordinary remedy and should only be granted if the plaintiffs have clearly carried the burden of persuasion on all four requirements.”⁶⁵

Plaintiffs seek a preliminary injunction “prohibiting Defendant from requiring ‘suspended’ voter registrants to provide documentary proof of eligibility before registering to vote.”⁶⁶ Currently, a person whose voter registration was suspended for conviction of a felony must provide documentation showing that he has not been incarcerated within the last five years in order to have his voter registration reinstated.⁶⁷ Thus, Plaintiffs’ request for preliminary injunctive relief seeks to alter the status quo.

“The purpose of a preliminary injunction is merely to preserve the relative positions of the parties until a trial on the merits can be held.”⁶⁸ Thus, “[m]andatory preliminary relief, which goes well beyond simply maintaining the status quo pendente lite, is particularly disfavored, and should

not be issued unless the facts and law clearly favor the moving party.”⁶⁹ Here, as set forth below, the facts and law do not clearly favor Plaintiffs. Therefore, Plaintiffs’ request for preliminary injunctive relief should be denied.

1. Plaintiffs are not substantially likely to succeed on the merits of their NVRA claims.

Plaintiffs are not substantially likely to succeed on the merits of their NVRA claims. As set forth in Defendant’s Motion to Dismiss and Reply Memorandum, which is expressly adopted and incorporated by reference herein, Plaintiffs’ NVRA claims are preempted by state law.⁷⁰ It is well established that voting eligibility with regard to felon disenfranchisement is an issue of State law.⁷¹ This was recently reaffirmed by the Fifth Circuit in *Roy Harness, et al. v. Michael Watson, Mississippi Secretary of State*.⁷² Indeed, the NVRA permits states to remove registrants due to criminal conviction or mental incapacity, “as provided by *state law*” and does not define how voting rights are reinstated after suspension for conviction of a felony.⁷³ Since Plaintiffs’ NVRA claims are preempted by state law, they are not likely to succeed on the merits of their claims.

2. There is no substantial threat of irreparable harm if an injunction does not issue.

To prevail, Plaintiffs must clearly demonstrate that irreparable harm would result if a preliminary injunction did not issue.⁷⁴ As an initial matter, it should be noted that the Coalition

and the League, two of the Plaintiffs herein, began corresponding with Secretary Ardoin in August of 2022 regarding alleged NVRA violations in connection with La. R.S. 18:177(A)(1) but did not file suit until May 1, 2023.⁷⁵ In the meantime, there were two federal elections held in Louisiana, November 8, 2022 and December 10, 2022.⁷⁶ The documentation requirement set forth in La. R.S. 18:177(A)(1) was in effect for each of those elections.⁷⁷ Plaintiffs' seven-month delay in filing suit undermines the immediacy of Plaintiffs' request for a preliminary injunction.

Plaintiffs allege two purported irreparable injuries: “[1] infringements on or even denials of their members’ or constituents’ registration applications and [2] irreversible expenditure of Plaintiffs’ limited resources.”⁷⁸ As to the first alleged irreparable injury, Plaintiffs contend that “if the Court does not grant preliminary relief, those voters may lose the right to vote before the Court can grant an effective remedy in the normal course.”⁷⁹ “The party seeking a preliminary injunction must also show that the threatened harm is more than mere speculation.”⁸⁰ To satisfy the element of irreparable harm, “there must be more than an unfounded fear on the part of the applicant.”⁸¹

To support their allegations of irreparable harm, Plaintiffs rely on the declarations of two individuals: Gregory Finney⁸² and Nziki Wiltz.⁸³ Finney, whose voter registration is reinstated, worries “that these issues with registration are being done to discourage people from voting.”

⁷⁵ R. Doc. 15-3. The August 30, 2022, letter to which Secretary Ardoin responded was not included as an exhibit to Plaintiffs’ Complaint. A copy of the August 30, 2022, letter is located at R. Doc. 24-1. The August 30, 2022, letter from the Power Coalition and League of Women Voters to Secretary Ardoin was sent 70 days prior to the November 8, 2022, federal election. Thus, pursuant to 52 U.S.C.A. § 20510, suit could have been filed within 20 days after receipt of the August 30, 2022 letter.

Our frequently reiterated standard requires plaintiffs seeking preliminary relief to demonstrate that irreparable injury is *likely* in the absence of an injunction.”).

Similarly, Wiltz, a former VOTE employee, worries “that these issues with registration are being done to discourage people from voting” and believes that if she “had not devoted so much time to this, many of the individuals who[m] [she] registered to vote would have just given up.” These allegations of irreparable injury are speculative, at best, and are not sufficient to support a preliminary injunction. Mere worries that unidentified voters *may* be discouraged from reinstating their voter registrations is not a clear demonstration of irreparable harm as required for a preliminary injunction.

To the extent that Plaintiffs have identified individuals allegedly affected by La. R.S. 18:177(A), none of these individuals would suffer irreparable harm if a preliminary injunction was not issued prior to the next federal election.⁸⁴ As this Court has previously determined, “the NVRA applies only to federal elections, not state elections.”⁸⁵ As previously discussed, the voter registrations of Declarant Finney and six other individuals identified by Plaintiffs in discovery were reinstated prior to the instant suit being filed. These persons are not at risk of being unable to vote in the next federal election if the documentation requirement of La. R.S. 18:177(A) is not preliminarily enjoined. Declarant Calvin admits that he is not eligible to have his voter registration reinstated prior to the next federal election on March 23, 2024.⁸⁶ Therefore, he will not suffer irreparable harm if the documentation requirement of La. R.S. 18:177(A) is not enjoined prior to the March 23, 2024, federal election.

The second alleged irreparable injury, irreversible expenditure of Plaintiffs’ limited resources, even if proven, does not constitute irreparable harm. “An injury is ‘irreparable’ only if

⁸⁴ As discussed above regarding standing, four other individuals identified by Plaintiffs in response to discovery were not registered to vote prior to their felony convictions and thus are not subject to the reinstatement process set forth in La. R.S. 18:177(A). The reinstatement process applies only to the “registration of a person whose registration was suspended by the registrar of voters pursuant to La. R.S. 18:176(A) [i.e., conviction of a felony].” *See* La. R.S. 18:177(A)(1).

it cannot be undone through monetary remedies.”⁸⁷ Plaintiffs contend that if a preliminary injunction is not issued, they “will be forced to expend significant resources – including time, volunteer power, money – to assisting and educating voters on the hurdles of registering after a felony conviction.”⁸⁸ Indeed, the only injury alleged by the Coalition and the League and upon which they assert standing is diversion of resources, which is capable of monetary compensation. Thus, “irreversible expenditure of Plaintiffs’ limited resources” is not an irreparable injury. Since Plaintiffs cannot establish irreparable harm, they are not entitled to preliminary injunctive relief.

3. The balance of the alleged harm and service of the public interest weighs in favor of denial of the preliminary injunction.

“A preliminary injunction is an extraordinary remedy never awarded as of right. In each case, courts must balance the competing claims of injury and must consider the effect on each party of the granting or withholding of the requested relief. In exercising their sound discretion, courts of equity should pay particular regard for the public consequences in employing the extraordinary remedy of injunction.”⁸⁹

Plaintiffs seek to enjoin Secretary Ardoin from enforcing the documentation requirement set forth in La. R.S. 18:177(A)(1).⁹⁰ “Where a lawful statute is enjoined, the state suffers irreparable harm by its injunction and the public interest lies in the enforcement of state laws.”⁹¹ “[A]ny time a State is enjoined by a court from effectuating statutes enacted by representatives of its people, it suffers a form of irreparable injury.”⁹² La. R.S. 18:177 is a lawful state statute. As such, enjoining its enforcement would result in irreparable harm to the state.

Moreover, the relief sought by Plaintiffs could not be implemented without significant cost and hardship. Plaintiffs argue that the documentation requirement is “unnecessary, given that Defendant already maintains and have [sic] access to the information they [sic] burden the prospective voter with supplying.”⁹³ However, the process is not as simple as Plaintiffs claim.

The Department of Public Safety & Corrections (“DPS&C”) disseminates to Defendant’s office each month a list of persons currently under its custody or control who are ineligible to register and vote.⁹⁴ The list is composed of a machine-readable file designed for computers to process and typically contains over 150,000 records.⁹⁵ The Department utilizes monthly data received from the Louisiana Department of Health and implements a process by which it “matches active and inactive voters statewide against the ineligible persons list.”⁹⁶ Information concerning potential matches is then maintained in the Elections and Registration Information Network (“ERIN”).⁹⁷ Potential matches are reviewed by the ROVs to determine “whether the match is sufficient to challenge a voter” as ineligible due to felony conviction.⁹⁸

ERIN does not have the capability to display to the ROVs all the records DPS&C delivers monthly.⁹⁹ “To protect personally identifiable information these records would need to be presented to the ROVs in a new report or screen which would have to be specced, scheduled, coded, tested, revised, tested again and deployed by contract staff under the direction of the Department.”¹⁰⁰ These changes cannot be implemented overnight.¹⁰¹

Plaintiffs incorrectly presume that anyone who is not included on the DPS&C list should automatically be deemed eligible to vote. However, the information provided by DPS&C does not include “a list of ineligible voters for federal or out of state felony convictions.”¹⁰² Such individuals would continue to be considered ineligible to vote under Louisiana law despite not being included on the DPS&C list.¹⁰³ The ERIN database is not able to programmatically identify whether a voter was suspended for conviction of a felony in Louisiana, another state, or federal court.¹⁰⁴ For these reasons, the issue of eligibility pertaining to suspended felons is not “entirely clearcut,” as Plaintiffs contend; indeed, these aspects highlight the complexity involved in how suspended felons who are eligible to vote must be determined. Therefore, Plaintiffs’ Motion for Preliminary Injunction should be denied.

WHEREFORE, for the foregoing reasons, Defendant, R. Kyle Ardoin, in his official capacity as Secretary of State of Louisiana, respectfully requests that this Honorable Court deny Plaintiffs’ Motion for Preliminary Injunction.

DECLARATION OF BRADLEY ROBERT HARRIS,
INFORMATION TECHNOLOGY ADMINISTRATOR

Pursuant to 28 U.S.C. § 1746, Bradley Robert Harris declares as follows:

1. My name is Bradley Robert Harris.
2. I am over 18 years of age, legally competent to give this declaration, and have personal knowledge of the facts set forth in it.
3. In 1987, I graduated from the University of Oklahoma with a Bachelor of Science degree in chemical engineering.
4. In 1996, I graduated from Louisiana State University with a Bachelor of Fine Arts degree.
5. In 1998, I was hired as an applications programmer for the Louisiana Department of Agriculture and Forestry.
6. In 2008, I was hired by the Louisiana Department of State (Department) as an applications project leader.
7. In 2018, I was promoted to Information Technology (IT) Director which was job corrected to IT Administrator in 2022.
8. In 2020, I received the 2019 Charles E. Dunbar, Jr. Award, the highest honor a classified employee can receive for service to the citizens of Louisiana.
9. As IT Administrator for the Louisiana Department of State, I plan and direct the activities of the Department's IT Section. I direct and monitor custom development of major applications having statewide impact and customized commercial off the shelf solutions used by our Department's divisions. I supervise employees responsible for delivering a secure, compliant, robust, reliable, scalable and efficient IT infrastructure used by the public and users in the offices of the Department, museums, voting machine warehouses, Registrar of Voters, and Clerks of Court.
10. I manage a staff of 27 professionals including deputy administrators, managers, a supervisor, application developers and specialists, information security specialists, and technical support analysts and specialists.
11. On June 5, 2023, I conducted electronic discovery to look for a letter dated August 22, 2022 or August 26, 2022 from Blair Bowie. I was unable to locate such a record either in

emails or stored documents for any Louisiana Department of State employee accounts for the period August 1, 2022 thru September 30, 2022. I did discover a letter dated August 30, 2022.

12. I have been solely responsible for the electronic discovery searches for the Louisiana Department of State since the end of 2018.
13. The Louisiana Department of State's Election and Registration Information Network (ERIN), originally developed in the late 1980's, was converted from mainframe to client-server technology in 2006.
14. ERIN is a suite of applications and websites used by the public and Department of State, Registrar of Voters (ROV) and Clerk of Court employees statewide.
15. ERIN consists mainly of four subsystems: the voter registration system, an elections administration module, a poll commissioner management function, and an election accounting system.
16. In January 2017, the U.S. Department of Homeland Security officially designated election infrastructure as critical infrastructure.
17. Election infrastructure is an assembly of systems and networks that includes: voter registration databases and associated IT systems; IT infrastructure and systems used to manage elections; voting systems and associated infrastructure; storage facilities for election and voting system infrastructure; and polling places.
18. ERIN is updated and improved with the assistance of specialized contract staff who work under the direction and side by side with the Department's staff.
19. Contractors complete background checks and quarterly cybersecurity training, sign non-disclosure agreements and only have access to the application code within our network.
20. The current contract requires trained security engineers to review all code for potential security risks prior to any code being deployed into our production environment.
21. The contract staff is currently assisting us in year four of a five year rewrite of ERIN. Any new functionality currently being implemented is being made twice, once in the current system and again in the new system.

22. There are currently 3 full-time Department staff working on ERIN. There are also 8 full-time contract employees along with other contractors brought in on demand for their specialized skills.
23. The Department has a formal application development process to ensure that any changes to our applications will work as expected since any change to an existing application can result in unintended consequences. While processes are in place to reduce the chance of this occurring, it is not guaranteed. For this reason, the Department by policy, practice and procedure has a blackout period for releasing any changes to existing applications during an election cycle because the Department cannot risk being unable to conduct an election. For each election cycle, the blackout period runs from the beginning of qualifying through the deadline for promulgating the election results, which is 14 days after the general election. The Department permits only minor bug fixes that are absolutely necessary to ensuring election integrity during this period of time.
24. The election cycle is defined as the period between candidate qualifying and the promulgation of the general election results.
25. It is my understanding that the Court has scheduled the hearing of Plaintiffs' motion for preliminary injunction for October 25, 2023. During this time, the Department will still be in the blackout period for the fall 2023 gubernatorial election, which will run from August 8, 2023 through December 1, 2023.
26. The next federal election to be held in Louisiana is the presidential preference primary on March 23, 2024.
27. Candidate qualifying for the presidential preference primary on March 23, 2024 is December 13-15, 2023.
28. Promulgation of presidential preference primary results must be by April 9, 2024.
29. Therefore, the blackout period for the next federal election will be December 13, 2023 through April 9, 2024. Thus, there is only a very small window of 11 days (December 2 – 12, 2023) between the next two blackout periods for the Department to implement programmatic changes without potentially impacting the integrity of those elections.
30. The Department receives a monthly file of ineligible persons currently under custody or control of the Louisiana Department of Public Safety & Corrections (DPS&C).

31. The file is machine readable and typically contains over 150,000 records. In its native format, the file is designed for computers to process and would be difficult for a person to understand.
32. The file contains the name, date of birth, social security number, race, gender, place of birth, address, phone, DPS&C number, and limited sentence and conviction information of persons within the custody and supervision of DPS&C who are ineligible to register and vote.
33. There can also be multiple records for an offender, especially if they have multiple convictions where they are under an order of imprisonment for conviction of a felony, their sentence is not complete and who have not been incarcerated pursuant to the order of imprisonment for five years or more.
34. Multiple records can also exist for ineligible persons under aliases.
35. Department of State IT staff receive notification that a file is available from DPS&C. This typically happens at 6 AM on the 5th day of each month (unless that day is a legal holiday or there is some other issue causing delay). Staff downloads the file and stores it for processing. Staff begin processing the file by importing the ineligible person data and Louisiana Department of Health's (LDH) death data on the same day for the benefit of the ROVs. Staff targets the second Monday of the month for these processes.
36. After the import there is an automated nightly process that matches active and inactive voters statewide against the ineligible persons list. This information concerning apparent matches is maintained in ERIN. If a match is made and that voter is not currently suspended, and the conviction doesn't already exist, a felon check event is added to the voter's record in ERIN. This felon check event is viewable by the ROVs and includes DPS&C and docket numbers. Unmatched records are ignored by the system.
37. Suspended voters remain in ERIN unless they are reinstated or are canceled as being deceased using processes outlined in statute.
38. The day after the nightly process runs, Department of State IT staff notify the ROVs that they may work on their reports.
39. The reports display possible matches by name in conjunction with date of birth and gender and by social security number in conjunction with date of birth.

40. While the ERIN reports would allow an ROV to view possible new matches in another parish, they are only responsible for working matches in their parish.
41. To work their report the ROV shall decide whether the match is sufficient to challenge the voter. If the ROV determines that the felon is not the same as the voter, they close the event on the voter's record which removes the match information from the report.
42. If the ROV confirms the felon and voter are the same person, they create a 21-day challenge event and the match information remains on the report until the challenge is finalized. 21-day challenge letters are generated and sent to OTS Production Support Services, which we refer to as State Printing, to print and mail. The 21 days commences the date we send the challenge letters to State Printing.
43. The challenge process can be completed by the ROV or automatically when a nightly task runs the night of the 21st day which suspends the voter and queues a suspension letter for State Printing to print and mail. The return address for both letters is the ROV address.
44. DPS&C does not provide the Department with a list of ineligible persons for federal or out of state felony convictions. Maintenance of documentation of the reason for the suspension of voters for federal or out of state felony convictions is at the discretion of the ROV. The ERIN database would not be able to programmatically identify these voters.
45. There is no capability in ERIN to display all the records DPS&C delivers monthly. To protect personally identifiable information these records would need to be presented to the ROVs in a new report or screen which would have to be specced, scheduled, coded, tested, revised, tested again and deployed by contract staff under the direction of the Department.
46. During the speccing process the search criteria would be determined to allow the ROV to determine whether a person is currently on the list without having to review 150,000 plus records. While a report could possibly, time, manpower, resources permitting, only take a month to produce after being specced and cost approximately \$4,000, a unique screen in ERIN would be more efficient for the ROVs to use. A new screen development is estimated to take at a minimum 2 months to complete and at least \$16,000 to complete in both ERIN application versions. Even if we set aside our current application improvement tasks and all other election related activities currently ongoing or about to begin, there is not sufficient time to get it deployed prior to the blackout period associated with the preference primary on March 23, 2024.
47. There are currently over 300 work items in our backlog.

48. More than 30 of these work items are scheduled to go out before the March 23rd election. Some of the more important tasks include:

- a. Converting the Department's pressure seal forms (6) to letters due to cost, paper supply chain issues and potential printing equipment failure;
- b. Upgrading infrastructure and improving performance of the Department's geographic information system viewer application used by our ROVs to confirm voter addresses are in their correct precinct and offices. This application is useful during redistricting to confirm a plan is correct before it is implemented;
- c. Changes required to update the name, image and signature of the new Secretary of State at noon on inauguration day, January 8, 2024; and
- d. Including voter registration update notifications to voters who are subscribed to receive push notifications, text messages or emails.

Other critical tasks currently underway but not required to be finalized before the preference primary also include completion of the five-year process to rewrite ERIN.

There are numerous potential tasks under consideration that we'll need to get started on soon such as:

- a. We are in negotiations with an individual state to share voter registration information to confirm registered voters are canceled when they move their registration to another state.

Other factors happening in the near future that will impact our ability to accomplish more include:

- a. The current contract for staff augmentation for application development expires as soon as the request for proposal process currently underway is completed.

49. ERIN does not store in the database the records received from DPS&C since this process was initiated back in 2006.

50. As approved by the State Archivist, record retention on the original files received from DPS&C is 5 years. If a voter was suspended based on a DPS&C file, it is possible to determine if they are no longer on the ineligible list but only if the ROV follows the instructions exactly without mistakes. However, this determination still would not include any ineligible voters based upon federal or out of state felony convictions.

51. Preliminary calculations indicate approximately 48% of the almost 168,000 suspended voters would be identified as suspended based on DPS&C files.

52. Should this Court determine that Plaintiffs are entitled to relief in this matter, it will require the Department to create a new process for submitting pertinent information to the ROVs. To protect personally identifiable information these records would need to be presented to

the ROVs in a new report or screen which would have to be specced, scheduled, coded, tested, revised, tested again and deployed by contract staff under the direction of the Department.

53. During the speccing process, appropriate search criteria would need to be developed so that a new report could be issued which will allow the ROVs to determine whether a person is currently on the list without having to review 150,000 plus records. While such a report would take at least a month to produce after being specced and would cost approximately \$4,000, a unique screen should also be implemented to ensure an efficient and trustworthy process for the ROVs to use in determining ineligible voters. A new screen is estimated to take at least 2 months to develop, test, implement and would cost at a minimum \$16,000 to complete in both application versions. Even if we set aside our current application improvement tasks, there is not sufficient time to get a new system deployed prior to the blackout period associated with the preference primary on March 23, 2024.
54. Any changes ordered by the court to the current process Louisiana law prescribes for reinstating the suspended voter registration of felons will be impossible to implement this close to the election considering the other statutorily required duties/tasks that have to be performed and the day-to-day duties and responsibilities of the Secretary of State. Implementing a change to the existing applications will result in the State incurring the associated costs to make those changes and will also cause increased hardship on staff due to the compressed timeframe in which the changes would need to be implemented. Based upon my experience, there is simply not enough time or resources to do this before the presidential preference primary while still maintaining election integrity.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on the 28th day of July, at Baton Rouge, Louisiana.

DECLARATION OF SHERRI WHARTON HADSKY,
LOUISIANA COMMISSIONER OF ELECTIONS

Pursuant to 28 U.S.C. § 1746, Sherri Wharton Hadskey declares as follows:

1. My name is Sherri Wharton Hadskey.
2. I am over 18 years of age, legally competent to give this declaration, and have personal knowledge of the facts set forth in it.
3. In August of 2017, I was appointed to the position of Commissioner of Elections for the State of Louisiana and have continued in that capacity ever since.
4. Since 1986, I have been involved in the administration of elections in Louisiana, beginning as a student worker for the Department of Elections and Registrations for the State of Louisiana and advancing in that department, and continuing to work with elections in 2004 when the Department of Elections and Registration was abolished and all functions of the Department of Elections were merged into the office of Secretary of State. I have been involved in all aspects of election work, including but not limited to elections, purchasing, registration, accounting, IT, and programming.
5. In 2005, I was appointed Director of Elections within the office of Secretary of State and served in that capacity until I was appointed Commissioner of Elections in 2017.
6. In 2005, I was a member of the committee which selected election equipment for the state of Louisiana and my duties included implementing the entire system for the state including training all registrars of voters, clerks of court, and field staff personnel; oversight of acceptance, testing and delivery of all equipment; voter outreach on the new equipment; and knowledge of the entire electronic system to program the machines.
7. The Departments/divisions working under my supervision as Commissioner of Elections include: election balloting; election services, election field operation, and elections IT/programming. There are 235 people working under my supervision all over the state.
8. In the course and scope of my duties, I work closely with all parish registrars of voters. I have received several awards from the Louisiana Registrars of Voters Association.
9. I also work intimately with parish clerks of court across the state in matters regarding voting machines, ballots, receipt of votes from clerks of court on election night, and other matters prescribed by the Louisiana Election Code. I have received several awards for this work from the Louisiana Clerks of Court Association.
10. In 2017, I received certification as a Certified Elections Registration Administrator (CERA) from the Election Center. This certification follows a two-year educational curriculum for elections administrators.

11. In January of 2017, I received the Dunbar Award for Civil Service, the highest honor a classified employee can receive for service to the citizens of Louisiana.
12. It is my understanding that the Court has scheduled the hearing of Plaintiffs' motion for preliminary injunction for October 25, 2023.
13. The next federal election to be held in Louisiana is the presidential preference primary on March 23, 2024.
14. The last federal elections held in Louisiana were the congressional primary and general elections on November 8, 2022 and December 10, 2022, respectively.
15. Attached as Hadskey Attachment A is a publication of Kyle Ardoin, Secretary of State and Sherri Hadskey, Commissioner of Elections, "2023 Ballot Box", where page 25 thereof sets forth the dates and deadlines pertaining to the presidential preference primary on March 23, 2024.
16. The deadline to call a special election for the presidential preference primary is November 15, 2023.
17. The deadline to call a proposition election for the presidential preference primary is also November 15, 2023.
18. The qualifying period for the presidential preference primary is December 13, 14, and 15, 2023.
19. The deadline to register to vote in person or by mail for the presidential preference primary is February 21, 2024.
20. The deadline to have a suspended registration reinstated to vote in person for the presidential preference primary is also February 21, 2024.
21. The online deadline to register to vote is March 2, 2024.
22. Early voting for the presidential preference primary begins on March 9, 2024 and ends on March 16, 2024.
23. The deadline to request a mail ballot from the registrar of voters for the presidential preference primary (other than military and overseas) is March 19, 2024.
24. The deadline for the registrar to receive a voted mail ballot for the presidential preference primary (other than military and overseas) is March 22, 2024.
25. I have reviewed the Declaration of Brad Harris and believe that the statements made therein are true and correct to the best of my knowledge, information, and belief.

26. The Elections Division, which is under my supervision, is responsible for training the registrars of voters and their staff on Louisiana's voter registration and reinstatement processes and procedures. Any changes to established processes and procedures require additional training of the registrars and their staff.
27. I am familiar with the process for suspending and reinstating the voter registrations of persons convicted of a felony.
- a. The registrar of voters for each parish receives a monthly report from ERIN, (Election and Registration Information Network), of individuals registered to vote in that parish who have been identified by the Department of Corrections as having been convicted of a felony. This report is described in more detail in the Declaration of Brad Harris.
 - b. This report is worked in the registrar's office by doing the following:
 - i. If the registrar determines that a name on the report matches a registered voter in his parish, he challenges the voter by sending a letter to the voter (Attachment C), letting him know of the felony information received and giving him the opportunity to show why his registration should not be suspended. If the individual does not appear in person in the registrar's office within twenty-one days to show proof as to why his voter registration should not be suspended, the ERIN system moves the voter from the challenge classification to the suspended classification.
 - c. If a voter's registration is suspended for conviction of a felony, the voter may be reinstated by appearing in person at the office of the registrar with a Voting Rights Certification form from the appropriate corrections official showing that he is either no longer under an order of imprisonment, or if he is still under such an order, that he has not been incarcerated pursuant to that order within the last five years and he is not under an order of imprisonment for felony conviction of election fraud or any other election offense pursuant to La. R.S. 18:1461.2.
28. Any changes to the processes and procedures for suspension or reinstatement of voters with felony convictions would require additional training of the registrars of voters and their staff by the Elections Division on the new processes and procedures in order to prevent or minimize confusion among the registrars. Training would necessarily include any changes made to the ERIN system as set forth in the Declaration of Brad Harris.
29. In my experience, training of the registrars is best conducted in person. Since there are 64 parish registrars, multiple in-person training sessions would need to be scheduled in order to accommodate the schedules and travel considerations of all 64 registrars. These training

sessions, as well as the development of training materials, would require my time and attention, as well as that of the Elections Division staff.

30. Given the presidential preference primary on March 23, 2024 and all of the deadlines preceding that, the Department of State does not have the manpower or resources to dedicate to the development of new processes and procedures or the training the registrars of voters on new processes and procedures regarding suspension or reinstatement of voters with felony convictions within the limited timeframe between this Court's anticipated ruling and the presidential preference primary.
31. The legal and elections division of the Secretary of State's office drafts all forms, letters, and legal notifications related to this matter that are utilized in any election process. Once approved, the IT division of the Secretary of State's office must work with the developers to create the notifications and documents in ERIN (Election and Registration Information Network). Once developed, this information is then submitted to the office of state printing who provides the printed documents for use in the election process. The minimum amount of time for this overall process to be completed is 3-6 months.
32. The new process would also need to be added to the instructions/guidelines provided to the individuals eligible for reinstatement to make certain that they understand what is needed to reinstate their voter registrations. This information would need to be drafted and proofed by the department of state and the department of corrections and then printed material be ready for the correctional facilities around the state. The same information needs to be updated on the department of corrections website.
33. Considering all of the above and the Declaration of Brad Harris, it is my opinion that any change in our law, processes, or procedures for the reinstatement of suspended voters prior to the presidential preference primary on March 23, 2024 will cause confusion among affected voters, as well as the registrars of voters and their staff, and will impose a significant hardship on the Department of State in conducting an election that is already underway and guided by very strict state and federal statutory deadlines to accomplish certain election-related tasks (See Attachment A). Additionally, any change in our law, processes, or procedures for the reinstatement of suspended voters prior to the presidential preference primary would result in significant cost to the Department of State through the development, testing, implementation, training, and education of affected voters, the registrars of voters and their staff, and any other persons involved in the voter registration reinstatement process. Without sufficient time and resources to properly implement any plan the court may order, it is my opinion that the relief sought could not be accomplished without jeopardizing election security and integrity for the presidential preference primary on March 23, 2024.
34. As Commissioner of Elections, I am familiar with the Voter Election History Report generated by ERIN (Elections and Registrations Information Network). This report shows

the elections in which a voter was eligible to vote and whether he voted in that election. Any election in which the voter was not eligible to vote, including ineligibility due to suspension for conviction of a felony, would not appear on the Voter Election History Report.

35. I am familiar with the Voter Information Report generated by ERIN. This report shows the demographic, registration, and district information of a registered voter.
36. The information reflected in the Voter Election History Report and the Voter Information Report is input into ERIN by the parish registrars of voters.
37. Attached hereto as Hadskey Attachment 1 is a true and correct copy of the Voter Election History Report and the Voter Information Report generated by ERIN for registered voter B.W., Registration Number XXX7619, DOB XX/XX/1969. Information designated as confidential has been redacted.

LOUISIANA POLITICAL PARTIES

- If a candidate is a member of a **recognized political party** in Louisiana, then the name of the party appears after the candidate's name on the ballot.
- If the candidate is a **member of a political party** that is **NOT a recognized political party** in Louisiana, then "Other" appears after the candidate's name on the ballot.
- If the candidate is **NOT affiliated with any political party**, then "No Party" appears after the candidate's name on the ballot.
- There has been some confusion over "Independent". Some voters register as a member of the Independent Party. Some voters do not wish to be affiliated with a political party and refer to themselves as independent. If a candidate indicates "Independent" on qualifying papers, please confirm whether or not this is a party designation, because it determines whether the candidate is identified as "Independent" or "No Party" on the ballot.

Political Party	Type of Political Party	Appears on the Qualifying Form	Appears on the Ballot
Democratic	recognized	Democrat	Democrat
Republican	recognized	Republican	Republican
Green	recognized	Green	Green
Libertarian	recognized	Libertarian	Libertarian
Independent	recognized	Independent	Independent
Other	not recognized	party name that was provided if any	Other
Not affiliated with any party	-	No Party	No Party

R.S. 18:441.B authorizes political parties (other than Democratic and Republican) to become recognized if:

- At least 1,000 registered voters are registered as being affiliated with the party.
- The party files a notarized registration statement with Secretary of State. (form available on website: sos.la.gov)
- The party pays a registration fee of \$1,000 to Secretary of State.

Restrictions on newly-recognized political parties:

- Party is not entitled to representation on Parish Board of Election Supervisors, unless 5% of the registered voters in the state are registered as being affiliated with the party.
- When qualifying for office, candidates pay only the state qualifying fee and do not pay any party fees. R.S. 18:441(D)(1)
- Party cannot have Presidential Preference Primary party candidates for presidential nominee; must have 40,000 registered voters to participate in PPP.
- Party will cease to be recognized if no registered member of the party qualifies as a candidate in a primary election for any period of four consecutive years.

ELECTION WORKERS SELECTION CHART

Commissioner Selection Requirements:

- A. Commissioners are selected in accordance with the law. La. R.S. 433, 434; 196(A); 1286(A), 1300.10
- B. Prior to drawing the commissioners, the clerks of court shall review and print a copy of the ‘**Commissioner Selection – Active Eligible Voter Counts- 30 day**’ report from ERDN (located under the “Clerk?” tab > Commissioner Payroll > Reports > Commissioner Selection – Active Eligible Voter Counts- 30 day’ report) for the parish boards of election supervisors to use.
- C. The parish boards of election supervisors **MUST** use this report to select no more than the number of commissioners assigned on the report to each precinct. This report will be used by secretary of state’s accounting department for payment. Drawing more commissioners than allowed on this report will result in the clerk’s office paying for those additional commissioners, unless additional commissioners are approved.

Additional Commissioners Requests: Pursuant to La. R.S. 425(A)(3), the parish boards of election supervisors may submit a written request to the secretary of state designee asking for additional commissioners due to overcrowding **no later than 23 days prior to election.**

Reducing Between a Primary and General: The governing authority, with the approval of the parish board of election supervisors, may adopt a resolution reducing the number of commissioners; but may not reduce to less than 1 commissioner-in-charge and 2 commissioners. La. R.S. 425(A)(2)

Commissioner Training Requirements: Pursuant to La. R.S. 431(B)(5)(b), a pre-election school is required to be held for all presidential and congressional elections. For all other elections, the clerk of court in accordance with La. R.S. 431(B)(5)(a) may mail a notice to the commissioner **at least 14 days prior to the election** if a pre-election school will not be held and then the commissioners may receive payment as if it had been held.
