RESOLUTION(S)

LEGISLATIVE RESOLUTION 317. Introduced by Walz, 15.

WHEREAS, post-traumatic stress is a significant public health issue that can result from a variety of stressors including combat, interpersonal violence, high-impact collisions, natural disasters, and exposure to the suffering of others; and

WHEREAS, the diagnosis known as post-traumatic stress disorder was initially formulated in 1980 by the American Psychiatric Association to describe and categorize the symptoms and behavioral complications of severe traumatic stress; and

WHEREAS, post-traumatic stress has historically been unjustly portrayed as a mental illness caused by a preexisting flaw of character or ability, and the word "disorder" carries a stigma that perpetuates this misconception and creates a barrier that interferes with the ability of individuals to seek and receive timely care; and

WHEREAS, electro-magnetic imaging has shown that severe traumatic stress causes physical changes within the brain, which are more accurately described as an injury than a disorder; and

WHEREAS, any injury consistent with criteria A through H of section 309.81 of the Diagnostic Statistical Manual of Mental Disorders deserves consideration and compensation strictly matching legal entitlements provided for disabilities that have been or are currently classified as post-traumatic stress disorder; and

WHEREAS, all individuals deserve the investment of every possible resource to ensure their lasting physical, mental, and emotional well-being as well as timely access to appropriate treatment of traumatic stress injuries averting complications and preventing suicide; and

WHEREAS, all individuals suffering from post-traumatic stress injuries and the brave men and women who received these wounds while risking their lives to protect the freedom, safety, and welfare of others deserve special recognition for their gallantry, commitment, and sacrifice.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature recognizes June 27, 2024, as Post-Traumatic Stress Injury Awareness Day and June 2024 as Post-Traumatic Stress Injury Awareness Month in Nebraska.

2. That the Legislature urges all individuals to observe Post-Traumatic Stress Injury Awareness Day and Post-Traumatic Stress Injury Awareness Month with appropriate ceremonies and activities that promote public understanding of the challenges faced by individuals with traumatic stress injuries and their families.

AMENDMENT(S) - Print in Journal

Senator Brewer filed the following amendment to LB399:

AM2912

(Amendments to Standing Committee amendments, AM2702)

1 1. Strike sections 3 and 4 and insert the following new section:

2 Sec. 3. Section 70-1014.02, Revised Statutes Cumulative Supplement,

3 2022, is amended to read:

4 70-1014.02 (1) The Legislature finds that:

5 (a) Nebraska has the authority as a sovereign state to protect its

6 land, natural resources, and cultural resources for economic and

7 aesthetic purposes for the benefit of its residents and future

8 generations by regulation of energy generation projects;

9 (b) The unique terrain and ecology of the Nebraska Sandhills provide

10 an irreplaceable habitat for millions of migratory birds and other

11 wildlife every year and serve as the home to numerous ranchers and

12 farmers;

13 (c) The grasslands of the Nebraska Sandhills and other natural

14 resources in Nebraska will become increasingly valuable, both

15 economically and strategically, as the demand for food and energy

16 increases; and

17 (d) The Nebraska Sandhills are home to priceless archaeological

18 sites of historical and cultural significance to American Indians.

19 (2)(a) A privately developed renewable energy generation facility

20 that meets the requirements of this section is exempt from sections

21 70-1012 to 70-1014.01 if, no less than thirty days prior to the

22 commencement of construction, the owner of the facility:

23 (i) Notifies the board in writing of its intent to commence

24 construction of a privately developed renewable energy generation

25 facility;

26 (ii) Certifies to the board that the facility will meet the

1 requirements for a privately developed renewable energy generation

2 facility;

3 (iii) Certifies to the board that the private electric supplier will

4 (A) comply with any decommissioning requirements adopted by the local

5 governmental entities having jurisdiction over the privately developed

6 renewable energy generation facility and (B) except as otherwise provided

7 in subdivision (b) of this subsection, submit a decommissioning plan to

8 the board obligating the private electric supplier to bear all costs of

9 decommissioning the privately developed renewable energy generation

10 facility and requiring that the private electric supplier post a security

11 bond or other instrument, no later than the ~~third~~ fourth year following

12 commercial operation, securing the costs of decommissioning the facility

13 and provide a copy of the bond or instrument to the board;

14 (iv) Certifies to the board that the private electric supplier has
15 entered into or prior to commencing construction will enter into a joint
16 transmission development agreement pursuant to subdivision (c) of this
17 subsection with the electric supplier owning the transmission facilities
18 of sixty thousand volts or greater to which the privately developed
19 renewable energy generation facility will interconnect; ~~and~~
20 (v) Certifies to the board that the private electric supplier has
21 consulted with the Game and Parks Commission to identify potential
22 measures to avoid, minimize, and mitigate impacts to species identified
23 under subsection (1) or (2) of section 37-806 during the project planning
24 and design phases, if possible, but in no event later than the
25 commencement of construction; ~~;~~
26 (vi) Certifies to the board that the private electric supplier has
27 entered into a power purchase agreement with an electric supplier
28 operating in this state that is not a private electric supplier for the
29 output of the privately developed renewable energy generation facility;
30 and
31 (vii) For a proposed privately developed renewable energy generation
1 facility that has a generating capacity that is greater than ten
2 megawatts, certifies to the board that the entity with whom the private
3 electric supplier has entered into a power purchase agreement has held at
4 least one public meeting with advanced publicized notice in one of the
5 counties in which the proposed facility will be located at which (A) at
6 least fifty percent of the governing body of such entity attends either
7 in person or by videoconference, but with not less than one member of the
8 governing body physically present, (B) the private electric supplier
9 explains the need for the proposed facility and the type of facility, and
10 (C) real property owners in any of the counties in which the proposed
11 facility will be located are provided an opportunity to comment on the
12 proposed facility. The private electric supplier shall provide a report
13 to the board containing the minutes of any such meeting and how many
14 people commented on the proposed facility. Documentation received at any
15 such meeting shall be made available to the board upon its request. A
16 meeting described in this subdivision is not subject to the requirements
17 described in subdivision (2)(b)(iv) of section 84-1411.
18 (b) The board may bring an action in the name of the State of
19 Nebraska for failure to comply with subdivision (a)(iii)(B) of this
20 subsection, ~~except that such subdivision -Subdivision (a)(iii)(B) of~~
21 ~~this subsection~~ does not apply if a local government entity with the
22 authority to create requirements for decommissioning has enacted
23 decommissioning requirements for the applicable jurisdiction.
24 (c) ~~A~~ The joint transmission development agreement shall be entered
25 into to address construction, ownership, operation, and maintenance of
26 such additions or upgrades to the transmission facilities as required for
27 the privately developed renewable energy generation facility. The joint
28 transmission development agreement shall be negotiated and executed
29 contemporaneously with the generator interconnection agreement or other
30 directives of the applicable regional transmission organization with
31 jurisdiction over the addition or upgrade of transmission, upon terms
1 consistent with prudent electric utility practices for the
2 interconnection of renewable generation facilities, the electric
3 supplier's reasonable transmission interconnection requirements, and
4 applicable transmission design and construction standards. The electric
5 supplier shall have the right to purchase and own transmission facilities
6 as set forth in the joint transmission development agreement. The private
7 electric supplier of the privately developed renewable energy generation
8 facility shall have the right to construct any necessary facilities or
9 improvements set forth in the joint transmission development agreement
10 pursuant to the standards set forth in the agreement at the private
11 electric supplier's cost.

12 (3) Within ten days after receipt of a written notice complying with
 13 subsection (2) of this section, the executive director of the board shall
 14 issue a written acknowledgment that the privately developed renewable
 15 energy generation facility is exempt from sections 70-1012 to 70-1014.01
 16 if such facility remains in compliance with the requirements of this
 17 section.

18 (4) The exemption allowed under this section for a privately
 19 developed renewable energy generation facility shall extend to and exempt
 20 all private electric suppliers owning any interest in the facility,
 21 including any successor private electric supplier which subsequently
 22 acquires any interest in the facility.

23 (5) No property owned, used, or operated as part of a privately
 24 developed renewable energy generation facility shall be subject to
 25 eminent domain by a consumer-owned electric supplier operating in the
 26 State of Nebraska. Nothing in this section shall be construed to grant
 27 the power of eminent domain to a private electric supplier or limit the
 28 rights of any entity to acquire any public, municipal, or utility right-
 29 of-way across property owned, used, or operated as part of a privately
 30 developed renewable energy generation facility as long as the right-of-
 31 way does not prevent the operation of or access to the privately
 1 developed renewable energy generation facility.

2 (6) Only a consumer-owned electric supplier operating in the State
 3 of Nebraska may exercise eminent domain authority to acquire the land
 4 rights necessary for the construction of transmission lines and related
 5 facilities. There is a rebuttable presumption that the exercise of
 6 eminent domain to provide needed transmission lines and related
 7 facilities for a privately developed renewable energy generation facility
 8 is a public use.

9 (7) Nothing in this section shall be construed to authorize a
 10 private electric supplier to sell or deliver electricity at retail in
 11 Nebraska.

12 (8) Nothing in this section shall be construed to limit the
 13 authority of or require a consumer-owned electric supplier operating in
 14 the State of Nebraska to enter into a joint agreement with a private
 15 electric supplier to develop, construct, and jointly own a privately
 16 developed renewable energy generation facility.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 319. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to determine whether student-to-teacher ratio requirements should be considered or implemented in Nebraska by statute or regulation. The study should also consider whether student-to-teacher ratios should be tailored for special education instruction.

At least twenty-eight states have statutes or regulations that provide student-to-teacher ratio requirements. An additional ten states provide maximum class size requirements. A number of other states have laws that link funding to lower student-to-teacher ratios. Nebraska is among the states that have no statutory or regulatory student-to-teacher ratio requirements for public schools. If implemented, Legislative Bill 1081, introduced in the One Hundred Eighth Legislature, Second Session, would provide for student-to-teacher ratio requirements for special education and general education students in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 320. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to determine whether students with disabilities have experienced increased ability to access option enrollment opportunities in Nebraska and to

examine potential changes to the enrollment option program to better ensure students with disabilities have an increased ability to access option enrollment opportunities.

Prior to 2023, school districts had wide latitude to reject students with disabilities and evidence showed that most districts had closed enrollment option programs to all students with disabilities. In an effort to expand option enrollment opportunities for students with disabilities, section 79-239 was amended by Laws 2023, LB705, and now requires the adoption of capacity standards for acceptance and rejection of applications under the enrollment option program, and requires capacity for special education services to be determined on a case-by-case basis. Additionally, section 79-239 now requires school districts that reject such applicants to provide written notification to parents with the specific reasons for rejection including a description of the services and accommodations required for a student with a disability that the school district does not have capacity to provide.

This study should analyze applications under the enrollment option program, and acceptance or rejections thereof, in order to determine whether school districts are making individualized decisions as opposed to generalized decisions. The study should also examine and determine how the significant increases in special education funding granted in 2023 has been utilized by school districts to increase capacity in the enrollment option program for students with disabilities, and should consider what, if any, improvements need to be made to ensure that students with disabilities are regularly accepted to enrollment option programs across the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE BILL 550. Placed on General File with amendment.

[AM2869](#)

1 1. Strike the original sections and insert the following new
2 sections:
3 Section 1. Section 79-234, Revised Statutes Cumulative Supplement,
4 2022, is amended to read:
5 79-234 (1) An enrollment option program is hereby established to
6 enable any kindergarten through twelfth grade Nebraska student to attend
7 a school in a Nebraska public school district in which the student does
8 not reside subject to the limitations prescribed in section 79-238. The
9 option shall be available once during elementary school, once during
10 middle school or junior high school, and once during high school for a
11 total of three times only once to each student prior to graduation,
12 except that the option does not count toward such limitation if such
13 option meets, or met at the time of the option, one of the following
14 criteria: (a) The student relocates to a different resident school
15 district, (b) the option school district merges with another district,
16 (c) the student will have completed either the grades offered in the
17 school building originally attended in the option school district or the
18 grades immediately preceding the lowest grade offered in the school
19 building for which a new option is sought, (d) the option would allow the
20 student to continue current enrollment in a school district, (e) the
21 option would allow the student to enroll in a school district in which
22 the student was previously enrolled as a student, or (f) the student is
23 an open enrollment option student. Sections 79-232 to 79-246 do not
24 relieve a parent or guardian from the compulsory attendance requirements
25 in section 79-201.
26 (2) The program shall not apply to any student who resides in a
27 district which has entered into an annexation agreement pursuant to
1 section 79-473, except that such student may transfer to another district
2 which accepts option students.
3 Sec. 2. Section 79-237, Revised Statutes Cumulative Supplement,
4 2022, is amended to read:
5 79-237 (1) For a student to begin attendance as an option student in
6 an option school district, the student's parent or legal guardian shall
7 submit an application to the school board of the option school district
8 between September 1 and March 15 for attendance during the following and
9 subsequent school years. Except as provided in subsection (2) of this
10 section, applications submitted after March 15 shall contain a release
11 approval from the resident school district, or if the student is an
12 option student at the time of such application and applying to become an
13 option student at a subsequent option school district, a release approval
14 from the option school district the student is attending at the time of
15 such application, on the application form prescribed and furnished by the

16 State Department of Education pursuant to subsection (8) of this section.
 17 A district may not accept or approve any applications submitted after
 18 such date without such a release approval. The option school district the
 19 student is applying to attend shall provide the resident school district,
 20 and if applicable, the option school district the student is attending at
 21 the time of such application, with the name of the applicant on or before
 22 April 1 or, in the case of an application submitted after March 15,
 23 within sixty days after submission. The option school district the
 24 student is applying to attend shall notify, in writing, the parent or
 25 legal guardian of the student and the resident school district, and, if
 26 applicable, the option school district the student is attending at the
 27 time of the application, whether the application is accepted or rejected
 28 on or before April 1 or, in the case of an application submitted after
 29 March 15, within sixty days after submission. An option school district
 30 that is a member of a learning community may not approve an application
 31 pursuant to this section for a student who resides in such learning
 1 community to attend prior to school year 2017-18.

2 (2) A student who relocates to a different resident school district
 3 after February 1 or whose option school district merges with another
 4 district effective after February 1 may submit an application to the
 5 school board of an option school district for attendance during the
 6 current or immediately following and subsequent school years unless the
 7 applicant is a resident of a learning community and the application is
 8 for attendance to begin prior to school year 2017-18 in an option school
 9 district that is also a member of such learning community. Such
 10 application does not require the release approval of the resident school
 11 district or the option school district the student is attending at the
 12 time of such application. The option school district the student is
 13 applying to attend shall accept or reject such application within forty-
 14 five days.

15 (3) A parent or guardian may provide information on the application
 16 for an option school district that is a member of a learning community
 17 regarding the applicant's potential qualification for free or reduced-
 18 price lunches. Any such information provided shall be subject to
 19 verification and shall only be used for the purposes of subsection (4) of
 20 section 79-238. Nothing in this subsection requires a parent or guardian
 21 to provide such information. Determinations about an applicant's
 22 qualification for free or reduced-price lunches for purposes of
 23 subsection (4) of section 79-238 shall be based on any verified
 24 information provided on the application. If no such information is
 25 provided, the student shall be presumed not to qualify for free or
 26 reduced-price lunches for the purposes of subsection (4) of section
 27 79-238.

28 (4) Applications for students who do not actually attend the option
 29 school district that the student applied to attend may be withdrawn in
 30 good standing upon mutual agreement by ~~both~~ the resident and option
 31 school districts involved.

1 (5) No option student shall attend an option school district for
 2 less than one school year unless the student relocates to a different
 3 resident school district, completes requirements for graduation prior to
 4 the end of his or her senior year, transfers to a private or parochial
 5 school, or upon mutual agreement of the resident and option school
 6 districts cancels the enrollment option and returns to the resident
 7 school district or the previous option school district the student was
 8 attending immediately prior.

9 (6) Except as provided in subsection (5) of this section or, for
 10 open enrollment option students, in section 79-235.01, the option student
 11 shall attend the option school district until graduation unless the
 12 student relocates in a different resident school district, transfers to a
 13 private or parochial school, ~~or~~ chooses to return to the resident school
 14 district, or options into a subsequent option school district, except
 15 that no student may use the enrollment option program other than as
 16 provided in section 79-234.

17 (7) In each case of cancellation pursuant to subsections (5) and (6)

18 of this section, the student's parent or legal guardian shall provide
 19 written notification to the school board of the option school district or
 20 districts and the resident school district on forms prescribed and
 21 furnished by the department under subsection (8) of this section in
 22 advance of such cancellation.

23 (8) The application and cancellation forms shall be prescribed and
 24 furnished by the State Department of Education.

25 (9) An option student who subsequently chooses to attend a private
 26 or parochial school and who is not an open enrollment option student
 27 shall be automatically accepted to return to either the resident school
 28 district or option school district upon the completion of the grade
 29 levels offered at the private or parochial school. If such student
 30 chooses to return to the option school district, the student's parent or
 31 legal guardian shall submit another application to the school board of
 1 the option school district which shall be automatically accepted, and the
 2 deadlines prescribed in this section shall be waived.

3 Sec. 3. Original sections 79-234 and 79-237, Revised Statutes

4 Cumulative Supplement, 2022, are repealed.

[AM2843](#)

(Amendments to AM2544)

1 1. Strike the original sections and all amendments thereto and
2 insert the following new sections:
3 Section 1. Section 68-1206, Revised Statutes Supplement, 2023, is
4 amended to read:
5 68-1206 (1) The Department of Health and Human Services shall
6 administer the program of social services in this state. The department
7 may contract with other social agencies for the purchase of social
8 services at rates not to exceed those prevailing in the state or the cost
9 at which the department could provide those services. The statutory
10 maximum payments for the separate program of aid to dependent children
11 shall apply only to public assistance grants and shall not apply to
12 payments for social services.
13 (2)(a) As part of the provision of social services authorized by
14 section 68-1202, the department shall participate in the federal child
15 care assistance program under 42 U.S.C. 9857 et seq., as such sections
16 existed on January 1, 2023, and provide child care assistance to families
17 with incomes up to (i) one hundred eighty-five percent of the federal
18 poverty level prior to October 1, 2026, or (ii) one hundred thirty
19 percent of the federal poverty level on and after October 1, 2026.
20 ~~(b)(i)~~ ~~(b)~~ As part of the provision of social services authorized by
21 this section and section 68-1202, the department shall participate in the
22 federal Child Care Subsidy program. A child care provider seeking to
23 participate in the federal Child Care Subsidy program shall comply with
24 the criminal history record information check requirements of the Child
25 Care Licensing Act. In determining ongoing eligibility for this program,
26 ten percent of a household's gross earned income shall be disregarded
1 after twelve continuous months on the program and at each subsequent
2 redetermination. In determining ongoing eligibility, if a family's income
3 exceeds one hundred eighty-five percent of the federal poverty level
4 prior to October 1, 2026, or one hundred thirty percent of the federal
5 poverty level on and after October 1, 2026, the family shall receive
6 transitional child care assistance through the remainder of the family's
7 eligibility period or until the family's income exceeds eighty-five

8 percent of the state median income for a family of the same size as reported by the United States Bureau of the Census, whichever occurs first. When the family's eligibility period ends, the family shall continue to be eligible for transitional child care assistance if the family's income is below two hundred percent of the federal poverty level prior to October 1, 2026, or one hundred eighty-five percent of the federal poverty level on and after October 1, 2026. The family shall receive transitional child care assistance through the remainder of the transitional eligibility period or until the family's income exceeds eighty-five percent of the state median income for a family of the same size as reported by the United States Bureau of the Census, whichever occurs first. The amount of such child care assistance shall be based on a cost-shared plan between the recipient family and the state and shall be based on a sliding-scale methodology. A recipient family may be required to contribute a percentage of such family's gross income for child care that is no more than the cost-sharing rates in the transitional child care assistance program as of January 1, 2015, for those no longer eligible for cash assistance as provided in section 68-1724.

27 (ii) A household shall have all earned and unearned income excluded from its eligibility determination if the applicant or adult household member is:

30 (A)(I) Self-employed at a licensed child care program as described in section 71-1911, (II) employed at a licensed child care program as described in section 71-1911, (III) employed at a federal Head Start program, as described in 42 U.S.C. 9831 et seq., or (IV) employed at an Early Head Start program, as described in 42 U.S.C. 9840a;

4 (B) Verified for a minimum of thirty hours of employment per week; and

6 (C) Listed in the Nebraska Early Childhood Professional Record System as described in section 71-1962.

8 (iii) Child care programs with an eligible household described in subdivision (2)(b)(ii)(A)(II) or (2)(b)(ii)(A)(III) of this section shall make reasonable accommodations so that the eligible applicant or adult household member is not a primary caregiver to such applicant's or adult household member's child. If reasonable accommodation cannot be made, the department shall allow the applicant or adult household member to receive child care assistance for the applicant's or adult household member's child including when the applicant or adult household member is the primary caregiver for such child.

17 (iv) An eligible household described in subdivision (2)(b)(ii)(A)(I) of this section may enroll the household member's child in a child care program other than the household member's child care program to receive child care assistance.

21 (v) Nothing in subdivision (2)(b)(ii) of this section shall preclude a household from meeting additional eligibility requirements of the federal Child Care Subsidy program.

24 (vi) The department shall submit a report electronically to the Legislature on December 1 of each year that includes the monthly number of enrolled children and households by county and program type for households eligible pursuant to subdivision (2)(b)(ii) of this section.

28 (vii) No more than ten million dollars shall be spent annually for enrolled children under subdivisions (2)(b)(ii) through (vi) of this section.

31 (viii) The department shall provide for eligibility under subdivisions (2)(b)(ii) through (vi) of this section on a first-come, first-served basis and may limit eligibility once funds have been obligated for currently enrolled households through the remainder of the household's eligibility period. If all funds are obligated, the department shall maintain a wait list and when funds become available,

6 the department shall distribute such funds in the same manner as
7 specified in this subdivision.
8 (ix) Subdivisions (2)(b)(ii) through (ix) of this section shall
9 terminate effective October 1, 2026.
10 (c) For the period beginning July 1, 2021, through September 30,
11 2026, funds provided to the State of Nebraska pursuant to the Child Care
12 and Development Block Grant Act of 1990, 42 U.S.C. 9857 et seq., as such
13 act and sections existed on January 1, 2023, shall be used to pay the
14 costs to the state resulting from the income eligibility changes made in
15 subdivisions (2)(a) and (b) of this section by Laws 2021, LB485. If the
16 available amount of such funds is insufficient to pay such costs, then
17 funds provided to the state for the Temporary Assistance for Needy
18 Families program established in 42 U.S.C. 601 et seq. may also be used.
19 No General Funds shall be used to pay the costs to the state, other than
20 administration costs, resulting from the income eligibility changes made
21 in subdivisions (2)(a) and (b) of this section by Laws 2021, LB485, for
22 the period beginning July 1, 2021, through September 30, 2026.
23 (d) The Department of Health and Human Services shall collaborate
24 with a private nonprofit organization with expertise in early childhood
25 care and education for an independent evaluation of the income
26 eligibility changes made in subdivisions (2)(a) and (b) of this section
27 by Laws 2021, LB485, if private funding is made available for such
28 purpose. The evaluation shall be completed by July 1, 2024, and shall be
29 submitted electronically to the department and to the Health and Human
30 Services Committee of the Legislature.
31 (3) In determining the rate or rates to be paid by the department
1 for child care as defined in section 43-2605, the department shall adopt
2 a fixed-rate schedule for the state or a fixed-rate schedule for an area
3 of the state applicable to each child care program category of provider
4 as defined in section 71-1910 which may claim reimbursement for services
5 provided by the federal Child Care Subsidy program, except that the
6 department shall not pay a rate higher than that charged by an individual
7 provider to that provider's private clients. The schedule may provide
8 separate rates for care for infants, for children with special needs,
9 including disabilities or technological dependence, or for other
10 individual categories of children. The schedule may also provide tiered
11 rates based upon a quality scale rating of step three or higher under the
12 Step Up to Quality Child Care Act. The schedule shall be effective on
13 October 1 of every year and shall be revised annually by the department.
14 Sec. 2. Original section 68-1206, Revised Statutes Supplement,
15 2023, is repealed.

 11 all private electric suppliers owning any interest in the facility,
 12 including any successor private electric supplier which subsequently
 13 acquires any interest in the facility.
 14 (5) No property owned, used, or operated as part of a privately
 15 developed renewable energy generation facility shall be subject to
 16 eminent domain by a consumer-owned electric supplier operating in the
 17 State of Nebraska. Nothing in this section shall be construed to grant
 18 the power of eminent domain to a private electric supplier or limit the
 19 rights of any entity to acquire any public, municipal, or utility right-
 20 of-way across property owned, used, or operated as part of a privately
 21 developed renewable energy generation facility as long as the right-of-
 22 way does not prevent the operation of or access to the privately
 23 developed renewable energy generation facility.
 24 (6) Only a consumer-owned electric supplier operating in the State
 25 of Nebraska may exercise eminent domain authority to acquire the land
 26 rights necessary for the construction of transmission lines and related
 27 facilities. There is a rebuttable presumption that the exercise of
 28 eminent domain to provide needed transmission lines and related
 29 facilities for a privately developed renewable energy generation facility
 30 is a public use.
 31 (7) Nothing in this section shall be construed to authorize a
 1 private electric supplier to sell or deliver electricity at retail in
 2 Nebraska.
 3 (8) Nothing in this section shall be construed to limit the
 4 authority of or require a consumer-owned electric supplier operating in
 5 the State of Nebraska to enter into a joint agreement with a private
 6 electric supplier to develop, construct, and jointly own a privately
 7 developed renewable energy generation facility.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 321. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to determine the scope and use of student surveillance, monitoring, and tracking technology by school officials in Nebraska and the private companies involved that are contracting with schools for the use of such student surveillance, monitoring, and tracking technology.

The intersection of government and technology companies utilizing tools of mass surveillance raises red flags from a civil rights and civil liberties perspective. Numerous public schools in Nebraska have instituted various tracking systems of students or school-issued computers that can surveil and monitor student usage or student movement in classrooms and schools. The tracking systems include, but are not limited to, digital hall passes, anti-vaping devices, fingerprints swipes, and electronic surveys.

Tools of mass surveillance are being purchased and utilized with taxpayer funds through contracts with private companies. These tools may have legitimate use for educational purposes and new technologies can advance the goals of student success and school safety. However, it is unclear as to how decisions about the tools are being made, under what authority, whether or not students and families can opt in or out of these tools, how these tools interface with student privacy laws, whether these tools comply with constitutional rights and civil liberties, how much public funds are expended by schools in Nebraska for these tools, how these tools impact or are able to ensure proper accommodations for students with disabilities or individualized education programs, and how biometric or personally identifiable information is stored, shared, or sold with the private companies.

The study should also include, but not be limited to, a consideration of the following:

(1) What statutory reforms are necessary to ensure that the constitutional and privacy rights of students, parents, and guardians are protected regarding governmental and commercial surveillance of students; and

(2) What statutory reforms are necessary to provide remedies for students, parents, and guardians against schools and private surveillance or curriculum companies that misappropriate or improperly use collected data for commercial or other purposes beyond legitimate educational purposes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 324. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to determine whether the Nebraska statutes should be modified to provide a tax credit or consideration towards the purchase of a new or replacement vehicle for a private seller who sells a vehicle. This study should also consider whether a different sales tax rate should be assessed on the sale of pre-owned or used vehicles, or whether an exemption from sales tax for such vehicles is warranted.

In Nebraska, purchasers of new and used cars must pay the state sales tax whether the vehicle is purchased from a private party, a relative, a private seller, or a licensed car dealer. Nebraska does allow for the exclusion of the value of a trade-in vehicle from the purchase of another vehicle for purpose of calculating sales tax. Section 77-2701.35 allows exclusions from the sale price for credit from a trade-in vehicle that is taken as all or a part of the consideration for the sale of another vehicle. This statute does not impose a time requirement for qualifying a vehicle transfer as a trade-in credit but the Department of Revenue generally requires that a trade-in must occur at the time of the new vehicle purchase, or the completion of the Nebraska sales and use tax form for the purchase, completed by a licensed Nebraska dealer, which serves as the certification of the consideration between the parties including a trade-in credit.

As a practical matter, the option to exclude the value of a trade-in vehicle is not available to private parties who purchase individual vehicles from

other private parties. This results in a purchaser of a vehicle from a private seller having to pay sales tax on the total purchase price of a vehicle, regardless if the purchaser sold their own original vehicle at or near the time of the purchase.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ANNOUNCEMENT

Speaker Arch requested LB1188 be passed over on General Final.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 325. Introduced by Dungan, 26.

PURPOSE: The purpose of this resolution is to propose an interim study to determine whether changes to the Nebraska statutes relating to pretrial discovery are necessary to accommodate or to provide for parties to inspect or extract information from personal communication devices, computers, and other similar devices.

In Nebraska, the pretrial discovery process is governed mostly by statute. Various statutes provide that both prosecution and defense are entitled to inspect, investigate, and copy or receive copies of anticipated evidence or information material to a criminal case from opposing parties, witnesses, or other sources. Section 29-1913 provides that in certain instances if the prosecutor intends to use evidence consisting of scientific tests or analyses of ballistics, firearms identification, fingerprints, blood, semen, or other stains, a defendant may request the court to order the prosecutor to make available such evidence necessary to allow the defense to conduct like tests or analyses with its own experts. Section 29-1913 does not clearly provide for a defendant to request to inspect or extract material information from personal communication devices, computers, and other similar devices which the prosecutor may intend to use evidence from or which the state may have in its possession.

Nebraska has a statutory mechanism for postconviction relief, found in sections 29-3001 to 29-3004. The postconviction relief statutes do not provide for statutory discovery or allow for the typical discovery process available in other proceedings.

This study should consider whether changes to the Nebraska statutes relating to pretrial discovery are necessary to accommodate or to provide for parties to utilize discovery during the postconviction relief process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 326. Introduced by McKinney, 11.

WHEREAS, the 2024 Nebraska School Activities Association State Wrestling Tournament was held from February 15 through February 17 at the CHI Health Center Omaha; and

WHEREAS, Senior Ann Marie Meiman competed in the tournament for the Omaha North High School girls wrestling team coached by Steven Kirchner; and

WHEREAS, Meiman won the Girls 135-pound state championship by defeating Alexis Pehrson of Omaha Skutt; and

WHEREAS, Meiman is the first girl at Omaha North High School to win an individual state wrestling championship for Omaha North High School; and

WHEREAS, the Legislature recognizes the academic, athletic, and artistic achievements of the youth of our state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature congratulates Omaha North High School wrestler Ann Marie Meiman on winning the 2024 Girls 135-pound State Wrestling Championship.

[AM2978](#)

1 1. Strike the original sections and insert the following new
 2 sections:
 3 Section 1. For purposes of sections 1 to 7 of this act:
 4 (1) Case plan means a set of goals, conditions, and programs that
 5 is:
 6 (a) Based on a professional risk and needs assessment;
 7 (b) Tailored to the specific risks and needs of the veteran; and
 8 (c) Developed in collaboration with the veteran;
 9 (2) Condition from military service means substance-use disorder,
 10 military sexual trauma, traumatic brain injury, post-traumatic stress
 11 disorder, or another mental health condition that is related to an
 12 individual's military service in some manner and includes psychological
 13 effects from a veteran's time in service as well as from the period of
 14 family separation related to deployment;
 15 (3) Veteran means an individual who:
 16 (a) Is serving in the United States Armed Forces, including any
 17 reserve component or the National Guard;
 18 (b) Has served in such armed forces and was discharged or released
 19 from such service under conditions other than dishonorable; or
 20 (c) Has served in such armed forces and received a dishonorable
 21 discharge and such individual has been diagnosed with substance-use
 22 disorder, military sexual trauma, traumatic brain injury, post-traumatic
 23 stress disorder, or another mental health condition; and
 24 (4) Veteran justice program means the program described in sections
 25 2 to 5 of this act through which a veteran may request a court to defer
 26 entry of judgment of conviction for an offense pending completion of the
 27 program, and upon successful completion, avoid entry of judgment of
 1 conviction.
 2 Sec. 2. (1) The probation administrator shall create a veteran
 3 justice program as provided in sections 2 to 5 of this act and subject to
 4 the Supreme Court's rules. The program shall be available in every
 5 district court and county court.
 6 (2) A veteran justice program shall be operated by use of deferred
 7 judgments under section 29-2292, except that subdivisions (2)(a), (b),

8 and (c) of such section shall not apply.

9 Sec. 3. (1) A veteran shall be eligible to participate in a veteran
10 justice program if there is reason to believe that a condition from
11 military service contributed to the offense.

12 (2)(a) There shall be a rebuttable presumption that a veteran
13 eligible under subsection (1) of this section shall be allowed to
14 participate in a veteran justice program.

15 (b) This presumption applies even though a veteran may have
16 previously absconded from or violated pretrial release, probation,
17 parole, supervised release, or another form of court-ordered supervision,
18 including a violation arising from commission of a new offense or an
19 offense committed while previously participating in a veteran justice
20 program.

21 (c) The presumption shall only be overcome by a judicial finding,
22 based upon an individualized assessment of the veteran and consideration
23 of the supervision, treatment, and other programming available in the
24 community, that participation in the veteran justice program will not
25 reasonably ensure public safety.

26 Sec. 4. (1) A veteran justice program shall include the following
27 elements:

28 (a) Evidence-based treatment tailored to address the specific
29 challenges facing veterans, such as post-traumatic stress disorder,
30 traumatic brain injury, military sexual trauma, or another condition from
31 military service; and

1 (b) A case plan that:

2 (i) Is developed by the court with probation and appropriate
3 experts;

4 (ii) Is based on a professional assessment of the veteran's specific
5 risks and needs;

6 (iii) Is created in conjunction with input from the veteran;

7 (iv) Contains clear and individualized supervision and treatment
8 goals, including guidelines that detail the program rules, consequences
9 for violating the rules, and incentives for compliance; and

10 (v) Is communicated to the veteran at the start of the program.

11 (2) In the implementation of a veteran justice program, the district
12 court or county court shall retain discretion in:

13 (a) Determining eligibility for participation, subject to section 3
14 of this act;

15 (b) Establishing the conditions of the program, including the
16 creation of the case plan;

17 (c) Setting the terms of successful program completion and release
18 upon that successful completion; and

19 (d) Determining if the veteran has successfully completed the
20 program at a final hearing.

21 (3) A victim of the veteran shall have the opportunity to be
22 involved in the veteran justice program, including the opportunity to be
23 heard or submit a written statement at the final hearing where program
24 completion is determined.

25 (4) Upon successful completion of a veteran justice program, the
26 veteran shall be entitled to the relief provided for a deferred judgment
27 under section 29-2292.

28 Sec. 5. (1) When arraigning any defendant, the court shall offer the
29 defendant the ability to communicate his or her veteran status through
30 counsel or by other means. The court shall not require that the defendant
31 self-identify as a veteran in open court.

1 (2) When sentencing a defendant who is a veteran for any offense,
2 the court shall recognize the defendant's veteran status as a mitigating
3 factor in determining the sentence.

4 (3) The court shall consider a defendant's veteran status as a
5 mitigating factor in addition to any other mitigating factors provided by

6 law or considered by the court. The fact that a defendant may have
7 suffered trauma unrelated to military service or veteran status shall not
8 be used to deny the impact of any military trauma or condition of
9 military service.
10 (4) The court may take into consideration individual merit earned
11 during military service, overseas deployment, exposure to danger, and
12 service-connected disability ratings when considering sentencing
13 mitigation. When considering multiple factors, a court should give
14 additional credit for each factor.
15 (5) Unless the court finds that imprisonment is necessary for the
16 protection of the public, a sentence of imprisonment is inappropriate if
17 a veteran can show:
18 (a) A clear connection between the offense and a condition from
19 military service; and
20 (b) That the veteran has made progress in treating such condition.
21 (6) The court shall not:
22 (a) Use veteran status as an aggravating factor; or
23 (b) Require a connection between the offense and a condition from
24 military service in order to consider veteran status as a mitigating
25 factor.
26 (7) This section applies regardless of whether a veteran is eligible
27 for participation in a veteran justice program.
28 Sec. 6. (1) Law enforcement, court, and correctional personnel shall
29 verify the veteran status of any individual being processed through the
30 criminal justice system in order to identify individuals who may be
31 eligible for participation in a veteran justice program or for sentencing
1 mitigation as provided in section 5 of this act.
2 (2) Law enforcement, court, and correctional personnel shall receive
3 training designed to increase their understanding of cases involving
4 veterans, including veterans' exposure to violence and trauma. Such
5 training shall include attention on issues that disproportionately impact
6 female veterans, such as military sexual trauma.
7 Sec. 7. (1) The State Court Administrator shall compile information
8 on the number of veterans receiving, successfully completing, declining,
9 and denied participation in a veteran justice program and the sentencing
10 mitigation described in section 5 of this act.
11 (2) The State Court Administrator shall track outcomes among
12 veterans who participate in a veteran justice program, including
13 completion status, recidivism, and housing and employment status.
14 (3) Data collected under this section shall be disaggregated by
15 race, ethnicity, gender, age, military discharge characterization, and
16 the offense involved.
17 (4) On or before July 1, 2026, and on or before each July 1
18 thereafter, the State Court Administrator shall electronically submit a
19 report to the Judiciary Committee of the Legislature. The report shall
20 contain de-identified data collected pursuant to this section and shall
21 analyze the outcomes, successes, and areas for improvement of the veteran
22 justice programs and the sentencing mitigation described in section 5 of
23 this act.
24 Sec. 8. This act becomes operative on July 1, 2025.

 28 ~~which there is an enforceable commitment to verify the enforceable~~
 29 ~~commitment. Upon the filing of the request, such state entity shall~~
 30 ~~require, and the Internet service provider claiming the enforceable~~
 31 ~~commitment shall provide, documentation related to the enforceable~~
 1 ~~commitment. The state entity shall review the documentation and make a~~
 2 ~~finding as to the Internet service provider's compliance with the~~
 3 ~~enforceable commitment and the reasonable likelihood of meeting its~~
 4 ~~deployment obligations under the enforceable commitment. All~~

 6 ~~be deemed confidential and not subject to public disclosure pursuant to~~
 7 ~~sections 84-712 to 84-712.09.~~

8 ~~(b) There is no enforceable commitment and a location is considered~~
 9 ~~an unserved location when:~~

 11 ~~service provider for such location;~~

12 ~~(ii) The Internet service provider is disqualified by the granting~~
 13 ~~governmental entity from receiving a grant of federal or state funds to~~
 14 ~~deploy broadband service infrastructure to such location; or~~

15 ~~(iii) After reviewing documentation submitted pursuant to this~~
 16 ~~subsection, the state entity verifying the enforceable commitment finds~~
 17 ~~that the Internet service provider is not in compliance with the~~
 18 ~~enforceable commitment or will fail to meet the terms of the enforceable~~
 19 ~~commitment for such location.~~

20 ~~(5) The lessee shall make every reasonable effort to activate the~~
 21 ~~maximum amount of the leased fiber as is possible, within one year after~~
 22 ~~entering into the lease, unless good cause is shown.~~

- 5 Sec. 2. For purposes of the Newborn Safe Haven Act:
- 6 (1) Approved drop-off location means a hospital or other health care

10 911 service to have an emergency medical services provider transport the
11 newborn infant to the nearest hospital. Such person shall provide any

15 hospital, if applicable, the approved drop-off location or emergency
16 medical provider shall notify the department as soon as possible.

PURPOSE: The purpose of this resolution is to propose an interim study to consider changes to Nebraska law relating to Legislative Bill 999, introduced in the One Hundred Eighth Legislature of Nebraska, Second Session, hemp, controlled substances, and related areas of the law. The study should also examine whether a regulatory framework of hemp-related retail businesses would be appropriate or justified.

Hemp, also called industrial hemp, is a plant and agricultural commodity cultivated for use in the production of a wide range of products. The federal Agriculture Improvement Act of 2018 became law on December 20, 2018, and categorizes hemp as an agricultural commodity and removes hemp and tetrahydrocannabinols in hemp from scheduled control under the federal Controlled Substances Act. The federal Agriculture Improvement Act of 2018 also modified and conformed the federal Controlled Substances Act to recognize hemp as a new commodity by expressly removing hemp from the definition of marijuana and exempted tetrahydrocannabinols in hemp from the definition of tetrahydrocannabinol.

Nebraska changed its laws in 2019 in order to be consistent with federal law and to provide for the production of hemp. In the time since the changes, many businesses that are involved in the hemp-marketing business have been established. At present, the hemp industry generates over one hundred million dollars annually in the Nebraska economy.

Nebraska does not have regulatory authority over the sale or marketing of hemp products and the Department of Agriculture only issues licenses for the growing and cultivation of hemp pursuant to the Nebraska Hemp Farming Act. However, the sale of hemp products or similar items may be subject to other state laws, such as food laws, controlled substances laws, or deceptive trade practice laws despite the lack of hemp-specific regulations or laws. This state of affairs has allowed for some flexibility for retailers.

Legislative Bill 999, introduced in the One Hundred Eighth Legislature, Second Session, would make significant changes to Nebraska law and the hemp retail market. The bill received a public hearing conducted by the Judiciary Committee of the Legislature and was opposed by the hemp and hemp-retail industry. However, opponents of the bill expressed a willingness to discuss state regulation of the hemp and hemp-retail industry to address the motivation for the bill.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

[AM3053](#)

(Amendments to Standing Committee amendments, AM2702)

1 1. Strike sections 3 and 4 and all amendments thereto and insert the
2 following new sections:
3 Sec. 3. Section 70-1014.02, Revised Statutes Cumulative Supplement,
4 2022, is amended to read:
5 70-1014.02 (1) The Legislature finds that:
6 (a) Nebraska has the authority as a sovereign state to protect its
7 land, natural resources, and cultural resources for economic and
8 aesthetic purposes for the benefit of its residents and future
9 generations by regulation of energy generation projects;
10 (b) The unique terrain and ecology of the Nebraska Sandhills provide
11 an irreplaceable habitat for millions of migratory birds and other
12 wildlife every year and serve as the home to numerous ranchers and
13 farmers;
14 (c) The grasslands of the Nebraska Sandhills and other natural
15 resources in Nebraska will become increasingly valuable, both
16 economically and strategically, as the demand for food and energy
17 increases; ~~and~~

18 (d) The Nebraska Sandhills are home to priceless archaeological
19 sites of historical and cultural significance to American Indians; and -
20 (e) Local control, as vested in the county board for each respective
21 county, is the best mechanism for protecting local resources.
22 (2) (2)(a) A privately developed renewable energy generation
23 facility that meets the requirements of this section is exempt from
24 sections 70-1012 to 70-1014.01 if, no less than thirty days prior to the
25 commencement of construction, the owner of the facility notifies the
26 board and the county board of the county with zoning jurisdiction over
1 such facility : (i) Notifies the board in writing of the owner's its
2 intent to commence construction of a privately developed renewable energy
3 generation facility and apply for a conditional use permit or special
4 exception if required by such county. ;
5 (ii) Certifies to the board that the facility will meet the
6 requirements for a privately developed renewable energy generation
7 facility;
8 (iii) Certifies to the board that the private electric supplier will
9 (A) comply with any decommissioning requirements adopted by the local
10 governmental entities having jurisdiction over the privately developed
11 renewable energy generation facility and (B) except as otherwise provided
12 in subdivision (b) of this subsection, submit a decommissioning plan to
13 the board obligating the private electric supplier to bear all costs of
14 decommissioning the privately developed renewable energy generation
15 facility and requiring that the private electric supplier post a security
16 bond or other instrument, no later than the tenth year following
17 commercial operation, securing the costs of decommissioning the facility
18 and provide a copy of the bond or instrument to the board;
19 (iv) Certifies to the board that the private electric supplier has
20 entered into or prior to commencing construction will enter into a joint
21 transmission development agreement pursuant to subdivision (e) of this
22 subsection with the electric supplier owning the transmission facilities
23 of sixty thousand volts or greater to which the privately developed
24 renewable energy generation facility will interconnect; and
25 (v) Certifies to the board that the private electric supplier has
26 consulted with the Game and Parks Commission to identify potential
27 measures to avoid, minimize, and mitigate impacts to species identified
28 under subsection (1) or (2) of section 37-806 during the project planning
29 and design phases, if possible, but in no event later than the
30 commencement of construction.
31 (b) The board may bring an action in the name of the State of
1 Nebraska for failure to comply with subdivision (a)(iii)(B) of this
2 subsection. Subdivision (a)(iii)(B) of this subsection does not apply if
3 a local government entity with the authority to create requirements for
4 decommissioning has enacted decommissioning requirements for the
5 applicable jurisdiction.
6 (c) The joint transmission development agreement shall address
7 construction, ownership, operation, and maintenance of such additions or
8 upgrades to the transmission facilities as required for the privately
9 developed renewable energy generation facility. The joint transmission
10 development agreement shall be negotiated and executed contemporaneously
11 with the generator interconnection agreement or other directives of the
12 applicable regional transmission organization with jurisdiction over the
13 addition or upgrade of transmission, upon terms consistent with prudent
14 electric utility practices for the interconnection of renewable
15 generation facilities, the electric supplier's reasonable transmission
16 interconnection requirements, and applicable transmission design and
17 construction standards. The electric supplier shall have the right to
18 purchase and own transmission facilities as set forth in the joint
19 transmission development agreement. The private electric supplier of the
20 privately developed renewable energy generation facility shall have the

21 right to construct any necessary facilities or improvements set forth in
 22 the joint transmission development agreement pursuant to the standards
 23 set forth in the agreement at the private electric supplier's cost.
 24 (3) Within ten days after receipt of a written notice complying with
 25 subsection (2) of this section, the executive director of the board shall
 26 issue a written acknowledgment that the privately developed renewable
 27 energy generation facility is exempt from sections 70-1012 to 70-1014.01
 28 if: -

29 (a) The privately developed renewable energy facility meets the
 30 county's requirements for a conditional use permit or special exception;
 31 or

1 (b) The county does not require a conditional use permit or special
 2 exception for such privately developed renewable energy generation
 3 facility.

4 (4) The exemption allowed under this section for a privately
 5 developed renewable energy generation facility shall extend to and exempt
 6 all private electric suppliers owning any interest in the facility,
 7 including any successor private electric supplier which subsequently
 8 acquires any interest in the facility.

9 (5) No property owned, used, or operated as part of a privately
 10 developed renewable energy generation facility shall be subject to
 11 eminent domain by a consumer-owned electric supplier operating in the
 12 State of Nebraska. Nothing in this section shall be construed to grant
 13 the power of eminent domain to a private electric supplier or limit the
 14 rights of any entity to acquire any public, municipal, or utility right-
 15 of-way across property owned, used, or operated as part of a privately
 16 developed renewable energy generation facility as long as the right-of-
 17 way does not prevent the operation of or access to the privately
 18 developed renewable energy generation facility.

19 (6) Only a consumer-owned electric supplier operating in the State
 20 of Nebraska may exercise eminent domain authority to acquire the land
 21 rights necessary for the construction of transmission lines and related
 22 facilities. There is a rebuttable presumption that the exercise of
 23 eminent domain to provide needed transmission lines and related
 24 facilities for a privately developed renewable energy generation facility
 25 is a public use.

26 (7) Nothing in this section shall be construed to authorize a
 27 private electric supplier to sell or deliver electricity at retail in
 28 Nebraska.

29 (8) Nothing in this section shall be construed to limit the
 30 authority of or require a consumer-owned electric supplier operating in
 31 the State of Nebraska to enter into a joint agreement with a private
 1 electric supplier to develop, construct, and jointly own a privately
 2 developed renewable energy generation facility.

3 Sec. 4. Section 70-1015, Revised Statutes Cumulative Supplement,
 4 2022, is amended to read:

5 70-1015 ~~(1)~~ If any supplier violates Chapter 70, article 10, by (1)
 6 either ~~(a)~~ commencing the construction or finalizing or attempting to
 7 finalize the acquisition of any generation facilities, any transmission
 8 lines, or any related facilities without either first providing notice
 9 and meeting any county requirements for a conditional use permit or
 10 special exception, or without first ~~or~~ obtaining board approval,
 11 whichever is required, or (2) ~~(b)~~ serving or attempting to serve at
 12 retail any customers located in Nebraska or any wholesale customers in
 13 violation of section 70-1002.02, such construction, acquisition, or
 14 service of such customers shall be enjoined in an action brought in the
 15 name of the State of Nebraska until such supplier has complied with
 16 Chapter 70, article 10.

17 (2) ~~If the executive director of the board determines that a private~~
 18 ~~electric supplier commenced construction of a privately developed~~

19 renewable energy generation facility less than thirty days prior to
 20 providing the notice required in subdivision (2)(a) of section
 21 70-1014.02, the executive director shall send notice via certified mail
 22 to the private electric supplier, informing it of the determination that
 23 the private electric supplier is in violation of such subdivision and is
 24 subject to a fine in the amount of five hundred dollars. The private
 25 electric supplier shall have twenty days from the date on which the
 26 notice is received in which to submit the notice described in such
 27 subdivision and to pay the fine. Within ten days after the private
 28 electric supplier submits a notice compliant with subsection (2) of
 29 section 70-1014.02 and payment of the fine, the executive director of the
 30 board shall issue the written acknowledgment described in subsection (3)
 31 of section 70-1014.02. If the private electric supplier fails to submit a
 1 notice compliant with subsection (2) of section 70-1014.02 and pay the
 2 fine within twenty days after the date on which the private electric
 3 supplier receives the notice from the executive director of the board,
 4 the private electric supplier shall immediately cease construction or
 5 operation of the privately developed renewable energy generation
 6 facility.
 7 (3) If the private electric supplier disputes that construction was
 8 commenced less than thirty days prior to submitting the written notice
 9 required by subdivision (2)(a) of section 70-1014.02, the private
 10 electric supplier may request a hearing before the board. Such request
 11 shall be submitted within twenty days after the private electric supplier
 12 receives the notice sent by the executive director pursuant to subsection
 13 (2) of this section. If the private electric supplier does not accept the
 14 certified mail sent pursuant to such subsection, the executive director
 15 shall send a second notice to the private electric supplier by first-
 16 class United States mail. The private electric supplier may submit a
 17 request for hearing within twenty days after the date on which the second
 18 notice was mailed.
 19 (4) Upon receipt of a request for hearing, the board shall set a
 20 hearing date. Such hearing shall be held within sixty days after such
 21 receipt. The board shall provide to the private electric supplier written
 22 notice of the hearing at least twenty days prior to the date of the
 23 hearing. The board or its hearing officer may grant continuances upon
 24 good cause shown or upon the request of the private electric supplier.
 25 Timely filing of a request for hearing by a private electric supplier
 26 shall stay any further enforcement under this section until the board
 27 issues an order pursuant to subsection (5) of this section or the request
 28 for hearing is withdrawn.
 29 (5) The board shall issue a written decision within sixty days after
 30 conclusion of the hearing. All costs of the hearing shall be paid by the
 31 private electric supplier if (a) the board determines that the private
 1 electric supplier commenced construction of the privately developed
 2 renewable energy generation facility less than thirty days prior to
 3 submitting the written notice required pursuant to subsection (2) of
 4 section 70-1014.02 or (b) the private electric supplier withdraws its
 5 request for hearing prior to the board issuing its decision.
 6 (6) A private electric supplier which the board finds to be in
 7 violation of the requirements of subsection (2) of section 70-1014.02
 8 shall either (a) pay the fine described in this section and submit a
 9 notice compliant with subsection (2) of section 70-1014.02 or (b)
 10 immediately cease construction or operation of the privately developed
 11 renewable energy generation facility.

 13 70-1014.02."

7 three days report such violation to the attendance officer of the school,
8 who shall immediately investigate the case. When of his or her personal

 22 (3) The school may report to the county attorney of the county in
 23 which the person resides when the school has documented the efforts it
 24 has made as required by subsection (2) of this section that the
 25 collaborative plan to reduce barriers identified to improve regular
 26 attendance has not been successful and that the child has been absent
 27 more than twenty days per school year. The school shall notify the
 28 child's family in writing prior to referring the child to the county
 29 attorney. Failure by the school to document the efforts required by
 30 subsection (2) of this section is a defense to prosecution under section
 31 79-201 and adjudication for educational neglect under subdivision (3)(a)
 1 of section 43-247 and habitual truancy under subdivision (3)(b) of
 2 section 43-247. Illness that makes attendance impossible or impracticable

Senator Ballard filed the following amendment to LB1329:
AM3098

(Amendments to Standing Committee amendments, AM2831)

1 1. Insert the following new sections:
 2 Sec. 4. Section 79-234, Revised Statutes Cumulative Supplement,
 3 2022, is amended to read:
 4 79-234 (1) An enrollment option program is hereby established to
 5 enable any kindergarten through twelfth grade Nebraska student to attend
 6 a school in a Nebraska public school district in which the student does
 7 not reside subject to the limitations prescribed in section 79-238. The
 8 option shall be available once during elementary school, once during
 9 middle school or junior high school, and once during high school for a
 10 total of three times only once to each student prior to graduation,

11 except that the option does not count toward such limitation if such
12 option meets, or met at the time of the option, one of the following
13 criteria: (a) The student relocates to a different resident school
14 district, (b) the option school district merges with another district,
15 (c) the student will have completed either the grades offered in the
16 school building originally attended in the option school district or the
17 grades immediately preceding the lowest grade offered in the school
18 building for which a new option is sought, (d) the option would allow the
19 student to continue current enrollment in a school district, (e) the
20 option would allow the student to enroll in a school district in which
21 the student was previously enrolled as a student, or (f) the student is
22 an open enrollment option student. Sections 79-232 to 79-246 do not
23 relieve a parent or guardian from the compulsory attendance requirements
24 in section 79-201.

25 (2) The program shall not apply to any student who resides in a
26 district which has entered into an annexation agreement pursuant to
1 section 79-473, except that such student may transfer to another district
2 which accepts option students.

3 Sec. 5. Section 79-237, Revised Statutes Cumulative Supplement,
4 2022, is amended to read:

5 79-237 (1) For a student to begin attendance as an option student in
6 an option school district, the student's parent or legal guardian shall
7 submit an application to the school board of the option school district
8 between September 1 and March 15 for attendance during the following and
9 subsequent school years. Except as provided in subsection (2) of this
10 section, applications submitted after March 15 shall contain a release
11 approval from the resident school district, or if the student is an
12 option student at the time of such application and applying to become an
13 option student at a subsequent option school district, a release approval
14 from the option school district the student is attending at the time of
15 such application, on the application form prescribed and furnished by the
16 State Department of Education pursuant to subsection (8) of this section.
17 A district may not accept or approve any applications submitted after
18 such date without such a release approval. The option school district the
19 student is applying to attend shall provide the resident school district,
20 and if applicable, the option school district the student is attending at
21 the time of such application, with the name of the applicant on or before
22 April 1 or, in the case of an application submitted after March 15,
23 within sixty days after submission. The option school district the
24 student is applying to attend shall notify, in writing, the parent or
25 legal guardian of the student and the resident school district, and, if
26 applicable, the option school district the student is attending at the
27 time of the application, whether the application is accepted or rejected
28 on or before April 1 or, in the case of an application submitted after
29 March 15, within sixty days after submission. An option school district
30 that is a member of a learning community may not approve an application
31 pursuant to this section for a student who resides in such learning
1 community to attend prior to school year 2017-18.

2 (2) A student who relocates to a different resident school district
3 after February 1 or whose option school district merges with another
4 district effective after February 1 may submit an application to the
5 school board of an option school district for attendance during the
6 current or immediately following and subsequent school years unless the
7 applicant is a resident of a learning community and the application is
8 for attendance to begin prior to school year 2017-18 in an option school
9 district that is also a member of such learning community. Such
10 application does not require the release approval of the resident school
11 district or the option school district the student is attending at the
12 time of such application. The option school district the student is
13 applying to attend shall accept or reject such application within forty-
14 five days.

15 (3) A parent or guardian may provide information on the application
16 for an option school district that is a member of a learning community
17 regarding the applicant's potential qualification for free or reduced-

18 price lunches. Any such information provided shall be subject to
 19 verification and shall only be used for the purposes of subsection (4) of
 20 section 79-238. Nothing in this subsection requires a parent or guardian
 21 to provide such information. Determinations about an applicant's
 22 qualification for free or reduced-price lunches for purposes of
 23 subsection (4) of section 79-238 shall be based on any verified
 24 information provided on the application. If no such information is
 25 provided, the student shall be presumed not to qualify for free or
 26 reduced-price lunches for the purposes of subsection (4) of section
 27 79-238.

28 (4) Applications for students who do not actually attend the option
 29 school district that the student applied to attend may be withdrawn in
 30 good standing upon mutual agreement by ~~both~~ the resident and option
 31 school districts involved.

1 (5) No option student shall attend an option school district for
 2 less than one school year unless the student relocates to a different
 3 resident school district, completes requirements for graduation prior to
 4 the end of his or her senior year, transfers to a private or parochial
 5 school, or upon mutual agreement of the resident and option school
 6 districts cancels the enrollment option and returns to the resident
 7 school district or the previous option school district the student was
 8 attending immediately prior.

9 (6) Except as provided in subsection (5) of this section or, for
 10 open enrollment option students, in section 79-235.01, the option student
 11 shall attend the option school district until graduation unless the
 12 student relocates in a different resident school district, transfers to a
 13 private or parochial school, ~~or~~ chooses to return to the resident school
 14 district, or options into a subsequent option school district, except
 15 that no student may use the enrollment option program other than as
 16 provided in section 79-234.

17 (7) In each case of cancellation pursuant to subsections (5) and (6)
 18 of this section, the student's parent or legal guardian shall provide
 19 written notification to the school board of the option school district or
 20 districts and the resident school district on forms prescribed and
 21 furnished by the department under subsection (8) of this section in
 22 advance of such cancellation.

23 (8) The application and cancellation forms shall be prescribed and
 24 furnished by the State Department of Education.

25 (9) An option student who subsequently chooses to attend a private
 26 or parochial school and who is not an open enrollment option student
 27 shall be automatically accepted to return to either the resident school
 28 district or option school district upon the completion of the grade
 29 levels offered at the private or parochial school. If such student
 30 chooses to return to the option school district, the student's parent or
 31 legal guardian shall submit another application to the school board of
 1 the option school district which shall be automatically accepted, and the
 2 deadlines prescribed in this section shall be waived.

3 2. Renumber the remaining sections and correct internal references
 4 and the repealer accordingly.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 333. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to determine whether legislation similar to the model Hunger-Free Campus Bill is needed to address hunger and basic needs insecurity of Nebraska college students. This study should also determine the size and scope of hunger and basic needs insecurity of Nebraska college students, assess available resources to address hunger and basic needs insecurity of Nebraska college students, and research best practices other states utilize to address hunger and basic needs insecurity of college students.

Nationally, one in three college students face food insecurity and three in five college students face at least one form of basic needs insecurity. Basic needs include access to food, housing, health care, technology,

transportation, resources for personal hygiene, and child care and related needs. As students from diverse backgrounds are entering college with hopes of creating a better future, many are struggling to support themselves and finish their degrees. While additional forms of food assistance, such as local food pantries exist, many students do not know how to access these resources and the stigma of accessing such resources keeps students from using the resources.

The high cost of housing, transportation, textbooks, health care, and other living expenses, coupled with the rising cost of tuition, have created significant financial burdens for college students. These costs particularly impact students from low-income families, those who have children, first-generation and nontraditional college students, and former foster youth. Financial aid programs and scholarships designed for low-income students fail to cover the bulk of their needs and even if students work while in school the income from a job does not eliminate the threat of food and other basic needs insecurity.

Ten states have passed a version of the model Hunger-Free Campus Bill, which sends funding to public colleges to address student hunger. Any public college is eligible to access these funds if it meets certain criteria.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

VISITOR(S)

Visitors to the Chamber were students and teachers from St. Matthews Catholic School, Bellevue; Mary Jo Holdcroft, Bellevue; Arnold Tutorial Group, Arnold; Parker Jessen, Oshkosh; members of the Nebraska Library Association.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 336. Introduced by Cavanaugh, J., 9.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the method of funding for court interpreters and determine a stable or permanent funding arrangement to ensure Nebraska courts have qualified interpreters providing interpreting services. The study should also consider legislative or judicial policies that maintain and promote effective and professional interpreting services for courts and litigants in Nebraska.

It is a matter of fundamental fairness and due process of law that when a litigant, a witness, or a victim do not understand or speak English well enough to adequately comprehend or communicate in legal proceedings, a

qualified interpreter should be provided. In order to accommodate the rights of participants who do not speak English, the Nebraska Supreme Court, through the State Court Administrator, maintains a statewide register of interpreters consisting of certified and noncertified interpreters. All such interpreters must satisfy minimum requirements and be able to interpret simultaneously and consecutively and provide sight translation from English into the language of the non-English-speaking person and from the language of that person into English.

Interpreters are not employees of the Nebraska Supreme Court or the state. Instead, interpreters are paid an hourly rate set by the State Court Administrator. The rate is higher for certified interpreters than for non-certified. The hourly rates have not permanently changed since 2004, despite numerous attempts to increase the rates. In 2023, the Legislature appropriated funds to the Nebraska Supreme Court budget to increase the number of certified and non-certified interpreters and to provide for an automatic annual increase. Governor Jim Pillen vetoed this increase and the Legislature did not override the veto. As a consequence, many interpreters refused to work in Nebraska courts, opting to work in other legal interpreting services, such as in federal court or for courts in neighboring states, or in other interpreting services not related to law. Ultimately, the State Court Administrator was able to use residual money in its budget to increase the payment rate for interpreters on a temporary basis in order that interpreters would work in Nebraska courts.

Legislative Bill 864 was introduced in the One Hundred Eighth Legislature of Nebraska, Second Session, to continue the temporary increase arranged by the State Court Administrator. This appropriation, if signed into law, would only extend through the end of fiscal year 2024-25.

On January 25, 2024, in his State of the Judiciary to the Legislature, Chief Justice Mike Heavican of the Nebraska Supreme Court noted the historic increase in interpreter demand, not simply in the increased numbers of those who need interpreting services, but also the increase in the diversity of interpreted languages. The Chief Justice also stated that the Nebraska Supreme Court anticipates that the number of limited English proficient, deaf, and hard of hearing court and probation users to steadily increase in the coming years and that increased funding for language-access initiatives, including interpreters, is necessary.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

3 Sec. 2. (1) A veteran justice program shall be operated by use of
4 deferred judgments under section 29-2292, except as otherwise provided in
5 this section or the rules established by the Supreme Court.
6 (2) The Supreme Court shall establish rules for the creation and

18 (2)(a) There shall be a rebuttable presumption that a veteran
19 eligible under subsection (1) of this section and the rules established
20 under section 2 of this act shall be allowed to participate in a veteran
21 justice program.
22 (b) This presumption applies even though a veteran may have
23 previously absconded from or violated pretrial release, probation,
24 parole, supervised release, or another form of court-ordered supervision,
25 including a violation arising from commission of a new offense or an

1 dismissal by the victim. The judge shall consider the victim's statement,

19 (2) The State Court Administrator shall track outcomes among
20 veterans who participate in a veteran justice program, including
21 completion status, recidivism, and housing and employment status.

22 (3) Data collected under this section shall be disaggregated by
23 race, ethnicity, gender, age, military discharge characterization, and
24 the offense involved.

25 (4) On or before July 1, 2026, and on or before each July 1
26 thereafter, the State Court Administrator shall electronically submit a
27 report to the Judiciary Committee of the Legislature. The report shall

30 justice programs.

31 Sec. 7. Section 29-2260, Reissue Revised Statutes of Nebraska, is
1 amended to read:

2 29-2260 (1) Whenever a person is adjudicated to be as described in
3 subdivision (1), (2), (3)(b), or (4) of section 43-247, his or her
4 disposition shall be governed by the Nebraska Juvenile Code.

5 (2) Whenever a court considers sentence for an offender convicted of
6 either a misdemeanor or a felony for which mandatory or mandatory minimum
7 imprisonment is not specifically required, the court may withhold
8 sentence of imprisonment unless, having regard to the nature and
9 circumstances of the crime and the history, character, and condition of
10 the offender, the court finds that imprisonment of the offender is
11 necessary for protection of the public because:

12 (a) The risk is substantial that during the period of probation the
13 offender will engage in additional criminal conduct;

14 (b) The offender is in need of correctional treatment that can be
15 provided most effectively by commitment to a correctional facility; or

16 (c) A lesser sentence will depreciate the seriousness of the
17 offender's crime or promote disrespect for law.

18 (3) The following grounds, while not controlling the discretion of
19 the court, shall be accorded weight in favor of withholding sentence of
20 imprisonment:

21 (a) The crime neither caused nor threatened serious harm;

22 (b) The offender did not contemplate that his or her crime would
23 cause or threaten serious harm;

24 (c) The offender acted under strong provocation;

25 (d) Substantial grounds were present tending to excuse or justify
26 the crime, though failing to establish a defense;

27 (e) The victim of the crime induced or facilitated commission of the
28 crime;

29 (f) The offender has compensated or will compensate the victim of
30 his or her crime for the damage or injury the victim sustained;

31 (g) The offender has no history of prior delinquency or criminal
1 activity and has led a law-abiding life for a substantial period of time
2 before the commission of the crime;

3 (h) The crime was the result of circumstances unlikely to recur;

4 (i) The character and attitudes of the offender indicate that he or
5 she is unlikely to commit another crime;

6 (j) The offender is likely to respond affirmatively to probationary
7 treatment; ~~and~~

8 (k) Imprisonment of the offender would entail excessive hardship to
9 his or her dependents; ~~and~~ :

10 (l) The offender's prior military service and any service-related
11 trauma.

12 (4) When an offender who has been convicted of a crime is not
13 sentenced to imprisonment, the court may sentence him or her to
14 probation.

15 Sec. 8. This act becomes operative on July 1, 2025.

16 Sec. 9. Original section 29-2260, Reissue Revised Statutes of

RESOLUTION(S)

LEGISLATIVE RESOLUTION 337. Introduced by Hansen, 16.

PURPOSE: The purpose of this resolution is to propose an interim study to examine public assistance programs in Nebraska in order to determine whether program structures could be improved to better reward work and allow forward momentum for program participants.

The study shall include, but need not be limited to, an examination of the following:

(1) The eligibility thresholds of public assistance programs and the effect these thresholds have on the ability of program participants to increase their earnings or take new employment;

(2) The methods other states have utilized to address the limitations of public assistance programs created by eligibility thresholds; and

(3) Potential ways to improve public assistance programs in order to reward work and allow program participants to move off of public assistance programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 338. Introduced by Riepe, 12.

PURPOSE: The purpose of this resolution is to propose an interim study to examine health care delivery systems situated in rural areas, defined as all counties except Douglas, Lancaster, and Sarpy. This study shall focus on, but need not be limited to:

(1) Identifying legal barriers and operational impediments within the statutory framework governing health care delivery systems in rural areas;

(2) Assessing emerging technologies, procedures, and protocols to enhance operational efficiency of health care delivery systems in rural areas;

(3) Analyzing census figures, utilization rates, and identifying potential or ongoing shortages to inform strategic decision-making for health care delivery systems in rural areas;

(4) Staffing and education needs of health care delivery systems in rural areas;

(5) Funding of health care delivery systems in rural areas including medical assistance program utilization; and

(6) Any other areas of interest as deemed necessary by the committee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 339. Introduced by McKinney, 11.

PURPOSE: The purpose of this resolution is to propose an interim study to consider reforms to the parole process. This study should include, but need not be limited to, an examination of the following potential reforms:

- (1) Early release from parole for those who are compliant with conditions;
- (2) A good-time calculation for the terms of parolees;
- (3) Statutory changes to limit parole revocations to serious violations of parole rather than technical or minor violations; and
- (4) Any other potential reforms.

Nebraska's prison population, anticipated growth of such population, and the state's current needs for facility construction have all been recently examined by the state. In 2021 and 2022, state officials partnered with the Crime and Justice Institute to examine trends in Nebraska's criminal justice system and various policies and operations relating to the Nebraska Criminal Code and prison population. The Crime and Justice Institute Working Group produced data-driven policy reforms to reduce the state's projected prison population growth while promoting public safety and reducing recidivism. There were seven general policy priorities, and one of those policies was directly related to enhancing parole supervision for people reentering society.

One of the suggested reforms identified by the Crime and Justice Institute was to better utilize the parole process. In 2020, only fifty-eight percent of eligible offenders were placed on parole. Trends going back to 2011 showed fewer people being granted parole and when released, they had been in prison longer. The Crime and Justice Institute recommended a number of reforms to parole, all of which recommended greater use of parole.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 340. Introduced by McKinney, 11.

PURPOSE: The purpose of this resolution is to propose an interim study to review the death penalty in Nebraska. In 2015, Nebraska voters reinstated the death penalty in the state. Since reinstatement, Nebraska has only carried out one execution. This study should examine, but need not be limited to, the utility of the death penalty as well as the following subjects:

- (1) The method of execution available to Nebraska and what other death penalty states have for execution methodology;
- (2) The availability of execution drugs necessary to effectuate the lethal injection method that Nebraska presently uses;
- (3) The societal or racial disparity in application of the death penalty;
- (4) Prosecutorial practices relating to pursuing death penalty imposition;

- (5) Public opinion relating to the death penalty in Nebraska and in other jurisdictions;
- (6) The utility or value of the death penalty in Nebraska;
- (7) The deterrent effect on criminal behavior, if any, of the death penalty;
- (8) Alternatives to the death penalty;
- (9) The experiences of other states or jurisdictions relating to the death penalty; and
- (10) Any other subject relating to the death penalty in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 341. Introduced by McKinney, 11.

PURPOSE: The purpose of this resolution is to propose an interim study to determine the scope and use by school districts of a ban and bar action, banning and barring individuals from school property. This study should include an examination of whether the purported authority for such bans is appropriate and what statutory reforms are necessary to protect parents' rights to be involved in their child's education and to contest, appeal, or otherwise challenge a ban and bar action.

School districts for Nebraska public schools are utilizing a ban and bar process by which school districts prohibit students and family members from school property with the threat of police enforcement should an individual violate a ban. There are no regulations related to the appropriate use of a ban, the length of a ban, or to whom and when a ban may be applied. There have been instances of school districts instituting bans against students and family members who have disagreed with staff or administrators regarding the educational needs of the student, even though there was no evidence of a threat by the student or family member, and some school districts have even implemented four-year bans. There is no due process or appeal mechanism by which a student or family member can allege that a ban and bar is unreasonable or retaliatory.

The only authority for a school district to utilize a ban and bar arises from section 79-405, which states, in part, that every school district is a body corporate that possesses all the usual powers of a corporation for public purposes, may sue and be sued, and may purchase, hold, and sell such personal and real estate as the law allows. School districts have implemented ban and bar actions through the general right of corporations to prohibit trespass.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTION(S)**LEGISLATIVE RESOLUTION 342.** Introduced by Bosn, 25.

PURPOSE: The purpose of this resolution is to propose an interim study to consider changes to the juvenile justice system to address impacted juveniles who have mental health and substance use diagnoses.

Sufficient and available mental health services are presently lacking for many Nebraskans, including for youth and adolescents. Behavioral health and mental health services are especially needed for system-involved youth and those youth who are subject to any filing under the Nebraska Juvenile Code, particularly those youth who are subject to potential liberty restriction or secure detention.

This study should examine potential investments and funding to provide for mental health treatment professionals, programs, and facilities to meet the needs of Nebraska youth, adolescents, and adults through community-based services and accessible residential and inpatient care. The study should also determine how the state can provide assistance in supporting measures to improve mental health care in Nebraska communities. The study should also examine any statutory changes necessary to effectuate providing services to system-involved youth in need of behavioral health services.

This study shall include, but not be limited to, an examination of the following:

- (7) A determination of whether the fees are generating more revenue than is needed to fulfill the purpose of the fund;
- (8) Whether the agency or entity responsible for implementing the purposes of the cash fund is spending the funds as intended by the Legislature; and
- (9) Any agency recommendations for fee amounts based upon the findings.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 362. Introduced by Brewer, 43.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 363. Introduced by Brewer, 43.

PURPOSE: The purpose of this resolution is to propose an interim study to review the credentialing requirements for water-based fire protection system contractors in furtherance of the purposes of the Occupational Board Reform Act.

The study should include, but need not be limited to, an examination and consideration of whether the current means of regulating the profession:

(1) Is the least restrictive regulation which is necessary to protect consumers from undue risk of present, significant, and substantiated harms that clearly threaten or endanger the health, safety, or welfare of the public when competition alone is not sufficient and which is consistent with the public interest;

(2) Protects the fundamental right of an individual to pursue a lawful occupation;

(3) Is construed and applied to increase opportunities, promote competition, and encourage innovation; and

(4) Should be changed to conform to the policy principles set out in the Occupational Board Reform Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 364. Introduced by Brewer, 43.

PURPOSE: The purpose of this resolution is to propose an interim study to review the credentialing requirements for private detectives, private detective agencies, and plain clothes investigators in furtherance of the purposes of the Occupational Board Reform Act.

The study should include, but need not be limited to, an examination and consideration of whether the current means of regulating the profession:

(1) Is the least restrictive regulation which is necessary to protect consumers from undue risk of present, significant, and substantiated harms that clearly threaten or endanger the health, safety, or welfare of the public when competition alone is not sufficient and which is consistent with the public interest;

(2) Protects the fundamental right of an individual to pursue a lawful occupation;

(3) Is construed and applied to increase opportunities, promote competition, and encourage innovation; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 365. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to propose an interim study examining school guidelines and policies relating to LGBTQ bullying prevention. Currently, Nebraska's bullying statutes are governed by section 79-2,137, which directs school districts to develop and adopt policies concerning bullying prevention and education for all students. By reviewing school policies and practices and resources available to school districts, the Legislature can identify the challenges and areas for improvement to ensure that all students are protected from bullying in a school setting.

This interim study shall include, but need not be limited to:

(1) A review of available data on the prevalence of school bullying in Nebraska;

(2) A state-by-state review of bullying laws, and the progression of how best practices surrounding bullying has evolved;

(3) A state-by-state review of school nondiscrimination laws, including whether the state has guidance on the treatment of LGBTQ students; and

(4) Input from school districts, parents, and other stakeholders regarding recommendations and strategies to enhance and strengthen school policies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 366. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to propose an interim study to examine opportunities under the medical assistance program to improve state beneficiaries' social determinants of health by allowing coverage of clinically appropriate interventions that address enrollees' health-related social needs.

The Centers for Medicare and Medicaid Services recognize the important links between health-related social needs, health coverage, and health outcomes. Health-related social needs are an individual's unmet adverse social conditions that contribute to poor health such as food insecurity, unemployment, and housing instability. These needs can account for as much as fifty percent of health outcomes, drive health disparities, and increase costs.

The Centers for Medicare and Medicaid have demonstrated commitment to supporting states in efforts to improve population health, reduce disability, and lower overall health care costs through coverage of health-related social needs. A study of state medicaid programs that integrate health-related social needs services is appropriate to understand the potential outcomes of adopting this type of program in Nebraska.

This study shall include, but need not limited to, an examination of the following:

(1) Research on how social determinants of health and health-related social needs affect health services utilization, health care costs, health disparities, and health outcomes;

(2) Eligible populations and covered services in states that have integrated health-related social needs services into medicaid state plans;

(3) The results of integrating health-related social needs services into medicaid state plans in other states, including health outcomes, access, equity, cost savings, and cost-effectiveness of health care services and interventions;

(4) What the most appropriate medicaid authority is for health-related social needs services;

(5) How to align health-related social needs services with existing assistance programs available to the target populations; and

(6) Service delivery requirements, fiscal policies, and other federally mandated conditions for health-related social needs services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 367. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to propose an interim study to examine mechanisms to slow the rise of property tax valuations during periods of rapid property value increases. While the dramatic increase in home prices over the past ten years has shown the strength of our state's housing market, it has also created challenges for homeowners, as increasing property taxes have strained family budgets. This study should explore whether there are ways to flatten valuation increases so that homeowners could have more predictability in their year-to-year property tax bills.

The interim study shall include, but need not be limited to:

- (1) A review of available data on the increases in home valuations in Nebraska;
- (2) A state-by-state comparison of methods used to slow the growth of property tax valuations;
- (3) A review of county board of equalization methods of complying with the uniformity clause of the Constitution of Nebraska;
- (4) A comparison of assessment and equalization methods across counties in determining actual value, including the sales comparison approach, the income approach, and the cost approach; and
- (5) A consideration of potential changes the Legislature could adopt to address challenges that homeowners face from rising home valuations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 368. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the process for school districts to change the boundaries of individual schools within their districts. Given that many families move specifically to be near a certain school within a greater school district, the decision to change boundaries can upend planning for families and affect numerous relationships between students, teachers, and staff. Boundary changes involve a decision-making process that can be difficult; however,

changes are often necessary to facilitate growth within a school district. Parents should have the opportunity to voice their concerns and have full transparency regarding the process for changing school boundaries within a school district that determines which school their children will attend.

Currently, the process for school district boundary changes is governed by section 79-413. This interim study is meant to evaluate whether some of the process for school district boundary changes, such as notification to parents, should be replicated in school boundary changes within a district.

The interim study shall include, but need not be limited to, an examination of:

- (1) The processes that school districts in Nebraska use for interdistrict school boundary changes;
- (2) Statutes in other states relating to school boundary changes within a single school district;
- (3) Ways to facilitate communication between parents and school districts when school boundary changes are being considered;
- (4) How much advanced communication should be given to parents;
- (5) Strategies to increase transparency for school boundary changes; and
- (6) Public meeting laws in Nebraska, and whether school boundary changes should require an opportunity for public comment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 369. Introduced by Day, 49.

PURPOSE: The purpose of this legislative resolution is to propose an interim study to examine the barriers to voting and equal representation for Native Americans in Nebraska. In 2021, the federal Interagency Steering Group on Native American Voting Rights was created by Executive Order 14019. The goal of this executive order was to research the barriers Native Americans face in achieving full access to participate in United States elections, and to recommend ways to mitigate or eliminate these barriers. While this has yielded broad federal recommendations, further research into the challenges unique to Nebraska is warranted.

The interim study shall include, but need not be limited to:

- (1) A review and analysis of data on voter registration and voting on tribal lands in Nebraska;
- (2) Identification of barriers to voting for Native Americans in Nebraska;
- (3) Collaboration with stakeholders, including nonprofit organizations, faith-based institutions, and city, county, and tribal government officials to

evaluate and develop strategies and solutions to increase election accessibility;

(4) An evaluation of the effectiveness of policies, procedures, and programs implemented by other states directed toward Native American populations as they relate to election accessibility on tribal lands;

(5) An evaluation of the adequacy of policy coordination between counties and tribes; and

(6) Any recommendations for changes to policies, procedures, and programs to address the barriers to voting for Native Americans in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 370. Introduced by Day, 49.

PURPOSE: The purpose of this interim study is to examine the rise of retailers moving to digital-only transactions. A number of Nebraskans prefer to use cash, including individuals with concerns about the privacy of digital transactions, and individuals that do not have bank accounts or easy access to a bank account. As a result, several municipalities have adopted requirements that cash be an accepted option in all retail transactions that are not online. Federal legislation has been introduced that would require cash options for transactions under two thousand dollars. A study on cashless transactions can ensure access to goods and services, while working to protect the rights and interests of businesses in Nebraska.

The interim study shall include, but need not be limited to:

(1) A determination of how many Nebraskans rely primarily on cash for their purchases;

(2) The effect of requiring an option to use a cash-payment on businesses in Nebraska;

(3) The effect that widespread digital-only transactions would have on partners trying to leave relationships with joint finances;

(4) A consideration of exemptions for a cashless ban;

(5) Options to protect consumer privacy in cash and cashless transactions; and

(6) Ways to increase accessibility of digital payments for individuals without bank accounts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 371. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to examine the status of laws relating to consent and campus sexual assault in Nebraska. Under current Nebraska statutes, an absence of consent to sexual activity can be shown when the victim is compelled to submit by force, the threat of force, coercion, or deception; and a lack of consent can be expressed through words or conduct of the victim.

According to the Association of American Universities, nationwide, thirteen percent of all students have experienced sexual assault, and nearly twenty-five percent of undergraduate women have experienced some form of sexual assault. Given the pervasive occurrence of sexual violence on college campuses, in recent years some states have adjusted their laws governing consent to make it clear that consent means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. This interim study is meant to examine whether Nebraska's consent laws are sufficient to address campus sexual assault.

The interim study shall include, but not be limited to, an examination of:

(1) The law governing consent in Nebraska, including both statutes and case law;

(2) A review of such laws in other states and the evolution of such laws;

(3) Statutory reforms that may be necessary to ensure the safety of students on campus;

(4) Campus sexual assault policies in Nebraska and nationally; and

(5) Strategies that have been effective in reducing sexual assault on college campuses.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 372. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to propose an interim study to examine Nebraska's policies relating to the Board of Nursing and the Board of Advanced Practice Registered Nurses and to evaluate the effectiveness and usefulness of the Board of Advanced Practice Registered Nurses.

The nursing field has changed greatly since the statutory requirements for each of these boards were constituted. To accommodate all interested parties, it is essential to study the needs of the workplace in the field of nursing. Additionally, Nebraska is currently the only state with a Board of Advanced Practice Registered Nurses, which represents certified registered nurse anesthetists, certified nurse midwives, nurse practitioners, and clinical nurse specialists.

Ensuring that Nebraska prioritizes the special role advanced practice registered nurses have in the state's health care system will make Nebraska a more appealing state for advance practice registered nurses to practice, thus dissipating some of the shortages in the state's health care system. An evaluation of the state's policies for these boards might help determine if combining the Board of Nursing with the Board of Advanced Practice Registered Nurses will effectively represent all registered nursing interests in the state.

This study shall include, but need not be limited to, an examination of the following:

(1) The current requirements for members of the Board of Nursing compared to what would more accurately represent the nursing field in Nebraska;

(2) The current requirements for members of the Board of Advanced Practice Registered Nurses compared to what would more accurately represent the field of advanced practice registered nursing in Nebraska;

(3) The proportions of different types of nurses in the state, including, but not limited to, advanced practice registered nurses and licensed practical nurses;

(4) The percentage of registered nurses and advanced practice registered nurses practicing in primarily rural communities versus urban communities; and

(5) What the makeup of a potential combined Board of Nursing and Board of Advanced Practice Registered Nurses should be.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 373. Introduced by Ibach, 44.

PURPOSE: The purpose of this resolution is to propose an interim study to examine different methods, including potential statutory changes, to address the need to recruit, train, and retain individuals to practice dentistry in Nebraska.

The availability of qualified dental professionals is essential for maintaining the oral health of Nebraska communities. However, recruiting and retaining dentists, especially in underserved areas, presents significant challenges. Colleges of dentistry play a crucial role in providing advanced training, enhancing skills, and fostering the development of dental professionals. Enhancing these programs can contribute to addressing workforce shortages and improving access to dental care in the state.

This study shall include, but need not be limited to:

(1) Analyzing opportunities and challenges related to enhancing dentistry training programs offered by the University of Nebraska Medical Center and Creighton University, including potential avenues to increase the recruitment and retention of dental residents and qualified faculty members in Nebraska; and

(2) Any other issues related to improving the workforce development pipeline of dentists in Nebraska, especially as it relates to underserved areas and underserved patient populations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 374. Introduced by Ibach, 44.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the availability of healthy and affordable food choices in Nebraska communities. This study shall review research articles and other literature on the topic of availability of healthy and affordable food choices in Nebraska communities to evaluate overall food access in Nebraska and to inform public policy discussions on this topic. The study shall also identify potential public policy interventions that would increase access to and utilization of healthy food choices.

The study shall include, but need not be limited to:

(1) Reviewing alternative methodologies for defining low-grocery-access areas, as the United States Department of Agriculture definition of low-income and low-access areas, also known as food deserts, does not accurately identify the need for more food choices in every community, especially in rural areas;

- (2) Analyzing federal, state, and local efforts to provide healthy and affordable food to low-income and low-access areas;
- (3) Identifying resources and incentives the state may use to combat low access to food;
- (4) Identifying factors that limit access to healthy and affordable food choices within rural and urban communities and demographic groups;
- (5) Analyzing barriers and challenges for small locally owned grocery stores to provide healthy food options;
- (6) Reviewing current economic development policies that enable food retailers to improve or expand healthy food options and identify any gaps in access to healthy food options;
- (7) Evaluating mechanisms to develop markets and distribution of locally produced foods to meet the need for healthy and affordable food;
- (8) Evaluating how food insecurity affects Nebraska families; and
- (9) Evaluating the benefits of access to healthy and affordable food.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 375. Introduced by Ibach, 44.

PURPOSE: The purpose of this resolution is to propose an interim study to examine different methods, including potential statutory changes, to address the need to recruit, train, and retain individuals who practice production animal veterinary services in Nebraska. This study shall include, but not need be limited to:

- (1) Exploring the need for establishing a new college of production animal veterinary medicine at the University of Nebraska-Lincoln;
- (2) Analyzing opportunities and challenges related to expanding veterinary training programs offered by the School of Veterinary Medicine and Biomedical Sciences at the University of Nebraska-Lincoln, the Nebraska College of Technical Agriculture at Curtis, and Northeast Community College; and
- (3) Framing unique solutions tailored to Nebraska to increase the number of practitioners in production animal veterinary services, especially in rural areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 376. Introduced by Moser, 22.

PURPOSE: The purpose of this resolution is to propose an interim study to examine any issues within the jurisdiction of the Transportation and Telecommunications Committee of the Legislature that may arise during the interim.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 377. Introduced by von Gillern, 4.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the components of the State of Nebraska's public health registry data collection and the release of that data to appropriate research entities. This study should examine all public health registry information collected by the state through health registries and vital records and how that information is maintained and released for research purposes given the confidentiality and privacy parameters imposed by state and federal law, including criteria used by the Department of Health and Human Services in decisionmaking.

This study shall include, but need not be limited to:

(1) Identifying the public health data of all Nebraskans that is currently collected by the state related to health diagnoses, treatments, and outcomes by geographical location;

(2) Reviewing how other states collect and release health data and how those processes compare to Nebraska;

(3) Reviewing potential changes to the current data collection and release statutes, including criteria used by the Department of Health and Human Services in decisionmaking that would provide responsiveness to research data requests; and

(4) Examining potential ways to consolidate the Nebraska statutes relating to public health data.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 380. Introduced by DeBoer, 10.

PURPOSE: The purpose of this resolution is to propose an interim study to examine issues regarding affordable broadband in Nebraska.

The Affordable Connectivity Program, a federal benefit program to provide affordable broadband to households, announced that in February of 2024 it would no longer be able to enroll new households, and that by April of 2024 funding for the program will likely lapse. In Nebraska, approximately ninety-six thousand households have enrolled in the federal program. Nebraska is investing unprecedented amounts of money into providing broadband to areas that are currently unserved or underserved. It is vitally important that households are able to afford the broadband provided in such areas.

This study should include, but need not be limited to, an examination of the following:

- (1) Prices currently offered by Internet service providers to customers in service territories, including, but not limited to, available discounts and the cost of any devices required by the Internet service provider for broadband service, the speed of broadband service provided at each price point, the type of broadband service available in such areas, and any data caps related to customer plans offered;
- (2) Anticipated prices by Internet service providers in areas that are currently unserved or underserved who have received or who have applied to receive state or federal funds to provide Internet services in such areas, including the type of broadband service expected to be provided;
- (3) Government-led efforts to provide or encourage affordable broadband services, including, but not limited to, ways to coordinate efforts between the Legislature, the Public Service Commission, the Nebraska Broadband

Office, Internet service providers, and the federal government to encourage and support affordable broadband;

(4) Long-term issues relating to broadband deployment in high-cost, low-density areas, including, but not limited to, maintenance costs, legal obligations to continually provide service, consumer price variability, and new and emerging technologies; and

(5) Any other issues relating to the affordability and reliability of broadband services in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 381. Introduced by DeBoer, 10.

PURPOSE: The purpose of this resolution is to propose an interim study to conduct a comprehensive examination of court fees as a funding source for the court system and the judicial branch. In Nebraska, fees are assessed as part of the court costs for most, if not all, civil and criminal cases, including those related to traffic citations.

This study shall include, but need not be limited to, an examination of the following:

(1) Whether fees should be assessed on all cases or only certain types of cases;

(2) How court costs and fees in Nebraska compare to other states;

(3) The appropriateness and effectiveness of court fees as a means of providing funds for the court system or other agencies;

(4) The prioritization of fees collected and effectiveness of such fees to provide the court with sufficient resources and an analysis of the fees currently collected, the cost of each fee to court users, and how the fees are disbursed;

(5) Court fees and other ancillary expenses assessed to juveniles and their guardians, including, but not limited to, amounts collected yearly, any specific use of fees assessed to juveniles, and further examination of issues related to Legislative Bill 1089, introduced in the One Hundred Eighth Legislature, Second Session; and

(6) How much political subdivisions pay in court fees and whether any adjustments should be made.

The work of applied behavior analysts, occupational therapists, physical therapists, and speech therapists complement each other and result in well-rounded patient care. The services provided by behavior analysts in the educational and human resources spheres are essential to Nebraskans of all ages. Further study is required on how the scope of practice for behavior analysts can work in concert with the practice of occupational therapists, physical therapists, and speech therapists and can complement and enhance the services provided by those professions.

LEGISLATIVE RESOLUTION 387. Introduced by Day, 49.

PURPOSE: The purpose of this resolution is to propose an interim study to examine payment rates and methodology used by the Department of Health and Human Services for child and adolescent behavioral health care, child welfare, and juvenile service providers.

Nebraska is facing a crisis in access to adequate and appropriate behavioral health care, child welfare, and juvenile services. Rising costs for providers have exacerbated this issue and raised questions regarding current provider rates.

In order to determine if legislation is needed to ensure that providers are adequately funded, this study shall examine the current rates paid to providers and whether the Department of Health and Human Services payment methodology reflects legislative intent.

Upon completion of this study, a report shall be made that includes any suggested statutory changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 388. Introduced by Wishart, 27.

PURPOSE: The purpose of this resolution is to propose an interim study to examine what funding and appropriations are necessary to address the parking shortage for state employees and members of the public in the State Capitol environs and provide possible funding solutions to eliminate such shortage.

The citizens and employees of the State of Nebraska are keenly aware of the shortage of parking available in the area around the State Capitol. A parking study was completed in 2019 by the Department of Administrative Services, which identified issues that should be addressed in the determination of possible solutions to the parking problems in the State Capitol environs. Previously, issues and potential solutions were laid out in the Department of Administrative Services' Capital Campus Area 20-Year Master Plan, which was completed in 2017.

Since 2019, the number of state employees working in the State Capitol environs has increased and parking remains an issue for both employees as well as members of the public. This study shall also look into the effects that the ongoing heating, ventilation, and air conditioning project at the State Capitol has on the availability of parking as well as the potential impact of future projects in the surrounding areas. There also exists the possibility for a partnership with the city of Lincoln or private entities to address the shortage of available parking.

The committee shall examine the extent of the parking shortage for state employees and members of the public, provide possible solutions to eliminate such shortage, provide an update on the proposed changes in the 2019 Department of Administrative Services study, discuss a possible partnership with the city of Lincoln to address this issue, and examine the potential for cost savings through deployment of state-owned office space within the State Capitol environs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 390. Introduced by Brewer, 43.

PURPOSE: The purpose of this resolution is to propose an interim study to determine whether the Nebraska statutes should be changed to accommodate official recognition of customary adoptions. The study should also focus on whether changes to the Nebraska statutes or regulations are necessary to ensure that customary adoptions are regarded in the same manner as standard adoptions.

Some native and indigenous communities have a tradition of customary adoptions, or an adoption process that is recognized by the community and tribe which gives a child a permanent parent-child relationship with someone other than the child's birth parents. Many customary adoptions do not require termination or relinquishment of the rights of birth parents.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 1402A. Introduced by Linehan, 39.

A BILL FOR AN ACT relating to appropriations; to appropriate funds to aid in carrying out the provisions of Legislative Bill 1402, One Hundred Eighth Legislature, Second Session, 2024; and to declare an emergency.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 394. Introduced by Holdcroft, 36.

PURPOSE: The purpose of this resolution is to propose an interim study to identify and review all programs and services enacted by the Legislature which result or may result in an increase in expenditures of funds by counties and county governments assigned to perform or provide such programs and services. A review of the impact of unfunded and underfunded mandates on counties and county governments is appropriate as Nebraska seeks continued property tax reform. The committee may seek the participation and input of other committees of the Legislature.

The study shall include, but need not be limited to, an examination of the following:

- (1) Any and all statutes which presently impose unfunded or underfunded mandate obligations on counties;
- (2) Any corresponding increases in property taxes by counties to meet the requirements of unfunded or underfunded mandates;
- (3) Mandated but unfunded or underfunded programs or services which could be changed, eliminated, or repealed;
- (4) The impact on county finances of fees set by statute and whether such fees are appropriate; and
- (5) The impact of inadequate fees on property taxes by counties.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 395. Introduced by Bosn, 25; DeBoer, 10.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the tax and surcharge burden imposed on telecommunications services.

Nebraska has one of the highest rates of taxation on telecommunications consumers in the nation with a rate averaging nearly twenty-five percent for many wireline services. A disproportionate part of this tax burden results from universal service surcharges. While not technically classified as tax, this assessment is a surcharge that ultimately imposes the same financial burden on consumers as a tax. Originally conceived as a tool to help make rural telephone service available and affordable by adding a small charge to all Nebraska telephone customers, Nebraska's universal service surcharge has grown to be among the highest in the nation, and results in increasing the cost for wireline and wireless telephone services in Nebraska.

Broad consensus exists that every Nebraska home and small business should have access to robust broadband infrastructure and service. What is less clear is how to fund the goal of deploying broadband infrastructure most equitably and efficiently to every remaining unserved location in the state.

With approximately five hundred million dollars of promised support now in the pipeline for broadband deployment from the Broadband Bridge Program created under the Nebraska Broadband Bridge Act, the federal Broadband Equity, Access, and Deployment Program, and the federal Universal Service Fund, it is an opportune time to examine and understand the extent to which Nebraska's surcharge for the Nebraska Telecommunications Universal Service Fund, currently the second-highest surcharge in the nation, can be reformed and targeted to avoid placing a disproportionate and unfair burden for any remaining broadband deployment needed in the state on one class of customers, the customers of telephone service, or whether there are more equitable funding sources available to meet these needs.

This interim study should focus on these and other taxes and surcharges imposed on telecommunications services in Nebraska and determine ways the state can maintain and advance the efficiency and availability of telecommunications services in the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 403. Introduced by DeBoer, 10; Fredrickson, 20.

PURPOSE: The purpose of this resolution is to propose an interim study to examine telecommunications and issues discussed during the hearing on Legislative Bill 1256, introduced in the One Hundred Eighth Legislature,

Second Session. This study shall include, but need not be limited to, an examination of the following:

(1) Information sharing, including, but not be limited to, the sharing of proprietary information with the Public Service Commission during outages of 911 services;

(2) State oversight over communication service providers as it relates to 911 services;

(3) State and federal regulations as they relate to outages of 911 services to find areas for improvement; and

(4) Any other issues as they relate to outages of 911 services in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 404. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the impact of the services provided to eligible recipients of Temporary Assistance for Needy Families program funds and the most effective way to utilize such funds to provide services and cash assistance to Nebraskans receiving aid from the aid to dependent children program while living in poverty.

The aid to dependent children program, which provides time-limited direct cash assistance to families with children in deep poverty, is paid for by Temporary Assistance for Needy Families program funds. Over the last few decades, national data show that the number of families participating in the aid to dependent children program has dropped significantly but this does not mean there is a lack of need for such program, as the poverty data shows. Current participation in the aid to dependent children program is proportionately low in part because of administrative barriers, difficulty for participants to navigate a sanction-based program, a very low standard of need formula used for determining eligibility, and benefit levels which have not been updated in many years.

In 2020, more than ninety percent of Nebraskans who applied for the aid to dependent children program were denied. Nebraska is among the top five states with in number of denials for those applying to participate in the program. This study should focus on whether this trend can be reversed with use of existing funds like Temporary Assistance for Needy Families program rainy day funds.

This study should also focus on what changes to law or policy could be made to ensure needy families receive necessary assistance from the aid to

dependent children program, such as adjustments in calculations for the aid to dependent children program's standard of need formula and maximum benefit levels or changes in how child support is considered for recipients of the Aid to Dependent Children program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 405. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the process the Department of Health and Human Services uses in selecting a provider to service a foster home and the similarities and differences between agency supported foster homes, relative homes, and kinship homes.

Historically, the state has defined agency supported foster care and pre-adoptive care services to mean agency supported foster homes, relative homes, and kinship homes despite significant differences between the categories including resource needs, initial and ongoing training and licensing requirements, initial and ongoing staff training requirements, support for both the home and the child, transportation, pre-adoption support services, and other matters that effect foster children. The additional responsibility placed on other family members in relative homes and kinship homes often substantially impacts the other family members' capacity to welcome additional children into their homes along with other issues that impact all involved.

The demands on the child welfare provider community differ between the placement services for agency supported foster homes, relative homes, and kinship homes relating to the requirements and expectations outlined by the Department of Health and Human Services. In addition, the process used to select a provider to service a foster home can be disruptive to foster children and confusing to the provider community.

The study shall include, but need not be limited to, an examination of the following:

(1) The differences between agency-supported foster homes, relative homes, and kinship homes and the impact those differences have on foster children, families, and providers;

(2) The financial impact to both providers and the Department of Health and Human Services of serving agency-supported foster homes, relative homes, and kinship homes;

(3) The difference in requirements and expectations the Department of Health and Human Services has of providers for agency-supported foster homes, relative homes, and kinship homes; and

(4) The process the Department of Health and Human Services uses in selecting a provider to support relative homes and kinship homes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 406. Introduced by McDonnell, 5.

PURPOSE: The purpose of this resolution is to propose an interim study to explore the development of an institution dedicated to providing instruction, orientation, and ongoing professional development specifically tailored for elected officials and office holders in Nebraska. The potential institute shall aim to enhance governance through improved collaboration, leadership, and informed decisionmaking among Nebraska's public servants.

This study shall include, but not be limited to, collaboration with the following entities:

(1) Current and former elected officials at various levels of government within Nebraska;

(2) Academic institutions with public administration, political science, and leadership programs;

(3) Private sector leaders with experience in governance and leadership training;

(4) Nonprofit organizations focused on government accountability and transparency; and

(5) Public and private funding entities interested in supporting governance and leadership development.

The study should also explore the following:

(1) The feasibility of establishing an institute for collaboration and leadership for elected officials and office holders in Nebraska, including potential governance structures and locations;

(2) The core curriculum and orientation programs that would address the unique needs and challenges faced by elected officials and office holders, including ethical governance, public policy formulation, and constituent services;

(3) Potential public and private funding sources and models to ensure the institute's sustainability and accessibility to all elected officials and office holders in Nebraska;

(4) Best practices from similar institutions in other states or countries, including lessons learned and key success factors; and

(5) The potential impact of such an institute on enhancing the effectiveness, efficiency, and collaboration of Nebraska's public servants.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 410. Introduced by Dorn, 30.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the long-term fiscal sustainability of and how to best direct funding and appropriations towards sustaining a strong health care workforce in Nebraska, especially in rural communities.

The health care industry plays a crucial role in ensuring the well-being of Nebraska residents and the vitality of Nebraska communities. Hospitals across Nebraska face significant challenges in recruiting and retaining qualified health care professionals, including, but not limited to, physicians, nurses, allied health professionals, and support staff. The shortage of health care workers poses a threat to the quality and accessibility of health care services provided to Nebraskans, particularly in rural and underserved areas.

Addressing these workforce challenges requires a collaborative and multi-faceted approach involving health care organizations, educational institutions, government agencies, and other stakeholders. It is imperative for the Legislature to recognize and support efforts to mitigate the impact of these challenges and ensure the continued provision of high-quality health care services to all Nebraskans.

This study shall include, but need not be limited to, an examination of the following:

- (1) The funding streams and potential new sources of money for sustaining the health care workforce;
- (2) Grants and funding opportunities to assist in training costs for the health care workforce;
- (3) Current data on the significant workforce challenges facing hospitals and health care facilities across the state and the impact of housing and child care shortages on the health care industry;
- (4) Partnerships between health care organizations, educational institutions, and government agencies to address such challenges and develop innovative solutions;
- (5) Programs and initiatives aimed at recruiting and retaining health care professionals, especially in rural and underserved areas;
- (6) Funding and resources for health care workforce development programs, scholarships, loan repayment programs, and other incentives to attract and retain health care professionals in Nebraska;
- (7) Collaborations between government agencies, health care organizations, and educational institutions for identifying barriers to workforce development and implementing strategies to overcome workforce challenges;
- (8) Relevant stakeholders to prioritize the expansion of health care education and training programs, with a focus on meeting the evolving needs of Nebraska's health care employees; and
- (9) The progress of efforts to address hospital workforce challenges and exploring additional legislative measures as needed to support such efforts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 411. Introduced by Dungan, 26.

PURPOSE: The purpose of this resolution is to propose an interim study to review Legislative Bill 1072, introduced in the One Hundred Eighth Legislature, Second Session, and to research the topic of sustainable aviation fuel. Sustainable aviation fuel is an alternative fuel made from non-petroleum feedstocks that reduces emissions from air transportation. Sustainable aviation fuel can be blended at different levels with limits between ten and fifty percent depending on the feedstock and how the fuel is produced. According to the International Civil Aviation Organization, over three hundred sixty thousand commercial flights have used sustainable aviation fuel at forty-six airports, mainly in the United States and Europe. The demand for sustainable aviation fuel is presently greater than the available supply.

This study shall include, but need not be limited to, an examination of the following:

- (1) How many airports and airlines require sustainable aviation fuel to be used instead of traditional jet fuel;
- (2) What the environmental impact of sustainable aviation fuel is compared to traditional jet fuel;
- (3) What existing infrastructure Nebraska has to support sustainable aviation fuel production;
- (4) The economic impact increased use of sustainable aviation fuel would have on Nebraska;
- (5) What policies Nebraska needs to enact to attract sustainable aviation fuel producers; and
- (6) What other states have implemented to help increase sustainable aviation fuel production.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 412. Introduced by Cavanaugh, J., 9.

PURPOSE: The purpose of this resolution is to propose an interim study to examine possible changes to state law regarding the use of artificial

intelligence in political campaigns. Generative artificial intelligence technology has rapidly developed in recent years and audio and visual depictions of public figures created using artificial intelligence are becoming more common.

This study shall include, but need not be limited to, an examination of the following:

(1) Concerns related to the First Amendment of the Constitution of the United States and free speech regarding the regulation of political speech and artificial intelligence;

(2) Laws in other states regarding the use of artificial intelligence and disclosure in political advertisements and the penalties for violation of such laws;

(3) Federal laws and regulations regarding the use of artificial intelligence in political campaigns;

(4) Possible enforcement mechanisms under the Nebraska Political Accountability and Disclosure Act regarding use of artificial intelligence;

(5) Potential civil remedies regarding use of artificial intelligence; and

(6) Input from broadcasters, election officials, experts on artificial intelligence, and the public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

This study shall engage local law enforcement, prosecutors, defense attorneys, and the public in examining possible legislative solutions to prevent or curtail the number of incidents of theft in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 414. Introduced by Meyer, 41; Albrecht, 17; Dover, 19; Hughes, 24; Ibach, 44; Linehan, 39; Lippincott, 34; Sanders, 45; von Gillern, 4.

PURPOSE: The purpose of this resolution is to propose an interim study to determine the feasibility of having the state run all property assessment in Nebraska, merging county assessors with another office, or having county assessors be an appointed position.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 415. Introduced by Cavanaugh, M., 6.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the historic unwind of the federal COVID-19 Medicaid continuous coverage requirements as implemented by the Department of Health and Human Services. In March 2020, Congress passed a law responding to the COVID-19 pandemic that generally required states to keep most people enrolled in Medicaid coverage regardless of changes, such as a change in income. Nearly three hundred ninety thousand Nebraskans had been relying on Medicaid coverage for their health needs during the pandemic. The federal protections ended in March 2023. The department began the unwinding process and restarted terminations, the first of which were effective April 1, 2023. The unwinding is an unprecedented health coverage disenrollment event. Between April 2023 and February 2024, more than ninety-four thousand Nebraskans were terminated from Medicaid coverage during the unwinding period. The department has been tracking data throughout the unwinding process, which is projected to continue through summer 2024.

This study will examine the practices utilized by the department during the Medicaid unwind and related health coverage outcomes for Nebraskans. This study shall include, but not be limited to, data collection and information gathering regarding:

(1) Eligibility, enrollment, application, renewal, and redetermination policies and practices for the medical assistance program and the Children's Health Insurance Program during the unwinding period;

(2) Lessons learned from continuous coverage and unwinding; and

(3) Opportunities and plans to improve the systems utilized in eligibility, enrollment, application, renewal, and redetermination processes for the medical assistance program and the Children's Health Insurance Program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 416. Introduced by Dover, 19.

PURPOSE: The purpose of this resolution is to propose an interim study to examine what funding options and appropriations may be necessary to improve the return on investment of housing incentives offered by the State of Nebraska. The study may include, but need not be limited to, an examination of the following:

(1) Existing state law and funding available for housing, including, but not limited to, tax increment financing, the documentary stamp tax, the Affordable Housing Trust Fund, the Rural Workforce Housing Fund, the Middle Income Workforce Housing Investment Fund, and any other state funding for housing;

(2) The return on investment that housing provides individuals, families, businesses, communities, and the state;

(3) The tax revenue benefits that housing incentives create for municipalities, counties, and the state and the overall return on investment of the various housing incentives;

(4) The benefits that home ownership has on Nebraska's workforce, economy, and state and local budgets;

(5) Housing statistics of those individuals and entities using state housing incentives compared to those individuals and entities not using such incentives, separated by class of city, including, but not limited to, the following statistics:

(a) Housing starts;

(b) Cost per square foot, taking into consideration initial land cost, lot size, style of home, and basement finish; and

(c) Land cost per square foot and the impact of incentives offered, including tax increment financing;

(6) The various housing funding models used by nonprofit organizations; and

(7) Laws and funding methods used in other states related to housing and where Nebraska ranks in comparison.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 417. Introduced by Dover, 19; Albrecht, 17; Blood, 3; Bosn, 25; Cavanaugh, M., 6; Clements, 2; Conrad, 46; Day, 49; DeBoer, 10; DeKay, 40; Dorn, 30; Dungan, 26; Erdman, 47; Fredrickson, 20; Halloran, 33; Hansen, 16; Holdcroft, 36; Hughes, 24; Ibach, 44; Linehan, 39; Lippincott, 34; Murman, 38; Raybould, 28; Riepe, 12; Vargas, 7; Walz, 15; Wayne, 13.

PURPOSE: The purpose of this resolution is to propose a study that includes a comprehensive examination of the funding structure of Nebraska's transportation system and to identify possible alternatives to supplement or replace traditional methods and strategies that have historically been employed to fund highway maintenance and construction. The study shall include a reevaluation and update of the results of the LR152 in 2009, including the impact of subsequent legislation such as the Build Nebraska Act (Laws 2011, LB84), the Transportation Innovation Act (Laws 2016, LB960) and changes to the fuel tax in Laws 2015, LB610.

The needs of Nebraska's transportation system have continually outpaced revenue with the annual twenty year needs rising an estimated fifteen percent to a record sixteen billion seven hundred million dollars in 2023. While revenue has remained steady, with influxes from sources other than the traditional fuel tax, such as the Build Nebraska Act's one-quarter of one percent of sales tax and the increase of federal funds under the current surface transportation reauthorization, known as the federal Infrastructure Investment and Jobs Act, highway construction costs continue to increase through inflationary factors and global demand for resources. This study aims to understand the buying power of the annual budget of the Department of Transportation and examine potential revenue sources that have been employed in other states as a way to combat decreasing revenue due to more fuel-efficient vehicles.

This study shall examine several factors surrounding the state of highways in Nebraska, including, but not limited to:

(1) An analysis of the current funding for highways and streets in Nebraska and the emphasis on user fees;

(2) An analysis of the overall effectiveness of the fuel tax in today's economic environment, including factors such as increased vehicle fuel efficiency and electric vehicles;

(3) An analysis of construction inflation in recent years, increasing the cost of business;

(4) An analysis of how local governments have fared under the state's highway revenue structure; and

(5) A review of other states' alternative methods of funding and financing highways, including, but not limited to, bonding, financing, implementing a vehicle miles traveled (VMT) system, tolling, using public-private partnerships, the federal Transportation Infrastructure Finance and Innovation Act program, and redistributing current state revenue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 418. PURPOSE: The purpose of this resolution is to propose an interim study to examine the budget needs of and funding sources for regional behavioral health authorities.

In 1974, the Legislature established the six behavioral health regions to address the diverse populations, resources, and needs of the state. State statutes set out the responsibility of each behavioral health region to plan, coordinate, develop, and evaluate the publicly funded behavioral health service system by addressing needs, gaps, and barriers and contracting with community-based service organizations to provide behavioral health treatment, rehabilitation, recovery, and prevention activities. Behavioral health regions are local units of government that the Division of Behavioral Health of the Department of Health and Human Services contracts with to engage in planning and service implementation.

This study should include, but need not be limited to, an examination of the following:

- (1) The funding historically provided to the regions;
- (2) The impact of recent reductions in funding to the Division of Behavioral Health, as well as the impact of the unfunded provider rate increase, including program reductions across behavioral health regions;
- (3) Challenges faced by behavioral health regions and partner providers in dispersing funding, including the medical assistance program unwinding and continuing staff shortages;
- (4) The Lincoln Regional Center's staffing needs and challenges; and
- (5) Opioid settlement funding updates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 422. Introduced by Fredrickson, 20.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the needs, successes, and challenges relating to behavioral health in Nebraska, including the regional behavioral health authorities.

In 1974, the Legislature established the six behavioral health regions to address the diverse populations, resources, and needs of the state. State statutes set out the responsibility of each behavioral health region to plan, coordinate, develop, and evaluate the publicly funded behavioral health service system by addressing needs, gaps, and barriers and contracting with community-based service organizations to provide behavioral health treatment, rehabilitation, recovery, and prevention activities. Behavioral health regions are local units of government that the Division of Behavioral Health of the Department of Health and Human Services contracts with to engage in planning and service implementation.

This study should include, but need not be limited to, an examination of the following:

- (1) Behavioral health needs and challenges throughout the state, particularly in rural Nebraska;
- (2) Services provided by the behavioral health regions and partner providers;
- (3) Challenges to funding utilization, including, but not limited to, the medical assistance program unwinding, COVID-19 pandemic policies, and staffing shortages;
- (4) The current and historical capacity of the Lincoln Regional Center;
- (5) The documented lack of flexibility and slow-walking of approval of new projects by the Division of Behavioral Health; and
- (6) Opioid settlement projects and funds disbursement.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 423. Introduced by Hansen, 16.

PURPOSE: The purpose of this resolution is to propose an interim study to examine child care providers in the state and the shortage of child care options in rural Nebraska. With the overwhelming request from parents for more access to child care options, this study is intended to find what hinders private providers from being able to serve in rural Nebraska and consider what barriers could be removed. The licensing procedures for child care providers should be processes that allow for capable, safe, and trusted members of rural communities to care for children.

This study may include, but need not be limited to, an examination of the following:

- (1) Staff-to-child ratios of child care providers;
- (2) State statutes, rules, and regulations relating to child care;
- (3) Staff shortages for child care providers;
- (4) Inspection procedures for child care providers;
- (5) The number of child care facilities in rural areas in Nebraska; and
- (6) A comparison of Nebraska laws relating to child care with the laws of other states relating to child care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE: The purpose of this resolution is to propose an interim study to examine occupation taxes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 425. Introduced by Murman, 38; Albrecht, 17; Conrad, 46; Linehan, 39; Meyer, 41; Sanders, 45; Walz, 15; Wayne, 13.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the challenges faced by families with special needs students in enrolling such students as option students in other school districts under the enrollment option program and how the Legislature can better provide guidance and resources to facilitate the best outcomes for families. In order to carry out the purpose of this resolution, the committee shall consider the input of families, school officials, and other entities as the committee deems necessary and beneficial.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 426. Introduced by Conrad, 46.

PURPOSE: The purpose of this resolution is to propose an interim study relating to public records requests to determine whether reports of the resistance of government entities to public record requests are representative or isolated. The study should determine whether any additional statutory reforms beyond Laws 2023, LB43, are justified in response to the Supreme Court's opinion in Nebraska Journalism Trust v. Dept. of Env't. & Energy, 316 Neb. 174 (2024), to ensure that the purposes of sections 84-712 to 84-712.09 are being met and that Nebraskans have prompt, unfettered, and robust access to open government.

Subdivision (1)(b) of section 84-712.03 allows for any person who is denied access to public records to petition the Attorney General for assistance in obtaining the requested records. This study should look to see how such requests are made by the public to the Attorney General and whether there is an online portal or some similar means to effectuate assistance. The study should also determine how many such requests have been accommodated or responded to by the Attorney General. The study should also determine what the Attorney General did in response to such

requests, what the resolutions of the requests were, and how many such requests were made and served in the last several years.

Additionally, body-worn camera footage is presumed to be a public record, but is regularly withheld or released solely at the whim of police agencies. Legislative Bill 366, introduced in the One Hundred Eighth Legislature, First Session, would provide a very narrow expansion mandating release of body-worn camera footage in custody deaths after the conclusion of the statutorily required grand jury process. This component of Legislative Bill 366 was strongly resisted by law enforcement and prosecutors despite the strong public interest in accessing such footage and law enforcement and prosecutors contradicted their position regarding body-worn camera footage more broadly as an accountability tool in news stories and legislative testimony during the hearing before the Judiciary Committee on Legislative Bill 1185, introduced in the One Hundred Eighth Legislature, Second Session. This study should also focus on what statutory reforms are necessary to provide for the public's right to access to police body-worn camera footage in instances in which the public interest is strong or when law enforcement releases such footage in part themselves.

In order to complete the purpose of this study, the committee shall obtain input from the public and impacted individuals regarding the subject matter of the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 427. Introduced by Fredrickson, 20; Hughes, 24; Ibach, 44; Linehan, 39.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the use of the child care subsidy program in section 68-1206 as an incentive to recruit and retain employees in the child care industry.

This study shall include, but need not be limited to, an examination of the following:

(1) The available workforce data on the Nebraska child care industry, including historical trends;

(2) The effects of child care workforce shortages and child care availability on the overall Nebraska workforce;

(3) Child care subsidy programs implemented in Kentucky, Iowa, Rhode Island, and other states to recruit and retain the child care workforce in such states, including program structure, cost, and impact.

- (4) Potential statutory and administrative changes necessary to implement a child care subsidy program for child care employees in Nebraska;
- (5) The anticipated cost of implementing a child care subsidy program for child care employees in Nebraska; and
- (6) The anticipated outcomes should Nebraska implement a child care subsidy program for child care employees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 428. Introduced by Hardin, 48; Bostelman, 23.

PURPOSE: The purpose of this resolution is to propose an interim study to review how the State of Nebraska can ensure it has effective emergency medical services in rural communities.

Access to emergency medical care is vital to the health of rural communities across the United States. Emergency medical services play a critical role in this care for rural areas. Ambulance services face increasing difficulty in responding to emergencies in the rural United States due to workforce shortages and financial crises.

About one-third of rural emergency medical services agencies in the United States are in immediate operational jeopardy because the agencies cannot cover costs, largely due to insufficient medicaid and medicare reimbursements. These reimbursements cover, on average, about one-third of the actual costs to maintain equipment, stock medications, and pay for insurance and other fixed expenses.

The study shall include, but need not be limited to:

- (1) Exploring rural emergency medical services funding streams and researching potential new sources of funding;
- (2) Exploring how to maintain and replace expensive ambulance and emergency medical equipment for rural emergency medical services;
- (3) Exploring grants and funding opportunities to assist in training and certification costs for rural emergency medical services providers;
- (4) Researching how other states with similar demographics to Nebraska fund rural emergency medical services;
- (5) Examining ways to remove barriers for emergency medical technicians and paramedics in rural Nebraska and ensure they are working at the top of their scope;

(6) Assessing the current state of emergency medical services infrastructure, resources, and capabilities across Nebraska, in both urban and rural areas;

(7) Evaluating response times, transport protocols, and coordination of health care providers and emergency response agencies;

(8) Examining workforce challenges, training requirements, and opportunities for professional development within the emergency medical services sector;

(9) Reviewing funding mechanisms, reimbursement models, and financial sustainability of emergency medical services agencies and providers; and

(10) Analyzing best practices, innovations, and evidence-based approaches to improve the quality, efficiency, and patient outcomes of emergency medical services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 429. Introduced by Hardin, 48.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the Child Care Licensing Act and the availability and affordability of liability insurance for licensed child care providers in Nebraska. To become licensed and maintain licensure, section 71-1911.03 requires child care providers to obtain liability insurance coverage in the event of legal defense costs or damages as a result of accidents or injuries. In recent years, many licensed child care providers have faced significant barriers due to discontinued coverage, significantly increased premiums, and more stringent policy terms.

To assess the breadth and scope of barriers to obtaining liability insurance as a requirement of child care provider licensing, to identify causes to the increasing difficulty in maintaining liability insurance coverage, and to provide legislative recommendations, this study shall include, but need not be limited to:

(1) A review of the purpose and legislative history of requiring liability insurance coverage as a condition of child care provider licensure;

(2) An assessment of historical and current costs, availability, and typical liability insurance policies and determinations for licensed child care providers and the associated impact on the cost of child care;

(3) An examination of liability insurance licensing requirements in other states, as well as access and affordability; and

(4) Legislative recommendations to improve access to and affordability of liability insurance for child care providers to ensure compliance with licensure requirements.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 430. Introduced by Bostar, 29.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the impact of artificial intelligence on Nebraska's private and public sectors, including the technology and insurance sectors.

Artificial intelligence technologies have emerged as transformative tools with the potential to significantly impact workforce dynamics, operational efficiencies, and technological advancements. Nationally, state governments are recognizing the importance of understanding and adapting to the implications of artificial intelligence adoption to ensure effective governance and service delivery.

Given the potential impact of artificial intelligence on the public and private sectors, a comprehensive examination of the effects of artificial intelligence on Nebraska's workforce, operational efficiencies, and technological landscape is essential for informed decisionmaking and strategic planning. It is imperative to assess how artificial intelligence adoption can enhance productivity, improve service quality, and foster innovation, while also addressing potential challenges related to workforce displacement, skill gaps, and equitable access to technological resources.

This study shall include, but need not be limited to, an examination of the following:

(1) The current and potential impact of artificial intelligence adoption on the state economy, including changes in job roles, skill requirements, and workforce development needs;

LEGISLATIVE RESOLUTION 441. Introduced by Armendariz, 18.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the impact of local housing regulations on Nebraska's housing supply. Nebraska has been experiencing a severe shortage of housing options for its residents across the state and at all income levels. Residents of Nebraska are faced with skyrocketing rents and home prices. Despite the Legislature appropriating funds for a variety of housing grants, including for the rural workforce and middle income workforce, more needs to be done. In recent years, states across the country have explored and passed bipartisan legislation addressing the regulatory matters deemed necessary to help increase housing affordability and supply.

The study shall include, but need not be limited to, an examination of the following:

(1) Local zoning regulations that may impede the quantity of new housing being built;

(2) Local building codes that may increase the costs of new housing being built;

(3) Local permitting and planning processes in place that may impact the cost and time for new housing being built; and

(4) Potential ways to incentivize municipalities to reduce the regulatory burdens imposed on new housing being built.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

PRESENTED TO THE GOVERNOR

Presented to the Governor on March 26, 2024, at 3:40 p.m. were the following: LBs 1412e and 1413e.

(Signed) Jamie Leishman
Clerk of the Legislature's Office

RESOLUTION(S)

LEGISLATIVE RESOLUTION 443. Introduced by Wishart, 27.

PURPOSE: The purpose of this resolution is to propose an interim study to examine assisted-living facility reimbursement rates at different facilities throughout Nebraska.

Assisted-living facilities provide crucial care to members of the community as they age, from those with minor health risks to those with severe memory loss. Nebraska currently provides different medicaid reimbursement rates based on a facility's urban or rural location. Presently,

the rural reimbursement rate is higher than the urban reimbursement rate due to the higher staffing shortages in rural communities. However, the reimbursement rate for memory-care facilities and assisted-living facilities, regardless of location, remains the same, despite memory-care facilities offering more secure and constant care. Further study is required for how memory-care reimbursement rates may be structured differently, based on the type of care provided and the staffing services required.

This study shall include, but need not be limited to, an examination of the following:

(1) How reimbursement rates for assisted-living facilities in rural and urban communities compare;

(2) What reimbursement rates for memory-care facilities would be comparable to the rates for assisted-living facilities, based on percentage of reimbursement;

(3) The benefits provided to assisted-living facility residents and their families, memory-care facility residents and their families, assisted-living facilities, and memory-care facilities, in both urban and rural communities, when reimbursement rates are adjusted;

(4) The benefits and further services insurance companies are able to provide when reimbursement rates differ between memory-care facilities and assisted-living facilities; and

(5) The prevalence of medicaid waiver assisted-living services across Nebraska specific to memory care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 444. Introduced by Wishart, 27.

PURPOSE: The purpose of this resolution is to propose an interim study to examine the oversight of staffing agencies, including health care staffing agencies, in Nebraska.

Health care staffing agencies play a crucial part in Nebraska's health care system by directing people to jobs required for the system to operate. With widespread shortages throughout the state in every section of health care, the roles of staffing agencies are more pronounced than ever. However, the oversight provided to staffing agencies is limited. Requiring health care staffing agencies to register with the Department of Health and Human Services, confirm insurance-holder status, and verify that staff meet requirements would provide guardrails beneficial not only to the state but to

the health of Nebraska residents. Further study is required of how such requirements would benefit the overall health care system of Nebraska.

This study shall include, but need not be limited to, an examination of the following:

(1) The requirements health care staffing agencies should have regarding the agencies' insurance certificates or policies;

(2) The requirements health care staffing agencies should have regarding verification of qualifications, certifications, and requirements of staff;

(3) How a database of registered health care staffing agencies operated by the Department of Health and Human Services would benefit Nebraska's health care system as a whole;

(4) The potential benefits of creating a system that the public could use to report complaints about health care staffing agencies; and

(5) The requirements health care staffing agencies should have regarding annual registration with the Department of Health and Human Services and what information should be provided along with such registration.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

The first committee amendment is as follows:

AM3205

1 1. Strike the original sections and insert the following new
2 sections:
3 Sec. 24. Sections 24 to 33 of this act shall be known and may be
4 cited as the Nebraska Pregnancy Help Act.
5 Sec. 25. The Legislature finds and declares that:
6 (1) Pregnancy help organizations in the State of Nebraska and
7 nationwide provide under-supported pregnant women with services, free of
8 charge, that are crucial for their physical, emotional, and familial
9 wellbeing, including pregnancy testing, pregnancy and prenatal care
10 education, counseling, food, clothing, housing, transportation, parenting
11 and life skills classes, child care, licensed medical care, and referrals
12 to additional community services and material help;
13 (2) Pregnancy help organizations also provide personal relationships
14 and a strong local support network for such women and their families that
15 cannot be replicated by even the best and most effective government
16 programs; and
17 (3) It shall be the policy of the State of Nebraska, through the
18 creation of the Nebraska Pregnancy Help Act, to encourage and celebrate
19 pregnancy help organizations in this state and to incentivize private
20 donations for the furtherance of their good work through the creation of
21 a tax credit.
22 Sec. 26. For purposes of the Nebraska Pregnancy Help Act:
23 (1) Department means the Department of Revenue; and
24 (2) Eligible charitable organization means an organization that:
25 (a) Is exempt from federal income taxation under section 501(c)(3)
26 of the Internal Revenue Code of 1986, as amended;
27 (b) Does not receive more than seventy-five percent of its total
1 annual revenue from federal, state, or local governmental grants or
2 sources, either directly or as a contractor;
3 (c) Is a pregnancy help organization that:
4 (i) Regularly answers a dedicated telephone number for clients;
5 (ii) Maintains its physical office, clinic, or maternity home in the
6 State of Nebraska;
7 (iii) Offers services at no cost to the client for the express
8 purposes of providing assistance to women in order to carry their
9 pregnancies to term, encourage and enable parenting or adoption, prevent
10 abortion, and promote healthy childbirths; and
11 (iv) Utilizes licensed medical professionals for any medical
12 services offered;
13 (d) Does not provide, pay for, provide coverage of, refer for,
14 recommend, or promote abortions and does not financially support any
15 entity that provides, pays for, provides coverage of, refers for,
16 recommends, or promotes abortions, including nonsurgical abortions; and
17 (e) Is approved by the department pursuant to section 27 of this
18 act.
19 Sec. 27. (1) An organization seeking to become an eligible
20 charitable organization shall provide the department with a written
21 certification that it meets all criteria to be considered an eligible
22 charitable organization. The certification must be signed by an officer
23 of the organization under penalty of perjury. The certification shall
24 include the following:
25 (a) Verification of the organization's status under section 501(c)
26 (3) of the Internal Revenue Code of 1986, as amended;
27 (b) A statement that the organization does not receive more than
28 seventy-five percent of its total annual revenue from federal, state, or
29 local governmental grants or sources, either directly or as a contractor;
30 (c) A statement that the organization maintains its physical office,
31 clinic, or maternity home in the State of Nebraska; and

1 (d) A statement that the organization does not provide, pay for,
2 provide coverage of, refer for, recommend, or promote abortions and does
3 not financially support any entity that provides, pays for, provides
4 coverage of, refers for, recommends, or promotes abortions, including
5 nonsurgical abortions.

6 (2) The department shall review each written certification and
7 determine whether the organization meets all of the criteria to be
8 considered an eligible charitable organization and shall notify the
9 organization of its determination. Any organization whose certification
10 is approved under this section shall be considered an eligible charitable
11 organization.

12 (3) An organization shall notify the department within sixty days of
13 any changes that may affect its status as an eligible charitable
14 organization.

15 (4) The department may periodically request recertification from an
16 organization that was previously approved as an eligible charitable
17 organization under this section.

18 (5) The department shall compile and make available to the public a
19 list of eligible charitable organizations that have been approved under
20 this section.

21 Sec. 28. (1) An individual taxpayer who makes one or more cash
22 contributions to one or more eligible charitable organizations during a
23 tax year shall be eligible for a credit against the income tax due under
24 the Nebraska Revenue Act of 1967. Except as otherwise provided in the
25 Nebraska Pregnancy Help Act, the amount of the credit shall be equal to
26 the lesser of (a) the total amount of such contributions made during the
27 tax year or (b) fifty percent of the income tax liability of such
28 taxpayer for the tax year. A taxpayer may only claim a credit pursuant to
29 this section for the portion of the contribution that was not claimed as

5 Act, unless the context otherwise requires:

6 (1) Agreement means the terms and conditions applicable to an owner
7 and a driver that govern the use of a vehicle shared through a peer-to-
8 peer vehicle sharing program. Agreement does not mean a rental agreement
9 as defined in section 44-4067;

10 (2) Delivery period means the period of time during which a vehicle
11 is being delivered to the location at which the start time begins, if

14 vehicle by an owner under an agreement;

15 (4) Owner means the registered owner, or a person or entity
16 designated by the registered owner, of a vehicle made available for
17 sharing through a peer-to-peer vehicle sharing program;

18 (5) Peer-to-peer vehicle sharing program or program means a business
19 platform that connects owners with drivers to enable the sharing of
20 vehicles for financial consideration. A program is not a transportation
21 network company as defined in section 75-323 or a rental car company as
22 defined in section 44-4067;

23 (6) Sharing means the authorized use of a vehicle by an individual
24 other than an owner through a peer-to-peer vehicle sharing program;

25 (7) Sharing period means the period of time that commences with the
26 delivery period or, if there is no delivery period, that commences with
27 the start time and, in either case, ends at the termination time;

1 (8) Start time means the time when a vehicle becomes subject to the
2 control of a driver at or after the time the reservation is scheduled to
3 begin as documented in the records of a program;

4 (9) Termination time means the earliest of the following events:

5 (a) The expiration of the agreed upon period of time established for
6 the use of a vehicle according to the terms of the agreement if the
7 vehicle is delivered to the location specified in the agreement;

8 (b) When a vehicle is returned to an alternative location as agreed
9 upon by the owner and driver as communicated through the peer-to-peer
10 vehicle sharing program. Such alternative location shall be incorporated
11 into the agreement; and

12 (c) When an owner, or the owner's authorized designee, takes
13 possession and control of the vehicle; and

14 (10) Vehicle means a motor vehicle as defined in section 60-471 that
15 is available for use through a peer-to-peer vehicle sharing program.
16 Vehicle does not include any motor vehicle used as or offered for use as
17 a rental vehicle under section 44-4067, any commercial motor vehicle as
18 defined in section 60-465, or any vehicle subject to section 75-363.

19 Sec. 3. (1) Except as provided in subsection (2) of this section, a
20 peer-to-peer vehicle sharing program shall assume financial liability on
21 behalf of an owner for any claim for bodily injury or property damage to
22 third parties or uninsured and underinsured motorist losses during the
23 sharing period in an amount stated in the agreement. Such amount shall
24 not be less than the amount required in section 60-310.

25 (2) The assumption of financial liability by a program under
26 subsection (1) of this section does not apply if the owner:

27 (a) Makes a material, intentional, or fraudulent misrepresentation,
28 or a material, intentional, or fraudulent omission, to a program relating
29 to the vehicle or the agreement prior to the sharing period in which the
30 assumption of such liability would otherwise be required; or

31 (b) Acts in concert with a driver to trigger the assumption of such
1 liability that would otherwise be required.

2 (3) The assumption of financial liability under subsection (1) of
3 this section applies to bodily injury, property damage, and uninsured and
4 underinsured motorist losses by injured third parties.

5 Sec. 4. (1) A program shall require during each sharing period that
6 the owner and driver are insured under a motor vehicle liability

7 insurance policy that:

8 (a) Provides financial responsibility in amounts no less than the
9 minimum amounts required by section 60-310; and

10 (b)(i) Recognizes that the vehicle is made available and used
11 through the program; or

12 (ii) Does not exclude use of the vehicle by a driver through the
13 program.

14 (2) The financial responsibility required under subsection (1) of
15 this section may be satisfied by motor vehicle liability insurance or
16 other acceptable means of demonstrating financial responsibility in
17 Nebraska, voluntarily maintained by:

18 (a) The owner;

19 (b) The driver;

20 (c) The program; or

21 (d) Any combination of owner, driver, and program.

22 (3) The financial responsibility described in subsection (1) of this
23 section and satisfied pursuant to subsection (2) of this section shall be
24 the primary coverage during the sharing period in the event that a claim
25 occurs in another state with minimum financial responsibility limits
26 higher than those required under section 60-310, and during the sharing
27 period the coverage maintained under subsection (2) of this section shall
28 satisfy any difference in minimum coverage amounts, up to the applicable
29 policy limits.

30 (4) The insurer, insurers, or program providing coverage under
31 section 3 or 4 of this act shall assume primary financial liability for a
1 claim when:

2 (a) A dispute exists as to who was in control of the vehicle at the
3 time of the loss and the program does not have available, did not retain,
4 or fails to provide the information required by section 7 of this act; or

5 (b) A dispute exists as to whether the vehicle was returned to the
6 alternative location pursuant to subdivision (9)(b) of section 2 of this
7 act.

8 (5) If financial responsibility maintained by the owner or the
9 driver in accordance with subsection (2) of this section has lapsed or
10 does not provide the required financial responsibility, the program or
11 its insurer shall provide the coverage required by subsection (1) of this
12 section beginning with the first dollar of a claim and have the duty to
13 defend such claim except under circumstances as set forth in subsection
14 (2) of section 3 of this act.

15 (6) Financial responsibility maintained by the program shall not be
16 dependent on another insurer first denying a claim, nor shall another
17 motor vehicle liability insurance policy be required to first deny a
18 claim.

19 (7) Nothing in the Peer-to-Peer Vehicle Sharing Program Act:

20 (a) Limits the liability of a program for any act or omission of the
21 program itself that results in injury or economic loss to any person as a
22 result of the use of a vehicle through the program; or

23 (b) Limits the ability of a program, by contract, to seek
24 indemnification from an owner or a driver for economic loss sustained by
25 the program resulting from a breach of the terms and conditions of an
26 agreement by such owner or driver.

27 Sec. 5. At the time an owner makes a vehicle available for use
28 through a program and immediately prior to each time such owner offers
29 such vehicle for use through such program, the program shall notify the
30 owner that if the vehicle has a lien against it, the use of the vehicle
31 through the program, including such use without physical damage insurance
1 coverage, may violate the terms of the contract with the lienholder.

2 Sec. 6. (1) An authorized insurer that writes motor vehicle
3 liability insurance in Nebraska may exclude any and all coverage and the
4 duty to defend or indemnify for any claim afforded under the owner's

5 motor vehicle liability insurance policy, including:
 6 (a) Liability coverage for bodily injury and property damage;
 7 (b) Personal injury protection coverage;
 8 (c) Uninsured and underinsured motorist coverage;
 9 (d) Medical payments coverage;
 10 (e) Comprehensive physical damage coverage; and
 11 (f) Collision physical damage coverage.
 12 (2) Nothing in the this section invalidates, limits, or restricts an
 13 insurer's ability under existing law to underwrite any insurance policy.
 14 Nothing in the Peer-to-Peer Vehicle Sharing Program Act invalidates,
 15 limits, or restricts an insurer's ability to cancel and nonrenew
 16 insurance policies.
 17 Sec. 7. (1) A program shall collect and verify records pertaining
 18 to the use of a vehicle, including sharing periods, sharing period pick-
 19 up and drop-off locations, fees paid by each driver, and revenue received
 20 by each owner.
 21 (2) A program shall provide the information collected pursuant to
 22 subsection (1) of this section upon request to the owner, the owner's
 23 insurer, and the driver's insurer to facilitate a claim coverage
 24 investigation, settlement, negotiation, or litigation.
 25 (3) A program shall retain the records required in this section for
 26 a period of not less than four years.
 27 Sec. 8. An insurer that defends or indemnifies a claim arising from
 28 the operation of a vehicle that is excluded under the terms of its policy
 29 shall have the right to seek recovery against the motor vehicle insurer
 30 of the program if the claim is made against the owner or driver for loss
 31 or injury that occurs during the sharing period.
 1 Sec. 9. (1) A program shall have an insurable interest in a vehicle
 2 during the sharing period.
 3 (2) Nothing in this section shall impose liability on a program to
 4 maintain the coverage required by section 3 or 4 of this act.
 5 (3) A program may own and maintain as the named insured one or more
 6 policies of motor vehicle liability insurance that provides coverage for:
 7 (a) Liabilities assumed by the program under an agreement;
 8 (b) Liability of an owner or driver; or
 9 (c) Damage or loss to a vehicle.
 10 Sec. 10. A program and an owner shall be exempt from vicarious
 11 liability in accordance with 49 U.S.C. 30106(a), as such section existed
 12 on January 1, 2023, and under any state or local law that imposes
 13 liability solely based on vehicle ownership.
 14 Sec. 11. (1) Each agreement made in Nebraska shall disclose to each
 15 owner and driver:
 16 (a) Any right of the program to seek indemnification from an owner
 17 or a driver for economic loss sustained by the program resulting from a
 18 breach of the terms and conditions of the agreement by such owner or
 19 driver;
 20 (b) That a motor vehicle liability insurance policy issued to an
 21 owner or a driver may not provide a defense or indemnity for any claim
 22 asserted by the program;
 23 (c) That a program's financial responsibility afforded to each owner
 24 and driver is available only during the sharing period;
 25 (d) That for any use of a vehicle by a driver after the termination
 26 time, a driver or owner may not have coverage;
 27 (e) The daily rate, fees, costs, and, if applicable, any insurance

 31 (2) Each agreement made in Nebraska shall disclose to each driver:
 1 (a) An emergency telephone number to contact personnel capable of
 2 fielding roadside assistance and other customer service inquiries; and

3 (b) Any conditions under which a driver shall maintain a personal
4 motor vehicle liability insurance policy and any required coverage limits
5 on a primary basis in order to use a vehicle through the program.
6 Sec. 12. A program shall have sole responsibility for any
7 equipment, such as a global positioning system or other special
8 equipment, that is put in or on a vehicle to monitor or facilitate
9 sharing and shall agree to indemnify and hold harmless the owner for any

 3 Section 1. Section 76-901, Reissue Revised Statutes of Nebraska, is
 4 amended to read:
 5 76-901 There is hereby imposed a tax on the grantor executing the

 7 interest in or legal title to real estate at the rate of two dollars and
 8 ~~sixty~~ ~~twenty-five~~ cents for each one thousand dollars value or fraction
 9 thereof. For purposes of sections 76-901 to 76-908, value means (1) in

 26 ascertain and compute the amount of the tax due thereon and shall collect
 27 such amount as a prerequisite to acceptance of the deed for recordation.
 1 If a dispute arises concerning the taxability of the transfer, the
 2 register of deeds shall not record the deed until the disputed tax is
 3 paid. If a disputed tax has been paid, the taxpayer may file for a refund
 4 pursuant to section 76-908. The taxpayer may also seek a declaratory

 8 retain fifty cents to be placed in the county general fund and shall
 9 remit the balance to the State Treasurer who shall credit: ~~ninety-five~~
 10 ~~cents of such amount to the Affordable Housing Trust Fund, twenty-five~~

 9 amended to read:

10 77-1327 (1) It is the intent of the Legislature that accurate and
 11 comprehensive information be developed by the Property Tax Administrator
 12 and made accessible to the taxing officials and property owners in order
 13 to ensure the uniformity and proportionality of the assessments of real
 14 property valuations in the state in accordance with law and to provide
 15 the statistical and narrative reports pursuant to section 77-5027.

16 (2) All transactions of real property for which the statement
 17 required in section 76-214 is filed shall be available for development of

 23 professionally accepted mass appraisal techniques. The Department of
 24 Revenue shall not overturn a determination made by a county assessor
 25 regarding the qualification of a sale unless the department reviews the
 26 sale and determines through the review that the determination made by the
 27 county assessor is incorrect.

28 (3) The Property Tax Administrator annually shall make and issue
 29 comprehensive assessment ratio studies of the average level of
 30 assessment, the degree of assessment uniformity, and the overall
 31 compliance with assessment requirements for each major class of real
 1 property subject to the property tax in each county. The comprehensive
 2 assessment ratio studies shall be developed in compliance with

3 professionally accepted mass appraisal techniques and shall employ such
4 statistical analysis as deemed appropriate by the Property Tax
5 Administrator, including measures of central tendency and dispersion. The
6 comprehensive assessment ratio studies shall be based upon the sales file
7 as developed in subsection (2) of this section and shall be used by the
8 Property Tax Administrator for the analysis of the level of value and
9 quality of assessment for purposes of section 77-5027 and by the Property

19 through the use of the comprehensive assessment ratio studies developed
20 in subsection (3) of this section.

21 (5) County assessors and other taxing officials shall electronically
22 report data on the assessed valuation and other features of the property
23 assessment process for such periods and in such form and content as the
24 Property Tax Administrator shall deem appropriate. The Property Tax
25 Administrator shall so construct and maintain the system used to collect
26 and analyze the data to enable him or her to make intracounty comparisons
27 of assessed valuation, including school districts and other political
28 subdivisions, as well as intercounty comparisons of assessed valuation,
29 including school districts and other political subdivisions. The Property
30 Tax Administrator shall include analysis of real property sales pursuant
31 to land contracts and similar transfers at the time of execution of the

ATTORNEY GENERAL'S OPINION**NEBRASKA DEPARTMENT OF JUSTICE**

Opinion No. 24-001 — April 2, 2024

OPINION FOR SENATOR KATHLEEN KAUTH

Lawfulness of the Sports and Spaces Act

Summary: The Sports and Spaces Act does not violate the Equal Protection Clause or Title IX. The Act's segregation of bathrooms and athletic teams based on biological sex is substantially related to the State's important interests in protecting student privacy and female athletic opportunity. Title IX's provisions permitting the segregation of teams and facilities based on "sex" permits segregation of teams and facilities based on biological sex.

You have asked whether L.B. 575, 108th Leg. (introduced 2023), known as the "Sports and Spaces Act" ("L.B. 575"), would violate the United States Constitution or federal law. If enacted, L.B. 575 would require all schools in Nebraska to designate group bathrooms and locker rooms for use according to biological sex.¹ Schools would also be required to designate school-sponsored athletic teams and sports based on biological sex.

We conclude that L.B. 575 is constitutional and violates no federal law. The Equal Protection Clause of the Fourteenth Amendment to the United States Constitution ensures that states apply the law similarly to all people similarly situated. Cases interpreting the Equal Protection Clause do not consider men and women similarly situated in all respects. Laws that treat men and women differently in pursuit of an important government goal related to the real differences between men and women do not violate the Equal Protection Clause. L.B. 575 does exactly that. It recognizes the real biological differences between males and females and designates facilities and sports by biological sex in pursuit of the important goals of protecting student privacy and preserving female athletic opportunity. In pursuit of these goals, and in recognition of the biological differences between males and females, it is reasonable for L.B. 575 to classify students by biological sex regardless of their gender identity. We thus conclude L.B. 575 does not violate the Equal Protection Clause.

We further conclude that L.B. 575 does not violate federal law. Title IX of the Education Amendments Act of 1972 ensures that no person is deprived of equal opportunity in educational activities on the basis of sex. "Sex" under Title IX means biological sex, not gender identity. Title IX recognizes that to protect opportunity in interscholastic athletics, athletic teams may need to be segregated by sex. Title IX also appreciates the need for different restroom facilities based on sex. As a consequence, L.B. 575

does not violate Title IX by designating facilities and athletics based on biological sex.

Section I of our analysis outlines the provisions of L.B. 575. Section II summarizes the case law where similar laws have been challenged under the Equal Protection Clause and then lays out our reasons for finding that L.B. 575 does not violate the Equal Protection Clause. Section III summarizes case law where similar laws have been challenged under Title IX and then provides our reasons for finding L.B. 575 does not violate Title IX. Section IV summarizes our conclusions.

I.

We begin with the text of L.B. 575. If enacted, L.B. 575 would designate certain school facilities and functions by a student's biological sex. It defines a biological female as "a person who was born with female anatomy with two X chromosomes in her cells," and a biological male as "a person who was born with male anatomy with X and Y chromosomes in his cells." L.B. 575, § 2(1)(a), (b). The bill also defines a school as any public, private, denominational, and parochial school offering instruction in elementary (kindergarten through eighth grades) or high school grades. *Id.* § 2(c).

L.B. 575 requires schools to designate each group bathroom and locker room within school buildings either for use by biological females or for use by biological males. Biological males are prohibited from using the restrooms or locker rooms designated for biological females and *vice versa*. L.B. 575, § 3(1), (2)(d).

School-sponsored athletic teams or sports must also be designated by biological sex as either male, female, or coed. *Id.* § 4(1). Athletic teams and sports designated for females are not open to biological males. *Id.* § 4(2). Teams and sports designated for males are not open to biological females unless there is no female team available for such sport. *Id.* Government entities, licensing or accrediting organizations, and athletic associations cannot investigate or take adverse action against a school for maintaining athletic teams in accordance with students' biological sex. *Id.* § 5.

A student who is deprived of an athletic opportunity or who suffers any direct or indirect harm as a result of a public school knowingly violating L.B. 575 can bring a private cause of action against the school. *Id.* § 6(1). Schools and school officials are forbidden from retaliating against any person who reports a violation of L.B. 575's bathroom or locker room provisions. *Id.* § 3(4). Students aggrieved by a violation of the retaliation provision may also bring a civil cause of action against the school. *Id.* § 3(5). Students who prevail in these kinds of lawsuits may be entitled to injunctive relief, damages, and any other relief available by law. *Id.* §§ 3(5), 6.

II.

The Equal Protection Clause provides that no state shall "deny to any person within its jurisdiction the equal protection of the laws." U.S. Const. amend. XIV, § 1. The Supreme Court has said the Clause is "essentially a direction that all persons similarly situated should be treated alike." *City of Cleburne v. Cleburne Living Ctr.*, 473 U.S. 432, 439 (1985).

Courts apply one of three standards to determine whether a law's classification unlawfully treats similarly situated people unequally. The first is known as rational-basis review. This standard applies when statutes make classifications that are not considered "suspect" (or "quasi-suspect") and do not otherwise implicate a fundamental right. *State v. Harris*, 284 Neb. 214, 233, 817 N.W.2d 258, 275 (2012). Classifications are not considered suspect or quasi-suspect unless the class created is based on "immutable characteristic[s] determined solely by the accident of birth" or is "saddled with such disabilities, or subjected to such a history of purposeful unequal treatment, or relegated to such a position of political powerlessness as to command extraordinary protection from the majoritarian political process." *Gallagher v. City of Clayton*, 699 F.3d 1013, 1018 (8th Cir. 2012) (first quoting *Frontiero v. Richardson*, 411 U.S. 677, 686 (1973), second quoting *San Antonio Indep. Sch. Dist. v. Rodriguez*, 411 U.S. 1, 28 (1973)). Examples of classes created by laws that are subject to rational-basis review include smokers, *id.*, compulsive sex offenders, *Artway v. Att'y Gen. of State of N.J.*, 81 F.3d 1235, 1266 (3d Cir. 1996), and victims of sexual harassment, *see Means v. Shyam Corp.*, 44 F. Supp. 2d 129, 131 (D.N.H. 1999).

Under the rational-basis standard, courts generally presume that a law is constitutional. Based on that presumption, courts may only overturn a law if the challenger can show that the law's classification is not rationally related to any government interest. *See F.C.C. v. Beach Commc'ns, Inc.*, 508 U.S. 307, 313 (1993).

On the other end of the spectrum is strict scrutiny, which applies when a law or policy burdens a "suspect" group (e.g., a racial or ethnic minority), or when it burdens a fundamental right (e.g., voting). *Harris*, 284 Neb. at 233, 817 N.W.2d at 275. Under such a classification, a law will be upheld only "upon an extraordinary justification," *Shaw v. Reno*, 509 U.S. 630, 643 (1993) (quoting *Pers. Adm'r of Mass. v. Feeney*, 442 U.S. 256, 272 (1979)), and it must be narrowly tailored to serve a compelling governmental interest, *Adarand Constructors, Inc. v. Pena*, 515 U.S. 200, 227 (1995).

Intermediate scrutiny lies in between. It applies to laws that discriminate based on a quasi-suspect classification. Sex-based classifications fall under this standard. *See United States v. Virginia*, 518 U.S. 515, 533 (1996). For a sex-based classification "to withstand equal protection scrutiny, it must be established . . . that the challenged classification serves important governmental objectives" and that the "means employed are substantially related to the achievement of those objectives." *Nguyen v. I.N.S.*, 533 U.S. 53, 60 (2001) (internal quotation marks omitted) (quoting *Virginia*, 518 U.S. at 533).

Intermediate-scrutiny analysis for sex classifications recognizes that "[p]hysical differences between men and women . . . are enduring." *Virginia*, 518 U.S. at 533. And the Supreme Court accounts for these "actual differences between the sexes, including physical ones." *Clark v. Arizona Interscholastic Ass'n*, 695 F.2d 1126, 1129 (9th Cir. 1982). Indeed, the Supreme Court "has consistently upheld statutes where the gender

classification is not invidious, but rather realistically reflects the fact that the sexes are not similarly situated in certain circumstances." *Michael M. v. Superior Ct. of Sonoma Cty.*, 450 U.S. 464, 469 (1981) (plurality opinion); see, e.g., *Nguyen*, 533 U.S. at 63.

A.

Some courts have held statutes classifying facilities and athletic teams by biological sex do not violate the Equal Protection Clause. These courts, as summarized in subsections III.A.1–3 below, have decided that segregating by biological sex was a classification based on sex, not gender identity, and have held these policies survive intermediate scrutiny. See *Adams v. School Board of St. Johns County, Florida*, 57 F.4th 791 (11th Cir. 2022) (en banc); *Bridge ex rel. Bridge v. Okla. State Dep't of Educ.*, No. CIV-22-787, 2024 WL 150598 (W.D. Okla. Jan. 12, 2024); D.N. *ex rel. Jessica N. v. DeSantis*, No. 21-CV-61344, 2023 WL 7323078 (S.D. Fla. Nov. 6, 2023).

1.

In *Adams*, a biological female identifying as a man challenged her school's policy requiring students to use the bathroom that aligned with their biological sex.² 57 F.4th at 796, 798. A federal district court enjoined the policy, concluding that the policy discriminated against *Adams* because "he d[id] not act in conformity with the sex-based stereotypes associated with biological sex." *Id.* at 808.

The Eleventh Circuit reversed the district court. *Id.* at 801. The court observed that on its face, "the bathroom policy facially classifies based on biological sex—not transgender status or gender identity." *Id.* at 808 (emphasis added). It reasoned that "both sides of the classification—biological males and biological females—include transgender students." *Id.* The court also reasoned that the policy was not dependent on how students acted or identified, and therefore it did not rely on impermissible sex stereotypes associated with a student's transgender status. *Id.*

The fact that the bathroom policy had a disparate impact on the transgender students was not consequential. The court stated that a "disparate impact alone does not violate the Constitution." *Adams*, 57 F.4th at 810. "Instead, a disparate impact on a group offends the Constitution when an otherwise neutral policy is motivated by 'purposeful discrimination.'" *Id.* (quoting *Feeney*, 442 U.S. at 274); see also *Vill. of Arlington Heights v. Metro. Hous. Dev. Corp.*, 429 U.S. 252, 264–66 (1977). And the record did not support a finding that the bathroom policy was motivated by discrimination against transgender students.

The court then applied intermediate scrutiny to the sex-based classification, examining whether the policy substantially advanced an important governmental objective. It found the school had an important interest in "ensur[ing] the privacy and overall welfare of its entire student body." *Adams*, 57 F.4th at 803. The court then determined that the "policy is clearly related to—indeed, is almost a mirror of—its objective of protecting the privacy interests of students to use the bathroom away from the opposite sex." *Id.* at 805. The court was ultimately persuaded by the "long tradition in this country of separating sexes," with public bathrooms "likely the most frequently encountered example." *Id.* "Indeed, the universality of that

practice" is why "a sign that says 'men only' looks very different on a bathroom door than a courthouse door." *Id.* at 801 (quoting *City of Cleburne v. Cleburne Living Ctr.*, 473 U.S. 432, 468–69 (1985) (Marshall, J., concurring in part and dissenting in part)). The policy thus survived intermediate scrutiny.

2.

In *Bridge*, transgender students challenged an Oklahoma law requiring every multiple occupancy restroom in a public school to be "[f]or the exclusive use of the male sex," or "[f]or the exclusive use of the female sex." Okla. Stat. tit. 70, § 1-125. The students argued that the law violated the Equal Protection Clause because they were not treated like non-transgender students who were allowed to use the bathroom that aligned with their gender identity. *Bridge*, 2024 WL 150598, at *4.

The court applied intermediate scrutiny to the law, finding it "enact[ed] a sex-based classification." *Id.* The court found that separating bathrooms by biological sex to address the privacy concerns of students using multiple occupancy restrooms was "an important governmental objective." *Id.* at *5. In response to the students' argument that the law was premised on generalizations about men and women, the Court reasoned that "[b]iological sex is distinct from gender generalizations, and [u]se of a restroom designated for the opposite sex does not constitute a mere failure to conform to sex stereotypes." *Id.* (internal quotation marks and citation omitted).

The court also found that the law was substantially related to achieving the important government objective of student privacy. The court reasoned that the means used to protect the government's privacy interest were "almost identical" to the privacy interest itself. *Id.* at *6. In other words, the law did not extend beyond the State's important privacy concerns. The court also noted if biological-sex-based classifications were Equal Protection Clause violations, then "no law recognizing the inherent differences between male and female would pass constitutional muster. This is an untenable position." *Id.*

3.

D.N. involved a Florida law providing that school sports and teams designated for females are not open to biological males, and sports and teams designated for males are not open to biological females. *See* Fla. Stat. § 1006.205. Plaintiff, a biological male identifying as female who had played girls sports, sued claiming the law violated the Equal Protection Clause and Title IX. *D.N.*, 2023 WL 7323078, at *1.

On the equal-protection claim, the Southern District of Florida found that intermediate scrutiny applied because the law classifies students based on biological sex. *Id.* at *5. In applying the first step of intermediate scrutiny, the court found the government had an important government interest in "promoting women's equality in athletics." *Id.* at *6. The court looked to Justice Stevens's in-chambers opinion affirming the constitutionality of a middle school's gender-based classification in competitive contact sports. *Id.* (quoting *O'Connor v. Bd. of Educ. of Sch. Dist. 23*, 449 U.S. 1301, 1302 (1980) (Stevens, J., in chambers)). Justice Stevens reasoned, "Without a gender-based classification in competitive

contact sports, there would be a substantial risk that boys would dominate the girls' programs and deny them an equal opportunity to compete in interscholastic events." *O'Connor*, 449 U.S. at 1307.

The court then found that the means the Florida law employed were substantially related to that important government objective. The court found that Florida's sex-based classification was "rooted in real differences between the sexes—not stereotypes." *Id.* at *9. "[T]he statute adopts the uncontroversial proposition that most men and women do have different (and innate) physical attributes." *Id.* The court also found that the plaintiff failed to plead any fact showing the law was based on "purposeful discrimination" against transgender students instead of a legitimate attempt to advance the important interest of "fostering and promoting athletic opportunities for girls." *Id.* at *8, *9.

B.

Other courts have held that policies similar to those in L.B. 575 unlawfully discriminate based on sex and transgender status. *See, e.g., Hecox v. Little*, 79 F.4th 1009 (9th Cir. 2023); *Grimm v. Gloucester Cnty. Sch. Bd.*, 972 F.3d 586 (4th Cir. 2020).

1.

In *Hecox*, Lindsay Hecox, a biological male identifying as a transgender woman, challenged Idaho's Fairness in Women's Sports Act, which mandated that all sports teams sponsored by schools in Idaho be expressly designated based on biological sex—male, female, or coed. *Hecox*, 79 F.4th at 1019; Idaho Code § 33-6203(1), (2). Hecox moved for, and the district court granted, a preliminary injunction to enjoin enforcement of the Act, finding it violated both the Equal Protection Clause and Title IX. *Id.* at 1019–20; *see also Doe v. Horne*, No. CV-23-00185, 2023 WL 4661831 (D. Ariz. July 20, 2023).

The Ninth Circuit affirmed, holding the Act failed intermediate scrutiny under the Equal Protection Clause. *Hecox*, 79 F.4th at 1022–35. The Ninth Circuit proffered several reasons for its holding. The court found that the Act intentionally discriminated against transgender athletes based on comments in the Act's legislative history discussing the advantages biological males who identify as girls have over biological females. *Id.* at 1022. The court also asserted that "the Act's definition of 'biological sex' is likely an oversimplification of the complicated biological reality of sex and gender." *Id.* at 1023–24. Ultimately, the court found that the use of "biological sex" as a means of identifying a class was a form of "proxy discrimination" against transgender athletes. *Id.* at 1024 (quoting *Pac. Shores Props., LLC v. City of Newport Beach*, 730 F.3d 1142, 1160 n.23 (9th Cir. 2013)).

The court then determined that transgender status was a quasi-suspect class, reasoning that "discrimination on the basis of transgender status is a form of sex-based discrimination." *Id.* at 1026. The court thus reviewed the Act under intermediate scrutiny. *Id.*

In applying intermediate scrutiny, the court did not dispute that promoting fairness in female athletic teams is an important state interest. *Id.* at 1028. But it found the Act was not substantially related to, and "in fact undermine[d]," that interest. *Id.* The court found the district court reasonable

in relying on a medical expert who testified that there is a "medical consensus" that the primary driver of difference in athletic performance between males and females is the difference in "circulating" testosterone—which can be reduced through hormone therapy—as opposed to "endogenously-produced" testosterone. *Id.* at 1030–31. The expert testified that a person's genetic make-up and reproductive anatomy "are not useful indicators of athletic performance." *Id.* The court thus found the Act was based on overbroad stereotypes and did not serve the interest of protecting female sports. *Id.* at 1033.

2.

Grimm involved a transgender student's claim that a school policy designating bathroom and locker room use by "biological gender" violated the Equal Protection Clause and Title IX. 972 F.3d at 593. The Fourth Circuit affirmed the district court's grant of summary judgment on both counts for the student. *Id.* at 616, 619. As to the equal-protection challenge, the court determined that intermediate scrutiny should apply because the policy "necessarily rests on a sex classification" and "cannot be stated without referencing sex." *Id.* at 608. The court also reasoned that Grimm was "subjected to sex discrimination because he was viewed as failing to conform to the sex stereotype propagated by the Policy." *Id.* The court, on an alternative basis, held that intermediate scrutiny was also appropriate since "it is apparent that transgender persons constitute a quasi-suspect class." *Id.* at 611.

Applying intermediate scrutiny, the court found that the State had an important interest in protecting student privacy, but it concluded that excluding Grimm from the boys' bathroom was not substantially related to that interest. *Id.* at 613–14. The court found that the record evidence showed privacy actually increased when Grimm was allowed to use the boys' bathroom because "privacy strips and screens between the urinals" were installed. *Id.* at 614. For this reason, the court held that "policy was not substantially related to its purported goal." *Id.*; see also *Whitaker ex rel. Whitaker v. Kenosha Unified Sch. Dist. No. 1 Bd. of Educ.*, 858 F.3d 1034, 1050–54 (7th Cir. 2017).

C.

Each of the above cases applied intermediate scrutiny to determine whether a biological-sex-based classification of sports teams or facilities violates the equal-protection rights of transgender students. These cases applied intermediate scrutiny because the subject policies made a sex-based classification.

Before turning to our analysis applying these authorities to L.B. 575, we address a threshold question—whether rational-basis review, instead of intermediate scrutiny, should apply to these challenges. Some courts and states, including Nebraska, have argued that rational basis is often the appropriate review standard.

In the paradigmatic sex-based equal-protection claim, a plaintiff argues that the subject law or policy is unconstitutional because it treats men and women differently. See, e.g., *Clark*, 695 F.2d 1126. Men have access to something that women do not, or *vice versa*. See, e.g., *Virginia*, 518 U.S. at 533. These claims are indisputably subject to intermediate scrutiny. See *id.*

But the challenges advanced by transgender students in the above cases are of a different variety, as observed in *B.P.J. v. West Virginia Board of Education*, 649 F.Supp.3d 220 (S.D. W. Va. 2023). In that case, a transgender 11-year-old biological male (B.P.J.) sought to participate on his school's female cross-country team. *Id.* at 223. But West Virginia designated athletic participation based on biological sex. *Id.* at 224. The district court held the policy survived intermediate scrutiny under the Equal Protection Clause. *Id.* at 229–32. But in so ruling, the district court observed the unique nature of B.P.J.'s claim: "B.P.J.'s issue here is not with the state's offering of girls' sports and boys' sports" but with "the state's definitions of 'girl' and 'boy.'" *Id.* at 228. B.P.J. believed the policy improperly defined the terms (according to biological sex). The district court's order was stayed by the Fourth Circuit without substantive explanation, *B.P.J. ex rel. Jackson v. W. Va. State Bd. of Educ.*, No. 23-1078, 2023 WL 2803113 (4th Cir. Feb. 22, 2023), but the court's observation remains relevant.

The dissent in the now-vacated Eleventh Circuit panel opinion in *Adams* made a similar observation. Chief Judge Pryor explained that while "[s]eparating bathrooms by sex treats people differently on the basis of sex," "the mere act of determining an individual's sex, using the same rubric for both sexes, does not treat anyone differently on the basis of sex." *Adams v. Sch. Bd. of St. Johns Cnty.*, 3 F.4th 1299, 1325, 1326 (11th Cir. 2021) (Pryor, C.J., dissenting). Chief Judge Pryor suggested that by applying intermediate scrutiny, the majority "appl[ie]d the wrong kind of constitutional scrutiny." *Id.*

Other states have taken positions in court that agree with and expand on this point. *See, e.g.*, Brief of Amici Curiae Alabama et al., *West Virginia v. B.P.J. ex rel. Jackson*, 2023 WL 2648004, at *10 (U.S. Mar. 13, 2023); Brief of Amici Curiae Alabama et al., *Doe v. Horne*, Nos. 23-16026 & 23-1603 (9th Cir. Sept. 15, 2023) (*Doe* Amicus). We agree with this reasoning and have joined these briefs. Our briefs have observed that transgender plaintiffs are not arguing that "to segregate sports teams on the basis of sex violates the Equal Protection Clause." *Doe* Amicus at 5. "Just the opposite. Plaintiffs *want* [their state] to continue segregating sports teams by sex." *Id.* But they argue their states have unlawfully excluded them from the segregated category in which they wish to be. *Id.* In other words, "Plaintiffs seek to compel the State to continue segregating—just to adjust the contours of its segregation." *Id.* So, plaintiffs are really arguing that the classes created by these laws are "unlawfully narrow"—a "textbook underinclusiveness challenge." *Id.* at 7.

In another context, courts have applied rational-basis review when plaintiffs have challenged the contours of racial classifications, rather than the fact of discrimination itself. For example, *Hoohuli v. Ariyoshi*, 631 F. Supp. 1153 (D. Haw. 1986), involved a law that provided benefits to native Hawaiians based on ancestral lineage. *Id.* at 1154. Plaintiffs in the case did not contest the Legislature's ability to grant such preferences. They instead argued that the Legislature defined the beneficiary class too expansively. *Id.* at 1159. Plaintiffs asked the court to apply strict scrutiny because the legislation used a race-based classification. *Id.* at 1158–59. The district court refused and applied rational-basis review. *Id.* at 1159. The court reasoned

that it was not asked to examine "the racial preference itself," but it was asked "to examine the parameters of the beneficiary class." *Id.* The court explained that the government's decision not to calibrate the class to plaintiffs' preferences does not warrant heightened scrutiny. *See id.* at 1160–61. The court thus rejected plaintiff's equal-protection claim because the State's "definition of 'Hawaiian' . . . ha[d] a rational basis." *Id.* at 1163.

The Second Circuit elucidated this principle in *Jana-Rock Construction, Inc. v. New York Department of Economic Development*. 438 F.3d 195 (2d Cir. 2006). The case involved a New York affirmative-action statute that benefitted "Hispanics." *Id.* at 200. Plaintiff Rocco Luiere was "the son of a Spanish mother whose parents were born in Spain," but he was not considered Hispanic for purposes of the statute. *Id.* at 199. Similar to the plaintiff in *Hoohuli*, Luiere did not challenge the fact that the program benefitted only Hispanics; he challenged the State's decision not to classify him as Hispanic for purposes of the program. *Id.* at 200, 205.

On its way to rejecting Luiere's claim, the court confirmed that "[t]he purpose of [heightened scrutiny] is to ensure that the government's choice to use racial classifications is justified." *Id.* at 210. It is "not to ensure that the contours of the specific racial classification" are always "correct." *Id.* The Second Circuit therefore "evaluate[d] the plaintiff's underinclusiveness claim using rational basis review" and duly rejected it. *Id.* at 212.

We have argued that these racial-classification cases map onto sex-based classifications. The above cases were not about whether the government could draw lines between races for certain benefits; they were about whether the government drew the lines in the right spots. Transgender students have not argued the government cannot draw a line between boys and girls for purposes of bathrooms and sports; they have argued that the government has drawn the line in the wrong spot. Chief Judge Pryor and several states would argue that the definitions creating a sexual classification—like the definitions creating a racial classification—are subject to only rational-basis review.

D.

After considering all the above authority, we find L.B. 575 would not violate the Equal Protection Clause. Specifically, we find (1) L.B. 575 does not discriminate based on gender identity, but on only biological sex, (2) L.B. 575's discrimination of facilities and athletics based on biological sex survives intermediate scrutiny, and (3) L.B. 575's defining its classes based on biological sex rather than gender identity survives rational-basis review.

1.

We conclude that L.B. 575 does not discriminate based on gender identity. First, a plain reading of the bill reveals no mention of transgender status or gender identity. On its face, L.B. 575 defines females and males according to biology at birth. It designates bathrooms and locker rooms based on biological sex. It designates involvement in athletics based on biological sex. These are distinctions based on sex, not gender identity. Biological males, transgender or not, cannot use female bathrooms or locker rooms or be on female-designated sports teams. And biological females,

transgender or not, cannot use male bathrooms or locker rooms or be on male-designated sports teams. As such, the plain text of L.B. 575 cannot be said to single out transgender students.

It may be asserted that while the policy does not facially discriminate against transgender students, it may have a disparate impact on transgender students. Indeed, it seems transgender students would be more likely than non-transgender students to request to use a bathroom that differs from their biological sex. But as noted in *Adams*, disparate impact alone is not enough to render an otherwise neutral law unconstitutional. Instead, the policy must also be motivated by "purposeful discrimination." *Adams*, 57 F.4th at 810. Purposeful discrimination involves more than awareness of the disparate effect a bill may have on a group of people. *See Feeney*, 442 U.S. at 279. Purposeful discrimination requires that lawmakers acted "'because of,' not merely 'in spite of,' its adverse effects upon an identifiable group." *Id.* In *Adams*, the Eleventh Circuit found the defendant school board did not act to "single out" transgender students, evidenced by the fact that the school board sought to accommodate those students by offering alternative sex-neutral bathrooms. *Adams*, 57 F.4th at 810–11. We find no evidence that L.B. 575 has been introduced to single out and harm transgender students as opposed to protect the privacy of students and protect female athletic opportunity.

2.

Next, we conclude L.B. 575's sex-based classifications survive sex-based intermediate scrutiny. L.B. 575 classifies students (for both school facilities and athletic programs) based on biological sex. The State's decision to segregate facilities and sports teams by sex would warrant intermediate scrutiny. *See Virginia*, 518 U.S. at 532–33. We find L.B. 575's sex-based classifications clear intermediate scrutiny.

Under intermediate scrutiny, "absolute necessity is not required before a gender based classification can be sustained." *Clark*, 695 F.2d at 1131. The question is whether the classification is substantially related to an important government interest. *Nguyen*, 533 U.S. at 60. We first review whether Nebraska has a substantial interest or interests in L.B. 575's sex classifications. Then, we review whether L.B. 575's means are substantially related to those interests.

a.

There is little-to-no dispute in the case law that segregating boys' and girls' bathrooms serves the important government interest of protecting student privacy. "The protection of students' privacy interests in using the bathroom away from the opposite sex . . . is obviously an important governmental objective." *Adams*, 57 F.4th at 804. Even in cases that found segregating bathrooms by biological sex is a violation of the Equal Protection Clause, courts have recognized "that students have a privacy interest in their body when they go to the bathroom." *Grimm*, 972 F.3d at 613. And the government has "a legitimate interest in ensuring [those] bathroom privacy rights are protected." *Whitaker*, 858 F.3d at 1052.

The cases also affirm that protecting female athletic opportunity is an important government interest. "[T]he government has an important interest in protecting and promoting athletic opportunities for girls." *D.N.*,

2023 WL 7323078, at *6. Even the Ninth Circuit, which struck down Idaho's Fairness in Women's Sports Act, has recognized this interest. In *Clark*, male students (who were not transgender) challenged the Arizona Interscholastic Association's policy that prohibited them from competing on the girls' volleyball team even though their school did not offer boys' volleyball. 695 F.2d at 1127. The Ninth Circuit recognized that the challenged policy furthered two "legitimate and important" interests—(1) "promoting equality of athletic opportunity between the sexes" and (2) "redressing past discrimination against women in athletics." *Id.* at 1131. While the Ninth Circuit in *Hecox* distinguished *Clark* in striking down Idaho's Fairness in Women's Sports Act, the court still recognized "an important state interest" in "furthering women's equality and promoting fairness in female athletic teams." *Hecox*, 79 F.4th at 1028. States have an important interest in preserving and advancing female athletic opportunity.

b.

The conflict in the case law arrives at the second step of intermediate scrutiny—whether laws like L.B. 575 are *substantially related* to the government's important interests. *Adams* and *Bridge* and *D.N.* answered that question, "yes"; *Hecox* and *Grimm* answered, "no."

We find the latter line of cases have misapplied the standard and their reasoning unpersuasive. These courts have not focused on the question of whether separating bathrooms and athletics *by sex* is substantially related to protecting the privacy of students and protecting women's sports. These courts have instead focused on the question of whether prohibiting *transgender students* from accessing facilities and teams designated for the biological sex opposite them is substantially related to the government's interests. We find the logic of these decisions misplaced.

Hecox illustrates the methodological error. In that decision, the court affirmed the district court's conclusion that, based on the record, "a categorical bar against a transgender female athlete's participation" was not necessary to "promote 'sex equality' or to 'protect athletic opportunities for females.'" *Hecox*, 79 F.4th at 1030. But the classification at issue was not based on transgender identity. The policy did not create a "non-transgender team" on one end and a "transgender team" on the other. The classification was between biological males and biological females. *See* Idaho Code §§ 33-6201–06 (2020). So, the question should have been whether a categorical bar against biological males' participation in female sports promoted "sex equality" and "protect[ed] athletic opportunity for females." The Ninth Circuit had already answered that question, "yes," in *Clark*. There, it held there was "clearly a substantial relationship between the exclusion of males from the [women's] team and the goal of redressing past discrimination and providing equal opportunities for women." *Clark*, 695 F.2d at 1131. Indeed, the court concluded that if Arizona was forced to allow biological males to compete on women's teams, "athletic opportunities for women would be diminished." *Id.*

In *Grimm*, the Fourth Circuit reasoned that "the record demonstrates that bodily privacy of cisgender boys using the boys restrooms did not increase when *Grimm* was banned from those restrooms." *Grimm*, 972 F.3d at 614. But the school board policy did not create a "non-

transgender restroom" and a "transgender restroom." It provided for "male and female restroom and locker room facilities" as determined by biological sex. *Id.* at 599. So, the question should not have been whether bodily privacy of boys increases when transgender "boys" are banned from the restroom. The question should have been whether the bodily of privacy of biological males is supported when biological females are banned for the boys' restrooms.

In both cases, when the analysis is properly framed, the answer becomes clear. Disallowing biological males from competing with biological females in athletics is substantially related to preserving athletic opportunity for biological females. As noted by the Ninth Circuit, because of "physiological differences" between average males and average females, "males would displace females to a substantial extent if they were allowed to compete for positions" on sports teams and "athletic opportunities for women would be diminished." *Clark*, 695 F.2d at 1131; *see also* pp. 24–25, *infra*.

It is also clear that segregation between the sexes in bathrooms is substantially related to the government's interest in privacy. The Seventh Circuit has explained that "the law tolerates same-sex restrooms or same-sex dressing rooms . . . to accommodate privacy needs." *Chaney v. Plainfield Healthcare Ctr.*, 612 F.3d 908, 913 (7th Cir. 2010). The Fourth Circuit has found that "[t]he need for privacy justifies separation and the differences between the genders demand a facility for each gender that is different." *Faulkner v. Jones*, 10 F.3d 226, 232 (4th Cir. 1993). The Supreme Court has also acknowledged the necessity of sex-segregated facilities, recognizing that admitting women for the first time into the Virginia Military Academy "would undoubtedly require alterations necessary to afford members of each sex privacy from the other sex in living arrangements." *Virginia*, 518 U.S. at 550 n.19. To hold otherwise would undermine a common practice throughout humanity itself. Indeed, "it has been commonplace and universally accepted—across societies and throughout history—to separate on the basis of sex those public restrooms, locker rooms, and shower facilities that are designed to be used by multiple people at a time." *Grimm*, 972 F.3d at 634 (Niemeyer, J., dissenting).

In the end, L.B. 575's separation of facilities and athletics is substantially related to the important government interests of student privacy and female athletic opportunity. Its sex-based classifications thus survive intermediate scrutiny.

3.

Finally, we note that while the above intermediate-scrutiny analysis is appropriate and necessary to evaluating the constitutionality of L.B. 575, we think that rational-basis is the correct review standard for the type of claim that would likely be brought against L.B. 575. For completeness, we address this issue as well.

In the case where a student challenges whether Nebraska can segregate bathrooms and sports between boys/men/males and girls/women/females at all, intermediate scrutiny would necessarily apply. *See* p. 13, *supra*. But plaintiffs who have recently challenged similar laws have not made this argument. They do not object to the fact that these laws

segregate sports or bathrooms. *See* pp. 13–14, *supra*. Rather, plaintiffs have argued only that these policies' definitions should place transgender students on the side that matches their gender identity. *Id.* L.B. 575's definitions are subject to rational-basis review. And its definitions survive rational-basis review.

L.B. 575 defines a "biological female" as a person "born with female anatomy with two X chromosomes," and it defines a "biological male" as a person "born with male autonomy with X and Y chromosomes." L.B. 575 § 2(a), (b). Some may complain that those definitions improperly exclude transgender students. That objection is fundamentally a line-drawing one, which survives constitutional scrutiny under a rational-basis test.

The State's definitions of "biological male" and "biological female" do not warrant heightened scrutiny. *Jana-Rock* and *Hoohuli* subjected the government's definitions of a racial classification to rational-basis review. *See Jana-Rock*, 438 F.3d at 212; *Hoohuli*, 631 F. Supp. 1159. These cases demonstrate the difference between a challenge to a classification and a challenge that disagrees with the parameters of the classification. The first is subject to heightened scrutiny while the latter receives only rational-basis review. *See* pp. 14–16, *supra*. L.B. 575's excluding transgender "boys" from the definition of male and transgender "girls" from the definition of female falls into the latter.

We agree with *Jana-Rock* that the reason for heightened scrutiny is suspicion over the fact that the government is dividing people into groups at all. *See Jana-Rock*, 438 F.3d at 210. That suspicion is not present where the parties agree the government can segregate and disagree only on where to draw the boundaries between groups. The issue of whether transgender students should get to play on the team and use the bathroom of their choice is about the parameters of segregation, not the segregation itself.

L.B. 575's definitions clearly pass rational-basis scrutiny. But they also would pass even intermediate scrutiny. Excluding transgender students from the definition of the sex with which they identify is substantially related to the important government interests already laid out—student privacy and protecting female athletic opportunity.

The privacy interests fueling L.B. 575's sex-based bathrooms rule are "sex-specific privacy interests." *Adams*, 57 F.4th at 806. "[M]ost people have 'a special sense of privacy in their genitals, and involuntary exposure of them in the presence of people of the other sex may be especially demeaning and humiliating.'" *Fortner v. Thomas*, 983 F.2d 1024, 1030 (11th Cir. 1993) (quoting *Lee v. Downs*, 641 F.2d 1117, 1119 (4th Cir. 1981)). This privacy interest is implicated when a male is in the female bathroom regardless of how that male identifies, and *vice versa*. It would undermine this interest for the State to give students of the opposite sex—who in many cases have genitals of the opposite sex—access to bathrooms meant to provide students a place where they can "shield[] their bodies from the opposite sex." *Adams*, 57 F.4th at 805. In short, keeping biologically male students out of female bathrooms, even if the males identify as female, is substantially related to the State's interest in shielding students' bodies in intimate facilities from members of the opposite sex.

Disallowing transgender students to play on the team designated for the opposite biological sex is substantially related to protecting female athletic opportunity. Simply put, there are "physiological differences" between males and females. *Clark*, 695 F.2d at 1131. The "genetic" differences "between males and females" include "height, body mass, skeletal structure, strength, muscle quality, center of gravity, limb length ratios, [and] cardiovascular performance." Amicus Brief of 67 Female Athletes, Coaches, Sports Officials, and Parents of Female Athletes, *West Virginia v. B.P.J.*, 2023 WL 2648011, at *6 (Mar. 13, 2023).³ "[A]dult males are faster, stronger, more powerful than females because of fundamental sex differences in anatomy and physiology dictated by sex chromosomes." *ACSM Releases Expert Consensus Statement*, American College of Sports Medicine (Sept. 29, 2023), <https://perma.cc/Q5UZ-2F8G>. These biological advantages are not erased the moment a male announces, "I am a woman." If Nebraska allowed biological males to play on a female team if they so identified, "there would be a substantial risk that boys would dominate the girls' programs and deny them an equal opportunity to compete in interscholastic events." *O'Connor*, 449 U.S. at 1307.

Some courts have suggested that estrogen therapy and other transition procedures may quell any physiological advantages biological males have over biological females. See *Hecox*, 79 F.4th at 1029. Even if that is true, not every biological male that identifies as a woman undergoes these procedures.⁴ And neither rational-basis nor intermediate scrutiny requires states to narrowly tailor laws to every individual's unique circumstances. See *Heller v. Doe*, 509 U.S. 312, 321 (1993); *Clark*, 695 F.2d at 1131–32. The Legislature does not have to tailor L.B. 575 to allow biological males who have undertaken treatments that curtail their physiological advantages to compete on female-designated teams.

L.B. 575's definitions of "biological female" and "biological male" do not fail either rational-basis or intermediate review. L.B. 575 does not violate the Equal Protection Clause.

III.

L.B. 575 is also consistent with Title IX of the Educational Amendments of 1972. Title IX provides that "[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance." 20 U.S.C. § 1681(a); *accord* 34 C.F.R. § 106.31(a). "Congress enacted Title IX in response to its finding—after extensive hearings held in 1970 by the House Special Subcommittee on Education—of pervasive discrimination against women with respect to educational opportunities." *Cohen v. Brown Univ.*, 101 F.3d 155, 165 (1st Cir. 1996); *see also Neal v. Bd. of Trs. of Cal. State Univs.*, 198 F.3d 763, 766 (9th Cir. 1999).

While Title IX prohibits discrimination "on the basis of sex" in the provision of educational benefits, 20 U.S.C. § 1681(a), it *expressly allows* educational institutions to "maintain[] separate living facilities for the different sexes," *id.* § 1686, and implementing regulations allow "separate toilet, locker room, and shower facilities on the basis of sex," 34 C.F.R.

§ 106.33. The Title IX regulations also allow institutions to "operate or sponsor separate teams for members of *each sex* where selection for such teams is based upon competitive skill or the activity involved is a contact sport." 34 C.F.R. § 106.41(b) (emphasis added). As Senator Bayh, the chief sponsor of Title IX in the Senate, explained, this safe harbor was intended to "permit differential treatment by sex . . . in sports facilities or other instances where personal privacy must be preserved." 118 Cong. Rec. S5,807 (daily ed. Feb. 28, 1972) (statement of Sen. Bayh).

L.B. 575's separation of school facilities and athletics based on biological sex implicates Title IX. Courts are split on whether the refusal to allow transgender athletes to use facilities or compete in sports based on their gender identity violates Title IX.

A.

In *Grimm*, the Fourth Circuit relied on the Supreme Court's holding in *Bostock v. Clayton County*, 590 U.S. 644 (2020)—a Title VII case about employment discrimination—to strike down a school board's policy prohibiting the transgender plaintiff from using the boys' restrooms. In *Bostock*, the Court found that discrimination based on sexual orientation or gender identity violates Title VII because "it is impossible to discriminate against a person for being homosexual or transgender without discriminating against that individual based on sex." *Bostock*, 590 U.S. at 660.

The Fourth Circuit stated that "[a]lthough *Bostock* interprets Title VII of the Civil Rights Act of 1964, it guides our evaluation of claims under Title IX." *Grimm*, 972 F.3d at 616 (citation omitted). It explained that "the Board could not exclude *Grimm* from the boys' bathrooms without referencing his 'biological gender' under the policy," so "[e]ven if the Board's primary motivation in implementing or applying the policy was to exclude *Grimm* because he is transgender, his sex remains a but-for cause for the Board's actions." *Id.* at 616. The court thus concluded that "the Board's policy excluded *Grimm* from the boys' restrooms 'on the basis of sex.'" *Id.* at 617. The court reasoned, "*Grimm* was treated worse than students with whom he was similarly situated because he alone could not use the restroom corresponding with his gender." *Id.* at 618. The court accordingly affirmed summary judgment on *Grimm*'s Title IX claim. *Id.* at 619.

Similarly, in *Doe v. Snyder*, 28 F.4th 103 (9th Cir. 2022), the Ninth Circuit held that *Bostock*'s reasoning should apply to Title IX challenges. There, two minors diagnosed with gender dysphoria argued that the Arizona Health Care Cost Containment System's policy was unconstitutional. *Id.* at 106. Specifically, they argued that the policy of excluding "gender reassignment surgeries" from coverage under Arizona Medicaid violated the Affordable Care Act's anti-discrimination provision, which incorporates by reference Title IX's prohibition of discrimination "on the basis of sex," *see* 42 U.S.C. §18116(a). Although the court did not reach the merits of the constitutional and statutory challenges, it instructed that "Title IX's protections [should be construed] consistently with those of Title VII." *Doe*, 28 F.4th at 114. It did this despite acknowledging that the statutes employ

different language, reasoning that *Bostock* interchangeably used "because of sex" and "on the basis of sex" throughout the opinion. *See id.*

B.

Other courts have declined to extend the reasoning of *Bostock* to Title IX. For example, in *Adams*, the en banc court held that a school's "separating school bathrooms based on biological sex . . . comports with Title IX." *Adams*, 57 F.4th at 796. To determine the meaning of "sex" in Title IX, the court looked to the ordinary meaning of the word when the law was enacted in 1972. *See id.* at 812. Guided by dictionary definitions from the time of Title IX's enactment, the court found the meaning of "sex" to be unambiguous. It held that "when Congress prohibited discrimination on the basis of 'sex' in education, it meant biological sex, i.e., discrimination between males and females." *Id.* If "sex" included "gender identity," then Title IX's "carve-out" for sex-separated living facilities, "as well as the various carveouts under the implementing [Title IX] regulations, would be rendered meaningless," and transgender persons "would be able to live in both living facilities associated with their biological sex *and* [those] associated with their gender identity or transgender status." *Id.* at 813 (emphasis added). Such a conclusion was "difficult [for the court] to fathom." *Id.*

The court likewise declined to extend *Bostock* because it "expressly declined to address the issue of sex-separated bathrooms and locker rooms" and instead cabined itself to the Title VII issue of "various employers' decisions to fire employees based solely on their sexual orientations or gender identities." *Id.* at 808. The "appeal [in *Adams*] centers on the converse of that statement—whether discrimination based on biological sex necessarily entails discrimination based on transgender status." *Id.* at 809. The court concluded that "it does not—a policy can lawfully classify on the basis of biological sex without unlawfully discriminating on the basis of transgender status."⁵ *Id.*

The court in *Bridge* also rejected the plaintiff's Title IX challenge to the school's policy that excluded him from his preferred bathroom. It found that because Title IX expressly allows schools to separate facilities based on sex, see 34 C.F.R. § 106.33, the determinative question was whether "sex" under Title VII means biological sex or gender identity. *Bridge*, 2024 WL 150598, at *7. The court concluded that "[a]t the time Title IX was enacted, the ordinary public meaning of 'sex' was understood to mean the biological, anatomical, and reproductive differences between male and female." *Id.* at *8. The school therefore did not violate Title IX by separating bathrooms by biological sex as allowed by Title IX's exception.

In *Neese v. Becerra*, two Texas-based physicians challenged the United States Department of Health and Human Services' (HHS) interpretation of Section 1557 of the Affordable Care Act. 640 F.Supp.3d 668, 672–73 (N.D. Tex. 2022). Section 1557 incorporated by reference Title IX's prohibition of discrimination "on the basis of sex," see 42 U.S.C. §18116(a), and HHS announced that it would interpret and enforce this provision to include gender-identity and sexual-orientation discrimination, per *Bostock*. *Neese*, 640 F.Supp.3d at 672.

The court held that neither *Bostock* nor its reasoning apply to Title IX. The court reasoned that Title VII and Title IX use different phraseology. Title VII prohibits discrimination "because of sex," while Title IX uses "on the basis of sex." *Id.* at 679–80. The court reasoned that "[a]s written and commonly construed, Title IX operates in binary terms—male and female—when it references 'on the basis of sex.'" *Id.* at 680. Thus, the word "sex" in Title IX refers to biological sex and not sexual orientation or gender identity. The court concluded that reading the phrase otherwise would render "Title IX and its regulations . . . nonsensical." *Id.* In fact, to ensure the legislative purposes of Title IX are accomplished, the court stated that Title IX "expressly allows [for] sex distinctions and sometimes even requires them to promote equal opportunity." *Id.* Accordingly, the court held, "Title IX's ordinary public meaning remains intact until changed by Congress, or perhaps the Supreme Court." *Id.* at 684.

C.

Adopting the analyses of the latter cases, we conclude L.B. 575 does not violate Title IX. Those courts reasoned that separating bathrooms and athletics based on biological sex comports with the text and legislative purpose of Title IX. As pointed out by the extensive en banc opinion in *Adams*, the reasoning of *Bostock* does not apply to Title IX. *Bostock* concerned only Title VII; it expressly noted that "other federal or state laws that prohibit sex discrimination"—like Title IX—were not "before" the Court; and it refused to "prejudge any such question" about what those statutes require. 590 U.S. at 681. Substantively, "Title VII differs from Title IX in important respects." *Meriwether v. Hartop*, 992 F.3d 492, 510 n.4 (6th Cir. 2021). Title VII involves employment claims. Title IX is "about schools and children—and the school is not the workplace." *Adams*, 57 F.4th at 808. It therefore "does not follow that principles announced in the Title VII context automatically apply in the Title IX context." *Meriwether*, 992 F.3d at 510 n.4.

We also reiterate the material differences in the texts of Title VII and Title IX. Title IX prohibits discrimination "on *the basis* of sex," 20 U.S.C. § 1681(a) (emphasis added), rather than "because of . . . sex." 42 U.S.C. § 2000e-2(a)(1). That distinction is significant. *Bostock* concluded that Title VII's prohibition on discrimination "because of" sex imposed a but-for causation requirement, which the Court acknowledged "can be a sweeping standard." *Bostock*, 590 U.S. at 656. Title IX, by contrast, prohibits only discrimination "on *the basis* of sex." 20 U.S.C. § 1681(a) (emphasis added). That language conveys that biological sex must be the *sole* reason for the discrimination. "A statutory provision's use of the definite article 'the,' . . . indicates that Congress intended the term modified to have a singular referent." *S.E.C. v. KPMG LLP*, 412 F. Supp. 2d 349, 387–88 (S.D.N.Y. 2006); *see also Rumsfeld v. Padilla*, 542 U.S. 426, 434 (2004).

We also agree with *Adams* and *Bridge* that separating bathrooms and sports by biological sex falls squarely into Title IX's carve-outs for separating facilities and athletic teams on the basis of "sex." *See* 20 U.S.C. § 1686; 34 C.F.R. §§ 106.33, .41(b). The ordinary meaning of the word "sex" at the time the law was enacted was biological sex. Definitions show

that in 1972 the word "sex" meant biological sex, not gender identity. See *Adams*, 57 F.4th at 812 (collecting dictionary definitions); *Bridge*, 2024 WL 150598, at *7 (same); *Grimm*, 972 F.3d at 632–33 (Niemeyer, J., dissenting); see also 85 Fed. Reg. 30026, 30178 ("Title IX and its implementing regulations include provisions that presuppose sex as a binary classification . . ."). Defining sex to mean biological sex, as is the case in L.B. 575, does not offend Title IX. Rather, it appears to be in accord with the legislative purpose of Title IX. For these reasons, L.B. 575 does not violate Title IX.

IV.

We conclude that L.B. 575, as introduced, is constitutional. Courts have long found that separating sports and facilities by sex is permissible under the Equal Protection Clause. And any challenges to L.B. 575's exclusion of transgender students from its definitions of "biological male" and "biological female" should be examined under rational-basis review. But even if the bill is reviewed under intermediate scrutiny, it is still constitutional. Courts have routinely found that objectives like those of L.B. 575—student privacy and equal athletic opportunities—are important. It is reasonable for the State to make designations based on biology to ensure those objectives are accomplished.

As to Title IX challenges, we believe separating facilities and teams based on biological sex comports with the text and legislative purpose of Title IX. The word "sex" in Title IX and its carve-outs for facilities and athletic teams refers to biological sex, not sexual orientation or gender identity. To read the phrase otherwise would be to render Title IX illogical.

⁵Even if the term “sex,” as used in Title IX, was ambiguous, the court would have still found in favor of the School Board because under the clear-statement rule for laws passed under the Spending Clause, Congress must have “unambiguously” defined sex to mean something other than biological sex—which it did not. *Id.* at 815–17.

1 1. Strike the original sections and all amendments thereto and
2 insert the following new sections:
3 Section 1. Section 68-1206, Revised Statutes Supplement, 2023, is
4 amended to read:
5 68-1206 (1) The Department of Health and Human Services shall
6 administer the program of social services in this state. The department
7 may contract with other social agencies for the purchase of social
8 services at rates not to exceed those prevailing in the state or the cost
9 at which the department could provide those services. The statutory
10 maximum payments for the separate program of aid to dependent children
11 shall apply only to public assistance grants and shall not apply to
12 payments for social services.
13 (2)(a) As part of the provision of social services authorized by
14 section 68-1202, the department shall participate in the federal child
15 care assistance program under 42 U.S.C. 9857 et seq., as such sections
16 existed on January 1, 2023, and provide child care assistance to families
17 with incomes up to (i) one hundred eighty-five percent of the federal

18 poverty level prior to October 1, 2026, or (ii) one hundred thirty
19 percent of the federal poverty level on and after October 1, 2026.

20 ~~(b)(i) (b)~~ As part of the provision of social services authorized by
21 this section and section 68-1202, the department shall participate in the
22 federal Child Care Subsidy program. A child care provider seeking to
23 participate in the federal Child Care Subsidy program shall comply with
24 the criminal history record information check requirements of the Child
25 Care Licensing Act. In determining ongoing eligibility for this program,
26 ten percent of a household's gross earned income shall be disregarded
1 after twelve continuous months on the program and at each subsequent
2 redetermination. In determining ongoing eligibility, if a family's income
3 exceeds one hundred eighty-five percent of the federal poverty level
4 prior to October 1, 2026, or one hundred thirty percent of the federal
5 poverty level on and after October 1, 2026, the family shall receive
6 transitional child care assistance through the remainder of the family's
7 eligibility period or until the family's income exceeds eighty-five
8 percent of the state median income for a family of the same size as
9 reported by the United States Bureau of the Census, whichever occurs
10 first. When the family's eligibility period ends, the family shall
11 continue to be eligible for transitional child care assistance if the
12 family's income is below two hundred percent of the federal poverty level
13 prior to October 1, 2026, or one hundred eighty-five percent of the
14 federal poverty level on and after October 1, 2026. The family shall
15 receive transitional child care assistance through the remainder of the
16 transitional eligibility period or until the family's income exceeds
17 eighty-five percent of the state median income for a family of the same
18 size as reported by the United States Bureau of the Census, whichever
19 occurs first. The amount of such child care assistance shall be based on
20 a cost-shared plan between the recipient family and the state and shall
21 be based on a sliding-scale methodology. A recipient family may be
22 required to contribute a percentage of such family's gross income for
23 child care that is no more than the cost-sharing rates in the
24 transitional child care assistance program as of January 1, 2015, for
25 those no longer eligible for cash assistance as provided in section
26 68-1724.

27 (ii) A licensed child care program that employs a member of an
28 eligible household shall make reasonable accommodations so that the
29 eligible applicant or adult household member is not a primary caregiver
30 to such applicant's or adult household member's child. If reasonable
31 accommodation cannot be made, the department shall allow the applicant or
1 adult household member to receive child care assistance for the
2 applicant's or adult household member's child including when the
3 applicant or adult household member is the primary caregiver for such
4 child.

5 (iii) A licensed child care provider eligible for the child care
6 subsidy may enroll the household member's child in a child care program
7 other than the household member's child care program to receive child
8 care assistance.

9 (c) For the period beginning July 1, 2021, through September 30,
10 2026, funds provided to the State of Nebraska pursuant to the Child Care
11 and Development Block Grant Act of 1990, 42 U.S.C. 9857 et seq., as such
12 act and sections existed on January 1, 2023, shall be used to pay the
13 costs to the state resulting from the income eligibility changes made in
14 subdivisions (2)(a) and (b) of this section by Laws 2021, LB485. If the
15 available amount of such funds is insufficient to pay such costs, then
16 funds provided to the state for the Temporary Assistance for Needy
17 Families program established in 42 U.S.C. 601 et seq. may also be used.
18 No General Funds shall be used to pay the costs to the state, other than
19 administration costs, resulting from the income eligibility changes made
20 in subdivisions (2)(a) and (b) of this section by Laws 2021, LB485, for

21 the period beginning July 1, 2021, through September 30, 2026.
 22 (d) The Department of Health and Human Services shall collaborate
 23 with a private nonprofit organization with expertise in early childhood
 24 care and education for an independent evaluation of the income
 25 eligibility changes made in subdivisions (2)(a) and (b) of this section
 26 by Laws 2021, LB485, if private funding is made available for such
 27 purpose. The evaluation shall be completed by July 1, 2024, and shall be
 28 submitted electronically to the department and to the Health and Human
 29 Services Committee of the Legislature.
 30 (3) In determining the rate or rates to be paid by the department
 31 for child care as defined in section 43-2605, the department shall adopt
 1 a fixed-rate schedule for the state or a fixed-rate schedule for an area
 2 of the state applicable to each child care program category of provider
 3 as defined in section 71-1910 which may claim reimbursement for services
 4 provided by the federal Child Care Subsidy program, except that the
 5 department shall not pay a rate higher than that charged by an individual
 6 provider to that provider's private clients. The schedule may provide
 7 separate rates for care for infants, for children with special needs,
 8 including disabilities or technological dependence, or for other
 9 individual categories of children. The schedule may also provide tiered
 10 rates based upon a quality scale rating of step three or higher under the
 11 Step Up to Quality Child Care Act. The schedule shall be effective on
 12 October 1 of every year and shall be revised annually by the department.
 13 Sec. 2. Original section 68-1206, Revised Statutes Supplement,
 14 2023, is repealed.

EXECUTIVE BOARD COMMUNICATION

During the evening debate of LB 441 on March 18, 2024, Senator Steve Halloran read from a committee transcript, which in turn was quoting a book that recounted an explicit act of sexual violence. During this floor speech, the names of members of the Legislature were interjected in the passage being read.

On the morning of Wednesday, March 20, 2024, the Chair of the Executive Board of the Nebraska Legislative Council announced that he had launched an investigation under the Legislature's workforce harassment policy into the conduct of Senator Halloran. A Special Personnel Panel was appointed by Chairman Aguilar, and the Panel retained outside counsel to conduct the formal investigation. In particular, the Panel requested an investigation into whether Senator Steve Halloran's conduct on March 18, 2024 during floor debate violated the Nebraska Legislature's Workplace Harassment Policy and/or constituted sex discrimination, and what options the Legislature may have to address any violations of improper conduct.

During the investigation, outside counsel found that "Senator Halloran's conduct and comments give rise to a violation of the Legislature's Workplace Harassment Policy." This finding was "irrespective of Senator Halloran's post facto explanation to the media that he was referencing

Senator John Cavanaugh, not Senator Machaela Cavanaugh, to get his attention".

In summarizing the findings in the Investigative Report, the outside counsel found that while "Senator Halloran engaged in protected activity under the First Amendment" there are internal "remedial actions" the Nebraska Legislature may utilize. In discussing these actions, outside counsel noted that:

Given that Senator Halloran's conduct gives rise to violations of the Legislature's Workplace Harassment Policy, we find the Special Personnel Panel, Executive Board, and Legislature may, in their discretion, censure or reprimand Senator Halloran for his conduct and comments on March 18, 2024.

Having witnessed the actions of Senator Halloran, in conjunction with the findings of the Investigative Report, the undersigned members of the Executive Board formally deplore the "unacceptable conduct" of Senator Halloran and find that his remarks were not only unbecoming of a member of the Nebraska Legislature and contrary to all senatorial traditions of decorum, but clearly violated the Nebraska Legislature's Workplace Harassment Policy.

It is hereby declared that the undersigned condemn the conduct of Senator Halloran, when he interjected the names of fellow members of the Legislature in a sexually explicit passage. This letter of reprimand shall stand in the permanent record as intent of this Executive Board of the 108th Legislature that conduct and comments, such as those by Senator Halloran, should never be tolerated, and that the Nebraska Legislature should seek to foster a future work environment that respects the dignity of all members of the Legislature and restores the confidence of the people of the state in the Legislature.

(Amendments to Standing Committee amendments, AM2064)

- 1 1. Strike the original sections and all amendments thereto and
- 2 insert the following new sections:
- 3 Section 1. Section 43-512, Reissue Revised Statutes of Nebraska, is
- 4 amended to read:
- 5 43-512 (1) Any dependent child as defined in section 43-504 or any
- 6 relative or eligible caretaker of such a dependent child may file with
- 7 the Department of Health and Human Services a written application for
- 8 financial assistance for such child on forms furnished by the department.
- 9 (2) The department, through its agents and employees, shall make
- 10 such investigation pursuant to the application as it deems necessary or
- 11 as may be required by the county attorney or authorized attorney. If the
- 12 investigation or the application for financial assistance discloses that
- 13 such child has a parent or stepparent who is able to contribute to the
- 14 support of such child and has failed to do so, a copy of the finding of
- 15 such investigation and a copy of the application shall immediately be
- 16 filed with the county attorney or authorized attorney.
- 17 (3) The department shall make a finding as to whether the
- 18 application referred to in subsection (1) of this section should be
- 19 allowed or denied. If the department finds that the application should be
- 20 allowed, the department shall further find the amount of monthly
- 21 assistance which should be paid with reference to such dependent child.
- 22 Except as may be otherwise provided, payments shall be made by unit size
- 23 and shall be consistent with subdivisions (1)(p), (1)(q), (1)(t), and (1)
- 24 (u), and (1)(v) of section 68-1713. Beginning on August 30, 2015, the
- 25 maximum payment level for monthly assistance shall be fifty-five percent
- 26 of the standard of need described in section 43-513.
- 1 No payments shall be made for amounts totaling less than ten dollars
- 2 per month except in the recovery of overpayments.
- 3 (4) The amount which shall be paid as assistance with respect to a
- 4 dependent child shall be based in each case upon the conditions disclosed

5 by the investigation made by the department. An appeal shall lie from the
6 finding made in each case to the chief executive officer of the
7 department or his or her designated representative. Such appeal may be
8 taken by any taxpayer or by any relative of such child. Proceedings for
9 and upon appeal shall be conducted in the same manner as provided for in
10 section 68-1016.

11 (5)(a) For the purpose of preventing dependency, the department
12 shall adopt and promulgate rules and regulations providing for services
13 to former and potential recipients of aid to dependent children and
14 medical assistance benefits. The department shall adopt and promulgate
15 rules and regulations establishing programs and cooperating with programs
16 of work incentive, work experience, job training, and education. The
17 provisions of this section with regard to determination of need, amount
18 of payment, maximum payment, and method of payment shall not be
19 applicable to families or children included in such programs. Income and
20 assets described in section 68-1201 shall not be included in

22 (b) If a recipient of aid to dependent children becomes ineligible
23 for aid to dependent children as a result of increased hours of
24 employment or increased income from employment after having participated
25 in any of the programs established pursuant to subdivision (a) of this
26 subsection, the recipient may be eligible for the following benefits, as
27 provided in rules and regulations of the department in accordance with
28 sections 402, 417, and 1925 of the federal Social Security Act, as
29 amended, Public Law 100-485, in order to help the family during the
30 transition from public assistance to independence:

31 (i) An ongoing transitional payment that is intended to meet the
1 family's ongoing basic needs which may include food, clothing, shelter,
2 utilities, household goods, personal care items, and general incidental
3 expenses during the five months following the time the family becomes
4 ineligible for assistance under the aid to dependent children program, if
5 the family's earned income is at or below one hundred eighty-five percent
6 of the federal poverty level at the time the family becomes ineligible
7 for the aid to dependent children program. Payments shall be made in five
8 monthly payments, each equal to one-fifth of the aid to dependent
9 children payment standard for the family's size at the time the family
10 becomes ineligible for the aid to dependent children program. If during
11 the five-month period, (A) the family's earnings exceed one hundred
12 eighty-five percent of the federal poverty level, (B) the family members
13 are no longer working, (C) the family ceases to be Nebraska residents,
14 (D) there is no longer a minor child in the family's household, or (E)
15 the family again becomes eligible for the aid to dependent children
16 program, the family shall become ineligible for any remaining
17 transitional benefits under this subdivision;

18 (ii) Child care as provided in subdivision (1)(c) of section
19 68-1724; and

20 (iii) Except as may be provided in accordance with subsection (2) of
21 section 68-1713 and subdivision (1)(c) of section 68-1724, medical

25 (a) Authorized attorney shall mean an attorney, employed by the
26 county subject to the approval of the county board, employed by the

10 amended to read:
11 43-512.07 (1) Any action, payment, aid, or assistance listed in this
12 subsection shall constitute an assignment by operation of law to the
13 Department of Health and Human Services of any right to spousal or
14 medical support, when ordered by the court, and to child support, whether
15 or not ordered by the court, which a person may have in his or her own
16 behalf or on behalf of any other person for whom such person receives
17 such payments, aid, or assistance:
18 (a) Application for and acceptance of one or more aid to dependent
19 children payments by a parent, another relative, or a custodian;
20 (b) Receipt of aid by or on behalf of any dependent child as defined
21 in section 43-504; or
22 (c) Receipt of aid from child welfare funds.
23 The assignment under this section is the right to support payments

25 assistance listed in this subsection. The department shall be entitled to
26 retain such ~~child~~, spousal, or other support up to the amount of
27 payments, aid, or assistance provided to a recipient. For purposes of
28 this section, the right to receive child support shall belong to the
29 child and the assignment shall be effective as to any such support even
30 if the recipient of the payments, aid, or assistance is not the same as
31 the payee of court-ordered support.
1 (2) After notification of the State Disbursement Unit receiving the
2 child, spousal, or other support payments made pursuant to a court order
3 that the person for whom such support is ordered is a recipient of
4 payments, aid, or assistance listed in subsection (1) of this section,
5 the department shall also give notice to the payee named in the court
6 order at his or her last-known address.
7 (3) Upon written or other notification from the department or from
8 another state of such assignment of child, spousal, or other support
9 payments, the State Disbursement Unit shall transmit the support payments
10 received to the department or the other state without the requirement of
11 a subsequent order by the court. The State Disbursement Unit shall
12 continue to transmit the support payments for as long as the payments,
13 aid, or assistance listed in subsection (1) of this section continues.
14 (4) Any court-ordered child, spousal, or other support remaining
15 unpaid for the months during which such payments, aid, or assistance was
16 made shall constitute a debt and a continuing assignment at the
17 termination of payments, aid, or assistance listed in subsection (1) of
18 this section, collectible by the department or other state as
19 reimbursement for such payments, aid, or assistance. The continuing
20 assignment shall only apply to support payments made during a calendar
21 period which exceed the specific amount of support ordered for that
22 period. When payments, aid, or assistance listed in subsection (1) of
23 this section have ceased and upon notice by the department or the other
24 state, the State Disbursement Unit shall continue to transmit to the
25 department or the other state any support payments received in excess of
26 the amount of support ordered for that specific calendar period until
27 notified by the department or the other state that the debt has been paid
28 in full.
29 (5) Beginning July 1, 2026, the department shall pass through an
30 amount not exceeding one hundred dollars per month, or in the case of a
31 family with two or more children, an amount not exceeding two hundred

1 dollars per month, to the recipient of any payments, aid, or assistance
2 listed in subdivision (1)(a) of this section, from the current child
3 support collected pursuant to the assignment. Such pass-through amounts
4 shall not be considered income for the purpose of calculating a
5 recipient's eligibility for assistance. The department shall disregard
6 the amount of child support passed through to the recipient in
7 calculating the amount of the recipient's monthly assistance payment.

[AM3220](#)

(Amendments to Standing Committee amendments, AM3034)

1 1. Strike section 3 and insert the following new sections:
2 Sec. 3. (1) For taxable years beginning or deemed to begin on or
3 after January 1, 2025, under the Internal Revenue Code of 1986, as
4 amended, an employer that pays relocation expenses for a qualifying
5 employee shall be eligible to receive a credit that may be used to offset
6 any income taxes due under the Nebraska Revenue Act of 1967, any premium
7 and related retaliatory taxes due under section 44-150, 77-908, or

8 81-523, or any franchise taxes due under sections 77-3801 to 77-3807.

9 (2) The credit provided in this section shall be a refundable credit
10 in an amount equal to fifty percent of the relocation expenses that were
11 paid by the employer for a qualifying employee during the taxable year,
12 not to exceed a maximum credit of five thousand dollars per qualifying
13 employee.

14 (3) No credit shall be granted under this section unless the
15 qualifying employee will receive an annual salary of at least seventy
16 thousand dollars per year and not more than two hundred fifty thousand
17 dollars per year.

18 (4) Any credit claimed by an employer under this section shall be
19 recaptured by the department if the qualifying employee moves out of the
20 state within two years after the credit is claimed. Any amount required
21 to be recaptured shall be deemed an underpayment of tax and shall be due
22 and payable on the tax return that is due immediately following the loss
23 of residency.

24 (5) Notwithstanding any other limitation contained in the laws of
25 this state, collection of any taxes deemed to be an underpayment by this
26 section shall be allowed for a period of three years following the due
1 date of the recaptured taxes.

2 (6) For taxable years beginning or deemed to begin on or after
3 January 1, 2026, under the Internal Revenue Code of 1986, as amended, the
4 department shall adjust the dollar amounts provided in subsection (3) of
5 this section by the same percentage used to adjust individual income tax
6 brackets under subsection (3) of section 77-2715.03.

7 (7) An employer shall apply for the credit provided in this section
8 by submitting an application to the department on a form prescribed by

10 department determines that the employer qualifies for tax credits under
11 this section, the department shall approve the application and certify
12 the amount of credits approved to the employer.

13 (8) The department shall consider applications in the order in which
14 they are received and may approve tax credits under this section in any
15 year until the aggregate limit allowed under section 4 of this act has
16 been reached.

17 (9) An employer shall claim any tax credits granted under this
18 section by attaching the tax credit certification received from the
19 department under subsection (7) of this section to the employer's tax
20 return.

21 (10) An employer claiming a tax credit under the Relocation
22 Incentive Act against any premium and related retaliatory taxes due under
23 section 44-150, 77-908, or 81-523 shall not be required to pay any
24 additional retaliatory tax as a result of claiming the tax credit. The
25 tax credit may fully offset any retaliatory tax imposed under Nebraska
26 law. Any tax credit claimed shall be considered a payment of tax for
27 purposes of subsection (1) of section 77-2734.03.

28 Sec. 7. Section 77-908, Revised Statutes Cumulative Supplement,
29 2022, is amended to read:

30 77-908 Every insurance company organized under the stock, mutual,
31 assessment, or reciprocal plan, except fraternal benefit societies, which
1 is transacting business in this state shall, on or before March 1 of each
2 year, pay a tax to the director of one percent of the gross amount of
3 direct writing premiums received by it during the preceding calendar year
4 for business done in this state, except that (1) for group sickness and

10 year, pay to the director a tax of one-fourth of one percent of the gross
11 amount of direct writing premiums received by such insurer during the
12 preceding calendar year for business transacted in the state. The taxable
13 premiums shall include premiums paid on the lives of persons residing in
14 this state and premiums paid for risks located in this state whether the

15 insurance was written in this state or not, including that portion of a
16 group premium paid which represents the premium for insurance on Nebraska
17 residents or risks located in Nebraska included within the group when the
18 number of lives in the group exceeds five hundred. The tax shall also
19 apply to premiums received by domestic companies for insurance written on
20 individuals residing outside this state or risks located outside this
21 state if no comparable tax is paid by the direct writing domestic company
22 to any other appropriate taxing authority. Companies whose scheme of
23 operation contemplates the return of a portion of premiums to
24 policyholders, without such policyholders being claimants under the terms
25 of their policies, may deduct such return premiums or dividends from
26 their gross premiums for the purpose of tax calculations. Any such
27 insurance company shall receive a credit on the tax imposed as provided

4 the franchise tax shall be due on the fifteenth day of the third month
5 after the end of the taxable year. No extension of time to pay the tax
6 shall be granted. If the Tax Commissioner determines that the amount of
7 tax can be computed from available information filed by the financial
8 institutions with either state or federal regulatory agencies, the Tax
9 Commissioner may, by regulation, waive the requirement for the financial
10 institutions to file returns.

11 (2) Sections 77-2714 to 77-27,135 relating to deficiencies,
12 penalties, interest, the collection of delinquent amounts, and appeal
13 procedures for the tax imposed by section 77-2734.02 shall also apply to
14 the tax imposed by section 77-3802. If the filing of a return is waived
15 by the Tax Commissioner, the payment of the tax shall be considered the
16 filing of a return for purposes of sections 77-2714 to 77-27,135.

17 (3) No refund of the tax imposed by section 77-3802 shall be allowed
18 unless a claim for such refund is filed within ninety days of the date on
19 which (a) the tax is due or was paid, whichever is later, (b) a change is
20 made to the amount of deposits or the net financial income of the
21 financial institution by a state or federal regulatory agency, or (c) the
22 Nebraska Investment Finance Authority issues an eligibility statement to
23 the financial institution pursuant to the Affordable Housing Tax Credit
24 Act.

25 (4) Any such financial institution shall receive a credit on the
26 franchise tax as provided under the Affordable Housing Tax Credit Act,

28 Credit Act, the Nebraska Job Creation and Mainstreet Revitalization Act,
29 the Nebraska Property Tax Incentive Act, the Relocation Incentive Act,
30 and the New Markets Job Growth Investment Act.

31 Sec. 17. Section 81-523, Revised Statutes Cumulative Supplement,

3 Fire Marshal and such other fire prevention activities as the Governor
4 may direct, every foreign and alien insurance company including
5 nonresident attorneys for subscribers to reciprocal insurance exchanges
6 shall, on or before March 1, pay a tax to the Director of Insurance of
7 three-fourths of one percent of the gross direct writing premiums and
8 assessments received by each of such companies during the preceding
9 calendar year for fire insurance business done in this state.

10 (2) For the purpose set forth in subsection (1) of this section,
11 every domestic insurance company including resident attorneys for
12 subscribers to reciprocal insurance exchanges shall, on or before March
13 1, pay a tax to the Director of Insurance of three-eighths of one percent
14 of the gross direct writing premiums and assessments received by each of
15 such companies during the preceding calendar year for fire insurance
16 business done in this state.

17 (3) The term fire insurance business, as used in subsections (1),
18 (2), and (4) of this section, shall include, but not be limited to,
19 premiums of policies on fire risks on automobiles, whether written under
20 floater form or otherwise.
21 (4) Return premiums on fire insurance business, subject to the fire
22 insurance tax, in accordance with subsections (1) and (2) of this
23 section, may be deducted from the gross direct writing premiums for the
24 purpose of the tax calculations provided for by subsections (1) and (2)
25 of this section. In the case of mutual companies and assessment
26 associations, the dividends paid or credited to policyholders or members
27 in this state shall be construed to be return premiums.
28 (5) Any tax collected pursuant to subsections (1) and (2) of this
29 section shall be remitted to the State Treasurer for credit to the
30 General Fund.
31 (6) An insurance company described in this section shall receive a
1 credit on the tax imposed under this section as provided in the
2 Affordable Housing Tax Credit Act and the Relocation Incentive Act.
3 2. Correct the operative date and repealer sections so that the
4 sections added by this amendment become operative on their effective
5 date.
6 3. Renumber the remaining sections and correct internal references

 25 interconnection of renewable generation facilities, the electric
 26 supplier's reasonable transmission interconnection requirements, and
 27 applicable transmission design and construction standards. The electric
 28 supplier shall have the right to purchase and own transmission facilities
 29 as set forth in the joint transmission development agreement. The private

 20 rights of any entity to acquire any public, municipal, or utility right-
 21 of-way across property owned, used, or operated as part of a privately
 22 developed renewable energy generation facility as long as the right-of-
 23 way does not prevent the operation of or access to the privately
 24 developed renewable energy generation facility.
 25 (6) Only a consumer-owned electric supplier operating in the State
 26 of Nebraska may exercise eminent domain authority to acquire the land
 27 rights necessary for the construction of transmission lines and related
 28 facilities. There is a rebuttable presumption that the exercise of
 29 eminent domain to provide needed transmission lines and related
 30 facilities for a privately developed renewable energy generation facility
 31 is a public use.
 1 (7) Nothing in this section shall be construed to authorize a
 2 private electric supplier to sell or deliver electricity at retail in
 3 Nebraska.
 4 (8) Nothing in this section shall be construed to limit the
 5 authority of or require a consumer-owned electric supplier operating in
 6 the State of Nebraska to enter into a joint agreement with a private
 7 electric supplier to develop, construct, and jointly own a privately
 8 developed renewable energy generation facility.

 5 respectively received the votes, and the number of votes each received.
 6 The abstract shall be signed by the members of the board and shall have
 7 the seal of the state affixed by the Secretary of State. The canvass of
 8 the votes for candidates for President and Vice President of the United
 9 States and the return thereof shall be a canvass and return of the votes
 10 cast for the presidential electors of the same party or group of
 11 petitioners respectively, and the certificate of such election made by
 12 the Governor shall be in accord with such return. Receipt by the

 2 Sec. 6. (1) In alignment with the Poverty Elimination Action Plan
 3 Act's goals, and to maximize economic benefits for residents of high-
 4 poverty zones, qualified census tracts, and economic redevelopment areas,
 5 all construction projects initiated, funded, or incentivized under a
 6 city's poverty elimination action plan shall incorporate detailed project
 7 labor agreement provisions. Such provisions are aimed at leveraging
 8 project labor agreements to fulfill the act's objectives and contribute
 9 to the broader redevelopment efforts.
 10 (2) For purposes of this section, a project labor agreement is a
 11 pre-hire collective bargaining agreement with one or more labor unions,
 12 setting forth employment terms and conditions for a specific construction
 13 project. The intent behind a project labor agreement includes:
 14 (a) Ensuring that all construction activities tied to the poverty
 15 elimination action plan adhere to the highest standards of quality,
 16 efficiency, and safety, thereby reflecting the project's commitment to
 17 excellence;

18 (b) Guaranteeing that workers on such construction projects are
 19 compensated at prevailing wage rates, in line with the rates for similar
 20 construction work in the locality, as determined by the United States

 25 within the community, especially those residing in high-poverty areas,
 26 qualified census tracts, and economic redevelopment areas. Such approach
 1 aims to provide direct employment opportunities to those most affected by
 2 poverty and foster local economic development.
 3 (3) Each project labor agreement shall integrate apprenticeship
 4 training programs that are essential for equipping local residents with
 5 the necessary skills and credentials for sustainable careers in the
 6 construction sector and beyond. Such programs should:
 7 (a) Offer a comprehensive pathway for individuals, particularly from
 8 marginalized communities, to gain the requisite skills and experience for
 9 long-term employment in the construction field;
 10 (b) Blend practical, onsite training with academic instruction,
 11 adhering to the apprenticeship standards set by the United States
 12 Department of Labor or the Nebraska Department of Labor, ensuring a well-
 13 rounded education and training experience; and
 14 (c) Encourage diversity and inclusivity within the construction
 15 workforce by establishing specific recruitment and training objectives
 16 for women, people of color, veterans, and other traditionally
 17 underrepresented groups to promote equity in employment opportunities.
 18 (4) A city shall ensure that a project labor agreement embedded
 19 within the poverty elimination action plan incorporates effective
 20 monitoring mechanisms to enforce compliance with the terms of such
 21 agreement, particularly terms pertaining to local hiring practices, wage
 22 standards, and apprenticeship training commitments.
 23 (5) The impact of project labor agreements on achieving the Poverty
 24 Elimination Action Plan Act's goals, including their effectiveness in
 25 fostering local employment and skill development, shall be evaluated as
 26 part of the biennial review conducted by the Urban Affairs Committee of
 27 the Legislature for each city's action plan, ensuring accountability and

 8 (1) Any claim based upon an act or omission of an employee of a

 10 statute, ordinance, or officially adopted resolution, rule, or
 11 regulation, whether or not such statute, ordinance, resolution, rule, or
 12 regulation is valid;
 13 (2) Any claim based upon the exercise or performance of or the
 14 failure to exercise or perform a discretionary function or duty on the
 15 part of the political subdivision or an employee of the political
 16 subdivision, whether or not the discretion is abused;
 17 (3) Any claim based upon the failure to make an inspection or making
 18 an inadequate or negligent inspection of any property other than property
 19 owned by or leased to such political subdivision to determine whether the
 20 property complies with or violates any statute, ordinance, rule, or
 21 regulation or contains a hazard to public health or safety unless the
 22 political subdivision had reasonable notice of such hazard or the failure
 23 to inspect or inadequate or negligent inspection constitutes a reckless
 24 disregard for public health or safety;
 25 (4) Any claim based upon the issuance, denial, suspension, or
 26 revocation of or failure or refusal to issue, deny, suspend, or revoke
 1 any permit, license, certificate, or order. Nothing in this subdivision
 2 shall be construed to limit a political subdivision's liability for any
 3 claim based upon the negligent execution by an employee of the political
 4 subdivision in the issuance of a certificate of title under the Motor
 5 Vehicle Certificate of Title Act and the State Boat Act except when such
 6 title is issued upon an application filed electronically by an approved
 7 licensed dealer participating in the electronic dealer services system

13 quarantine by the state or a political subdivision, whether such
14 quarantine relates to persons or property;

15 (7) Any claim arising out of the following acts: Assault assault,
16 battery, false arrest, false imprisonment, malicious prosecution, abuse
17 of process, libel, slander, misrepresentation, deceit, or interference
18 with contract rights. ~~This , except that this~~ subdivision does not apply
19 to a claim; ~~under~~

20 (a) Under the Healthy Pregnancies for Incarcerated Women Act; or
21 (b) When the harm caused by an intentional tort is a proximate
22 result of the failure of a political subdivision or an employee of the
23 political subdivision to exercise reasonable care to either:

24 (i) Control a person over whom it has taken charge; or
25 (ii) Protect a person who is in the political subdivision's care,
26 custody, or control from harm caused by a non-employee actor;

27 (8) Any claim by an employee of the political subdivision which is
28 covered by the Nebraska Workers' Compensation Act;

29 (9) Any claim arising out of the malfunction, destruction, or
30 unauthorized removal of any traffic or road sign, signal, or warning
31 device unless it is not corrected by the political subdivision
1 responsible within a reasonable time after actual or constructive notice
2 of such malfunction, destruction, or removal. Nothing in this subdivision
3 shall give rise to liability arising from an act or omission of any
4 political subdivision in placing or removing any traffic or road signs,
5 signals, or warning devices when such placement or removal is the result
6 of a discretionary act of the political subdivision;

22 (12) Any claim arising out of the alleged insufficiency or want of
23 repair of any highway as defined in such section, bridge, or other public
24 thoroughfare. Insufficiency or want of repair shall be construed to refer
25 to the general or overall condition and shall not refer to a spot or
26 localized defect. A political subdivision shall be deemed to waive its

28 political subdivision has had actual or constructive notice of the defect
29 within a reasonable time to allow repair prior to the incident giving
30 rise to the claim or (b) the claim arose during the time specified in a
31 notice provided by the political subdivision pursuant to subsection (3)
1 of section 39-1359 and the state or political subdivision had actual or
2 constructive notice; or

3 (13)(a) Any claim relating to recreational activities for which no
4 fee is charged (i) resulting from the inherent risk of the recreational
5 activity, (ii) arising out of a spot or localized defect of the premises

8 reasonable time after actual or constructive notice of the spot or
9 localized defect, or (iii) arising out of the design of a skatepark or
10 bicycle motocross park constructed for purposes of skateboarding, inline

11 skating, bicycling, or scootering that was constructed or reconstructed,
 12 reasonably and in good faith, in accordance with generally recognized
 13 engineering or safety standards or design theories in existence at the
 14 time of the construction or reconstruction. For purposes of this
 15 subdivision, a political subdivision shall be charged with constructive
 16 notice only when the failure to discover the spot or localized defect of
 17 the premises is the result of gross negligence.

18 (b) For purposes of this subdivision:

19 (i) Recreational activities include, but are not limited to, whether

 21 camping, picnicking, hiking, walking, running, horseback riding, use of
 22 trails, nature study, waterskiing, winter sports, use of playground
 23 equipment, biking, roller blading, skateboarding, golfing, athletic
 24 contests; visiting, viewing, or enjoying entertainment events, festivals,
 25 or historical, archaeological, scenic, or scientific sites; and similar
 26 leisure activities;

27 (ii) Inherent risk of recreational activities means those risks that
 28 are characteristic of, intrinsic to, or an integral part of the activity;

29 (iii) Gross negligence means the absence of even slight care in the
 30 performance of a duty involving an unreasonable risk of harm; and

31 (iv) Fee means a fee to participate in or be a spectator at a
 1 recreational activity. A fee shall include payment by the claimant to any
 2 person or organization other than the political subdivision only to the

 4 activity. A fee shall not include payment of a fee or charge for parking
 5 or vehicle entry.

6 (c) This subdivision, and not subdivision (3) of this section, shall
 7 apply to any claim arising from the inspection or failure to make an
 8 inspection or negligent inspection of premises owned or leased by the
 9 political subdivision and used for recreational activities.

 11 2022, is amended to read:

13 (1) Any claim based upon an act or omission of an employee of the
 14 state, exercising due care, in the execution of a statute, rule, or
 15 regulation, whether or not such statute, rule, or regulation is valid, or
 16 based upon the exercise or performance or the failure to exercise or
 17 perform a discretionary function or duty on the part of a state agency or
 18 an employee of the state, whether or not the discretion is abused;

19 (2) Any claim arising with respect to the assessment or collection
 20 of any tax or fee, or the detention of any goods or merchandise by any
 21 law enforcement officer;

22 (3) Any claim for damages caused by the imposition or establishment

 24 or property;

25 (4) Any claim arising out of the following acts: Assault assault,
 26 battery, false imprisonment, false arrest, malicious prosecution, abuse
 27 of process, libel, slander, or interference with contract rights. This ;
 28 ~~except that this subdivision does not apply to a claim; under~~

29 (a) Under the Healthy Pregnancies for Incarcerated Women Act; or
 30 (b) When the harm caused by an intentional tort is a proximate
 31 result of the failure of a state agency or an employee of a state agency
 1 to exercise reasonable care to either:

2 (i) Control a person over whom it has taken charge; or

3 (ii) Protect a person who is in the state agency's care, custody, or
 4 control from harm caused by a non-employee actor;

5 (5) Any claim arising out of misrepresentation or deceit, except
 6 that, in cases of adoption or placement, the State Tort Claims Act shall
 7 apply to a claim arising out of misrepresentation or deceit by the
 8 Department of Health and Human Services in failing to warn, notify, or

9 inform of a ward's mental and behavioral health history, educational
10 history, and medical history, including any history as a victim or
11 perpetrator of sexual abuse;
12 (6) Any claim by an employee of the state which is covered by the
13 Nebraska Workers' Compensation Act;
14 (7) Any claim based on activities of the Nebraska National Guard
15 when such claim is cognizable under the Federal Tort Claims Act, 28
16 U.S.C. 2674, or the federal National Guard Claims Act, 32 U.S.C. 715, or
17 when such claim accrues as a result of active federal service or state
18 service at the call of the Governor for quelling riots and civil
19 disturbances;
20 (8) Any claim based upon the failure to make an inspection or making
21 an inadequate or negligent inspection of any property other than property
22 owned by or leased to the state to determine whether the property
23 complies with or violates any statute, ordinance, rule, or regulation or
24 contains a hazard to public health or safety unless the state had
25 reasonable notice of such hazard or the failure to inspect or inadequate
26 or negligent inspection constitutes a reckless disregard for public
27 health or safety;
28 (9) Any claim based upon the issuance, denial, suspension, or
29 revocation of or failure or refusal to issue, deny, suspend, or revoke
30 any permit, license, certificate, or order. Such claim shall also not be
31 filed against a state employee acting within the scope of his or her
1 office. Nothing in this subdivision shall be construed to limit the
2 state's liability for any claim based upon the negligent execution by a
3 state employee in the issuance of a certificate of title under the Motor
4 Vehicle Certificate of Title Act and the State Boat Act except when such
5 title is issued upon an application filed electronically by an approved
6 licensed dealer participating in the electronic dealer services system
7 pursuant to section 60-1507;
8 (10) Any claim arising out of the malfunction, destruction, or
9 unauthorized removal of any traffic or road sign, signal, or warning
10 device unless it is not corrected by the governmental entity responsible
11 within a reasonable time after actual or constructive notice of such
12 malfunction, destruction, or removal. Nothing in this subdivision shall
13 give rise to liability arising from an act or omission of any
14 governmental entity in placing or removing any traffic or road signs,
15 signals, or warning devices when such placement or removal is the result
16 of a discretionary act of the governmental entity;
17 (11) Any claim arising out of snow or ice conditions or other
18 temporary conditions caused by nature on any highway as defined in
19 section 60-624, bridge, public thoroughfare, or other state-owned public
20 place due to weather conditions. Nothing in this subdivision shall be
21 construed to limit the state's liability for any claim arising out of the
22 operation of a motor vehicle by an employee of the state while acting
23 within the course and scope of his or her employment by the state;
24 (12) Any claim arising out of the plan or design for the
25 construction of or an improvement to any highway as defined in such
26 section or bridge, either in original construction or any improvement
27 thereto, if the plan or design is approved in advance of the construction
28 or improvement by the governing body of the governmental entity or some
29 other body or employee exercising discretionary authority to give such
30 approval;
31 (13) Any claim arising out of the alleged insufficiency or want of
1 repair of any highway as defined in such section, bridge, or other public
2 thoroughfare. Insufficiency or want of repair shall be construed to refer
3 to the general or overall condition and shall not refer to a spot or
4 localized defect. The state shall be deemed to waive its immunity for a
5 claim due to a spot or localized defect only if the state has had actual
6 or constructive notice of the defect within a reasonable time to allow

7 repair prior to the incident giving rise to the claim;
 8 (14)(a) Any claim relating to recreational activities on property
 9 leased, owned, or controlled by the state for which no fee is charged (i)
 10 resulting from the inherent risk of the recreational activity, (ii)
 11 arising out of a spot or localized defect of the premises unless the spot
 12 or localized defect is not corrected within a reasonable time after
 13 actual or constructive notice of the spot or localized defect, or (iii)
 14 arising out of the design of a skatepark or bicycle motocross park
 15 constructed for purposes of skateboarding, inline skating, bicycling, or
 16 scootering that was constructed or reconstructed, reasonably and in good
 17 faith, in accordance with generally recognized engineering or safety
 18 standards or design theories in existence at the time of the construction
 19 or reconstruction. For purposes of this subdivision, the state shall be
 20 charged with constructive notice only when the failure to discover the
 21 spot or localized defect of the premises is the result of gross
 22 negligence.
 23 (b) For purposes of this subdivision:
 24 (i) Recreational activities include, but are not limited to, whether
 25 as a participant or spectator: Hunting, fishing, swimming, boating,
 26 camping, picnicking, hiking, walking, running, horseback riding, use of

 9 include payment of a fee or charge for parking or vehicle entry.
 10 (c) This subdivision, and not subdivision (8) of this section, shall
 11 apply to any claim arising from the inspection or failure to make an
 12 inspection or negligent inspection of premises owned or leased by the
 13 state and used for recreational activities; or
 14 (15) Any claim arising as a result of a special event during a
 15 period of time specified in a notice provided by a political subdivision

[AM3329](#)

(Amendments to Standing Committee amendments, AM440)

1 1. Strike amendment 1 and insert the following new amendment:
 2 1. Strike the original sections and insert the following new
 3 sections:
 4 Section 1. The Legislature finds and declares that:
 5 (1) Article VII, section 5, of the Constitution of Nebraska provides
 6 in part that all fines, penalties, and license money arising under the
 7 general laws of the state shall belong and be paid over to the counties
 8 respectively where the same may be levied or imposed;
 9 (2) Article VII, section 5, of the Constitution further provides
 10 that all such fines, penalties, and license money shall be appropriated
 11 exclusively to the use and support of the common schools in the
 12 respective subdivisions where the same may accrue;

13 (3) Punitive damages are in the nature of fines or penalties;
14 (4) Punitive damages are awarded both to punish the defendant and to
15 deter the defendant and others from similar conduct. Punitive damages are
16 appropriate in many situations where compensatory damages would be
17 inadequate because the defendant acted in a truly egregious fashion; and
18 (5) Additional funds available for the public schools could be used
19 to provide property tax relief.
20 Sec. 2. For the purposes of sections 1 to 7 of this act:
21 (1) Compensatory damages mean damages intended to make whole the
22 loss of an injured party and no more. The term includes general and
23 special damages and does not include nominal, exemplary, or punitive
24 damages;
25 (2) Gross negligence means the absence of even slight care in the
26 performance of a duty involving an unreasonable risk of harm;
1 (3) Malice means hatred, spite, or ill-will or the doing of a
2 wrongful act intentionally without just cause or excuse;
3 (4) Nominal damages are damages that are not designed to compensate
4 an injured party and are less than one thousand dollars;
5 (5) Punitive damages mean damages that a party in a civil action is
6 ordered to pay (a) based on aggravating circumstances, (b) to penalize
7 such party, or (c) to provide additional deterrence and discourage
8 similar conduct in the future. The term does not include compensatory
9 damages or nominal damages; and
10 (6)(a) Reckless disregard means the person acted with reckless
11 disregard of the rights, health, or safety of others and the person was
12 either aware, or did not care, that there was a substantial and
13 unnecessary risk that such person's conduct would cause serious harm to
14 others.
15 (b) In order for the conduct to be with reckless disregard of
16 another's rights, health, or safety, it must have been unreasonable under
17 the circumstances and there must have been a high probability that the
18 conduct would cause serious harm to others.
19 Sec. 3. (1) Subject to this section, in an action for the breach of
20 an obligation not arising from contract, other than an insurance
21 contract, the trier of fact may, in addition to compensatory damages,
22 award punitive damages for the sake of example and by way of punishing
23 the defendant.
24 (2) In determining the amount, if any, of punitive damages to award,
25 the trier of fact shall consider the following factors:
26 (a) The seriousness of the hazard to the public arising from the
27 defendant's misconduct;
28 (b) The profitability of the misconduct to the defendant;
29 (c) The duration of the misconduct and any concealment of it;
30 (d) The degree of the defendant's awareness of the hazard and of its
31 excessiveness;
1 (e) The target of the conduct was financially vulnerable;
2 (f) The attitude and conduct of the defendant upon discovery of the
3 misconduct or hazard;
4 (g) The conduct involved repeated actions or was an isolated
5 incident;
6 (h) In the case of a defendant that is a corporation or other
7 entity, the number and level of employees involved in causing or
8 concealing the misconduct; and
9 (i) The financial condition of the defendant.
10 (3)(a) Category I. The trier of fact may award punitive damages
11 subject to the limit in subdivision (3)(b) of this section if the trier
12 of fact finds by clear and convincing evidence:
13 (i) That the defendant acted with gross negligence, fraud, or
14 reckless disregard; or
15 (ii) If the defendant is an insurer, that the defendant recklessly

16 disregarded its duty to deal fairly and act in good faith with its
17 insured.
18 (b) An award of punitive damages under this subsection shall not
19 exceed the greater of:
20 (i) One million dollars; or
21 (ii) The amount of any compensatory damages awarded.
22 (4)(a) Category II. The trier of fact may award punitive damages
23 subject to the limit in subdivision (4)(b) of this section if the trier
24 of fact finds by clear and convincing evidence:
25 (i) That the defendant acted intentionally and with malice toward
26 others; or
27 (ii) If the defendant is an insurer, that the defendant
28 intentionally and with malice breached its duty to deal fairly and act in
29 good faith with its insured.
30 (b) An award of punitive damages under this subsection shall not
31 exceed the greater of:
1 (i) Five million dollars;
2 (ii) Three times the amount of any compensatory damages awarded; or
3 (iii) The increased financial benefit derived by the defendant as a
4 direct result of the conduct causing the injury to the plaintiff and
5 other persons or entities.
6 (c) The trial court shall reduce any award for punitive damages
7 awarded pursuant to subdivision (4)(b)(iii) of this section by the amount
8 the court finds the defendant has previously paid as a result of all
9 punitive damage verdicts entered in any court of this state for the same
10 conduct by the defendant.
11 (5) Category III. The trier of fact may award punitive damages
12 without regard to any limit set forth in this section if:
13 (a) The trier of fact finds by clear and convincing evidence:
14 (i) That the defendant acted with gross negligence, fraud, or
15 reckless disregard; or
16 (ii) If the defendant is an insurer, that the defendant recklessly
17 disregarded its duty to deal fairly and act in good faith with its
18 insured; and
19 (b) The trial court finds, on the record and out of the presence of
20 the jury, that there is evidence beyond a reasonable doubt that the
21 defendant acted intentionally and with malice and engaged in conduct
22 threatening to human life.
23 (6) Except as provided in section 5 of this act, the determination
24 of what amount, if any, of punitive damages to award shall be made by the
25 trier of fact in a separate proceeding that is conducted after the trier
26 of fact has made findings regarding any compensatory damages.
27 Sec. 4. (1) An award of punitive damages must be specifically
28 prayed for in the pleading.
29 (2) The party requesting punitive damages shall cause a copy of such
30 pleading to be served upon the Attorney General and the county attorney.
31 The county attorney shall notify the school board for any school district
1 that may receive punitive damages if any are awarded.
2 (3) Upon an award of punitive damages, the court shall notify the
3 county attorney. The county attorney or local school board may become a
4 party to the action solely to protect and enforce the interests of the
5 common schools in any award of punitive damages.
6 Sec. 5. Whether to award punitive damages, and the amount of such
7 damages, shall be determined by the trier of fact unless waived by all
8 parties.
9 Sec. 6. Any award of punitive damages shall be remitted to the
10 State Treasurer for distribution in accordance with Article VII, section
11 5, of the Constitution of Nebraska.
12 Sec. 7. (1) Sections 1 to 7 of this act are cumulative with and
13 supplemental to any other laws of this state that authorize punitive

14 damages.

15 (2) Nothing in sections 1 to 7 of this act shall prevent a court

16 from ordering restitution or ordering payment of attorney's fees.

17 2. Correct the operative date and repealer sections so that the

18 sections added by this amendment become operative on July 1, 2025.

 8 be credited to the State Patrol Retirement Fund.

9 (b) This assessment constitutes an employer match and shall be
 10 contingent upon the officer making such officer's his or her
 11 contributions to the retirement system.

12 (3)(a) Prior to July 1, 2021:

13 (i) Beginning July 1, 2002, and each fiscal year thereafter, the
 14 board shall cause an annual actuarial valuation to be performed that will
 15 value the plan assets for the year and ascertain the contributions
 16 required for such fiscal year. The actuary for the board shall perform an
 17 actuarial valuation of the system on the basis of actuarial assumptions
 18 recommended by the actuary, approved by the board, and kept on file with
 19 the board using the entry age actuarial cost method. Under this method,
 20 the actuarially required funding rate is equal to the normal cost rate,
 21 plus the contribution rate necessary to amortize the unfunded actuarial
 22 accrued liability on a level percentage of salary basis. The normal cost

23 under this method shall be determined for each individual member on a
24 level percentage of salary basis. The normal cost amount is then summed
25 for all members;

26 (ii) Beginning July 1, 2006, any existing unfunded liabilities shall
27 be reinitialized and amortized over a thirty-year period, and during each
28 subsequent actuarial valuation through June 30, 2021, changes in the
29 unfunded actuarial accrued liability due to changes in benefits,
30 actuarial assumptions, the asset valuation method, or actuarial gains or
31 losses shall be measured and amortized over a thirty-year period
1 beginning on the valuation date of such change;

2 (iii) If the unfunded actuarial accrued liability under the entry
3 age actuarial cost method is zero or less than zero on an actuarial
4 valuation date, then all prior unfunded actuarial accrued liabilities
5 shall be considered fully funded and the unfunded actuarial accrued
6 liability shall be reinitialized and amortized over a thirty-year period
7 as of the actuarial valuation date; and

8 (iv) If the actuarially required contribution rate exceeds the rate
9 of all contributions required pursuant to the Nebraska State Patrol
10 Retirement Act, there shall be a supplemental appropriation sufficient to
11 pay for the differences between the actuarially required contribution
12 rate and the rate of all contributions required pursuant to the act.

13 (b) Beginning July 1, 2021, and each fiscal year thereafter:

14 (i) The board shall cause an annual actuarial valuation to be
15 performed that will value the plan assets for the year and ascertain the
16 contributions required for such fiscal year. The actuary for the board
17 shall perform an actuarial valuation of the system on the basis of
18 actuarial assumptions recommended by the actuary, approved by the board,
19 and kept on file with the board using the entry age actuarial cost
20 method. Under such method, the actuarially required funding rate is equal
21 to the normal cost rate, plus the contribution rate necessary to amortize
22 the unfunded actuarial accrued liability on a level percentage of salary
23 basis. The normal cost under such method shall be determined for each
24 individual member on a level percentage of salary basis. The normal cost
25 amount is then summed for all members;

26 (ii) Any changes in the unfunded actuarial accrued liability due to
27 changes in benefits, actuarial assumptions, the asset valuation method,
28 or actuarial gains or losses shall be measured and amortized over a
29 twenty-five-year period beginning on the valuation date of such change;

30 (iii) If the unfunded actuarial accrued liability under the entry
31 age actuarial cost method is zero or less than zero on an actuarial
1 valuation date, then all prior unfunded actuarial accrued liabilities
2 shall be considered fully funded and the unfunded actuarial accrued
3 liability shall be reinitialized and amortized over a twenty-five-year
4 period as of the actuarial valuation date; and

5 (iv) If the actuarially required contribution rate exceeds the rate
6 of all contributions required pursuant to the Nebraska State Patrol
7 Retirement Act, there shall be a supplemental appropriation sufficient to
8 pay for the differences between the actuarially required contribution
9 rate and the rate of all contributions required pursuant to the act.

10 (c) Upon the recommendation of the actuary to the board, and after
11 the board notifies the Nebraska Retirement Systems Committee of the
12 Legislature, the board may combine or offset certain amortization bases
13 to reduce future volatility of the actuarial contribution rate. Such
14 notification to the committee shall be in writing and include, at a
15 minimum, the actuary's projection of the contributions to fund the plan
16 if the combination or offset were not implemented, the actuary's
17 projection of the contributions to fund the plan if the combination or
18 offset were implemented, and the actuary's explanation of why the
19 combination or offset is in the best interests of the plan at the
20 proposed time.

21 (4) The state shall pick up the member contributions required by
 22 this section for all compensation paid on or after January 1, 1985, and
 23 the contributions so picked up shall be treated as employer contributions
 24 pursuant to section 414(h)(2) of the Internal Revenue Code in determining
 25 federal tax treatment under the code and shall not be included as gross
 26 income of the member until such time as they are distributed or made
 27 available. The contributions, although designated as member
 28 contributions, shall be paid by the state in lieu of member
 29 contributions. The state shall pay these member contributions from the
 30 same source of funds which is used in paying earnings to the member. The
 31 state shall pick up these contributions by a compensation deduction
 1 through a reduction in the cash compensation of the member. Member
 2 contributions picked up shall be treated for all purposes of the Nebraska
 3 State Patrol Retirement Act in the same manner and to the extent as
 4 member contributions made prior to the date picked up.
 5 Sec. 3. Original sections 81-8,318 and 81-2017, Revised Statutes
 6 Cumulative Supplement, 2022, are repealed.
 7 Sec. 4. Since an emergency exists, this act takes effect when
 8 passed and approved according to law.
 9 2. On page 1, strike beginning with "retirement" in line 1 through
 10 line 7 and insert "public safety officers; to amend sections 81-8,318 and
 11 81-2017, Revised Statutes Cumulative Supplement, 2022; to change
 12 provisions relating to claims under the In the Line of Duty Compensation
 13 Act; to change contributions and assessments under the Nebraska State
 14 Patrol Retirement Act; to harmonize provisions; to repeal the original
 15 sections; and to declare an emergency."

26 during the current or following school year. A student of a military
1 family shall be admitted to the school district without charge upon
2 arrival in Nebraska if the requirements of this section are met.

3 (8) A school board may admit a student who is a resident of another
4 state to the school district and collect tuition in advance at a rate
5 determined by the school board.

6 (9) When a student as a ward of the state or as a ward of any court
7 (a) has been placed in a school district other than the district in which
8 he or she resided at the time he or she became a ward and such ward does
9 not reside in a foster family home licensed or approved by the Department
10 of Health and Human Services or a foster home maintained or used pursuant
11 to section 83-108.04 or (b) has been placed in any institution which
12 maintains a special education program which has been approved by the
13 State Department of Education and such institution is not owned or
14 operated by the district in which he or she resided at the time he or she
15 became a ward, the cost of his or her education and the required
16 transportation costs associated with the student's education shall be
17 paid by the state, but not in advance, to the receiving school district
18 or approved institution under rules and regulations prescribed by the
19 Department of Health and Human Services and the student shall remain a
20 resident of the district in which he or she resided at the time he or she
21 became a ward. Any student who is a ward of the state or a ward of any
22 court who resides in a foster family home licensed or approved by the
23 Department of Health and Human Services or a foster home maintained or
24 used pursuant to section 83-108.04 shall be deemed a resident of the
25 district in which he or she resided at the time he or she became a foster
26 child, unless it is determined under section 43-1311 or 43-1312 that he
27 or she will not attend such district in which case he or she shall be
28 deemed a resident of the district in which the foster family home or
29 foster home is located.

30 (10)(a) When a student is not a ward of the state or a ward of any
31 court and is residing in a residential setting located in Nebraska for
1 reasons other than to receive an education and the residential setting is
2 operated by a service provider which is certified or licensed by the
3 Department of Health and Human Services or is enrolled in the medical
4 assistance program established pursuant to the Medical Assistance Act and
5 Title XIX or XXI of the federal Social Security Act, as amended, the
6 student shall remain a resident of the district in which he or she
7 resided immediately prior to residing in such residential setting. The
8 resident district for a student who is not a ward of the state or a ward
9 of any court does not change when the student moves from one residential
10 setting to another.

11 (b) If a student is residing in a residential setting as described
12 in subdivision (10)(a) of this section and such residential setting does
13 not maintain an interim-program school as defined in section 79-1119.01
14 or an approved or accredited school, the resident school district shall
15 contract with the district in which such residential setting is located
16 for the provision of all educational services, including all special
17 education services and support services as defined in section 79-1125.01,
18 unless a parent or guardian and the resident school district agree that
19 an appropriate education will be provided by the resident school district
20 while the student is residing in such residential setting. If the
21 resident school district is required to contract, the district in which
22 such residential setting is located shall contract with the resident
23 district and provide all educational services, including all special
24 education services, to the student. If the two districts cannot agree on
25 the amount of the contract, the State Department of Education shall

26 determine the amount to be paid by the resident district to the district
 27 in which such residential setting is located based on the needs of the
 28 student, approved special education rates, the department's general
 29 experience with special education budgets, and the cost per student in
 30 the district in which such residential setting is located. Once the
 31 contract has been entered into, all legal responsibility for special
 1 education and related services shall be transferred to the school
 2 district in which the residential setting is located.

3 (c) If a student is residing in a residential setting as described
 4 in subdivision (10)(a) of this section and such residential setting
 5 maintains an interim-program school as defined in section 79-1119.01 or
 6 an approved or accredited school, the department shall reimburse such
 7 residential setting for the provision of all educational services,
 8 including all special education services and support services, with the
 9 amount of payment for all educational services determined pursuant to the
 10 average per pupil cost of the service agency as defined in section
 11 79-1116. The resident school district shall retain responsibility for
 12 such student's individualized education ~~program plan~~, if any. The
 13 educational services may be provided through (i) such interim-program
 14 school or approved or accredited school, (ii) a contract between the
 15 residential setting and the school district in which such residential
 16 setting is located, (iii) a contract between the residential setting and
 17 another service agency as defined in section 79-1124, or (iv) a
 18 combination of such educational service providers.

19 (d) If a school district pays a school district in which a
 20 residential setting is located for educational services provided pursuant
 21 to subdivision (10)(b) of this section and it is later determined that a
 22 different school district was the resident school district for such
 23 student at the time such educational services were provided, the school
 24 district that was later determined to be the resident school district
 25 shall reimburse the school district that initially paid for the
 26 educational services one hundred ten percent of the amount paid.

27 (e) A student residing in a residential setting described in this
 28 subsection shall be defined as a student with a handicap pursuant to
 29 Article VII, section 11, of the Constitution of Nebraska, and as such the
 30 state and any political subdivision may contract with institutions not
 31 wholly owned or controlled by the state or any political subdivision to
 1 provide the educational services to the student if such educational
 2 services are nonsectarian in nature.

3 (11) A school board may admit a student who is also enrolled in a
 4 private, denominational, or parochial school or in a school which elects
 5 pursuant to section 79-1601 not to meet accreditation or approval
 6 requirements without charge for part-time enrollment in the school
 7 district for purposes of participation in extracurricular activities in
 8 accordance with section 79-2,136 if such student or at least one parent
 9 of such student resides in a neighboring school district and the school
 10 district where such student or such student's parent resides does not
 11 offer the extracurricular activity the student desires to participate in
 12 through part-time enrollment.

13 (12) ~~(11)~~ In the case of any individual eighteen years of age or
 14 younger who is a ward of the state or any court and who is placed in a
 15 county detention home established under section 43-2,110, the cost of his
 16 or her education shall be paid by the state, regardless of the district
 17 in which he or she resided at the time he or she became a ward, to the
 18 agency or institution which: (a) Is selected by the county board with
 19 jurisdiction over such detention home; (b) has agreed or contracted with
 20 such county board to provide educational services; and (c) has been
 21 approved by the State Department of Education pursuant to rules and
 22 regulations prescribed by the State Board of Education.

23 (13) ~~(12)~~ No tuition shall be charged for students who may be by law

24 allowed to attend the school without charge.

25 ~~(14) (13)~~ The State Department of Education shall establish
 26 procedures and criteria for collecting enrollment, admission, and related
 27 information needed for any student to attend a school district in this
 28 state which shall include, but not be limited to, having an adult with
 29 legal or actual charge or control of a student provide through electronic
 30 means or other means specified by the department the name of the student,
 31 the name of the adult with legal or actual charge or control of the
 1 student, the address where the student is or will be residing, and
 2 information on how and where the adult may generally be reached during
 3 the school day.

4 ~~(15) (14)~~ The department may adopt and promulgate rules and
 5 regulations to carry out the provisions of this section.

6 Sec. 14. Section 79-2,136, Revised Statutes Supplement, 2023, is
 7 amended to read:

8 79-2,136 (1) Each school board shall allow the part-time enrollment
 9 of students, for all courses selected by the students, who are residents
 10 of ~~or admitted to~~ the school district pursuant to ~~subsection~~ ~~subsections~~
 11 ~~(1), and (2), or (11)~~ of section 79-215 and who are also enrolled in a
 12 private, denominational, or parochial school or in a school which elects
 13 pursuant to section 79-1601 not to meet accreditation or approval
 14 requirements and shall establish policies and procedures for such part-
 15 time enrollment. Such policies and procedures may include provisions
 16 permitting the part-time enrollment of such students who are not
 17 residents of ~~or admitted to~~ such school districts to the extent permitted
 18 pursuant to section 79-215 and may require part-time students to follow
 19 school policies that apply to other students at any time the part-time
 20 student is present on school grounds or at a school-sponsored activity or
 21 athletic event. Part-time enrollment shall not entitle a student to
 22 transportation or transportation reimbursements pursuant to section
 23 79-611.

24 (2) Each school board shall establish policies and procedures to
 25 allow any student who is a resident of ~~or admitted to~~ the school district
 26 pursuant to subsection (1), ~~or (2), or (11)~~ of section 79-215 and who is
 27 enrolled in a school which elects pursuant to section 79-1601 not to meet
 28 accreditation or approval requirements to participate in any
 29 extracurricular activities as defined in section 79-2,126, including, but
 30 not limited to, interschool competitions, to the same extent and subject
 31 to the same requirements, conditions, and procedures as a student
 1 enrolled in a public school governed by such board, except that any
 2 school which elects pursuant to section 79-1601 not to meet accreditation
 3 or approval requirements shall set the standards for satisfactory
 4 academic performance for a student from the school to participate in
 5 extracurricular activities pursuant to this subsection and shall provide
 6 assurances of compliance with such academic standards.

7 (3) School board policies and procedures adopted pursuant to
 8 subsection (2) of this section (a) shall require any student
 9 participating in extracurricular activities pursuant to such subsection
 10 to be enrolled in no more and no less than five credit hours offered by
 11 the school district in any semester, (b) shall not allow any preference
 12 in the selection of a student for participation in an extracurricular
 13 activity based on such student's status as a full-time student in the
 14 school district, and (c) may require any student participating in
 15 extracurricular activities pursuant to such subsection to follow school
 16 policies that apply to other students when present on school grounds or
 17 at a school-sponsored activity or athletic event. Participation in
 18 extracurricular activities pursuant to subsection (2) of this section
 19 shall not entitle a student to transportation, except to and from
 20 practices and events to the same extent as public school students
 21 participating in such activities, or transportation reimbursement

22 pursuant to section 79-611.
 23 (4) Nothing in this section shall be construed to exempt any student
 24 from the compulsory attendance provisions of sections 79-201 to 79-210.
 25 2. Renumber the remaining sections and correct internal references

LEGISLATIVE BILL 575. Placed on General File with amendment.

[AM2049](#)

1 1. Strike the original sections and insert the following new
 2 sections:
 3 Section 1. Sections 1 to 7 of this act shall be known and may be
 4 cited as the Sports and Spaces Act.
 5 Sec. 2. The Legislature finds and declares that:
 6 (1) Physical differences between biological males and biological
 7 females have long made separate and sex-specific sports teams important
 8 so that biological female athletes can have equal opportunities to
 9 compete in sports;
 10 (2) Physical advantages for biological males relevant to sports
 11 include, on average, a larger body size with more skeletal muscle mass, a
 12 lower percentage of body fat, and greater maximal delivery of anaerobic
 13 and aerobic energy than biological females;
 14 (3) Even at young ages, biological males typically score higher than
 15 biological females on cardiovascular endurance, muscular strength,
 16 muscular endurance, and speed and agility. These differences become more
 17 pronounced during and after puberty as biological males produce higher
 18 levels of testosterone. On average, biological male athletes are bigger,
 19 faster, stronger, and more physically powerful than their biological
 20 female counterparts. This results in a significant sports performance gap
 21 between the sexes;
 22 (4) Studies have shown that the benefits that natural testosterone
 23 provides to biological male athletes is not significantly diminished
 24 through the use of testosterone suppression. Testosterone suppression in
 25 biological males does not result in a level playing field between

26 biological male and biological female athletes;

27 (5) Because of the physical differences between biological males and
 1 biological females, having separate athletic teams based on the
 2 biological sex of the athlete reduces the chance of injury to biological
 3 female athletes and promotes sex equality. It provides opportunities for
 4 biological female athletes to compete against their peers rather than
 5 against biological male athletes, and allows biological female athletes
 6 to compete on a fair playing field for scholarships and other athletic
 7 accomplishments; and

8 (6) Providing for separate restrooms and locker rooms for biological
 9 females and biological males advances the important governmental
 10 objective of protecting students' privacy and shielding their bodies from
 11 the opposite sex.

12 Sec. 3. (1) For purposes of the Sports and Spaces Act;

13 (a) Biological female means a person who was born with female
 14 anatomy with two X chromosomes in her cells;

15 (b) Biological male means a person who was born with male anatomy
 16 with X and Y chromosomes in his cells;

17 (c) Cross-sex hormones means testosterone or other androgens given
 18 to biological females in amounts that are larger or more potent than
 19 would normally occur naturally in healthy biological females and estrogen
 20 given to biological males in amounts that are larger or more potent than
 21 would normally occur naturally in healthy biological males; and

22 (d) School means any public, private, denominational, or parochial
 23 school offering instruction in elementary or high school grades.

24 Sec. 4. (1) A school shall designate each group bathroom and locker
 25 room within such school building as either for use by biological females
 26 or for use by biological males.

27 (2) Except as provided in subsections (3) and (4) of this section,
 28 no school shall:

29 (a) Allow a biological male to use a restroom facility designated
 30 for use by biological females;

31 (b) Allow a biological female to use a restroom facility designated
 1 for use by biological males;

2 (c) Allow a biological male to enter or use a locker room designated
 3 for or being used at such time by one or more biological females; or

4 (d) Allow a biological female to enter or use a locker room
 5 designated for or being used at such time by one or more biological
 6 males.

7 (3) This section shall not apply to an individual entering a
 8 restroom designated for use by individuals of the opposite sex of such
 9 individual under the following circumstances:

10 (a) Entrance for custodial, maintenance, or inspection purposes; or

11 (b) Entrance to render emergency medical assistance.

12 (4) This section shall not apply to an individual entering a locker
 13 room designated for or being used at such time by individuals of the
 14 opposite sex of such individual under the following circumstances:

15 (a) Entrance for custodial, maintenance, or inspection purposes;

16 (b) Entrance to render emergency medical assistance; or

17 (c) Entrance by a coach, athletic trainer, or other authorized
 18 individual or school employee.

19 (5) A school or any official of a school shall not retaliate against
 20 any person for reporting a violation of this section or related rules,
 21 regulations, or policies.

22 Sec. 5. (1) An interscholastic or intramural athletic team or sport
 23 that is sponsored by a school shall be expressly designated as one of the
 24 following based on biological sex:

25 (a) Males, men, or boys;

26 (b) Females, women, or girls; or

27 (c) Coed or mixed.

28 (2)(a) An interscholastic or intramural athletic team or sport
 29 sponsored by a school and designated for females, women, or girls shall
 30 not be open to (i) a biological male student or (ii) a biological female
 31 student who is taking cross-sex hormones and competing as a transgender
 1 male.
 2 (b) An interscholastic or intramural athletic team or sport
 3 sponsored by a school and designated for males, men, or boys shall not be
 4 open to a biological female student unless there is no female team
 5 available for such sport for such biological female student.
 6 (3) Nothing in this section shall be construed to restrict the
 7 eligibility of any student to participate in any interscholastic or
 8 intramural athletic teams or sports designated as coed or mixed.
 9 Sec. 6. No government entity, any licensing or accrediting
 10 organization, or any athletic association or organization shall entertain
 11 a complaint, open an investigation, or take any other adverse action
 12 against a school for maintaining separate interscholastic or intramural
 13 athletic teams or sports for biological female students.
 14 Sec. 7. Each school shall adopt a policy implementing the Sports
 15 and Spaces Act.
 16 Sec. 8. This act becomes operative on August 1, 2024.
 17 Sec. 9. If any section in this act or any part of any section is
 18 declared invalid or unconstitutional, the declaration shall not affect
 19 the validity or constitutionality of the remaining portions.

Senator Kauth filed the following amendment to LB575:

FA381

Strike Section 1.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 469. Introduced by Natural Resources Committee: Bostelman, 23, Chairperson; Brandt, 32; Cavanaugh, J., 9; Fredrickson, 20; Hughes, 24; Jacobson, 42; Moser, 22; Slama, 1.

PURPOSE: The purpose of this resolution is to propose an interim study to examine existing, new, and emerging technologies in the nuclear energy industry.

Many electric utilities are setting carbon reduction goals as well as setting zero net carbon policies. However, the demand for electricity continues to rise as different sectors of the economy move away from traditional fossil fuel resources to reduce emissions. This is most evident in the transportation and agriculture sectors.

Residential, business, and commercial electric utility customers demand a reliable electric energy resource available twenty-four hours per day and three hundred sixty-five days per year. Increased demand for electricity comes while traditional fossil fuel generation resources are being prematurely shut down to meet reduced carbon goals. Loss of baseload resources without comparable replacements puts electric utility consumers at risk. To meet the continuing demand for reliable electricity, zero-carbon baseload generating resources, such as nuclear energy, will be needed to

ensure that utilities may meet carbon goals and continue to supply reliable electricity to consumers.

Emerging and new nuclear energy generation technologies and research are changing the way electricity is generated using nuclear energy, making the generation safer and more efficient. The utilization of existing and new advanced nuclear energy technologies also allows spent nuclear energy fuel to be managed as an asset. Education about these technologies is an important part of the process of understanding the role that nuclear energy can play in a low-carbon future.

For purposes of this study, the committee shall hold informational hearings inviting key nuclear energy industry companies and support business to provide education and details on existing, new, and emerging technologies in the nuclear energy industry. The committee shall also prepare a report outlining resources that could be used as educational tools about nuclear energy for policy makers, businesses, and members of the public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

27 localized defect. A political subdivision shall be deemed to waive its
28 immunity for a claim due to a spot or localized defect only if (a) the
29 political subdivision has had actual or constructive notice of the defect
30 within a reasonable time to allow repair prior to the incident giving

6 or vehicle entry.
7 (c) This subdivision, and not subdivision (3) of this section, shall
8 apply to any claim arising from the inspection or failure to make an

ATTORNEY GENERAL'S OPINION

Nebraska Department of Justice

Opinion No. 24-002 — April 5, 2024

Opinion for Senators Brad von Gillern and Ray Aguilar

**Constitutionality of the Proposed Amendment to the Sports Arena
Facility Financing Assistance Act**

Summary: L.B. 1197, a proposed amendment to the Sports Arena Facility Financing Assistance Act, does not violate Nebraska's constitutional prohibition against the lending of the credit of the State or the related principle prohibiting the spending of public money for a private purpose. The structure of L.B. 1197 ensures that a public body will have a sufficient degree of control over any private entity that can apply to, receive, or otherwise benefit from public funding made available under the Sports Arena Facility Financing Act. This structure alleviates any facial constitutional concern.

L.B. 1197 proposes changes to the Sports Arena Facility Financing Assistance Act, Neb. Rev. Stat. § 13-3101 to 13-3109, a statute which permits eligible facilities to apply for state financial assistance for certain statutorily delineated purposes, such as the repayment of "amounts expended or borrowed . . . to acquire, construct, improve, or equip the eligible . . . facility." Neb. Rev. Stat. § 13-3103(1). As amended, L.B. 1197

would expand the definition of "eligible sports arena facility," modifying it to include "any privately owned sports complex." *See* AM 2715 to L.B. 1197, § 2(8)(e), 108th Leg. 2nd Sess. (2024).¹ That expansion comes with a limitation: Privately owned complexes are required to use any financial assistance they receive in certain specified ways (outlined in greater detail below). *See id.* § 3(4). You have asked for an opinion regarding the constitutionality of L.B. 1197, specifically the constitutionality of the bill as amended by AM 2715.

A statute that allows a privately owned entity to receive state funds implicates Article XIII, § 3 of the Nebraska Constitution ("Section 3"), which (except for a limited exception not pertinent here) forbids "the credit of the state" from being "given or loaned in aid of any individual, association, or corporation." Neb. Const. Art. XIII, § 3. Analyzing the constitutionality of L.B. 1197 thus requires an analysis of the application of Section 3 and the related "fundamental principle that public moneys may not be used for private purposes." *State ex rel. Beck v. City of York*, 164 Neb. 223, 225, 82 N.W.2d 269, 271 (1957). We conclude that L.B. 1197, as amended, neither infringes Section 3 nor runs afoul of this related principle.

The Sports Arena Facility Financing Assistance Act was first enacted in 2010 as part of L.B. 779. *See* L.B. 779, §§ 7–15, 101st Leg., 2nd Sess. (2010) (enacted). L.B. 779 established a system by which political subdivisions could apply for "state assistance" to pay back "amounts expended or borrowed" through the issuance of a bond to "acquire, construct, improve, or equip an eligible sports arena facility." *Id.* § 9. The "state assistance" that subdivisions could apply for was drawn from increased sales tax revenue generated by retailers in the geographic vicinity of an eligible arena facility. *See id.* § 14. At the time L.B. 779 was enacted, "eligible sports arena facility" was defined to include only "publicly owned" sports complexes of a certain size that also met various other characteristics. *Id.* § 8(3)(a).

Since its initial enactment in 2010, the Sports Arena Facility Financing Assistance Act has been amended several times.² These various amendments have often expanded the scope of the defined term "eligible sports arena facility," bringing a wider array of projects within its ambit. For example, in 2023, L.B. 727 expanded the definition to include "privately owned concert venue[s]." L.B. 727, § 25(8)(d), 108th Leg. 1st, Sess. (2023)

¹ L.B. 1197 primarily amends a section currently codified at Neb. Rev. Stat. § 13-3102. The entire Act is currently codified at Neb. Rev. Stat. §§ 13-3101 to 13-3109.

² *See, e.g.*, L.B. 884, § 6, 104th Leg. 2nd Sess. (2016) (enacted); L.B. 39, § 2, 107th Leg., 1st Sess. (2021) (enacted); L.B. 927, § 6, 107th Leg., 2nd Sess. (2022) (enacted); L.B. 727, § 25(8)(d), 108th Leg. 1st, Sess. (2023) (enacted).

(enacted). Nevertheless, the general structure of the Sports Arena Facility Financing Act, in which sales tax revenue generated in the vicinity of an eligible project is used to fund state assistance that can be used to repay indebtedness incurred by a public entity to buy, build, remodel, or outfit an eligible sports arena facility has remained constant.

L.B. 1197, as introduced, retained this basic structure. *See* L.B. 1197, 108th Leg. 2nd Sess. (2024) (introduced). Like previous modifications to the Sports Arena Facility Financing Assistance Act, L.B. 1197 proposed to alter the statutory definition that governs when state assistance is potentially available. *Id.* Most notably, the introduced version of L.B. 1197 incorporated language that makes "privately owned" sports complexes eligible for state assistance, subject to certain restrictions. *Id.* § 2(4). The version of L.B. 1197 currently under consideration—Amendment 2715, which is a so-called "white copy" amendment which strikes the original language of the bill in its entirety and introduces a new version of the bill—retains this proposed change. AM 2715 to L.B. 1197, § 2(4), 108th Leg. 2nd Sess. (2024).³

The bottom-line question is whether L.B. 1197 facially violates Section 3 or the related fundamental principle that our Supreme Court has held to flow therefrom. We believe it does not. When a public body either has control over or a sufficient ownership interest in a privately owned recipient of state money, the constitutional prohibition against the lending the credit of the State is likely not infringed. Here, L.B. 1197 is structured in such a way that private recipients of state money are subject to a sufficient degree of public control. The various control mechanisms built into the statute (many of which have long been features of the Sports Arena Facility Financing Act) are designed to ensure that public money is spent for a permissible public (as opposed to an impermissible private) purpose. The existence of these statutory guardrails means that, in most circumstances,⁴ state money spent to extinguish debt associated with a privately owned eligible sports arena facility will nevertheless have been expended for a public purpose. Because that is so, we believe it likely that L.B. 1197 would survive facial constitutional scrutiny.

I.
A.

³ Unless otherwise noted, any subsequent references to L.B. 1197 refer to L.B. 1197 as amended by AM 2715.

⁴ As discussed below, *see* pp. 16, 18–21, *infra*, we acknowledge the possibility that, in rare circumstances and despite the guardrails built into the statute, state assistance might result in state money being unconstitutionally spent for a private rather than public purpose. On such a rare occasion, an as-applied Section 3 challenge to a purportedly unconstitutional expenditure might be warranted.

We begin with an examination of the text and purpose of Section 3, as informed by the history underlying its inclusion in the Constitution.

i.

The text of Section 3 provides, in pertinent part, that:

The credit of the state shall never be given or loaned in aid of any individual, association, or corporation, except that the state may guarantee or make long-term, low-interest loans to Nebraska residents seeking adult or post high school education at any public or private institution in this state.

Neb. Const. Art. XIII, § 3.

"Many jurisdictions have a state constitutional provision which expressly forbids the state or its political subdivisions from lending their credit to any individual or private corporation or association." John Martinez, 4 Local Government Law § 25:7 (West 2d. 2023). "[T]he mischief sought to be remedied is the use of public credit or funds to further *private* enterprise." *Id.* (emphasis in original). By contrast, when a State "uses, rather than lends, its credit, there is no infringement of a constitutional prohibition as to a loan of the State's credit." 81A C.J.S. States § 360 (2024).

As our Supreme Court explained in *Haman v. Marsh*, the "historical genesis" of state-level constitutional prohibitions like and including Section 3 was the "reaction of public opinion to the . . . extravagant dissipation of public funds by counties, townships, cities and towns in aid of the construction of railways, canals, and other like undertakings during the half century preceding 1880." 237 Neb. 699, 718, 467 N.W.2d 836, 850 (1991) (quoting *State v. Northwestern Mutual Insurance Co.*, 340 P.2d 200, 201 (Ariz. 1959)); *see also Beck*, 164 Neb. 223 at 225, 82 N.W.2d at 271 (Section 3 "protect[s] the State and its political subdivisions against reckless financial involvement in private enterprises supposed to serve the public good but which are in fact dominated by private interest."). The very purpose of Section 3 is to ensure the State does not become unnecessarily entangled with the endeavors of private enterprise. As its plain text indicates, Section 3 is "designed to prohibit the state from acting as a surety or guarantor of the debt of another." *Haman v. Marsh*, 237 Neb. 699, 718, 467 N.W.2d 836, 850 (1991).

In light of this historical context, our Supreme Court has stated that Section 3 was "designed . . . to prevent the use of public funds raised by general taxation in aid of enterprises apparently devoted to quasi public purposes, but actually engaged in private business." *Haman*, 237 Neb. at 718, 467 N.W.2d at 850 (emphasis omitted) (internal quotation marks and

citations omitted).⁵ Accordingly, "[t]he Legislature cannot appropriate the public moneys of the state to encourage private enterprises," *Oxnard Beet Sugar Co. v. State*, 73 Neb. 57, 105 N.W. 716, 717 (1905), because "[t]he financing of private enterprises with public funds is foreign to the fundamental concepts of our constitutional system," *Beck*, 164 Neb. at 229–30, 82 N.W.2d at 273.

That does not mean, however, that there is a constitutional problem any time state monies are pledged to or otherwise end up in the hands of a private entity. As a matter of common sense, it would be nearly impossible for the government to function if it was constitutionally forbidden from engaging in commerce or entering into contractual agreements with private businesses. That is why Section 3 is not implicated when the State "merely agree[s] to expend funds." *Japp v. Papio-Missouri River Nat. Res. Dist.*, 273 Neb. 779, 789, 733 N.W.2d 551, 559 (2007) (emphasis omitted). A private entity's receipt of government funds is not inherently unconstitutional. *See Chase v. Douglas County*, 195 Neb. 838, 847, 241 N.W.2d 334, 340 (1976) (recognizing that "public purposes" can be "accomplish[ed] . . . through private organizations"); *see also Lenstrom v. Thone*, 209 Neb. 783, 790, 311 N.W.2d 884, 888 (1981) ("Legislation which serves a public purpose is not constitutionally impermissible because incidental benefits may accrue to others."). Article XIII, Section 3 simply establishes "limits beyond which the Legislature cannot go." *Beck*, 164 Neb. at 230, 82 N.W.2d at 273. It ensures that neither the State nor any of its subdivisions can "spend public

⁵ Our acknowledgment of this historical context and this Opinion's embrace of precedent articulating an atextual (but perhaps strongly implied) prohibition regarding the expenditure of public money for private purposes should not be understood as an uncritical, unreserved endorsement of the Court's Section 3 jurisprudence, especially those portions that pour gloss atop the constitutional text. *See, e.g., Beck*, 164 Neb. at 227, 82 N.W.2d at 272 (suggesting that a bond's increased marketability, flowing from mere association with a government body, represents a lending of the State's credit); *Japp v. Papio-Missouri River Nat. Res. Dist.*, 273 Neb. 779, 788, 733 N.W.2d 551, 558 (2007) (reiterating sentiments from *Beck* regarding the "greater marketability" of certain bonds). Authority from the Supreme Court interpreting a constitutional provision is, of course, authoritative and binding unless and until it is overruled or altered, either by the Court in a future decision or the People via the process of amending the Constitution. Nevertheless, it is "the Constitution which [a Supreme Court Justice has] swor[n] to support and defend, not the gloss which his predecessors may have put on it." *South Carolina v. Gathers*, 490 U.S. 805, 825 (1989) (Scalia, J., dissenting) (quoting William O. Douglas, *Stare Decisis*, 49 Colum. L. Rev. 735, 736 (1949)). That, too, is our Office's lodestar.

money, or lend or give away, directly or indirectly, its credit or property for a purpose which is not a public one." *Id.*

The facts of *Japp* illustrate this principle in action. There, a Natural Resources District entered into an agreement with private real estate developers to fund the construction of two dams on a tributary of Papillion Creek flowing through the developers' property. The District pledged millions of dollars to defray most (but not all) of the "costs of design, construction, project administration, permits, and project land rights" necessary for the dams' construction. *Id.* at 782, 733 N.W.2d at 554. The Supreme Court characterized the agreement as the District "agreeing to pay for the [two] dams" but nevertheless concluded that the District had not violated Section 3. *Id.* at 788, 733 N.W.2d at 558–59. The Court explained that although the District was partnering with private entities who would thus receive public money, the expenditure was permissible because the District had not "use[d] its credit to secure capital for a *private project* or agree to act *as a guarantor* for a private company." *Id.* (emphasis added). Instead, the District was simply working in tandem with the developers by "provid[ing] funds for a project that would carry out its statutory purposes." *Id.* at 788–89, 733 N.W.2d at 559.

The question remains: What is the dividing line between a public and private purpose? We turn to that next.

ii.

Generally speaking, "[a] public purpose has for its objective the promotion of the public health, safety, morals, security, prosperity, contentment, and the general welfare of all." *State ex rel. Douglas v. Nebraska Mortg. Fin. Fund*, 204 Neb. 445, 458, 283 N.W.2d 12, 21 (1979).⁶ Beyond that general guidance, "[n]o hard and fast rule can be laid down for determining whether a proposed expenditure of public funds is . . . [for] a public use or purpose. Each case must be decided with reference to the object sought to be accomplished and to the degree and manner in which that object affects the public welfare." *Id.*

There is an initial presumption that "[i]t is for the Legislature to decide in the first instance what is and what is not a public purpose." *Lenstrom*, 209 Neb. at 789, 311 N.W.2d at 888. Legislative declaration is not, however, dispositive. *Chase*, 195 Neb. at 846, 241 N.W.2d at 339 (the Legislature's "determination is not conclusive on the courts"). When the absence of a public purpose is "clear and palpable . . . to the reasonable mind," a court should declare a statute authorizing an expenditure to a private entity invalid. *Lenstrom*, 209 Neb. at 789–90, 311 N.W.2d at 888.

Beck provides useful guidance on this front. When public money is expended on behalf of a "private corporation for *private profit and private*

⁶ *Cf.* Neb. Rev. Stat. § 77-202(a)(ii).

gain," that expenditure "serves no public . . . purpose." *Beck*, 164 Neb. at 230, 82 N.W.2d at 274 (emphasis added).

It was the application of this principle that controlled the outcome in *Chase v. Douglas County*. At issue there was a law that allowed political subdivisions to spend public money on certain types of development, including the mounting of a "publicity campaign" designed to attract new businesses and the "purchas[e] [of] real estate suitable for industrial development." 195 Neb. at 840–41, 241 N.W.2d at 337. The law was challenged on that grounds that it unconstitutionally "authorize[d] public funds to be used for private purposes." *Id.* at 841, 241 N.W.2d at 337. As noted above, *Chase* recognized that it is possible to undertake a "public purpose through [a] private organization[]." *Id.* at 847, 241 N.W.2d at 340. In *Chase*, the Court ultimately held that the portion of the statute authorizing expenditures on a publicity campaign was constitutional, but the portion authorizing the acquisition of real estate was not. *Id.* at 845, 241 N.W.2d at 339.

Expounding on why the real estate acquisition portion ran afoul of Section 3, the Court explained that for real estate to be "effectively used for industrial development, it must first in some way come into the use and possession of the private persons or entities which may engage in industry." *Id.* at 848, 241 N.W.2d at 340. Necessarily then, the expenditure of public money to acquire real estate would "result[] in capital being furnished by the city or county for private use." *Id.* at 849, 241 N.W.2d at 341. This was so, "[e]ven if title [to the property] [wa]s held by [a locality]" because the locality bore all the risk of loss (such as the possible depreciation of the property value) while the private entity would enjoy the "benefit of [any] increase." *Id.* at 850, 241 N.W.2d at 341. In short, the real estate acquisition provision was constitutionally problematic because it facilitated the prospect of purely "private profit and private gain," *Beck*, 164 Neb. at 230, 82 N.W.2d at 274,⁷ while leaving the public on the hook in the event of a loss. See *Haman*, 237 Neb. at 722, 467 N.W.2d at 852 (emphasizing that it was the risk of loss borne by the locality that was deemed constitutionally problematic in *Chase*).

B.

Concerns about private profit and inappropriate exposure to risk—hallmarks of expenditures that violate Section 3—can be effectively alleviated in a number of ways. Two are particularly relevant here.

⁷ Of course, a successful industrial development program would likely result in "general benefit[s] to the economy of [the local] community" such as increased "employment for [its] citizens." *Beck*, 164 Neb. at 230, 82 N.W.2d at 274. The *Beck* court concluded, however, that this sort of general benefit "does not justify the use of public funds" to "assist a private corporation that is engaged in an enterprise for profit." *Id.* at 230, 82 N.W.2d at 273–74.

First, ownership. When public money is expended on a project or endeavor involving a private entity, securing an ownership interest in the fruits of that public-private partnership effectively nullifies both concerns. So long as the ownership interest is commensurate with the value of the expenditure, the government shares both any potential profits and the burden of any losses proportionately with its private partner or partners. This alleviates any concern that the State is "acting as a surety or guarantor." *Haman*, 237 Neb.at 718, 467 N.W.2d at 850. There can be little doubt that where a government entity has a representative ownership stake in a project, the concerns animating Section 3 are not present.⁸

Second, control. When the government exercises sufficient control over a project involving a private entity that will be the recipient of public money, the dangers discussed above are minimized. The structure of the Sports Arena Facility Financing Assistance Act provides a ready example. In its present form, an "eligible sports arena facility" can apply for "state assistance" which is, practically speaking, redirected state sales tax revenue collected from the geographic vicinity of an eligible facility and ultimately paid to the assistance recipient from the coffers of the Sports Arena Facility Support Fund. *See* Neb. Rev. Stat. §§ 13-3102, 13-3103, 13-3107, 13-3108. At present, the Act includes within the definition of "eligible sports arena facility" any "privately owned concert venue." *Id.* § 13-3102(8)(d). Thus, even without adoption of L.B. 1197, *some* private entities can already receive public funds under the Sports Arena Facility Financing Assistance Act.⁹

An examination of the current structure of the Act leads us to believe it is at least facially constitutional. Numerous provisions ensure that the public entities involved have a significant degree of control over any private entity that stands to receive or benefit from state assistance available under the Act. The process of applying for such assistance *requires* the

⁸ Nothing in this Opinion should be construed to suggest that an ownership interest insulates government action from other statutory or constitutional objections, such as a claim that the action in question is ultra vires or otherwise unauthorized for reasons unrelated to Section 3.

⁹ Privately owned concert venues can use state assistance for only two purposes—"to acquire, construct, improve, or equip a nearby parking facility" or "to promote arts and cultural events which are open to or made available to the general public." Neb. Rev. Stat. § 13-3103(3). Furthermore, as discussed below, ultimately, the Act expressly requires private entities to use any assistance they receive for a public purpose, *id.* § 13-3104(5), and private entities have a special obligation to describe how any assistance they receive will be used "in furtherance of . . . a public use or public purpose" during the application and approval process, *id.* § 13-3104(3)(a).

involvement of a political subdivision; a private entity cannot apply for assistance without a government partner. *See* Neb. Rev. Stat. § 13-3102(1). Any assistance granted must be used for one of a limited number of statutorily delineated purposes. *See id.* § 13-3103(3). When applying for assistance, applicants must provide a "detailed description" outlining how the assistance will be used "in furtherance of the applicant's public use or public purpose" if the assistance will be "expended through one or more private organizations." *Id.* § 13-3104(3)(a). Assistance cannot be used as an "operating subsidy." Neb. Rev. Stat. § 13-3108(8). The Act also authorizes the government partner to secure its interest in the fruits of the project by way of a "mortgage or deed of trust encumbering all or any portion" of the relevant sports arena facility. *Id.* § 13-3109(1). And perhaps most relevant of all, the Act explicitly requires that all "state assistance received pursuant to the [A]ct shall be used only for public purposes." *Id.* § 13-3104(5).

Taken together, these statutory features help ensure that public money is used only for a public purpose. They also minimize the risk that a government entity will be left with a substantial loss in the event the project financed via state assistance is unprofitable.¹⁰ This degree of control is sufficient to allow a statute to survive Section 3 scrutiny. *See Haman*, 237 Neb. at 722, 467 N.W.2d at 852 (explaining that a statute's public purpose is "not vitiated" by the involvement of a private entity when "specific controls on the use of the [government] funds [are] attached").

That is not to say that the control exercised over a private entity *must* flow from statutory text itself; other oversight mechanisms are possible. For example, public money received and spent by so-called "63-20" entities, a special class of private nonprofits that meet the requirements of Internal Revenue Service Revenue Ruling 63-20, *See* Rev. Rul. 63-20, 1963-1 C.B. 24 (1963), is likely constitutional. These entities are, by design, "essentially public in nature" even if, as a formal legal matter, their existence is separate and apart from the government entity that creates them. *Id.* The express purpose of a 63-20 nonprofit is to serve as a corporate vehicle for housing debt that would otherwise be accrued by a related

¹⁰ Indeed, the Act's front-end restrictions on the permissible uses of state assistance are designed to ensure that any project funded will serve a public purpose and thereby guarantee that the public will receive *some* benefit even if the project is unsuccessful, nullifying the central policy concern that was the impetus for Section 3. *See Haman*, 237 Neb. at 719, 467 N.W.2d at 850 (constitutional prohibitions on the lending of the credit of the State, such as Section 3, were "designed primarily to prevent the use of public funds raised by general taxation in aid of enterprises apparently devoted to *quasi* public purposes, but actually engaged in private business.") (quoting *Northwestern Mutual*, 340 P.2d at 201)).

government entity for the purpose of "stimulating industrial development."
Id.

The requirements for establishing a 63-20 entity illustrate why there is no constitutional impediment to their receipt of public money. A 63-20 entity must:

- 1) be approved by the related government entity whose indebtedness it is a vehicle for;
- 2) engage in activities which are essentially public in nature;
- 3) be one which is not organized for profit (except to the extent profits are used to retire indebtedness);
- 4) not have the 63-20 entity's corporate income inure to any private person;
- 5) extend a beneficial interest to the government body that established it while any indebtedness remains outstanding;
- 6) hand over to that related government body full legal title to any property acquired by the 63-20 entity through the indebtedness occurred;
- 7) have the specific debt obligations which the 63-20 entity will incur be approved by the related government body.

Rev. Rul. 63-20, 1963-1 C.B. 24 (1963). If these requirements are met, the actions of a 63-20 entity are considered to be "on behalf of" the related, organizing government entity, even though, technically, the 63-20 is a wholly private creature. *Id.*; see, e.g. *Times of Trenton Pub. Corp. v. Lafayette Yard Cmty. Dev. Corp.*, 874 A.2d 1064, 1066 (N.J. 2005) (holding that although a 63-20 entity is a "private, nonprofit corporation" it should be treated as if it were a "public body").

The control mechanisms discussed above do not represent the complete universe of ways by which a public body can exercise sufficient control over private entity and thereby insulate an expenditure of public funds from the reach of Section 3. It is beyond the scope of this Opinion to identify every conceivable structure that might pass constitutional muster. For preset purposes articulation of general principles is sufficient. When a public body has sufficient control over the operations of a private entity, it is likely that any public money expended by the private entity will be spent for a public purpose rather than a private one. And as discussed above, see p. 7, *supra*, an expenditure of public money for a public purpose does not become unconstitutional simply because a private entity is involved with or actually makes that expenditure.

II.

Having set forth the authority that guides our analysis, we consider the proposed text of L.B. 1197 currently under consideration by the Legislature. See AM 2715, L.B. 1197, 108th Leg. 2nd Sess. (2024).

As noted above, the primary change contemplated by L.B. 1197 is an expansion of the definition of "eligible sports arena facility" to include "any privately owned sports complex, including concession areas, parking

facilities, and onsite administrative offices connected with operating the sports complex." *Id.* § 2(8)(e). Because this expanded definition would open the door to the expenditure of public money by a private entity, the constitutional restriction represented by Section 3 is implicated. *See* pp. 2, 5–7, *supra*. However, because L.B. 1197 retains the already extant statutory features that ensure private entities that receive state assistance are subject to sufficient government control, *see* pp. 12–13, *supra*, and adds new measures that reinforce and bolster those that already exist, it is likely that L.B. 1197, if enacted, will survive contact with Section 3.

At the threshold, L.B. 1197 retains the requirement that an application for state assistance involve a government entity. *Id.* §1(1). The only proposed change to that section—substituting the word "corporation" in place of the existing "organization" language—does not displace the requirement that an "applicant" be either "a political subdivision" or a "political subdivision" working in tandem with a nonprofit. *Id.* This represents a key measure of government control. It is safe to presume that localities and other political subdivisions are unlikely to partner with private entities that seek to pursue a private, rather than public purpose. (And, if they do engage in such a partnership, they run the risk of an as-applied Section 3 constitutional challenge.) This presumption is reinforced by the retention of the requirement, currently found at Neb. Rev. Stat. § 13-3104(5), that "[a]ny state assistance received pursuant to the [A]ct shall be used only for public purposes."

The presumption is further reinforced by new language, a definition of "governmental use," that is included in L.B. 1197. AM 2715 to L.B. 1197, §2(10) 108th Leg. 2nd Sess. (2024). "Governmental use" is defined to mean "operational control and use by [a] political subdivision for a statutorily permitted purpose of the political subdivision." *Id.* This new definition is incorporated into another newly added provision that limits the permissible uses to which state assistance afforded to privately owned sports complexes can be put, discussed in greater detail below. It is worth noting here, however, that such a definition, which emphasizes the importance of "control and use" by a governmental entity and makes express reference to that entity's "statutorily permitted purpose" is congruent with the authority discussed above, such as *Beck* and *Japp*. *See* pp. 5, 7–9, *supra*.

Before discussing the completely new restrictions that condition the use of assistance with respect to a privately owned facility, we briefly note that L.B. 1197 proposes an expansion that is a direct analogue to an already existing category where assistance can flow to a private entity. As noted above, *see* pp. 11–12, *supra*, the Act already allows assistance to be go privately owned concert venues for certain purposes, including the promotion of "arts and cultural events which are open to or made available to the general public." Neb. Rev. Stat. § 13-3103(3). L.B. 1197 would essentially expand that category to include the promotion of "sporting events which are open to or made available to the general public." AM 2715

to L.B. 1197, § 3(4)(c), 108th Leg. 2nd Sess. (2024). This expanded category would be subject to the same restrictions that currently governs the promotion of arts and cultural events. *See, e.g., id.* § 3(3)(b). For the reasons already discussed above, we believe this category was constitutional and see no reason why that conclusion would change if expanded as proposed.

All that is left to assess are the two remaining ways that assistance can be used with respect to a privately owned complex. Those are:

- (a) to pay back amounts expended or borrowed through one or more issues of bonds to be expended by the applicant to acquire, construct, improve, or equip a privately owned sports complex, and
- (b) to lease all or a portion of such privately owned sports complex for the governmental use of the political subdivision.

Id. § 3(4).

We consider first subsection (b), the easier of the two provisions to assess. As previewed above, there can be little doubt that a provision that conditions the use of state assistance in the manner that subsection (b) does—by incorporating the new term "governmental use"—can survive constitutional scrutiny. A governmental use, by definition, involves "operational control" by a public body. *Id.* § 2(10). As we have already stated, when a public body has sufficient control over a private entity that will receive and expend public money, that control obviates the policy concerns underlying Section 3. Simply put, when a public body has operational control, it is unlikely that expenditures of public money will be "dominated by private interest." *Beck*, 164 Neb. at 225, 82 N.W.2d at 271. That is especially true when, as in *Japp*, the expenditures in question are aimed at "carry[ing] out [one of the public body's] statutory purposes." 273 Neb. at 788–89, 733 N.W.2d at 559.

Subsection (a), considered in isolation, presents a much closer call. It contains no equivalent to subsection (b)'s inclusion of "governmental purpose" nor the sorts of additional restrictions that the existing Act imposed on assistance flowing to private concert venues (the same restrictions which L.B. 1197 proposes to extend to the promotion of sporting events). The existing version of the Act permits privately owned concert venues to receive assistance to "acquire, construct, improve, or equip" a "nearby parking facility." Neb. Rev. Stat. § 13-3103(3) (emphasis added). By comparison, L.B. 1197 proposes to allow privately owned sports complexes to receive assistance to "to acquire, construct, improve, or equip" the *complex itself*. AM 2715 to L.B. 1197, §3(4)(a), 108th Leg. 2nd Sess. (2024) (emphasis added). The potential for both significant private profit and private gain, as well as the possibility that the public will be left holding the bag if a privately owned facility is economically unviable, is obvious. After all, many (though not all) sports complexes are multimillion (or even

multibillion) dollar endeavors.¹¹ Thus, this subsection presents a heightened risk of authorizing expenditures that will violate Section 3.

Having said as much, we do not think subsection (a) is facially unconstitutional. State assistance made available under that subsection is still subject to the numerous other safeguards built into the overall structure of the Act. A private sports complex must still partner with a public body to even apply for state assistance, that public body can secure an interest in the facility by way of a mortgage or deed encumbering it, and any assistance awarded is expressly required to be used for a public, rather than private, purpose. In many circumstances—especially when these statutory measures of control are paired with either an ownership stake or some non-statutory mechanism designed to alleviate the constitutional considerations discussed at length above, *see pp. 4–8, supra*—it is likely that state assistance can be awarded to and spent by a privately owned sports complex without violating Section 3.

To be clear, we note that it is certainly possible to imagine scenarios where assistance awarded under the auspices of subsection (a) would constitute an impermissible, unconstitutional expenditure of public money for a private purpose. Nothing in this Opinion should be understood as casting doubt on the viability of an as-applied Section 3 challenge to an award of state assistance that would "secure capital for a private project" or effectively results in a public body "act[ing] as a guarantor for a private company." *Japp*, 273 Neb. at 788, 733 N.W.2d at 559. That is so even if the privately owned complex is ostensibly working in tandem with a public body. The prohibition that flows from Section 3 is a limit "beyond which the [government] cannot go." *Beck*, 164 Neb. at 230, 82 N.W.2d at 273. The Supreme Court has made clear that when the principles that animate Section 3 are infringed, a governmental declaration that a truly private project actually has a public purpose is empty *ipse dixit*.

That said, the mere potential of an unconstitutional use does not doom a statute. For one, there is a strong presumption that public bodies will act within statutory and constitutional constraints. *See State v. Hess*, 261 Neb. 368, 377, 622 N.W.2d 891, 900–01 (2001); *Niklaus v. Miller*, 159

¹¹ For example, Charles Schwab Field Omaha (formerly TD Ameritrade Park Omaha), the host venue for the College World Series and home of Creighton University baseball, which opened in 2011, had a construction cost of approximately \$130 million. *See* ME-Engineers, *Our Projects: TD Ameritrade Park Omaha*, <https://perma.cc/72BU-622S>. By contrast, SoFi Stadium, the home venue for the NFL's Los Angeles Rams and Los Angeles Chargers, which opened in 2020, had a reported construction cost of approximately \$5.5 billion. Rudi Schuller, *Los Angeles Rams & Chargers Stadium: What is SoFi Stadium's capacity and how much did it cost?*, Dazn.com (Oct. 2023), <https://perma.cc/X5VW-EA62>.

Neb. 301, 306, 66 N.W.2d 824, 828 (1954). For another, requests for state assistance must be approved by a Board consisting of "the Governor, the State Treasurer, the chairperson of the Nebraska Investment Council, the chairperson of the Nebraska State Board of Public Accountancy, and a professor of economics on the faculty of a state postsecondary educational institution . . . appointed . . . by the Coordinating Commission for Postsecondary Education." Neb. Rev. Stat. § 13-3102(2); *see also id.* § 13-3106(1) (providing that the board has discretion to approve projects "if [it] finds that the project . . . is eligible and that state assistance is in the best interest of the state" and reject those that do not). We find it unlikely that many unconstitutional projects will find a locality willing to shoulder the considerable financial risk and downside of a purely private project. It is even more unlikely that such a project will make it through the Board's eligibility and "best interest of the state" review. Surmounting both will be an even taller task. And for the few private projects that might manage to slip through the cracks, as-applied Section 3 litigation provides a final failsafe.

* * *

Having reviewed the proposed text of L.B. 1197, we find no facial constitutional infirmity. While there may be rare instances where state assistance awarded under its auspices runs afoul of Section 3, if enacted as currently proposed, L.B. 1197 should survive facial constitutional scrutiny.

MESSAGE(S) FROM THE GOVERNOR

April 17, 2024

Mr. President, Mr. Speaker, and
Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

Pursuant to Article IV, Section 15, of the Nebraska Constitution, I have allowed LB20 & LB20A to become law without my signature. The Attorney General and Secretary of State have identified significant potential infirmities regarding the bill. These issues relate to LB20's compliance with several provisions of the Nebraska Constitution, including, but not limited to, Article II, Section 1, Article IV, Section 13, and Article VI, Section 2.

Although there are potential constitutional issues with LB20 and related provisions of existing law, I will allow LB20 and LB20A to become law with neither my signature nor my endorsement of LB20's constitutional validity. I encourage the Attorney General and the Secretary of State to promptly take such measures as are appropriate in light of the constitutional infirmities referenced above.

Sincerely,
(Signed) Jim Pillen
Governor
